

Lamar State College Orange

2025-2026 Catalog, Volume 59

The provisions of this catalog do not constitute a contract, expressed or implied, between any applicant, student, and/or faculty member at Lamar State College Orange. The college reserves the right to withdraw courses at any time or to change fees, calendars, curricula, graduation procedures or any other requirement affecting students. Changes become effective when the proper authorities determine the application to both prospective students and to the students already enrolled.

Information in this catalog pertains to Lamar State College Orange. For information concerning other Lamar campuses, consult their respective catalogs.

Lamar State College Orange (LSCO) provides equal access and opportunity for all persons regardless of race, sex, color, religion, national origin or ancestry, age, marital status, disability, sexual orientation, gender identity, or veteran status, in employment, educational programs, and activities and admissions. LSCO complies with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination based on disability, the Age Discrimination Act of 1975, which prohibits discrimination based on age, and the Campus Sexual Violence Elimination Act. Sexual misconduct, as defined in the College's Sexual Misconduct Policy, constitutes a form of sex discrimination prohibited by Title IX and Title VII.

For questions concerning our non-discrimination policy, you may contact our Title IX Coordinator Rebecca Gentry at rebecca.gentry@lSCO.edu or (409) 882-3910, Section 504 Coordinator Amy Moore at amy.moore@lSCO.edu or (409) 882-3097 or the Office for Civil Rights at (214) 661-9600.

A Message from the President

Welcome to Lamar State College Orange!

Dear Students, Families, and Friends of LSCO,

It is an incredible honor to serve as your fifth President of Lamar State College Orange. As someone who has worked alongside the LSCO team for the past several years, I can confidently say this is a special place where bold ideas, hardworking students, and dedicated faculty and staff come together to create life-changing opportunities.

Our mission is clear: transform lives and communities, provide new and unique opportunities for growth and success, and serve as a bridge connecting those we serve to a bright future. That mission drives everything we do here, and it's working. We're seeing record-breaking growth, including our highest enrollment in college history, and we've expanded our footprint across East Texas with new academic centers in Lumberton and Livingston to better serve rural students who might not otherwise have access to college.

At LSCO, we believe that education should be affordable and attainable. With support from the Texas Legislature, we've been able to reduce our tuition by half over the past five years. That kind of progress doesn't just help students, it's transformative for our community, our families, and helps our entire region thrive.

We're also investing in the future with our newly opened Academic Building and Student Success Center. These state-of-the-art spaces are designed to support collaborative learning, hands-on instruction and serve as a hub for student success and support.

Perhaps what excites me most is the way LSCO continues to partner with local industry and four-year universities to build clear, career-ready pathways. From short-term credentials to leadership programs and transfer opportunities, we are committed to meeting students where they are.

To those considering LSCO: I invite you to take that first step. Whether you're returning to college, starting fresh, or exploring a new direction, you belong here. And we're ready to walk alongside you.

Where **YOUR** future is **OUR** focus,

A handwritten signature in black ink that reads "Wendy J. Elmore". The signature is written in a cursive, flowing style.

Dr. Wendy Elmore

LAMAR STATE COLLEGE ORANGE

410 W. Front Street • Orange, TX 77630

College Information

Effective Catalog Date

The effective date of this catalog is the beginning of the 2025 fall semester. A student must graduate by August 31, 2030 in order to be eligible to graduate under the provisions of this catalog.

Accreditation

Lamar State College Orange is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award the associate of arts, associate of science and associate of applied science degrees, and certificates of completion. Lamar State College Orange also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Lamar State College Orange may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

Governance

A board of nine regents, appointed by the governor and approved by the state senate for terms of six years, governs the Texas State University System (TSUS). The Board of Regents, in turn, delegates the operational authority to the Chancellor and the presidents, campus administrative officers and faculty of each component institution.

Vision

Lamar State College Orange will prepare individuals for a changing world by creating a place where hope meets opportunity. Our students will arrive with the hope of a productive future and leave with the knowledge and opportunities for success that a Lamar State College Orange education provides.

Mission Statement

Lamar State College Orange transforms lives and communities through the continual pursuit of academic,

professional, and personal excellence. We provide new and unique opportunities for growth and success. We are the bridge connecting those we serve to a bright, Orange future.

Core Values

To foster a collaborative environment of integrity and accountability, Lamar State College Orange values:

- **Quality:** Providing access to educational excellence
- **Growth:** Building a shared vision of opportunity and advancement
- **Service:** Addressing and serving the needs of the community and beyond
- **Innovation:** Pursuing and creating an array of unique educational opportunities
- **Success:** Achieving personal and professional goals

College History

In fall 1969 Lamar University opened its first extension center in Orange, Texas, with classes held in the old Tilley Elementary School. In 1971 the Texas Legislature passed legislation enabling Lamar University to operate a two-year educational center, thus removing the extension status and allowing students to take two full years of coursework on the Orange campus. In 1971 the building was destroyed by fire, and a spirited community-wide fundraising effort netted more than \$250,000 for the purchase of the former Sabine Supply Company building, located at 410 Front Street in Orange. Classes began at this location in fall 1971. Since that time facilities, enrollment and course offerings have grown steadily.

The Texas Legislature authorized the creation of the Lamar University System in 1983. In 1991 the Texas Legislature provided degree-granting authority to Lamar University-Orange. Lamar University-Orange, along with sister institutions in Port Arthur and Beaumont, was merged with the Texas State University System (TSUS), effective September 1, 1995. With system offices located in Austin, TSUS also includes Sam Houston State University, Texas State University-San Marcos and Sul Ross State University.

During the 1999 legislative session Lamar University-Orange was officially renamed Lamar State College Orange.

Lamar State College Orange currently has a student body totaling approximately 3,500. A variety of two-year academic programs is offered, leading to associate of science degrees. These programs will transfer to four-year institutions for students seeking baccalaureate degrees. Several technical/occupational programs are available, which lead to associate of applied science degrees or certificates of completion.

Compact with Texans

Agency Name

Lamar State College Orange

Services Rendered

LSCO is a state supported, two-year institution of higher education offering students both an academic transfer curriculum and a variety of high-quality vocational, technical programs. Additionally, non-credit classes and training opportunities are provided for the continuing education of community members and the customized training needs of local business and industry.

Service Principles

LSCO is committed to providing quality service to students who can expect:

- **reliability**-consistent quality performance, access to services, and timely and accurate completion of tasks.
- **credibility**-qualified faculty and staff, trustworthy administrators, prompt problem solving, and

accurate printed materials.

- **environment**—conducive to learning—safe premises, appropriately dressed faculty and staff, and friendly and accurate information.
- **responsiveness**—helpful and accessible staff, quick service, prompt communication, and satisfactory student information.
- **concern**—expeditious and caring attention to student needs, empathetic faculty and staff, and reliable and credible problem solving.

Service Goals and Objectives

LSCO is committed to maintaining an appropriate and current curriculum; maintaining excellence in instruction; providing personal and academic counseling for students; providing extracurricular opportunities conducive to lifelong personal development; providing a functional and aesthetically pleasing campus; and cooperating with individual and community groups to promote education, economic development and cultural opportunities.

Standards for Maximum Wait Time

LSCO is committed to processing transcript requests within a 24-48 hour period; determining financial aid awards within three weeks of receiving a completed file; registering (enrolling) students for classes within 15-30 minutes of initial contact (unless the student registers themselves via Gator Self Service Banner); receiving service at the Cashier's Office within 15 minutes; determining admission into competitive-entry programs within 30 days; reporting results of credit-by-exam within one week; responding to requests for ADA accommodations in one day; answering the phone in four rings; completing transcript evaluations within a week after receiving official transcript; and processing admission applications within 24 hours.

Marketing and Communications

The Office of Marketing and Communications informs the campus and surrounding community of important news, events, and opportunities available to students and the public. The office manages the College's relations with traditional media including newspapers, radio stations, and television stations. The office also manages, maintains, and regularly updates information distributed through social media outlets including Facebook, Twitter, and Instagram. The office issues press releases, news articles, and dispatches covering educational programs, social events open to the public, activities sponsored by campus groups, and student success stories. It also publicizes campus closures and special hours of operations during holidays and/or emergencies.

Print and Design Services

Print and Design Services produces syllabi, testing materials, study guides, handouts, and other instructional material by order for faculty use in their courses. It also produces LSCO course schedules, catalogs, diplomas, graduation programs, brochures, flyers, and promotional materials for courses and programs. All other print media, including special orders and graphics design for use on campus as well as the community, are produced on site, in a state-of-the-art digital and multi-media design environment

Services are available by order for student use in printing course materials from Open Educational Resources. Fees for these services are assessed as a price per printed page unless the instructor orders prepared course packs to be sold through the LSCO Print and Design Services office. Walk-up copier use is available for faculty and staff. Scanning and printing services are available to students in the library. All leased printing and copying equipment is maintained by Print and Design Services personnel, who also program and disseminate copy codes for individual LSCO departments and service units.

The Brown Estate

The Brown Estate is a conference and meeting facility located off Highway 90 west of Orange. It is a center of educational, cultural and social activity, which serves the citizens of Orange County and the surrounding area. The 62 acres of scenic landscaped grounds, including a lake and greenhouses, feature a graceful

mansion built and decorated in the southern antebellum plantation tradition.

Lamar State College Orange received the estate in 1976 as a gift from the four sons of the late Edgar W. Brown, Jr., an Orange businessman and philanthropist, who served as a charter member of the Lamar University Foundation, Inc.

The property, which is open to the public for tours, provides visitors with insights into the accomplishments and lifestyle of one of the region's leading citizens. The Brown Estate can be reserved for seminars, meetings, planning retreats, and other public service activities.

Admission, Records, and Financial Affairs

Admission Information

Lamar State College Orange welcomes any student interested in education and personal improvement. As a two-year, lower-division component of the Texas State University System, the Lamar State College Orange campus offers educational opportunities through an open-door policy that admits all students who can benefit from post-secondary education. Lamar State College Orange believes that each individual student is important and welcomes students with diverse backgrounds and needs.

First Time Students

Students enrolling in college for the first time who fit one of the following categories may apply for admission:

- Graduates with a diploma from an accredited high school or home school program.
- Those who have earned a Texas Certificate of High School Equivalency.
- Those who are under 18, who do not have a diploma Certificate of High School Equivalency, and who are still in high school may be admitted upon the written recommendation of the high school principal or counselor, and consent from parent/guardian.

Admission to the institution does not guarantee admission to a particular degree or certificate program. Apart from race, sex, color, religion, national origin or ancestry, age, marital status, disability, sexual orientation, gender identity, or veteran status, special requirements for various programs of study are described in subsequent sections of the catalog.

Beginning freshmen must submit an application for admission (this can be completed online at <https://goapplytexas.org/> two-year application), official high school transcript(s) and/or Texas Certificate of High School Equivalency and driver's license.

All students must comply with requirements relating to the Texas Success Initiative (TSI) and must submit appropriate scores for placement purposes.

EDUC 1300 Learning Frameworks is strongly encouraged for all first-time freshman students. A first-time student is one who has not earned any college credit since graduating from high school or Texas Certificate of High School Equivalency.

New students who are under the age of 22 will not be permitted to register for classes without verification of proof of receiving the Bacterial Meningitis Immunization Vaccination. Please see *Bacterial Meningitis Vaccination Requirement* under the *Health Policies and Regulations* of this catalog.

Selected Admission - Health Sciences Programs

Admission to Lamar State College Orange does not guarantee entrance to a specific health sciences program. The number of students admitted to each of these programs is limited. Students admitted to selected admissions programs are admitted on the basis of college reading levels, math abilities, prior educational achievements, and other specific criteria. Application for program admission should be made directly with the program director within published deadlines. Programs that require separate applications include the associate of applied science degrees in upward mobility nursing, registered nursing, and paramedic as well as the certificates in vocational nursing, dental assisting, pharmacy technology, and emergency medical services.

Student Identification Cards

Student Identification Cards can be obtained from the first floor of the Library in the Ron E. Lewis Building. Students must present their paid tuition and fees receipt to obtain their student identification card.

Transfer Students

Transfer applicants are considered for admission on the basis of their previous college records. Applicants must submit an application for admission (this can be completed online at <https://goapplytexas.org/> two-year application) and official transcripts sent directly from all colleges previously attended or in a sealed envelope from issuing institution. Transfer applicants must be in good standing with all institutions previously attended. Students on scholastic suspension or probation must meet with an Academic Advisor. Students on disciplinary suspension from another institution must petition the Dean of Student Services for individual approval. Contact the Office of Admission and Records for further information.

Students transferring from a Texas public college or university are subject to the same testing requirements that apply to current students. Therefore, transfer students from Texas public colleges and universities must comply with requirements relating to the Texas Success Initiative.

Reapplying to LSCO for Former Students

Former LSCO students who have not registered, or who have a break in enrollment for two or more consecutive regular semesters must file for readmission by submitting an application for admission. This can be completed online at <https://goapplytexas.org/>, two-year application.

Students who graduate with an associate degree must file for readmission by submitting an application for admission. This can be completed online at <https://goapplytexas.org/>, two-year application.

Dual Credit students who have graduated from high school must file for readmission by submitting an application for admission. This can be completed online at <https://goapplytexas.org/>, two-year application.

Former students who have attended another college are required to submit a complete official transcript of all work done subsequent to the last date of attendance at LSCO. Students with unsettled financial debts to any Texas State University System component or incomplete records will not be allowed to register until such problems are resolved.

Service Member Readmission Policy

In accordance with federal regulations, 34 C.F.R. § 668.18 and the Department of Defense (DoD) Voluntary Education Partnership Memorandum of Understanding (MOU), Lamar State College-Orange (LSCO), will promptly readmit service members who seek readmission to a program that was interrupted due to military service.

Military service is defined as voluntary or involuntary service in the armed forces, including service by a member of the National Guard or Reserve on active duty, active duty for training, or full-time National Guard duty under federal authority, for a period of more than 30 consecutive days under a call or order to active duty of more than 30 consecutive days. This does not include National Guard service under state authority.

Notification of Military Service

Notification of service must be provided to the Office of Admissions and Records at LSCO. The student (or an appropriate officer of the armed forces or official of the Department of Defense) must provide notice of such service as far in advance as is reasonable under the circumstances. This notice does not have to indicate whether the student intends to return to school and may not be subject to any rule of timeliness. (Timeliness must be determined by the facts in each case.) Alternatively, at the time of readmission, the student may submit an attestation of military service that necessitated the absence from school. No notice is required if precluded by military necessity, such as service in operations that are classified or would be compromised by such notice.

Notification of Intent to Return to School

The student must also give oral or written notice of the intent to return to the school within three years after the completion of the period of service. A student who is hospitalized or convalescing due to an illness or injury incurred or aggravated during the performance of service must provide notification within two years after the end of the period needed for recovery from the illness or injury. A student who fails to apply for readmission within these periods does not automatically forfeit eligibility for readmission but is subject to general practices.

LSCO will promptly readmit the student into the next class or classes in the program beginning after notice of intent to reenroll is provided unless a later date is requested or unusual circumstances require LSCO to admit the student at a later date. This requirement supersedes state law—for example, a qualifying service member will be admitted to the next class even if that class is at the maximum enrollment level set by the state.

LSCO will admit the student with the same academic status, which means;

- to the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar to that program;
- at the same enrollment status, unless the student wants to enroll at a different enrollment status;
- with the same number of credit hours previously completed, unless the student is readmitted to a different program to which the completed credit hours are not transferable, and with the same academic standing (e.g., with the same satisfactory academic progress status) the student previously had.

Tuition & Fees

If the student is readmitted to the same program, LSCO will assess the tuition and fee charges that would have been assessed for the academic year during which the student left (first academic year only). However, if veteran's education benefits or other service member education benefits will pay the higher tuition and fee charges that other students in the program are paying for the year, LSCO will assess those charges to the student.

If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, LSCO will assess no more than the tuition and fee charges that other students in the program are assessed for that academic year.

Readmission Requirements

The cumulative length of the absence and of all previous absences from the school for military service may not exceed five years. Only the time the student spends actually performing service is counted.

If LSCO determines that the student is not prepared to resume the program with the same academic status at the point where they left off or will not be able to complete the program, LSCO will make reasonable efforts at no extra cost to help the student become prepared or to enable the student to complete the program.

A student's readmission rights terminate in the case of a dishonorable or bad conduct discharge, general court-martial, federal or state prison sentence, or other reasons as described in 34 CFR 668.18(h).

Proof of Residency

The Office of Admission and Records is responsible for determining residence status of students for the purpose of tuition as set forth by the *Texas Education Code, Rules and Regulations for Determining Status of the Texas Higher Education Coordinating Board* and college regulations. Students classified as Texas residents are required to provide documentation showing the applicant's name (or parent's name if residency is based on parent) with a Texas residence and dated one year prior to registration, such as the following:

- Texas high school transcript for full senior year immediately preceding the census date;
- Unexpired Texas driver's license or Texas ID card with an issue date of more than 12 months preceding the census date for the term enrolling;
- Two consecutive Texas voter registration cards with the most current not expired;
- Pay stubs for the 12 months preceding the census date;
- Bank statements reflecting a Texas address for 12 months preceding the census date;
- Utility bills for the 12 months preceding the census date;
- Registration or verification from licensor showing Texas address for licensee;
- Ownership of real property with copies of utility bills for the 12 months preceding the census date;
- A current credit report that documents the length and place of residence of the person or dependent's parent.

International Students

Students from other countries holding visas other than permanent resident visas are considered international students. Applicants to Lamar State College Orange may be accepted for admission and have a Form I-20 issued when all requirements have been met. These requirements include:

- Application for admission, this can be completed online at <https://goapplytexas.org/>;
- International Student Application and application fee;
- Official secondary school record and official college transcript (translated and evaluated by a U.S.-based evaluation company that is accredited by one of the following organizations: the Association of International Credential Evaluators, Inc. (AICE) or the National Association of Credential Evaluation Services (NACES). Translation, if applicable, must be performed by a certified translation service.);
- Evidence of sufficient financial support for the academic year in the form of an I-34 affidavit of support, an Immigration and Naturalization Service's document;
- Copies of VISA/Passport
- Proof of adequate health insurance; and
- Provide proof of English Language Proficiency. International students must provide proof of English language proficiency through scores on the TOEFL or IELTS. This testing requirement is waived only for applicants who have completed at least two consecutive years of study at a college or university in the U.S. or in an English proficiency-exempt country. Scores are valid for two years and must be received directly from the testing agency.

Undergraduate (Freshman & Transfer) English Proficiency Requirements:

TOEFL Internet Based Total	61
TOEFL Computer Based Total	173
TOEFL Paper Based Total	500
IELTS Total	5.0

Transfer students who are out of status must file reinstatement for F-1 status with the Immigration and Naturalization Services before they will be allowed to enroll. Students denied reinstatement will be administratively withdrawn from classes and will be subject to the refund policy in effect at the time of withdrawal.

In fulfillment of immigration regulations, a student must enroll in a full-time course of study which will lead to the attainment of specific educational objectives. A full-time course load is defined as a minimum of 12 semester hours.

High School Student Dual Credit Enrollment

Lamar State College Orange has a dual credit program allowing qualified high school students to enroll in college courses and earn credit for the courses simultaneously at the high school and college level. Written

recommendation from the high school principal or counselor and consent from parent/guardian must be on file prior to enrollment.

High School Concurrent Enrollment

Lamar State College Orange allows qualified high school students to enroll in college courses. Students attend high school and enroll in a course at the college; however, credit is received at the college level only. Written recommendation from the high school principal or counselor and consent from parent/guardian must be on file prior to enrollment.

Graduates of Non-Accredited High Schools

Applicants who have not graduated from accredited high schools may be admitted if they (1) have graduated in the upper two-thirds of their classes, (2) score 700 or above on the Scholastic Aptitude Test, or (3) have the recommended high school preparation credits.

Bacterial Meningitis Vaccination Requirement

Texas Senate Bill 1107 and subsequent *Senate Bill 62* requires all students entering an institution of higher education (public and private) to either receive a vaccination against bacterial meningitis or meet certain criteria for declining such a vaccination 10 days before the first day of classes. Therefore, if you are under the age of 22 and are 1) a returning student, who did NOT attend classes at Lamar State College Orange the preceding long semester, 2) an entering freshman, OR 3) a transfer student, you must submit evidence of vaccination against bacterial meningitis. Students that are taking online only courses DO NOT need to submit evidence of vaccination against bacterial meningitis. However, must complete a signed notarized waiver that may be obtained from the Admission & Records Office and may only enroll in on-line classes. To learn important facts about Bacterial Meningitis <http://www.cdc.gov/meningococcal/about/index.html>.

Proof of bacterial meningitis vaccination or exemption:

Evidence of Vaccination must verify that the vaccination was received at least 10 days prior to attending classes.

- A document bearing the signature or stamp of a physician, his or her designee, or public health official that states the name of the vaccination, the name and address of the medical facility, and the day, month and year that the vaccination was administered.
- An official immunization record generated by a state or local health authority. This record must state the name of the vaccination, the name and address of the medical facility, and the day, month and year that the vaccination was administered.
- An official school record that indicates a current bacterial meningitis vaccination. This record must state the name of the vaccination, the name and address of the medical facility, and the day, month and year that the vaccination was administered.

Evidence to Decline Vaccination must be submitted in the following format:

- To claim an exclusion for medical reasons, the student must present a statement signed by a physician (M.D. or D.O.), duly registered and licensed to practice medicine in the United States who has examined the student, in which it is stated that, in the physician's opinion, the vaccine required is medically contraindicated or poses a significant risk to the health and well-being of the student. Unless it is written in the statement that a lifelong condition exists, the exemption statement is valid for only one year from the date signed by the physician.
- An affidavit signed by the student stating that the student declines the vaccination for bacterial meningitis for reasons of conscience, including a religious belief. For information about requesting a conscientious objection exemption form from DSHS click here: <http://collegevaccinerequirements.com/>.

Important Considerations:

- The bacterial meningitis vaccination must be administered by a Health Practitioner authorized by

law to administer an immunization.

- Vaccinations older than 5 years will require a booster.

Proof of bacterial meningitis vaccination can be submitted:

- MedProctor *through December 31, 2025*
- Lamar State College Orange Admissions Department

After applying for admission students will receive an email from Lamar State College Orange Admissions Department providing instructions on how to submit proof of bacterial meningitis vaccination, exemption or waiver, which must be submitted 10 days prior to the first day of class of the term.

Testing and Placement

The Texas Success Initiative (TSI)

The purpose of the Texas Success Initiative is to ensure that students enrolled in Texas public colleges and universities possess the academic skills needed to perform effectively in college-level coursework.

All students subject to the requirements of the Texas Success Initiative must take the TSI Assessment. Students must present scores to register for classes unless otherwise exempt, or are majoring in technical programs of less than 43 credit hours. NOTE: Students enrolling in the General Studies certificate are NOT exempt and are subject to the requirements of the Texas Success Initiative.

The LSCO Testing Center is dedicated to providing students ample opportunities to obtain TSI scores necessary for late enrollment through the official census day.

Exemption Standards of TSI

A student who achieves the passing standard on an assessment as set out in the graphic below shall be deemed exempt from the requirements of the Texas Success Initiative. An exempt student, that meets the criteria included below shall not be required to provide any additional demonstration of college readiness and shall be allowed to enroll in an entry-level academic course.

ASSESSMENT EXEMPTIONS					
Assessment Type	Assessment Version	Minimum Score	Combined?	TSI Exemption?	Exemption Expiration
ACT					
ACT Composite + English	Prior to 2/15/23	Composite 23 and English 19	May combine with scores on test administered after 2/15/23	English Language Arts and Reading (ELAR) Section	5 years from date of test
ACT Composite + Math	Prior to 2/15/23	Composite 23 and Math 19	N/A	Mathematics Section	5 years from date of test
ACT Math	After 2/15/23	Score of 22; No Composite	N/A	Mathematics Section	5 years from date of test

ACT English + Reading	After 2/15/23	Combined score of 40; No Composite	May combine with scores on test administered prior to 2/15/23	ELAR Secon	5 years from date of test
SAT					
SAT Evidence Based Reading & Writing (EBRW)	After 3/5/16	EBRW 480	Not allowable	ELAR Section	5 years from date of test
SAT Mathematics	After 3/5/16	Math 530	Not allowable	Mathematics Section	5 years from date of test
GED					
GED Mathematical Reasoning		Mathematical Reasoning 165	N/A	Mathematics Section	5 years from date of test
GED Reasoning Through Language Arts (RLA)		RLA 165	N/A	ELAR Section	5 years from date of test
HiSET					
HiSET Mathematics Subtest		Math Subtest minimum of 15	N/A	Mathematics Section	5 years from date of test
HiSET Reading Subtest, Writing Subtest, and Essay		Reading minimum of 15, Writing minimum of 15, and Essay minimum of 4.	N/A	ELAR Section	5 years from date of test
STAAR EOC					
STAAR EOC - English III		English III EOC 4000	N/A	ELAR Section	5 years from date of test
STAAR EOC – Algebra II		Algebra II EOC 4000	N/A	Mathematics Section	5 years from date of test

A student who has met one of the criteria included on the graphic below shall be deemed exempt from the respective content area in which they demonstrate college readiness. The following chart contains the full list of courses and program completions and eligible exemptions. An exempt student, that meets the criteria included below shall not be required to provide any additional demonstration of college readiness and shall be allowed to enroll in an entry-level academic course.

COURSE AND PROGRAM COMPLETION EXEMPTIONS				
Student Category	Institution Where Course or Program Completed	Applicability	Exemption	Exemption Expiration
High school student who successfully completes College Prep Course (TEC 28.014)	School district partners with any public, private, independent institution of higher education	Applies at the institution of higher education that partners with the school district in which the student is enrolled to provided course(s), or at an institution that accepts the students as TSI-met based on course completion	Corresponding English Language Arts and Reading (ELAR) and/or Mathematics sections	24 months from date of high school graduation and the student must enroll in college-level course in exempted content within first year of enrollment at institution
Student enrolled and met readiness standards in mathematics and/or ELAR by institution	Any Texas public, private, independent institution of higher education or accredited out-of-state institution	Student has met college readiness standards in mathematics, reading, or writing as determined by receiving institution	Corresponding ELAR and/or Mathematics sections	No Expiration
Student completed college level coursework with C or better	Any Texas public, private, independent institution of higher education or accredited out-of-state institution	A student with a transcribed grade of "C" or better is not subject to TSI in accordance with TAC Rule 4.52 (b)	Corresponding ELAR and/or Mathematics sections	No Expiration
College level coursework in a dual credit course as defined by TAC Rule 4.83 (11), including a College Connect dual credit course offered under TAC Rule 4.86 with C or better	Any Texas public institution of higher education	A student with a transcribed grade of "C" or better is not subject to TSI in accordance with TAC Rule 4.54 (c) (2) (b)	Corresponding ELAR and/or Mathematics sections	No Expiration
Student earned Texas First Diploma	Any Texas public institution of higher education	A student who has earned the Texas First Diploma is TSI-Exempt under TAC Rule 4.54 (c) (3)	ELAR and Mathematics sections	No Expiration

All full-time and part-time students enrolled in a college-level certificate (see advisors for exceptions) or degree program must take the TSI Assessment for reading, writing, and mathematical skills unless they qualify for an eligible exemption as previously described.

Pre-collegiate courses, such as developmental reading, writing, and math, are not counted in calculating the credit hours for meeting testing requirements. For further information please contact the Testing Center at (409) 882-3330.

TSI Placement Scores

Scores for the TSI Assessment

Courses blocked by TSI

Some academic courses are blocked from enrollment based on TSI requirements. In such instances, students must pass the appropriate section on an approved TSIA or TSIA2 test or complete the required corequisite course sequence in order to become eligible to enroll in the courses that are blocked. Blocked courses in each TSI area (reading, writing, and math) are outlined below:

Students must be TSI complete in reading and writing in order to enroll in:

ENGL 1301 Composition I (*applies only to dual credit students who are ineligible to enroll in Developmental co-requisite courses*)
 ENGL 1302 English Composition & Literature
 ENGL 2307 Creative Writing
 ENGL 2322 British Literature I
 ENGL 2323 British Literature II
 ENGL 2326 American Literature
 ENGL 2331 World Literature
 ENGL 2341 Forms of Literature
 GOVT 2305 Federal Government
 GOVT 2306 Texas Government
 PSYC 2301 General Psychology
 PSYC 2307 Adolescent Psychology
 PSYC 2308 Child Psychology
 PSYC 2314 Lifespan Growth and Development
 SOCI 1301 Introductory Sociology
 SOCI 1306 Social Problems
 SOCI 2301 Marriage and the Family
 SOCI 2306 Human Sexuality
 SOCI 2319 Minority Studies
 SOCI 2326 Social Psychology
 SOCI 2336 Criminology
 SOCI 2340 Drug Use and Abuse

Students must be TSI complete in mathematics in order to enroll in:

CHEM 1411 General Chemistry I
 MATH 1314 College Algebra (*applies only to dual credit students who are ineligible to enroll in Developmental co-requisite courses*)
 MATH 1316 Plane Trigonometry
 MATH 1324 Math for Business & Social Sciences
 MATH 1325 Calculus for Business & Social Sciences
 MATH 1332 Contemporary Mathematics I
 MATH 1342 Elementary Statistical Methods
 MATH 1350 Fundamentals of Mathematics I

MATH 1351 Fundamentals of Mathematics II
MATH 2305 Discrete Mathematics
MATH 2312 Pre-Calculus Math
MATH 2413 Calculus I

Students whose previous Texas public college or university has determined that they have met minimum passing standards in reading, writing, and/or math are exempt in the curricular area/s indicated, but must develop and pursue an Academic Success Plan in any remaining area/s. An official transcript or other appropriate documentation of status must be submitted.

Students who have completed a TSI restricted course previously listed from a regionally accredited college or university earning a grade of C or higher are exempt in the curricular area of that course, but must develop and pursue an academic success plan with an advisor in any remaining area/s.

Dual Credit College Readiness

THECB defines “college readiness” as a 70% likelihood of a student achieving a grade of A, B, or C in an entry-level college-credit course, as measured by meeting certain benchmarks on the SAT, ACT, TSIA, or STAAR English III, or Algebra II EOCs. Once students meet one or more of these benchmarks, they are considered “college ready,” regardless of their performance in the college-level course. College readiness is determined by subject area.

Dual credit eligible allows a high school student, who has not met the “college readiness” benchmark, to enroll in an entry-level college course offered for dual credit. Students who are “dual credit eligible” are not considered “college ready” until they earn a grade of A, B, or C in a mathematics and/or college-level course designated as reading and/or writing-intensive.

Credit Evaluation

Academic credit may be granted for education obtained through a variety of methods, including transfer from other accredited institutions of higher education, correspondence education, and a variety of nontraditional options including, but not limited to articulated credit and credit for prior learning.

Students planning to transfer to a four-year institution are advised to confer with the institution to which they plan to transfer regarding acceptance of nontraditional credit.

Transfer Credit Evaluation

Transfer credit is defined as credit earned at other accredited institutions of higher education.

Transfer Credit Evaluation Policies

Credit earned at other accredited institutions may be considered for credit by Lamar State College Orange according to the following policies:

1. Official transcripts reflecting all completed coursework must be sent directly to Lamar State College Orange Admissions and Records Office from the issuing institution or in a sealed envelope from issuing institution.
2. Courses will be transferred as credit only; however, a transfer credit GPA will be maintained.
3. “D” grades earned at other institutions are transferable, but departments may refuse to count them toward degrees.
4. Transfer credit evaluations can be viewed on the unofficial academic transcript by logging into Gator Self Service via www.lSCO.edu/MyGator. This information will be available no later than the end of the first academic term in which they are enrolled.

Correspondence Course Credit

The following regulations will apply to work completed through correspondence:

- Lamar State College Orange does not offer correspondence courses but will accept for transfer and application toward an associate degree of up to nine (9) semester credit hours of correspondence courses which have been satisfactorily completed in a correspondence division of an accredited college or university.
- Students who desire to earn credit by correspondence and apply the credit toward a degree or certificate at LSCO must secure the approval of their major advisor and the division director. Forms for this purpose may be obtained in the Office of Admission and Records.
- All correspondence work in which a student is enrolled during a given semester will count as a part of the student's maximum load permitted for that semester. A student will not be given permission to exceed the maximum load by enrolling in correspondence courses, and any correspondence work which is completed without approval will not be accepted for transfer to Lamar State College Orange.
- Correspondence work must be completed, and an official transcript showing the grades and credits earned must be filed in the Office of Admission and Records at LSCO no later than 14 days before the date of graduation. If credit is filed after this period, the student's graduation may be deferred to the following semester or summer. It is the student's responsibility to have an official transcript sent to the Office of Admission and Records at LSCO from the Registrar's Office where the correspondence work was completed.
- Correspondence courses will not be approved for students who are ineligible to enroll at LSCO, for those students who may be on academic or disciplinary probation or suspension and/or for beginning freshmen prior to registration at LSCO.
- Correspondence courses may not be used to repeat courses.

The correspondence work should be in general education, minor, or elective areas. **Correspondence work cannot be used to satisfy major field requirements for the associate's degree.**

Nontraditional Credit Evaluation

Nontraditional academic credit may be granted for education obtained through a variety of nontraditional methods, including continuing education, non-accredited private and technical college course work, military training, licensures or certifications, and credit by examination. Students planning to transfer from LSCO to other institutions are advised to confer with the institutions to which they plan to transfer regarding the acceptance of nontraditional credit awarded by LSCO.

Nontraditional Credit Evaluation Policies

LSCO's policy on evaluating nontraditional education is based upon the guidelines of the Southern Association of Colleges and Schools. Credit may be awarded based on recommendations contained in the National Guide to Educational Credit for Training Programs, published by the American Council on Education found online.

Nontraditional credit will be evaluated and approved by the program director/dean of the subject area for which the credit is being requested, using the following guidelines:

- At least 25 percent of the certificate or degree must be completed through enrollment in LSCO credit courses.
- Nontraditional credit will not be counted toward the residence requirement for graduation.

- Texas Success Initiative requirements, including course pre/co-requisites, must be met prior to the award of nontraditional credit.
- Nontraditional credit may be awarded to an LSCO matriculated student after 3 semester credit hours have been completed at LSCO.
- Credit is noted as nontraditional on the transcript and will receive a grade of "S" (satisfactory), with the exception of LSCO departmental credit by exam, which is shown with a letter grade of "A" or "B".
- The fees for the award of nontraditional credit are charged according to the type of credit being requested.

Nontraditional credit may be awarded through either the articulation of non-credit courses containing learning outcomes that align with those of an LSCO credit course or through demonstration of prior learning.

Articulated Credit for LSCO Continuing Education Overlay Courses

An overlay (mirror) course is a course offered for continuing education units rather than college credit by the LSCO Workforce & Continuing Education Department. The learning outcomes in the overlay courses mirror the compatible college credit courses.

Students enrolling in overlay classes with a known intent to request conversion to academic credit should take the classes for academic credit.

Circumstances may occur that would benefit the student's having CE units converted to college credit after completing the course. The process and details related to articulating the CE units earned at LSCO to college credit are as follows:

- Students should complete the nontraditional evaluation form (*include LINK TO THE FORM*) and submit to the Admissions and Records Office.
- A grade of "S" (satisfactory) will be assigned on the credit transcript and will NOT be included in GPA calculations.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.
- The articulation fee is waived.

Credit for Prior Learning

Learning that occurs outside of the traditional academic environment may be used to demonstrate competencies that align with college credit. LSCO evaluates the college-level knowledge and skills students gain outside of the classroom through:

- Credit by Exam
 - ACT
 - Advanced Placement (AP)
 - College Level Examination Program (CLEP)
 - Departmental Exam
 - International Baccalaureate Diploma Program (IB)
- Military or Workplace Training
- National or Statewide Licensures or Industry Certifications

This evaluation is called credit for prior learning (CPL), but it may also be referred to as prior learning assessment or experiential learning.

Credit by Exam

ACT Exams

Students scoring at or above college standards on the ACT are awarded credit according to the following chart. ACT Tests are given on most of the regularly scheduled ACT test dates. Registration bulletins are available from area high schools.

ACT credit must be reviewed and applied before enrollment in the course for which credit is being sought. ACT credit may only be awarded to fully admitted and currently registered students who **have not** previously attempted the courses at LSCO by either enrollment or examination.

ACT Subject Area	CEEB Test Required	ACT	Credit Granted
English	English	33	ENGL 1301
Composition		33	Completion of ENGL 1302 with a grade of "C" or better

Grades will not be assigned and hours will not be used in the computation of grade point averages for course credit granted through ACT Subject Exams.

- Credit for ACT exams is considered nontraditional credit.
- Credit will be evaluated from an official score report sent directly to the Admissions and Records Office from the testing service.
- Credit will be based upon LSCO recommended passing scores. A letter grade of "S" (satisfactory) will be awarded.
- A grade of "S" (satisfactory) will be assigned on the credit transcript and will NOT be included in GPA calculations.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

Advanced Placement (AP)

Advanced Placement options are offered to enable first-time college students to qualify for advanced standing and/or college credit. These tests must be taken before enrollment in the course for which credit is being sought. AP credit may only be awarded to fully admitted and currently registered students who **have not** previously attempted the courses at LSCO by either enrollment or examination.

Applicants who wish to receive credit for college-level work completed in high school may do so by submitting scores from the College Entrance Examination Board's Advanced Placement Examinations. Examinations are given each May by high schools. Arrangements are made through high school counselors. Subject matter areas and the basis for granting credits are as follows:

AP Subject Area	Required Score	Credit Granted
Art	Score of 3 or above	Art 1316, 1311
Biology	Score of 3 or above	Biology 1306, 1307
Calculus		
AB Test	Score of 3 or above	Math 1325 or Math 2413
BC Test	Score of 3 or above	Math 2312, 2413, & 2414
Chemistry	Score of 3 or above	Chemistry 1411
Computer Science		
A Test	Score of 4 or 5	Computer Science 1436
AB Test	Score of 4 or 5	Computer Science 1436, 1437
Macroeconomics	Score of 3 or above	Economics 2301
Microeconomics	Score of 3 or above	Economics 2302
English	Score of 4 or 5	English 1301, 1302
	Score of 3	English 1301
Foreign Language	Score of 3	Spanish 1411
	Score of 4	Spanish 1411, 1412
	Score of 5	Spanish 1411, 1412, 2311
Government	Score of 3 or above	3 hrs. elective (non-advanced)
Government/Political Science	Score of 3 or above	Government 2306
History/American*	Score of 3 or above	History 1301, 1302

History/European	Score of 3 or above	History 2321, 2322
Physics 1	Score of 3 or above	College Physics I 1401

* State law requires three semester hours of classroom instruction in American history in addition to any credit by examination opportunity.

- Credit for AP exams is considered nontraditional credit.
- Credit will be evaluated from an official score report sent directly to the Admissions and Records Office from the testing service.
- Credit will be based upon LSCO recommended passing scores. A letter grade of "S" (satisfactory) will be awarded.
- A grade of "S" (satisfactory) will be assigned on the credit transcript and will NOT be included in GPA calculations.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

College Level Examination Program (CLEP)

Lamar State College Orange awards credit on the basis of most of the subject examinations on the College Level Examination Program (CLEP). These tests must be taken before enrollment in the course for which credit is being sought. CLEP credit may only be awarded to fully admitted and currently registered students who **have not** previously attempted the courses at LSCO by either enrollment or examination.

A complete list is available from the Testing Center and on our website at www.lSCO.edu/testing/clep. The essay sections of the English Composition and Literature examinations are required and the determination for the awarding of equivalent English credit is based upon the strength of the written essays.

The amount of credit awarded to a student who attended college before taking the examination will depend upon which college courses the student completed. Credit will not be awarded if the student received prior credit for the same course or its equivalent. Grades will not be assigned and hours will not be used in the computation of grade point averages.

- Credit for CLEP subject exams is considered nontraditional credit.
- Credit will be evaluated from an official score report sent directly to the Admissions and Records Office from the testing service.
- Credit will be based upon LSCO recommended passing scores. A letter grade of "S" (satisfactory) will be awarded.
- A grade of "S" (satisfactory) will be assigned on the credit transcript and will NOT be included in GPA calculations.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

Departmental Credit by Exam

Departmental credit by examination must be taken before enrollment in the course for which credit is being sought. Departmental Credit by Exam credit may only be awarded to fully admitted and currently registered students who **have not** previously attempted the courses at LSCO by either enrollment or examination.

Departmental exams will only be considered if College Level Examinations Program (CLEP) subject examinations are not available.

To secure permission for such examination, see the Dean of Academic Studies or Director of Advising, Recruiting, and Testing. A student must obtain the written permission of the Dean responsible for the course

before taking the departmental exam. Upon successfully completing the LSCO Departmental Credit by Exam with an “A” or “B”, the student must:

- Credit for Departmental Exams is considered nontraditional credit.
- Apply for credit by exam at the Admissions and Records Office. Credit will be evaluated from the exam report sent directly to the Admissions and Records Office from the testing center or Dean.
- A grade of “A” or “B” must be made on the exam for the credit to be posted to the transcript. The grade earned on the exam will serve as the letter grade for the course.
- A copy of the graded Departmental Credit by Exam must be presented to the Admissions and Records Office or Dean.
- If credit is approved, the student must pay the evaluation fee before being posted to a transcript.
- Courses completed by departmental examination are noted as credit by exam on the transcript and do not calculate into the grade point average.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

International Baccalaureate (IB) Diploma Program

Lamar State College Orange recognizes the IB Diploma Program. Students who receive an IB diploma and receive scores of “4” or above on Higher Level (HL) or Standard Level (SL) examinations will be awarded credit based on the chart below. Students who have not received an IB diploma may be granted credit on an individual course-by-course basis as determined by participating academic departments.

- Credit for IB Diploma programs is considered nontraditional credit.
- Credit will be evaluated from an official score report sent directly to the Admissions and Records Office from the testing service.
- Credit will be based upon LSCO recommended passing scores. A letter grade of “S” (satisfactory) will be awarded.
- A grade of “S” (satisfactory) will be assigned on the credit transcript and will NOT be included in GPA calculations.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

A copy of the official IB transcript must be submitted to the Office of Admissions and Records to receive transfer credit. All applicable Texas statutes and Lamar State College Orange policies must be complied with and are in effect for course transferability.

IB Exam	Score = 4+ On all levels	Credit Granted	Equivalent Course
Group 1 - Language (AI)			
English	HL	6 hrs.	ENGL 1301, 1302
	SL	3 hrs.	ENGL 1301

Music	HL or SL	3 hrs.	MUSI 1306

Military or Workplace Training

Credit may be granted for military experience. A Transfer Credit Evaluation Request form must be completed and turned into the Office of Admission and Records. Students must submit the following documents:

- Form DD214
- Military Transcript Summary sent directly from the *American Council on Education*

Credit will be evaluated upon the evaluation recommendations outlined in the *American Council on Education (ACE) Guide to the Evaluation of Educational Experiences in the Armed Services*.

- LSCO recognizes learning acquired through corporate universities, military training, professional and volunteer organizations and other extra institutional learning providers.
- Students desiring credit must present required documentation in support of the acquired skill and training experience to the Admissions and Records Office or Dean.
- The evaluation and award of credit will be based upon the recommendation of the *ACE Guide*.
- The amount of credit awarded to a student who attended college before taking the examination will depend upon which college courses the student completed.
- Credit will not be awarded if the student received prior credit for the same course or its equivalent.
- Grades will not be assigned and hours will not be used in the computation of grade point averages.
- If credit is approved, the student must pay the evaluation fee before being posted to a transcript.
- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

National or Statewide Licensures or Industry Certifications

Prior learning or experiential learning (life experience) will be considered for credit with official documentation of earning industry-recognized, statewide, or nationally recognized exams or licenses.

- LSCO recognizes learning demonstrated through successfully earning an industry-recognized, statewide, or nationally recognized credential or license corresponding to one of our existing degrees.
- Students desiring credit must present documentation substantiating a copy of the current credential or license that corresponds to one of our existing degrees.
- The evaluation and award of credit will be based on the credential or license presented to the Admissions and Records Office or Dean.
- If credit is approved, the student must pay the evaluation fee before being posted to a transcript.

- At least 25 percent of the certificate or degree must be completed through enrollment and completion of LSCO credit courses, excluding any non-traditional credit evaluation.

Nontraditional Credit Evaluation Fees

The fees for awarding nontraditional credit are charged according to the type of credit being evaluated and transcribed.

- No fees will be charged for articulating LSCO Continuing Education non-credit courses to credit.
- A \$25 per semester credit hour fee (max of \$150 per degree) will be charged for transcribing credit earned through LSCO's Departmental Credit By Exam. NOTE: This fee is in addition to the cost of the exam.
- No fees will be charged for transcribing credit earned through LSCO's prior learning for military training and life experience for veterans with honorable or general conditions discharge, upon presentation of military documentation.
- A \$25 per semester credit hour fee (max of \$150 per degree) will be charged for transcribing credit earned through LSCO's prior learning for workplace training.
- A \$25 per semester credit hour fee (max of \$150 per degree) will be charged for transcribing credit earned through LSCO's prior learning for national or statewide licensure or industry credential, upon presentation of official documentation.

Nontraditional Credit Evaluation Process

- The student initiates the request in the Admissions and Records Office or Advising Office by completing the appropriate form and presenting the official documentation required.
- The Admissions and Records Office sends the form to the appropriate program director for evaluation. Departmental approval is not required for ACE guide recommendations or CLEP/AP or IB diploma credit.
- The Program Director sends the form to the Dean for final approval.
- The form is returned to the Admissions and Records Office, and a copy of the completed evaluation is emailed to the student.
- After payment is received, the nontraditional credit is posted to the student's academic record.
- The student can review their nontraditional credit by accessing their unofficial transcript by logging into Gator Self Service via www.lSCO.edu/MyGator. This information will be available no later than the end of the first academic term in which they are enrolled.

Educational Records and Students' Rights

The following information concerning student records maintained by Lamar State College Orange is published in compliance with the *Family Education Rights and Privacy Act of 1974, PL 93-380*.

Access to educational records directly related to a student will be granted to him or her unless the type of record is exempted from the provision of the law.

The types, locations, and names of custodians of educational records maintained by the college are available from the Office of Admission and Records.

Access to records by persons other than the student will be limited to those persons and agencies specified in the statute. Records will be maintained of persons granted such access and the legitimate interest in each case.

The release of information to the public without the consent of the student will be limited to the categories of information that have been designated by the college as directory information and that will be routinely released. The student may request that any or all of this information be withheld from the public by completing the FERPA Release found on MyGator – Blackboard or in person in the Office of Admission and Records. The request can made or revoked at any time by the student. Directory information includes

name, address (current/last known), year of birth, telephone number, email address (personal and campus), major/field of study, enrollment status, dates of attendance, degrees, diplomas and certifications (including dates earned), honors and awards (including dates), and classification.

A student has the right to challenge records and information directly related to him or her if they are considered to be inaccurate, misleading or otherwise inappropriate. Issues may be resolved either through an informal hearing with the official immediately responsible or by requesting a formal hearing. A description of the procedure to be followed in a formal hearing is available in the Office of Admission and Records.

The right of parental access to student records may be established by either of two methods: first, by the student completing a FERPA Release found on MyGator – Blackboard or in person in the Office of Admission and Records; or second, by the parent validating the student's dependency as defined by the IRS.

Financial Aid and Scholarships

Financial assistance in the form of scholarships, grants, loans, and employment is available to a number of qualified students. Information regarding programs and eligibility criteria can be obtained from the Office of Financial Aid, 410 Front Street, Orange, Texas 77630, at (409) 882-3317 or by visiting <https://www.lsc.edu/financialaid/financialaid.asp>.

How to Apply for Financial Aid and Awards

Students wishing to apply for grants, work-study, and/or loans must complete the Free Application for Federal Student Aid (FAFSA). Students may complete the FAFSA online at <https://studentaid.gov/>. The FAFSA is good for one academic year, a renewal FAFSA will need to be submitted in subsequent years.

After the application is submitted, the student will receive a FAFSA Submission Summary from the Department of Education. The FAFSA Submission Summary contains the Student Aid Index (SAI) that is used in determining the student's eligibility to receive financial aid. The type and amount of assistance will be determined by the Office of Financial Aid based on several factors such as SAI, residency, enrollment, and classification. The FAFSA is used to apply for both federal and state financial aid.

Texas residents who are not eligible to complete the FAFSA may apply for state aid by submitting the Texas Application for State Financial Aid (TASFA) at www.collegeforalltexas.com. A new TASFA must be submitted every aid year to apply for state aid.

Students wishing to be considered for scholarships must submit a scholarship application at <https://www.lsc.edu/scholarships/scholarships.asp>. Students should be aware that scholarship funds are limited and that recipients normally must have grade point averages above 2.5 to be considered.

When to Apply for Financial Aid and Awards

Students may begin applying for financial aid as early as December 31st for the 2024-2025 academic year. Texas has a state priority deadline of April 15th for state grants. The most desirable types of financial aid such as grants and scholarships are limited so students should apply as soon as possible, preferably by April 15th.

To ensure all financial aid requirements are complete before the first day of class, applications and required documents should be completed by June 1st.

Types of Aid

LSCO offers numerous federal, state, and institutional financial aid programs to assist with the cost to attend school. A financial aid handbook is available in the Financial Aid Office and published at <https://www.lsc.edu/financialaid/financialaid.asp> with detailed information for each program.

Types of aid available to LSCO students include:

- Scholarships
- Grants
- Work-Study
- Veteran Education Benefits
- State Exemptions and Waivers
- Federal Student Loans

Grants

A grant is a form of need based financial aid that doesn't typically have to be repaid, unless it is determined that the student is no longer eligible due to a change in enrollment or financial need. With the exception of the Federal Pell Grant, grants are allocated to colleges in yearly, limited amounts, so a student may show eligibility but may not receive an award if grant funds have been exhausted.

The following grants are available to eligible students at LSCO.

Pell	Federal Pell Grant
Federal SEOG	Federal Supplemental Education Opportunity Grant
TPEG	Texas Public Education Grant
TEOG	Texas Educational Opportunity Grant

Students can apply for these grants by submitting a FAFSA. Texas residents who are not eligible to complete the FAFSA may apply for TPEG and TEOG by submitting a TASFA. Students must be enrolled in at least six credit hours and meeting eligibility requirements to receive a grant. Students with exceptional need as determined by the Department of Education may receive a Pell grant if enrolled in less than six credit hours.

Male students, age 18-25, must be registered for selective service to receive TPEG or TEOG.

Work-Study

Federal and state work-study programs provide part-time jobs for students with financial need, allowing them to earn money to help pay for education expenses. To apply, students must complete a FAFSA and apply for employment at <https://jobs.lSCO.edu/>.

Students must be enrolled in at least six credit hours and meeting eligibility requirements. Male students, age 18-25, must be registered for selective service to receive Texas Work-Study.

Loans

Federal Direct Loans are available through the U.S. Department of Education. In order to apply for Direct Loans, the student must complete the FAFSA form. They must also complete an online entrance counseling session and a Master Promissory Note at <https://studentaid.gov/>. Students must be enrolled in a minimum of six credit hours to receive a loan.

Direct Loans must be repaid. Direct Loans are either subsidized or unsubsidized. A subsidized loan is awarded on the basis of financial need. The federal government pays interest on this loan (subsidizes the loan) until the student graduates, withdraws, or drops below half-time status. An unsubsidized loan is not awarded on the basis of need. Students will be charged interest from the time the loan is disbursed until it is paid in full on an unsubsidized loan.

Students must complete Exit Counseling at <https://studentaid.gov/exit-counseling/>, if they withdraw, are graduating, or if their enrollment drops below half-time (six credit hours).

Financial aid staff are available to provide guidance to students who may need to borrow a student loan. Students may visit the Financial Aid Office or <https://www.lSCO.edu/financialaid/financialaid.asp> for more information about student loans.

Information about repayment and managing loan debt can be found at, <https://www.lSCO.edu/financialaid/become-responsible-borrower.asp>.

Scholarships

Scholarships are funds that cover portions of students' expenses. A limited number of Lamar State College Orange and endowed scholarships are available to students who qualify based on merit and/or need. The amounts and numbers of these awards will vary each year depending on available funding and student need.

Scholarships at Lamar State College Orange are of two types: those administered solely by the college, including the selection of recipients; and those administered by the college at the request of donors who select the recipients themselves. Scholarship application forms and information concerning other requirements and deadlines are available in the Office of Financial Aid and online at <http://www.lSCO.edu/scholarships/scholarships.asp>.

Exemptions/Waivers

The state of Texas allows certain students to be exempt from paying all or a portion of tuition and fees. Students should contact the Office of Financial Aid if they meet any of the conditions listed:

- Residents of the state of Louisiana
- Highest ranking high school graduate
- Veterans who do not receive Post 9/11 or VA Voc Rehab veteran education benefits
- Students who graduate from high school in three years or fewer
- Children of fire/peace officers who were killed in the line of duty
- Fire fighters enrolling in classes related to fire fighting
- Peace officers enrolled in Law Enforcement or Criminal Justice courses
- Students who are blind and/or deaf
- Senior Citizen Tuition
- Educational Aide Exemption

Students must meet the requirements established by the state to be eligible. For more information on these exemptions, visit www.collegeforalltexas.com.

Financial Assistance and Special Services for Disabled Students

The Texas Workforce Solutions Vocational Rehabilitation Services office offers assistance for tuition and non-refundable fees to students who have certain disabling conditions, provided their vocational objectives have been approved by a TWS-VRS counselor. Examples of such conditions are orthopedic deformities, emotional disorders, diabetes, epilepsy, heart conditions, etc. Other services are also available to assist handicapped students to become employable. Application for such services should be made at the Texas Workforce Solutions, Beaumont District Office, 5550 Eastex Freeway, Suite D, Beaumont, Texas 77708-5300, at (409) 924-7320 or (800) 242-8334.

The Advising and Counseling Office works closely with the Texas Workforce Solutions. Visually and hearing-impaired students may be eligible for assistance, aid for the purchase of books, and assistance in acquiring specialized equipment. For more information call the Texas Workforce Solutions Division of the Blind, 5550 Eastex Freeway, Suite D, Beaumont, Texas, 77708, at (409) 899-8490 or (800) 687-7013.

Veterans' Affairs Office

A Veterans' Affairs Office is maintained in the Office of Financial Aid and assists veterans in obtaining their educational benefits. Possible VA benefits available for eligible veterans and their dependents include:

- Post 9/11 GI Bill[®], Chapter 33
- Montgomery GI Bill[®], Chapter 30
- Montgomery GI Bill[®] - Selected Reserve Chapter, 1606
- Montgomery GI Bill[®] - Reserve Educational Assistance Program, Chapter 1607
- Vocational Rehabilitation and Employment Vet Success Program, Chapter 31
- Survivors and Dependents Assistance, Chapter 35

More information about military benefits can be found at <https://www.lSCO.edu/admissions/how-to-apply/military.php>.

GI Bill[®] is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

Hazlewood Exemption for Texas Veterans

The purpose of the Hazlewood Exemption is to provide an education benefit to honorable discharged or separated Texas veterans and to eligible dependent children and spouses of Texas veterans. For eligibility requirements and other information visit <https://www.tvc.texas.gov/education>.

Financial Aid Award Notification

The Financial Aid Office will begin sending financial aid award notification emails in late spring for the upcoming academic year. Students are able to access their financial aid package in their Gator Self Service account. All emails sent from the Financial Aid Office will be sent to the student's LSCO student email address. The college will continue to package federal student aid throughout the academic year and state and institutional aid as long as funds are available.

Grants and work-study are automatically accepted for the student, however additional documents may be required for certain state grants. Students will be notified by email if additional documents are needed.

Loans are NOT automatically accepted for the student, instead positive confirmation through either a written request or Gator Self-Service is required. Students may accept their loan offer by logging into their Gator Self Service account. Information on how to accept a loan can be obtained by visiting the Financial Aid Office or at <https://www.lSCO.edu/financialaid/Applying%20for%20Direct%20Loans.pdf>.

Students are awarded financial aid under the assumption that they will be attending full-time (12 semester credit hours) for the entire academic year. The student's financial aid package may be adjusted if the student does not attend full time for this entire period.

Financial Aid Disbursement

Financial aid will be disbursed no more than ten days before the students first day of class. If receiving a loan for one semester, the student will receive two loan disbursements. The second disbursement will be applied mid-way through the semester. First year, first time loan borrowers will have a 30-day hold placed on their loans. Students may view their anticipated disbursement date in Gator-Self Service. Excess financial aid is returned to the student in the form of a refund by the Cashier's Office.

Satisfactory Academic Progress (SAP) Standards for Federal and State Aid Programs

Standards of Academic Progress (SAP) are in accordance with federal guidelines for continuing student eligibility for financial aid. Students are required to meet SAP standards to receive federal and state financial aid. The SAP standards are:

1. Maintain a 2.0 GPA. Included in this calculation will be all college coursework attempted at all schools attended.
2. Maintain a pace of at least 70%. Courses attempted include all courses for which a student is registered. In order for a course to be considered complete, the student must receive a grade of A, B, C, D, or S. Grades of W, Q, F, U, NG or I will not be considered as complete for SAP purposes. Included in this calculation will be all college coursework accepted at the institution.
3. Complete degree within 150% of the published length of the degree program. For example, if the stated number of hours for a degree program is 60 hours the student may receive aid for no more than 90 hours. ($60 \times 1.5 = 90$) Included in this total will be all college coursework attempted at all schools attended.
4. TEOG recipients are required to meet the state's more stringent requirements at the end of a renewal year. Visit www.collegeforalltexas.com/ for more information.

Students should visit www.lsc.edu/financialaid/standards-of-satisfactory-academic-progress.asp to learn more about the SAP policy and appeal procedures.

Warning Status

Students placed on a warning status will remain eligible to receive aid for the subsequent semester. If they fail to attain satisfactory progress at the end of that semester they will be ineligible to receive future aid unless they are granted an appeal or complete coursework, which returns them to good standing.

Satisfactory Academic Progress Procedures and Appeals

Appeals

Students denied financial aid may appeal in the form of submitting an appeal form to the financial aid office. This appeal should explain any mitigating circumstances, which have caused the student's failure to make academic progress. The Financial Aid Advisor will review appeals. Relevant documentation necessary to verify or support the appeal (e.g. death in immediate family, extended personal illness, recent divorce, etc.) should be submitted with the appeal letter.

Students shall be notified of their appeal decisions on their Gator Self Service account within two (2) weeks of the appeal letter being received in the financial aid office.

Students denied their appeal may then make an additional appeal to SAP Appeal Committee. (NOTE: If a student's appeal is denied, new information and documentation is required at each level of appeal to enhance the chances for granting subsequent appeals.).

The decision of the SAP Appeal Committee is final. Fourteen (14) working days should be allowed at each level of appeal. Students will be notified of all appeal decisions through their Gator Self Service account.

A student not meeting SAP, but who has their appeal accepted, will be placed on probation or be placed on a Satisfactory Academic Plan. They will receive notification by status updates on their Gator Self Service account. Under the terms of probation, the student must complete 75% of all attempted coursework for that semester, and attain a GPA of 2.0 for the semester. Their status will be reevaluated at the end of the semester, which is when they are placed on probation. They will be notified of their new status on their Gator Self Service account at the end of that semester.

Academic Plan

A student not meeting SAP, but who has their appeal accepted, will be placed on an Academic Plan if it is determined the student will require more than one semester to regain satisfactory academic progress. Students placed on an academic plan must meet the Academic Plan (PLAN) agreements which are: not dropping, withdrawing, or making below a "C" in any course, and taking only the classes that are required for their degree plan. Failure to comply with these conditions will terminate any and all further financial aid eligibility. Students who fail to comply with their PLAN agreements do have the option to submit one

last chance appeal letter to the Financial Aid Advisor for the following semester.

Probation Status

A student not meeting SAP, but who has their appeal accepted, will be placed on probation if it is possible for the student to regain an acceptable academic progress status at the end of the semester. A student placed on probation will be notified through the Gator Self Service account at the time they are awarded. In order to continue receiving aid the student must complete 75 % of all coursework attempted for that semester, and a cumulative GPA, which meets the standards described above. Their status will be reevaluated at the end of the semester, which they are placed on probation.

Academic Progress Standards for State Exemptions and Waivers

In accordance with Texas Senate Bill 1210, undergraduate students receiving certain waivers/exemptions are required to meet the following academic requirements.

1. Have a minimum cumulative GPA of 2.0. The GPA calculation includes coursework attempted at all schools for which the institution has evaluated a transcript.
2. Not have attempted as of the beginning of the semester or term, a number of semester credit hours that is considered to be excessive under Section 54.014. Students are considered to have excessive hours if before the semester begins, the student has attempted credit hours that exceed the credit hour required by the student's degree program by at least 15 credit hours. For a 60-credit hour program, the student cannot exceed 75 credit hours. Students who are not enrolled in a degree program are considered to be enrolled in an associate degree program and must not exceed 75 credit hours.

Visit <https://www.lSCO.edu/financialaid/hardship-policy-for-state-waivers-exemptions.asp> to learn more about these requirements and the hardship policy.

Academic Progress Standards for Scholarships

Students must maintain a 2.5 GPA to receive institutional scholarships.

Return of Title IV

Students who receive Title IV financial aid and withdraw or drop all courses during the semester must be aware of the impact on their financial aid. Federal Title IV aid impacted by withdrawing includes Pell Grant, Supplemental Educational Opportunity Grant, and Subsidized/Unsubsidized Direct Loans. It is recommended that students visit with Financial Aid prior to withdrawing or dropping courses.

Title IV aid recipients must be continuously enrolled for more than 60% of the period for which aid is disbursed to retain all the financial assistance issued for that period. After the 60% point, students are considered to have earned 100% of the Title IV funds disbursed. Any student who resigns prior to completing more than 60% of a period must repay any unearned portion of their federal financial aid.

The amount of the repayment depends on the number of days attended during the period, the type and amount of financial aid received and the total amount of institutional charges.

Earned federal financial aid is prorated according to the percentage of the period completed. The earned aid is determined by the amount of total aid received minus the amount of unearned aid.

Unearned aid is returned in the following order;

- Federal Direct Unsubsidized Loan
- Federal Direct Subsidized Loan
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)

Attendance Policy for Federal Financial Aid Recipients

Regular class attendance is important to the attainment of students' educational objectives. Federal regulations require students to begin attendance in courses for which they are receiving federal financial aid dollars. Although Lamar State College Orange (LSCO) is not an attendance taking institution, the institution is required to document students' academic attendance in courses for which they are receiving federal aid, to finalize the student's financial aid package. Learn more about this policy at <https://www.lSCO.edu/admissions/aid/policies-procedures/attendance-policy-federal-financial-aid-recipients.php>.

Pell Recalculation Date (PRD)/ Financial Aid Freeze Date Policy

The Pell Recalculation Date (PRD), also known as the Financial Aid Freeze Date, is a date in which the Financial Aid Office locks enrollment for the semester. Enrollment on this established date will determine the student's enrollment for purposes of determining the Pell Grant amount. Any classes that are added or dropped after this date will not impact (neither increase nor decrease) the student's Pell Grant award for the semester. However, if considered withdrawn (officially or unofficially) or if the student does not begin attending class(es) for which they were given the Pell grant, a recalculation of federal financial aid dollars may be required. Learn more about this policy at <https://www.lSCO.edu/admissions/aid/policies-procedures/prd-financial-aid-freeze-date-policy.php>.

Short-Term Deferment Tuition Plans

Lamar State College Orange provides short-term deferment tuition plans. Short-term deferment plans allow students to postpone payment of tuition and fees during registration, with full repayment required within the same semester in which the deferment is made. Students withdrawing from the college remain responsible for the repayment of the short-term deferment plan. Students interested in acquiring short-term deferment tuition plan should contact the Business Office/Cashiers Office for information and application forms.

Employment

Students who do not qualify for work-study may seek employment as a student assistant. The college and local businesses and industries provide a number of part-time jobs that enable students to earn part or all of their expenses while attending the college. Students are able to apply for student job programs on line at <https://jobs.lSCO.edu>.

Consumer Loan Disclosure

In compliance with federal regulations under HEOA Sec. 489 amended HEA Sec. 485B, the Financial Aid Office is required to notify students who enter into an agreement regarding TIV, HEA loans that the loan will be submitted to the National Student Loan Data System (NSLDS) and accessible by authorized agencies, lenders, and institutions determined to be authorized users of the data system as determined by the U.S. Department of Education.

Incentive Compensation

LSCO does not provide payment or compensation to any person involved in student recruiting, admissions activities, or the awarding of Federal Title IV funds based on success in securing enrollments or financial aid.

Policy Regarding Referrals of Suspected Fraud or Criminal Misconduct

In the event that an applicant is suspected of participating in fraud or other criminal misconduct in connection with application for *Title IV*, HEA program assistance, the information will be referred to the appropriate college, state and/or federal authorities. These authorities may include, but are not limited to, college discipline officer, college police, Orange Police, and the Office of the Inspector General of the U.S. Department of Education.

Student Records

Admission and Records Office

The Office of Admission and Records provides student access to accurate and timely information regarding application, registration, record maintenance, and academic policies. Application documents and transcripts from high schools and/or former colleges, as well as any questions regarding admittance to the college, should be addressed to this office. Questions regarding multi-campus enrollment, copies of current college credit, and requests for IDs are also handled by this office.

Correct Address

Each student shall notify and assure that the Registrar's Office always has the student's correct and current mailing address on file. The student may provide the notice by any means, hard copy or electronic, that is directed by the Registrar. The College or TSUS System obligation or desire to provide any notice will be fulfilled by mailing to the student's current address on file with the Registrar's Office.

False Information

A student who provides false information or makes false statements to any college official or on an official form submitted to the college is subject to immediate dismissal.

How to Apply for Admission

The following procedures should be followed in making application for admission. All credentials should be submitted to the Office of Admission and Records, Lamar State College Orange, 410 Front Street, Orange, Texas 77630, Phone # (409) 882-3923 or admissions@lsco.edu

Students must:

- submit application for admission online at <https://goapplytexas.org/> (inclusion of a social security number is encouraged);
- submit official transcripts from each high school and/or official college transcripts from all colleges previously attended, sent directly from issuing institutions or in a sealed envelope from issuing institution (this requirement applies, regardless of the length of time in attendance and regardless of whether credit was earned or is desired);
- submit visa or green card, if applicable.

All materials required for admission to Lamar State College Orange should be on file in the Office of Admission and Records prior to registration. A new applicant whose file is incomplete at the time of registration will be allowed to enroll on conditional status pending completion of the admission file. Students should take the prescribed placement tests and/or have records of test scores sent to the Office of Admission and Records.

NO STUDENT will be permitted to re-enroll until admission requirements have been met.

When to Apply for Admission

Application should be made well in advance, two or three months before the proposed enrollment date. Students are encouraged to submit applications as early as possible in order to facilitate the early advisement process.

The application form should be submitted before transcripts are sent. Official transcripts should normally be sent from the issuing institution after all work to be transferred is completed. Temporary admission will be granted if the time interval is limited between the end of a semester elsewhere and the beginning of the subsequent semester at Lamar State College Orange. In this event an unofficial transcript and/or copy of the last grade report will be required. All credentials must be on file by first class day of the term.

In some cases, questions regarding transfer need to be clarified while work is still in progress at another

institution. Under these circumstances the partial transcript should be submitted and a complete official transcript furnished by the end of the semester.

Academic Records and Transcripts

Academic records are in the permanent custody of the Office of Admission and Records. Transcripts of academic records may be secured by individuals or will be released on the students' written authorizations. *Chapter 675, Acts of the 61st Legislature, 1969 Regular Session*, provides that "no person may buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document."

A person who violates this act or who aids another in violating this act is guilty of a misdemeanor that upon conviction, is punishable by a fine of not more than \$1,000 and/or confinement in the county jail for a period not to exceed one year.

Notification of Emergencies

In the event of an emergency between the hours of 8 a.m. and 5 p.m. Monday through Friday, the Office of Admission and Records will attempt to locate a student on campus and/or to relay an emergency message to him or her.

Change of Address or Name

Students are responsible for all communications addressed to them at the address on file in the Office of Admission and Records. Students who move during a semester must immediately register their changes of address in the Office of Admission and Records.

Change of name because of marriage or correction of name because of spelling errors may be made by completing a name change form at the Office of Admission and Records. All name changes must be accompanied by copies of the legal documents making the name official. This document will be kept on file in the student's confidential folder.

Registration for Classes

Students will be permitted to attend classes only when the instructors have received evidence of proper registration. Registration dates and deadlines are listed in the academic calendar. Students may add courses, make section changes or drop courses only within the period specified in the calendar.

Tuition and Fees

Payment of Fees

Lamar State College Orange reserves the right to change fees in accordance with acts of the Texas Legislature and the college's Board of Regents. By registering for classes at the college, each student agrees to abide by all policies of the college. Please visit <http://www.lSCO.edu/tuitionfees/tuitionfees.asp> for the most current Summary of Fees.

A student is not registered until either (1) all fees are paid in full or (2) the required down payment has been paid on the installment plan. Payments made by check, money order, cashier's check or traveler's check should be made payable to Lamar State College Orange and will be accepted subject to clearing the financial institution on which they are drawn. Debit/credit cards and currency are also accepted. The college will not accept counter checks, postdated checks, credit card checks or altered checks. Excess payments will be refunded by direct deposit.

Installment Program

A student is not automatically placed on installments. A student will only be placed on the installment plan

if they have paid 50 percent of the total tuition and fees, plus the \$20 nonrefundable installment fee. To receive the installment plan, contact the cashier at (409)882-3371 or view the student account online and apply for an installment plan by logging into Student Services via www.lSCO.edu. Two subsequent payments of 25 percent each are required at a later date. A late fee of \$15 will be charged after 5 PM on the installment due date for each delinquent installment payment.

Senior Tuition Waiver for Students Age 65 Years and Over

Tuition waivers for senior adult students are available for students who meet the following criteria:

- 65 years of age or older;
- Apply for admission and are accepted;
- Registers for classes;
- Provides the registrar with proof of meeting the age requirement;
- Completes and submits the tuition waiver form to the Registrar's office each term prior to the first day of class.

The student must stay in Good Academic Standing at LSCO while using the Senior Citizen Waiver/Exemption. **The student is responsible for the Gator Book Pack fee (unless he/she opts out), institutional fee, student center fee, student services fee, and any internet or lab fee that applies to the courses in which he/she registers.**

LSCO may allow a senior citizen to enroll for credit in up to six semester credit hours of courses each semester or summer term without payment of tuition if space is available. **Space availability is determined on the last business day prior to the first day of class.**

Short-Term Deferment Tuition Plan

Lamar State College Orange provides short-term deferment tuition plans to help students cover the 50 percent down payment of the installment plan. Short-term deferment tuition plans are good for 60 days and are available to students 10 days prior to the first-class day. Short-term deferment tuition plans must be repaid within the semester in which the loan is made. Students withdrawing from the college remain responsible for the repayment of the short-term deferment tuition plan. Students interested in acquiring short-term deferment tuition plan should visit the Cashier's Office for information and application forms. Alternatively, students can contact the cashier by telephone at (409) 882-3371 or by email at bursars@lSCO.edu to complete the application online. The form will be sent electronically to the student for signature. A \$20 service fee is required. Late fees for unpaid short-term deferment tuition plan will be charged.

Types of Fees

Testing Fees

LSCO offers a variety of tests for career development, placement, entrance exams, etc. Prices vary based on the exam.

Matriculation Fee

A matriculation fee of \$15 will be incurred by students who withdraw prior to the first day of class. This \$15 fee will be deducted from the refund.

Reinstatement Fee

A student seeking reinstatement within the same semester after having withdrawn or having been withdrawn shall pay a \$50 reinstatement fee in addition to late payment fees. Students on installment plans must also pay all past due balances at the time of reinstatement.

Waiving Off-Campus Fees

Students enrolled exclusively in classes that are held off campus may request a waiver of the Student Center

fee. Forms are available in the Office of Admission and Records.

Tuition Rebates - Baccalaureate Degrees

The state of Texas has authorized a tuition rebate program under *Section 54.0065 of the Texas Education Code* not to exceed a total of \$1,000. The rebate is paid to eligible students after receiving baccalaureate degrees from Texas public colleges within 4 years. The purpose of the program is to provide "incentive for students to prepare for college studies while completing their high school work, avail themselves of academic counseling, make early decisions, and complete their baccalaureate studies with as few extraneous courses as possible." See the *Texas Comptroller of Public Accounts* for more information on tuition rebates upon initial enrollment.

Tuition Charges for Extra Credit Hours

Students initially enrolling in Texas institutions of higher education in the 1999 fall semester or in subsequent terms are subject to *Chapter 13, Subchapter G, Section 13.115* (THECB, Texas Register). A student who has accumulated 70 or more semester hours at a community college, technical college and/or Lamar State College Orange is subject to notification about the limit of credit hours (120) received at the in-state tuition rate. Students who exceed the limit (120 credit hours) are subject to higher tuition rates, not to exceed the rates charged to non-resident undergraduate students.

Credit hours exempt from the cap include hours earned by the student before receiving a baccalaureate degree that have been previously awarded to the student; hours earned through examination; hours from developmental courses, technical courses and workforce education courses; hours earned at a private institution or an out-of-state institution; and any hours not eligible for state formula funding.

Returned Check Fee

Checks written in payment and returned to the college due to insufficient funds will result in a \$25 check charge. Any returned check will result in the student permanently being "cash only" for their duration of transactions with the college. If the returned payment is for tuition and/or fees, there could also be a \$10 late registration fee and/or a \$15 installment late penalty. Obligations paid by an insufficient funds check are considered delinquent. A student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made.

Delinquent Accounts

Delinquent accounts to LSCO will be sent to a collection agency and reported to credit bureaus. All costs of collections are paid by the student which is generally an additional 33.333% of the student's obligations to LSCO. Delinquent accounts must be paid to the collection agency. Payment cannot be accepted by LSCO if the account has been forwarded to a collection agency.

Resident Classification

Students are responsible for registering under their legal residence student classification. Questions regarding residency must be answered by the Registrar no later than the time of registration. Students failing to comply with the residence provisions of the state tuition bill (*Art. 2645c, V.C.S. as amended 1957*) are subject to penalties and/or appropriate disciplinary action as set forth in the law.

Table of Fees

Fee summary for May 2025 through Summer 2026 are presented on the following pages. Please visit www.lSCO.edu/tuitionfees/tuitionfees.asp for the most current tuition and fees.

Note that "total charge" does not include the following fees:

Lab Fees	\$15	Per Course
Internet/Hybrid Fee	\$50	Per Course

Late Registration Fee	\$10	
Reinstatement Fee	\$50	
Returned Checks	\$25	
Installment Late Penalty	\$15	
Short-term Deferment Tuition Plan Late Penalty	\$50	
Allied Health Program Fee	\$60	Per Semester
Technical Program Fee	\$60	Per Semester
Nursing Testing Fee	\$475	Per Semester
Credit by Exam	\$25	

The cost to transcript credit by examination is \$25 per semester credit hour awarded.

	Texas/Louisiana	Non-Texas/Louisiana
E & G Tuition	\$50/SCH	\$510/SCH
Designated Tuition	\$30/SCH	\$30/SCH
Student Services	\$5/SCH	\$5/SCH
Student Center Fee	\$2/SCH	\$2/SCH
Institutional Service Fee	\$31/SCH	\$31/SCH

Refunds

Withdrawal Refunds

Withdrawal from the college prior to the first class day results in a 100 percent refund of tuition, student services fee, laboratory fee, designated tuition, Student Center fee, and private lessons fee, but not the \$15 matriculation fee. The student I.D. must be surrendered to receive a refund of the student services fee. The amount of refund decreases beginning on the first class day. For refund purposes the effective drop date is the date listed on the withdrawal petition when received in the Office of Admission and Records. If LSCO campus closes for a national or state disaster, there will be a continuity of operations in places. Therefore, during such crises, LSCO's refund policy will stand and students will not become eligible for refunds strictly due to a national or state disaster. Refunds are calculated according to the following schedules:

Fall, Spring Semesters, 12-Week Sessions and Summer Extended Session

- prior to the first class day, 100 percent, less matriculation fee
- during the first five class days of the semester, 80 percent
- during the second five class days of the semester, 70 percent
- during the third five class days of the semester, 50 percent
- during the fourth five class days of the semester, 25 percent
- after the fourth week of the semester, no refund

Fall, Spring Semesters, 10-Week Sessions

- prior to the first class day, 100 percent, less matriculation fee
- during the first three class days of the semester, 80 percent
- during the second three class days of the semester, 50 percent
- after the seventh class day of the semester, no refund

Mini-Sessions

- prior to the first class day, 100 percent, less matriculation fee
- during the first class day, 80 percent, less matriculation fee
- during the second class day, 50 percent, less matriculation fee
- after the second class day, no refund

Summer Sessions I and II and Fall, Spring 8-Week Session

- prior to the first class day, 100 percent, less matriculation fee
- during the first, second or third class days, 80 percent
- during the fourth, fifth or sixth class days, 50 percent
- after the sixth class day, no refund

Dropped Course Refunds

Students who drop courses during the *drop with refund period* and remain enrolled at Lamar State College Orange will receive a refund of tuition and fees for the dropped class. For refund purposes, the effective drop date is the date listed on the drop form when received in the Office of Admission and Records. Refunds are based on the following:

Fall, Spring Semesters 16-week Session

- Through the 12th class day, 100 percent
- After the 12th class day, no refund

Fall, Spring Semesters 10-week Session

- Through the 7th class day, 100 percent
- After the 7th class day, no refund

Fall, Spring 8-week Session

- Through the 6th class day, 100 percent
- After the 6th class day, no refund

Fall, Spring 12-Week Session

- Through the 9th class day, 100 percent
- After the 9th class day, no refund

Summer Extended 10-Week Session

- Through the 12th class day, 100 percent
- After the 12th class day, no refund

Summer I and Summer II

- Through the 4th class day, 100 percent
- After the 4th class day, no refund

Refunds are sent as a direct deposit to the student's bank account as specified by the student. The student is responsible for completing and submitting all necessary documentation with the Cashier's Office on the first floor of the new Student Success Center. Direct deposit information can be submitted online through MyGator. Students will enter data through Self Service in the Personal Information and Direct Deposit section. The student must provide account and routing information. It is the responsibility of the student to ensure this information is kept up to date.

Financial Obligations

Dropping courses or withdrawing from the college does not relieve the student of any financial obligations under the installment payment agreement or for student loans. Students withdrawing from the college are required to surrender their student identification cards and parking permits. Student services fees will not be refunded unless the student I.D. card is returned to the college. Withdrawal from the college precludes the student from receiving a refund for dropped courses.

Refunds - Students Receiving Financial Aid

Lamar State College Orange adheres to the *Return of Title IV Funds* policy as proposed in the 1998 amendments to the *Higher Education Act*. Under this policy students who have received Title IV funds (PELL, SEOG, LEAP) who withdraw on or before 60 percent of the semester has been completed may owe repayments of portions of their grants. This repayment will be based on a federal formula which takes into account how much of the semester the student has completed. Students who withdraw will be notified of the amount of repayment they owe within 30 days of the day they withdraw. In addition, the Department of Education will be notified at that time that the student owes a repayment of Title IV funds. Students will not be eligible to receive future Title IV funds until they have repaid these funds or made satisfactory repayment plans with the Department of Education. Students also may owe repayments to the school if the amount from the school refund policy is not enough to cover the school's portion of the Department of Education's repayment policy.

Refunds for students who receive aid other than Title IV funds will be based on a "fixed priority allocation." The full amount received under each program is returned in priority order until the refund amount is exhausted. The amount returned to a specific program cannot exceed the amount the student received from that program. The following listing indicates the priority in which programs will be refunded:

Non-Title IV Refund Priority: Installments; Emergency Tuition Loan (TPEG Loan); Sponsored Students Source; TPEG; Departmental Budgeted Funds; Restricted Scholarship Funds; Student.

Refunds - Students on Installment Plans

Refunds are calculated as a percentage of total fees assessed, not as a percentage of partial payments on installments. Questions regarding refunds should be directed to the cashier in the Business Office.

Academic Regulations

Drops and Withdrawals

Dropping Courses

From first class day to census day, a student wishing to make a schedule change or drop a class will meet with an academic advisor. After the census date, students will meet with or contact their instructor to discuss their progress in the class. After coaching and discussing student progress, if the student wishes to drop the course the instructor will complete the online drop form. **Dual Credit (DUHS) and Early College High School (ECHS) students wishing to drop a class must refer to their high school counselors for advising.**

Prior to dropping a course, students should meet with their advisors. (See also Six Drop Rule) It is the student's responsibility to initiate dropping a course by the drop deadline published in the Academic Calendar.

For refund purposes the effective drop date is the date indicated on the online drop form, which should be the date the student contacted the instructor. The student, instructor, cashier, and admissions will receive a confirmation email.

Six Drop Rule

Limitations on the Number of Courses that may be Dropped by Undergraduate Students: Legislation passed by the Texas Senate (SB 1231) in late spring 2007 could seriously impact your college career.

Under Section 51.907 of the Texas Education Code, “an institution of higher education may not permit a student to drop more than six courses, including any course a transfer student has dropped at another institution of higher education.” This statute was enacted by the State of Texas and applies to students who enroll in a public institution of higher education as a first-time freshman in the fall of 2007 or later. Any course that a student drops is counted toward the six-course limit if “(1) the student was able to drop the course without receiving a grade (A, B, C, D, F, S, U or Q) or incurring an academic penalty; (2) the student’s transcript indicates or will indicate that the student was enrolled in the course [signified by a ‘QL’ grade at Lamar State College Orange (LSCO)]; and (3) the student is not dropping the course to withdraw from the institution.”

This statute applies to all Texas public colleges and universities. Therefore, an LSCO student affected by this statute that has attended or plans to attend another institution of higher education should become familiar with that institution’s policies on dropping courses.

All courses dropped will automatically count toward the six-drop limit unless:

- The drop or withdrawal occurs before the 12th class day (census day) for a fall and spring semester, 4th class day (census day) for a summer term and 1st class day for a mini session.
- The drop is exempt from the rule.
- The student receives an exception to the six drop rule authorized by the Office of the Registrar.

Once you reach your six-drop limit, you must remain on the class roster unless you request and receive approval for a six-drop exception.

Exemptions

The following are exempt from the six-drop limit:

- Students who entered college before Fall 2007.
- Co-enrolled high school students (dual credit).
- Credit by examination or other method that does not require registration in a course.

- Remedial, developmental education or other courses such as continuing education courses that do not apply to a degree. Drops that require co-requisite enrollment such as a lecture class with a required laboratory are counted as one drop.
- Courses taken at private or out-of-state colleges or universities (transfer work that is not from a public Texas state institution).
- Those in which a punitive, non-completion grade is received (i.e., "I" Incomplete Grade).
- Those resulting from documented college error.
- Complete withdrawal from all courses.

Exceptions

Students may request a Lamar State College Orange course not count toward the six-drop limit. The College allows the following exceptions.

- Severe illness/debilitating condition of student or close family member. Statement from doctor required.
- Death of close family member or another person who is otherwise considered to have a sufficiently close relationship: Death certificate or obituary from newspaper.
- Care of sick, injured, or needy: 1) Statement from doctor regarding illness of the person being cared for. 2) Statement from the sick, injured, or needy person regarding the student's role as the caregiver or in case of a child, statement from the student.
- Active military duty service with the Texas National guard or other armed forces by the student, a family member, or a person who has a sufficiently close relationship: Orders from service.
- Change in work schedule that is beyond the control of the student: Letter from employer.
- Incorrect course placement based on assessment error. Advisor documentation will be requested.
- Instructor or classmate incompatibility.
- Challenging circumstances, including language barriers and disabilities. Advisor documentation will be requested.
- Other circumstances not covered by legislated exceptions. - Student must write a letter regarding reason and attach to form. **Other reasons will be reviewed by the institution and additional documentation may be required*
- Other "good cause," as determined by the college. **Other reasons will be reviewed by the institution and additional documentation may be required*

Exception Request Process

Students have three months following the end of the semester or session to officially request an exception to the six-drop limit. You should meet with an advisor before requesting a Six-Drop Limit Exception Request.

Advisors or Students can request the Six-Drop Limit Exception form by emailing Admissions@lsco.edu.

A committee composed of faculty, administrators, and advisors will review requests that do not fit circumstances specifically listed.

Reinstatement to Class

A student may be reinstated to class upon written approval by the major instructor of the course and the instructor's associate dean/dean or the Executive Vice President/Provost for Academic and Student Affairs. The request must be made through the Office of Admission and Records.

Instructor Initiated Drop

When absences, other than approved absences, interfere with the student's performance, the instructor may

recommend to the division dean that the student be dropped from the course. In the case of an instructor initiated drop, the advising office will be notified. In the event the student has accumulated six drops and the drop is not eligible for an exemption to the rule, the instructor will not be able to drop the student. In this instance the student will have to receive the grade they have earned.

Withdrawals

Students wishing to withdraw from all classes must meet with or contact their program director/associate dean/dean to discuss their desire and reason for withdrawing. After coaching and discussing if the student wishes to withdraw from the college, meaning they wish to drop all their courses, the program director/associate dean/dean will complete the online withdrawal form. **Dual Credit (DUHS) and Early College High School (ECHS) students wishing to withdrawal from the college must refer to their high school counselors for advising.** Students must clear all financial obligations and return all books, laboratory equipment, and other materials. For refund purposes the effective withdrawal date is the date listed on the online withdrawal form, which should reflect the date the student contacted the program director/associate dean/dean.

The student, instructor/program director, cashier, financial aid, library, and admissions will receive a confirmation email. The cashier, financial aid, and library will communicate directly with the student via mylsco.edu email regarding any money due and holds placed on the account.

The Business Office will return such fees as are refundable according to the schedule shown under "Fees".

A student may not withdraw after the published deadline. A student who leaves without officially withdrawing will receive a grade of "F" in all courses, will forfeit all refundable fees, and is not relieved of outstanding financial debts.

Prior to withdrawing from classes students should meet with an advisor.

Backdated Drop or Withdrawal Policy

Student Petition for Backdated Drop or Withdrawal

A student may petition for a Backdated Drop from a course(s) or Withdrawal from the College (all courses taken during a term or session) if circumstances of a serious and compelling nature prevented the completion of course work and extenuating circumstances prevented a drop or withdrawal by the deadlines on the Academic Calendar. If submitting a backdated drop, withdrawal from all courses taken during the term in question is normally expected since extenuating circumstances are not course specific. Backdated drop or backdated withdrawal requests will not be considered for classes in which students have completed the grade appeal process.

Within 30 calendar days of the last day of final exam period, a petition for an academic backdated drop or withdrawal (all classes for a term) will be considered by the Registrar or designate upon the receipt of a request that is supported by documentation verifying the health reasons or compassionate grounds that prevented the student from withdrawing from the course by the withdrawal deadline. Requests cannot be made for courses in which the final exam (or equivalent) has been completed. Requests submitted without supporting documentation, or incomplete requests, will not be considered. Requests submitted outside 30 calendar days will not be considered.

Nothing in this section prevents the College from accommodating students with disabilities who have been unable to comply with the deadline due to their disability. A student with disabilities requesting accommodation considerations should work directly with the Accessibility Coordinator to determine what form of accommodation is available.

Requests for backdated drop and withdrawal can be made by requesting the form from Admissions@lsco.edu. All completed requests are considered, and a decision is rendered by the Registrar (or designate) within 15 calendar days of receipt of the petition.

Students wishing to appeal against the decision of the Registrar must refer the matter to the Instructional Deans. When appropriate, the grade NW (Not Withdrawn) may be assigned by the Registrar (or designate) within the specified appeal period and when supporting documentation is supplied by the student.

Deadlines to drop or withdraw from a course without academic penalty are published in the academic calendar.

Please note, a back dated drop or withdrawal may affect Financial Aid disbursements. Please contact Financial Aid Department for additional information.

Dual Credit Petition for Backdated Drop or Withdrawal

The Dual Credit Team will petition for a backdated drop or withdrawal on behalf of the student within 30 calendar days of the last day of final exam period if notified by the counselor that the student was dropped or withdrawn from all classes before last day to drop for the term and the communication was not processed. The Backdated Drop or Withdrawal Petition Form is found on Blackboard. Documentation will be required when submitting this petition. Requests cannot be made for courses in which the final exam (or equivalent) has been completed. Email requests or requests submitted without supporting documentation, or incomplete requests, will not be considered. Requests submitted outside 30 calendar days will not be considered.

Faculty or Advisors Petition for Backdated Drop or Withdrawal

Faculty or advisors may petition for a backdated drop or withdrawal on behalf of the student within 30 calendar days of the last day of final exam period if a student requested to be dropped or withdrawn from all classes before last day to drop for the term and the communication was not processed. The Backdated Drop or Withdrawal Petition Form is found on Blackboard. Documentation will be required when submitting this petition. Email requests or requests cannot be made for courses in which the final exam (or equivalent) has been completed. Requests submitted without supporting documentation, or incomplete requests, will not be considered. Requests submitted outside 30 calendar days will not be considered.

All completed requests are emailed to the Instructional Dean and Registrar. All requests are considered, and a decision is rendered by the Registrar (or designate) within 15 calendar days of receipt of the petition.

Grades and Graduation

Final Grades

Final grades are available at all times by logging into MyGator/Gator Self-Service via www.lsco.edu with username and password. Instructions on how to access grades via MyGator/Gator Self-Service are available in the Lamar State College Orange Registration Guide that can be accessed online at www.lsco.edu.

Disputing an Earned Grade

Grade determination and awarding of grades in a course are the responsibility of the instructor and should be calculated according to college policy, procedures, and written details provided in the course syllabus. NOTE: Final grades are available to students within 48 hours of the instructor posting the grade in Banner. Students may view final grades by logging into MyGator and then accessing Gator Self-Service.

The process of disputing an earned grade is afforded to students who desire to dispute a grade they earned in cases where the grade assigned is in conflict with guidelines outlined in the Course Syllabus. If an informal conference with the faculty member regarding a grade dispute fails to reach the outcome requested

by the student, the student may initiate the formal complaint process outlined in the “Complaints” section of this Catalog. Even after initiating the formal complaint process, students are encouraged to seek informal resolution of their concerns. A student whose concerns are resolved may withdraw a formal complaint at any time.

The protocol for disputing a grade is described in the “Complaints” Section of this Catalog.

Grading System

A	Excellent	S	Satisfactory
B	Good	U	Unsatisfactory
C	Satisfactory	NG	No grade
D	Poor	Q	Dropped course (does not count in 6-drop limit)
F	Failing	QL	Dropped course (counts in 6-drop limit)
I	Incomplete	W	Withdraw from all classes

The grade of "Q" or "W" is given if the drop or withdrawal is made before the due date.

Incomplete

The grade of "I" may be given when any requirement of the course, including the final examination, is not completed. Students seeking an incomplete should have completed 75% of the course requirements and be passing the course at the time of the request. Arrangements to complete deficiencies in a course should be made with the instructor. The instructor will complete the online incomplete form, the student, instructor and Dean receive a copy of the form. Incomplete work must be finished during the next long semester. If not, the Office of Admission and Records must change the "I" grade to the grade of "F." The course must then be repeated if credit is desired.

An "I" grade also becomes an "F" if the student registers for the course prior to removing the deficiencies and receiving a grade change. The instructor may record the grade of "F" for a student who is absent from the final examination and is not passing the course.

Grade Changes

A grade may not be corrected or changed without the written authorization of the instructor giving the grade; or, in the event that an instructor is no longer employed by Lamar State College Orange, the Executive Vice President/Provost for Academic and Student Affairs may authorize a grade change after reviewing grade records. The grade change should include a statement explaining the reason for the change and must be provided to the program director/ (if applicable) and dean. The instructor will follow the grade change online form process. The student, instructor, program director/ (if applicable), and dean will receive a confirmation email. The Office of Admissions and Records will receive the grade change information via email for processing.

Grade Replacement

Students may replace a course grade by repeating the same course as specified by the exact same course rubric and course number. If a student repeats a course, the official grade is the higher one, although all grades remain on the student's transcript. A grade, once earned and entered on a student's transcript, cannot be removed. The grade for repeating a course at another institution cannot be transferred to replace a grade for a Lamar State College Orange course. Eligibility for all College honors will be determined on the basis of a cumulative GPA that includes all grades earned at Lamar State College Orange, including those that were replaced. Any student who wishes to repeat a course must do so before completing a more advanced course in the same subject. The division dean of the department offering the course will determine what constitutes a more advanced course. This policy does not apply to classes repeated before the fall of 2011. Once a degree has been conferred, a student may not use the *Grade Replacement* for any courses used to award a degree or calculate the cumulated grade point average.

Grade Point Average Computation

The grade point average is a measure of the student's overall academic performance and is used in the determination of academic standing, rank in class, eligibility for graduation, etc. To compute a grade point average, grade points are assigned to a letter as follows: "A," 4 points; "B," 3 points; "C," 2 points; "D," 1 point; and "F," "I," "S," "NG," "Q," "U," and "W," 0 points. The number of grade points earned in a course is obtained by multiplying the number of semester hours of credit by the number of points assigned to the letter grade made in the course.

The grade point average is calculated by dividing the total number of grade points earned by the total number of semester hours attempted in courses for which the grades "A," "B," "C," "D," "F," and "I" are assigned. Thus, for grades "S," "U," "NG," "W," and "Q," neither semester hours nor grade points are used in the computation of the grade point average. Hours attempted reflect all work taken, whether passed, failed or repeated.

Beginning spring 2010 with the implementation of a new student system LSCO modified the academic transcript. Undergraduate academic and undergraduate technical careers are combined into one undergraduate level on one undergraduate transcript. Students with questions regarding their grade point average computation should be directed to the Office of Admission and Records.

Dean's List

At the end of each semester, the Office of Admission and Records prepares a list of all full-time (those who completed 12 or more semester hours) students who have earned a grade point average of 3.4 or above for that semester. Students will receive a letter and notation on their transcript.

President's List

At the end of each semester, the Office of Admission and Records prepares a list of all full-time (those who complete 12 or more semester hours) students who have earned a grade point average of 4.0 for that semester. Students will receive a letter and notation on their transcript.

General Graduation Requirements

Associate of Science and Associate of Arts Degrees

Students must meet the following requirements for an AS or AA or AAT degree:

- satisfy all admission requirements;
- have twenty-five (25) percent of the total semester hours required in residence at Lamar State College Orange with a minimum of fifteen (15) hours taken from LSCO;
- attain 2.0 GPA (grade points/hours attempted) on all coursework completed at LSCO;
- attain no lower than a grade of "C" in each and every class in their major fields of study (concentration);
- have all transfer work evaluated on a credit basis only; transfer work will not be used to determine the LSCO GPA (credit will be awarded for a transfer grade of "D"; however, if the transferred course is on the degree plan under the major field of study, a grade of "C" must be attained);
- complete the required core curriculum;
- complete the associate of science or the associate of arts degree program as prescribed;
- have no more than a total of fifteen (15) semester hours of credit by correspondence (maximum of 9) and/or credit by examination combined; and
- complete the E Proficiency Profile.
- pass all college level math, college level reading, and college level writing courses; if the college level math, reading, or writing course is within the major field of study (concentration), a grade of at least a "c" is required.

Note: College prep (developmental) courses do not apply to any degree or certificate.

Associate of Applied Science Degrees

Students must meet these requirements for an AAS degree:

- satisfy all admission requirements;
- have twenty-five (25) percent of the total semester hours required in residence at Lamar State College Orange with a minimum of fifteen (15) hours taken from LSCO;
- attain 2.0 GPA (grade points/hours attempted) on all coursework completed at LSCO;
- attain no lower than a grade of "C" in each and every class in their major fields of study (concentration);
- have all transfer work evaluated on a credit basis only; transfer work will not be used to determine the GPA (credit will be awarded for a transfer grade of "D"; however, if the LSC-O transferred course is on the degree plan under the major field of study, a grade of "C" must be attained);
- complete at least fifteen (15) credit hours of general education courses with a minimum of three credit hours in each of the following: natural science/mathematics, humanities/fine arts, and social sciences/behavioral sciences;
- Complete the associate of applied science degree program as prescribed; and
- have no more than a total of fifteen (15) semester hours of credit by correspondence (maximum of 9) and/or credit by examination combined.
- be TSI complete in Reading, Writing, and Mathematics

Note: College prep (developmental) courses do not apply to any degree or certificate.

Certificates of Completion

Students must meet these requirements for a certificate of completion:

- satisfy all admission requirements;
- complete an approved certificate or institutional award plan;
- have at least a 2.0 grade point average overall submitted on all certificates or institutional award plans with the exception of the General Studies Certificate;
- attain no lower than a "C" in each and every class in the major field of study; and
- complete at least 25% of the certificate's semester credit hours in residence at Lamar State College Orange.

Note: College preparatory (developmental) courses do not apply to any degree or certificate.

****All certificate programs with 42 credit hours or more or level 2 certificate programs with 30 credit hours or more offered at LSCO are subject to the testing requirements of the Texas Success Initiative (TSI).**

Awarding Backdated Degrees and Certificates Policy

All backdated requests for awarding degrees and certificates must be received no later than 50 calendar days (including weekends and holidays) after the end of term of successful completion. This will ensure that reporting of degree is done within the 60-day period outlined in federal regulations.

Within the appropriate timeframe students can request a review of their audit to determine if they were eligible to graduate and not awarded by emailing Graduation@lsco.edu. The Graduation Clerk will review their audit and determine if they were in fact eligible and missed.

Process

Eligible for Degree and Certificate Backdated Award

If the student is found to be eligible within the 50 calendar days following the end of term of successful completion, the graduation clerk will notify the student that their degree or certificate will be awarded for the previous term, give them the opportunity to walk at the next commencement ceremony and notify the Registrar, Director of Institutional Research and Effectiveness, Director of Financial Aid, and Student Services Specialist (Admin to Dean of Student Services) that the student has been awarded, providing the term and date the backdated award was completed.

The Registrar will use the information provided to update the student on the National Student Clearinghouse website within the 60-day period outlined in federal regulations.

Ineligible for Degree or Certificate Backdated Award

If the request is received on the 51st day, the graduation clerk will review the audit to determine eligibility. If ineligible, the graduation clerk will notify the student that he or she can be awarded at the end of term because we are past the date of backdating. The graduation clerk will add the student to the list of eligible for the new term, set the student up to apply for graduation, and provide student with guidance on what to expect.

Graduation with Honors

To be designated as an honor graduate, a student must:

- have completed at least 30 semester hours at Lamar State College Orange; and
- have a grade point average of at least 3.5 for all coursework attempted at Lamar State College Orange. Only course work attempted at Lamar State College Orange will be included in the grade point average calculations for honors. Transfer course work will not be included in the calculation of GPAs for honors. All grades earned at the undergraduate level at Lamar State College Orange will be considered for graduation honors – including those otherwise exempted by Academic Fresh Start, Academic Appeals, or Grade Replacement.

A grade point average of 3.5-3.64 qualifies a student for "honors" (cum laude), 3.65-3.79 for "high honors" (magna cum laude) and 3.80-4.00 for "highest honors" (summa cum laude).

Grades earned the semester of graduation are included in the calculation of grade point averages for honors. Both diplomas and permanent records indicate graduation honors.

Awarding Multiple Certificates and Associate Degrees

While students may earn multiple certificates and associate degrees according to the guidelines listed below, they will not be awarded the same certificate or associate degree more than one time, even if the student repeats the coursework after initially earning the certificate or degree.

A student wishing to graduate with multiple degrees may do so under the following conditions:

- Each degree must be unique; a student may not receive the same degree or certificate twice from Lamar State College Orange.
- A student can graduate with up to four types of degrees as follows:
 - Associate of Arts (AA),
 - Associate of Science (AS),
 - Associate of Applied Science (AAS)—multiple AAS degrees allowed if each degree is of a distinct and separate major,
 - Associate of Arts in Teaching (AAT),
- Each degree must consist of fifteen (15) additional hours beyond the first degree plan completed in residence at Lamar State College Orange with a GPA of 2.0 or better. These hours may be taken concurrently allowing the simultaneous conferring of both degrees.

Completed Degree Requirements Without Applying for Graduation

The College reserves the right to confer a certificate and/or degree to students who complete all requirements and coursework for a degree or certificate without applying for graduation. Lower-division credits transferred back to Lamar State College Orange from a university or degree that apply to a student's LSCO degree requirements (reverse transfer) may be posted to a student's transcript.

Graduation under a Particular Catalog

A student normally is entitled to graduate under the degree provisions of the catalog in effect at the time of the first completed semester of enrollment with this exception: a catalog more than seven years old shall not be used (unless state law or state guidelines prohibit the practice).

The program of the student who interrupts enrollment for reasons other than involuntary military service for more than one calendar year shall be governed by the catalog in effect at the time of the student's re-entry to the college. The student who interrupts enrollment for involuntary military service must re-enroll within one year from the date of separation from military service in order for this provision to apply. For these purposes, enrollment shall be defined as registration for and successful completion of at least one course during an academic term. A student forced to withdraw for adequate cause before completion of a course may petition for a waiver of this provision at the time of withdrawal.

Important note: The program of the student who changes a major from one department to another within the college shall be governed by the degree requirements in effect at the time the change of major becomes effective.

At the discretion of the division dean, the student will be required to comply with all changes in the curriculum made subsequent to the year in which the student was enrolled. Deletions and additions of courses will be of approximate equal credit so that no student will have an overall appreciable increase of total credits required for graduation.

Graduate Guarantee Policy

Lamar State College Orange guarantees that students who successfully complete two-year programs of study in technical fields will have the job skills for entry-level employment in the occupational fields for which they have been trained. Graduates with associate of applied science (AAS) degrees who are judged by their employers to lack these basic skills will be entitled to a maximum of twelve (12) additional credit hours of tuition-free training in their field of study.

The following conditions apply:

- The graduate must have earned the AAS degree beginning May 1993 or thereafter in a technical, vocational or occupational program published in the college catalog.
- The graduate must have completed the AAS degree at Lamar State College Orange with a minimum of 75 percent of the necessary credits earned at Lamar State College Orange and must have completed the degree program within a four-year time span from the date of initial enrollment.
- Graduates must be employed full-time in job fields directly related to their AAS programs of study as certified by the appropriate academic officer.
- Employment must commence within 12 months of graduation.
- The employer must certify in writing that the employee is lacking entry-level skills identified by Lamar State College Orange as program exit competencies and must specify the areas of deficiency within 90 days of the graduate's initial employment.
- The employer, graduate, division dean, and other appropriate academic officers will agree upon a written plan for educational retraining. Retraining will be limited to 12 credit hours related to the identified skill deficiency and to those classes regularly scheduled during the period covered by the retraining plan.
- All retraining must be completed within a calendar year from the time the educational plan is agreed upon.
- The graduate and/or employer are responsible for all costs associated with enrollment except tuition. This includes fees, books, insurance, uniforms and other course-related expenses.
- The guarantee does not imply that a graduate will pass any licensing or qualifying examinations for a particular career.
- A graduate's sole remedy against the institution and its employees for skill deficiencies shall be

limited to 12 hours of tuition-free education as outlined under the conditions described above.

- A request to implement the graduate guarantee policy can be initiated through a written contract with the President's Office within 90 days of the graduate's initial employment.

Policies and Procedures

Academic Fresh Start

Under the provisions of the Texas Education Code (TEC), Section 51.931, the Academic Fresh Start program was established to allow a Texas resident to apply for admission and elect to have all academic course work earned ten (10) or more years prior to the start date of the semester in which the applicant seeks to enroll ignored for admission purposes. Individuals who choose Academic Fresh Start, including former Lamar State College Orange students, must submit Academic Fresh Start paperwork prior to being admitted, must meet current published admission criteria for Lamar State College Orange, and must submit official records from all colleges attended.

Students admitted under this provision will not receive any course credit for courses taken ten (10) or more years prior to the start date of the semester in which the applicant seeks to enroll, but any course work completed within the last ten (10) years will be used for admission and course credit. All course work will remain on the student's record. Admission under Academic Fresh Start does not change a student's financial aid obligations for courses not considered for admission purposes. The Academic Fresh Start Program does not apply to the Standards of Academic Progress for financial aid applicants. Therefore, the student must check with the financial aid office to confirm impact of Academic Fresh Start.

Students electing to seek admission to Lamar State College Orange under the provisions of TEC 51.931 may not choose which credit hours are to be counted or ignored. All undergraduate course credits or grades earned by the applicant ten (10) or more years prior to the start date of the semester in which the applicant seeks to enroll shall be ignored if the student makes use of this policy.

Students will be required to complete the Academic Fresh Start request form and acknowledge the following provisions of the policy:

- a. Courses removed from consideration under provisions of the Academic Fresh Start program shall not be removed from the student's transcript. Instead, the LSCO transcript shall note that these courses shall not be considered for any academic purpose (cumulative GPA, academic standing, honors designation, and/or progress to graduation) under the provisions of TEC 51.931 and this policy statement.
- b. Participation in the Academic Fresh Start program may have implications for financial aid, veteran's benefits, and the cost of tuition. The applicant bears sole responsibility for investigating such implications prior to signing the agreement.
- c. The Academic Fresh Start program may be used only once in a student's academic career at LSCO.

Applicants shall be required to sign a copy of the attached agreement in the Office of Admissions if they elect to use the Academic Fresh Start program under the provisions of TEC 51.931 no longer than 10 days prior to the start date of the semester in which the applicant seeks to enroll.

Academic Honesty

The college does not tolerate cheating or plagiarism. Cheating involves either giving assistance to another student or receiving assistance from another student during a quiz, test, examination or other individual assignment unless the instructor has explicitly permitted such assistance.

Academic dishonesty and cheating include, but is not limited to:

- Submitting material that is not the student's as part of the student's course performance;
- Using information or devices that are not allowed by the faculty;
- Obtaining and/or using unauthorized materials;

- Fabricating information, research and/or results;
- Violating procedures prescribed to protect the integrity of an assignment, test, or other evaluation;
- Collaborating with others on assignments without the faculty's consent;
- Cooperating with and/or helping another student to cheat; and/or
- Demonstrating any other forms of dishonest behavior.

Plagiarism means "to take and use as one's own the writings or ideas of another" (*American Heritage Dictionary*). Before submitting any paper for any course at the college, the student must acknowledge each source used consciously, whether published or unpublished. Even an idea presented in the student's own words but consciously taken from a source must be acknowledged. In addition, quotation marks (or indenting) must set off phrases or longer passages copied verbatim. Each instructor will explain any special means required to avoid plagiarism in his or her own field.

Plagiarism includes, but is not limited to:

- Directly quoting the words of others without using quotation marks or indented format to identify them;
- Using sources of information (published or unpublished) without identifying them;
- Paraphrasing materials or ideas without identifying the source; and/or
- Unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic material.

The assignment of grades is the responsibility of the instructor. Thus, if the instructor determines that a student's work has been intellectually dishonest, the instructor may award the student an "F" for the course or for the specific task determined to have been dishonestly accomplished. Such action will be preceded by a meeting with the student to provide an occasion for refutation, explanation or mitigation. In cases where the faculty member and student cannot reach agreement, and after consultation with the division dean, the student may make a written appeal to the Executive Vice President/Provost for Academic and Student Affairs within five school days of the meeting with the faculty member.

The faculty member's charge must include an academic penalty, the most severe being removal from the course with a grade of "F." Additionally, LSCO may propose an institutional sanction in repeated or blatant cases of academic dishonesty. A student involved in an appeal of an intellectual dishonesty case has the right to remain in class until a decision is made. A student who is found in violation of intellectual dishonesty loses his or her right to withdraw voluntarily from the course in which cheating occurred.

Disciplinary Procedures for Academic Dishonesty

Academic Process

All academic dishonesty cases may be first considered and reviewed by the faculty member. If the faculty member believes that an academic dishonesty has occurred, he/she shall adhere to the process formalized in the course syllabus. Students disputing the decision of the instructor, alleging they are not being applied consistent with the syllabus, should follow the procedures outlined in the student complaints section.

Disciplinary Process

In the case of flagrant or repeated violations, the Dean of Student Services may take such additional disciplinary action as he/she deems appropriate.

Academic Probation

Students are expected to make satisfactory academic progress toward their degree objectives. A "C" is the minimum satisfactory grade and a "C" average (2.0 GPA) constitutes satisfactory performance. The cumulative grade point average is based only on course work at Lamar State College-Orange for which the student earns the grade of A, B, C, D or F. The marks of Q, W, NG, XC or U are not counted as hours attempted in figuring the cumulative grade point average.

A student is placed on probation after the first long semester in which a student's institutional cumulative GPA falls below 2.0, limiting enrollment to 12 credit hours during the subsequent semester. Students on academic probation whose institutional term GPA is a 2.0 or higher will be allowed to continue on probation until the institutional cumulative GPA reaches 2.0 or higher. Students on academic probation must see an academic advisor to be advised and registered for classes each semester until they are off probation. If, after one semester on probation, a student fails to raise their cumulative GPA above 2.0, the student will be limited to enrolling in 7 credit hours during subsequent semesters until the cumulative GPA reaches 2.0 or higher.

Academic probation is assessed at the end of the Fall and Spring semesters.

Artificial Intelligence (AI)

Students should use Artificial Intelligence (AI) technology responsibly and ethically. This includes refraining from using AI to engage in harmful or unethical activities, such as generating false information, spreading misinformation, or engaging in malicious behaviors. The use of AI should align with the principles of academic integrity, honesty, and respect for others. Students are responsible for adhering to LSCO's Academic Honesty policy found on LSCO's website: www.lSCO.edu/policies/ai-policy.php

Change of Major

Students wishing to change their major must meet with their Advisor who will request a change of major on their behalf. Please allow 24-48 hours for the change to occur. Changing curriculum/major may impact eligibility for financial aid, scholarships and veteran funds. Students receiving any type of financial assistance should contact financial aid prior to changing their major.

Changing Schedules

Once classes have started, all section changes, adds, and drops must be approved by either the advisor, the division dean, Advising and Counseling Center personnel, or the Registrar. A course may not be added after the first week of a long semester or the first two days of a summer session. Students may change their schedules by dropping and/or adding course sections during the period designated for changes in the class schedule (see the academic calendar for the specific date).

Students wishing to make schedule changes may meet with an Academic Advisor on the 1st floor of the Ron E. Lewis Building. Students wishing to drop a class prior to the census date (4th class day – for summer terms, 6th class day - for 8wk sessions, and 12th class day – full terms) can do so by meeting with an Academic Advisor without financial or academic penalty.

After census (4th class day – for summer terms, 6th class day - for 8wk sessions, and 12th class day – full terms) please contact your Instructor to drop a class or your Program Director to withdraw from the college. You may contact them via email, in person or by telephone.

Class Attendance

Students must attend classes regularly and punctually to achieve their educational objectives. Therefore, instructors shall formulate and state in course syllabi attendance policies that best support student success. The college would prefer that faculty keep an accurate attendance record throughout the course.

When an instructor intends to use class participation as a grading criterion in a course, it shall be so stated in his/her course syllabus in objective measures. While attendance may be reflected in the instructor's evaluation of a student's class participation or affect a student's performance on other graded material or skills, attendance (or lack of attendance) in class should not be used as a sole criterion in determining a student's grade in a course.

The Office of Student Services maintains a list of college-sponsored extra-curricular activities. Instructors may or may not approve college-sponsored student absences. Instructor-approved absences entitle students to make up exams and written assignments without penalty.

Students with absences approved by the instructor for LSCO-sponsored activities should present properly completed college-sponsored absence forms to their instructors prior to the absence, if possible. If this is not possible, students should present the forms as soon as they return to class.

Students may request the Office of Student Services to notify faculty members prior to or during an extended absence due to personal or family illness, accident, hospitalization, etc. This notification does not require the instructor to regard the absence as excused; however, it does explain to instructors why a student is absent and when he/she will return to class.

Classification of Students

Students are classified as freshmen, sophomores and post-baccalaureate. For the purpose of determining eligibility to hold certain offices and for other reasons, officially enrolled students are classified as follows:

- Freshman: has met all entrance requirements but has completed fewer than 30 semester hours;
- Sophomore: has completed a minimum of 30 semester hours with 60 grade points;
- Post-baccalaureate: holds a bachelor's degree but is not pursuing a degree program.

Course Numbering

Lamar State College Orange uses the state approved Texas Common Course Numbering System for all academic courses. Each academic course has a letter code and/or numerical code. The letters are an abbreviation for the subject. For example, ENGL indicates an English course. Most courses meet three hours each week and have a credit value of three semester hours. Each number contains three or more figures:

- The first number indicates the rank of the course: 1, freshman level; 2, sophomore level.
- The second number indicates the number of semester hours of credit.
- The last number(s) indicates the order in which the course normally is taken.

Applied music courses are numbered so the second number indicates both semester hours of credit and number of private lessons each week.

Eligibility for Extracurricular Activities

An extracurricular activity is understood to be any non-class-related activity representing the student body, a student organization, a department or division organization or any such activity representing the college.

Any full-time student not on disciplinary or scholastic probation who is officially registered is eligible to become a candidate and/or to hold student office. In some cases, part-time students are also eligible to hold office. Any full-time or part-time student not on disciplinary or scholastic probation is eligible to represent the college in any extracurricular activity provided the student has a grade point average of at least 2.0 for both the whole of college work completed at Lamar State College Orange and for the preceding semester.

For the purpose of establishing eligibility, two six-week summer terms may count as one semester.

Transfer students have the same eligibility as freshman students until completion of one semester at Lamar State College Orange.

Full-Time Student Status

During the fall, spring, and summer semesters, a full-time student is one who is enrolled for at least twelve hours of courses, including both credit and college prep courses. Full-time status may be required of some students, depending upon financial aid or scholarship status. Some students are also required to be full-

time if covered under parental health insurance.

Part-Time Student Status

Any undergraduate student who carries fewer than twelve (12) semester hours during an academic semester is classified as a part-time student. A student carrying nine to 11 hours is considered to be three-quarter-time, and a student carrying six to 10 semester hours is considered to be half-time.

Maximum Course Loads

A regular load during a fall or spring semester is 15 to 18 semester hours; a six-week summer semester load is six to eight semester hours; 8-week session load is six to nine hours. Overloads (more than 18 credit hours) over the course of a long 16-week semester must be approved by the Executive Vice President/Provost for Academic and Student Affairs. No student will be allowed to enroll for more than 21 semester credit hours, regardless of the number of grade points earned the preceding semester.

Working students are cautioned to consider the number of semester hours in relation to the number of hours per week of employment. It is not realistic for students employed on a full-time basis to enroll in college on a full-time basis. Full-time student status is achieved when a student enrolls for 12 or more semester hours over a long semester or six or more semester hours in the summer session. A guideline to keep in mind is that it is usually necessary to spend at least two hours of preparation and study for every hour spent in class.

Minimum Class Enrollment

The college reserves the right not to offer any courses listed in the class schedule if fewer than 10 students register for the course.

New Courses

In order to meet changing educational requirements, the college reserves the right to add any needed courses at any time without regard to the listing of such courses in the catalog.

Observance of Religious Holy Days

A student who misses an examination, work assignment or other project because of the observance of a religious holy day will be given the opportunity to complete the work missed within a reasonable time after the absence. The student may not be penalized for these excused absences unless the student fails to complete satisfactorily the missed assignment or examination within a reasonable time after the excused absence. The student notifies the instructor of each class scheduled on the date that the student would be absent for a religious holy day. Arrangements must be made with the instructor in advance. This policy does not apply to any student absence which may interfere with patient care.

A "religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under *Section 11.20* of the *Tax Code*.

Reverse Transfer

Lower-division credits transferred back to Lamar State College Orange from a university or degree that apply to a student's LSCO degree requirements (reverse transfer) may be posted to a student's transcript. The College reserves the right to confer a certificate and/or degree to students who complete all requirements and coursework for a degree or certificate without applying for graduation.

Students are eligible for reverse transfer if they have earned 30 credits from Lamar State College Orange, transferred from Lamar State College Orange to a four-year college or university, and have earned a cumulative total of at least 66 credits hours for course work successfully completed.

Semester Credit Hour Policy

Lamar State College Orange (LSCO) has adopted a measure of academic credit known as the semester credit hour. This unit is the primary academic measure by which progress toward a degree, diploma, or certificate is gauged. In accordance with federal regulations, LSCO's process for assigning credit hours to courses is based upon minimum academic activity for students to achieve intended learning outcomes as verified by evidence of student achievement.

Purpose

The purpose of LSCO's Semester Credit Hour policy is to ensure accurate academic measurement; comparability across programs, campus locations, and institutions; and compliance with federal requirements.

LSCO conforms to commonly accepted standards in determining the amount and level of semester credit awarded for its courses by adhering to Texas Higher Education Coordinating Board (THECB) and Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) policies.

1. The THECB Policy, as outlined in Texas Administrative Code, Title 19, Part 1, Chapter 4, Subchapter A, [rule 4.6](#), states that “a *traditionally-delivered three-semester-credit-hour courses should contain 15 weeks of instruction (45 contact hours) plus a week for final examinations so that such a course contains 45 to 48 contact hours depending on whether there is a final exam.*”
2. In its policy [statement](#) on credit hours, SACSCOC defines a credit hour as “*an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time.*”

Definition

The definition of a semester credit hour at LSCO is consistent with THECB and SACSCOC policies. *The unit of measure for credit purposes is the semester credit hour. The unit of measure is attached to academic courses, usually reflecting the number of lecture hours per week a course meets in a fall or spring semester. When defining a semester credit hour of instruction, LSCO adheres to the commonly used Carnegie unit of measure, in which fifty minutes of instruction equates to one hour. Two or more hours of laboratory work are counted equivalent to one classroom hour. For laboratory work that requires reports to be written outside of class, two clock hours are usually counted as one semester hour. This definition specifically applies to 16-week traditional terms.* The semester credit hours for courses that are taught in a term length other than 16 weeks are prorated according to the ratio of the specific semester length compared with the 16-week framework.

At LSCO, each semester credit hour of instruction courses offered in 16-week terms consists of approximately one hour of classroom or directed faculty instruction. In addition, students are expected to complete a minimum of two hours of "out of class" academic activity each week for each credit hour of instruction. A credit hour is granted for approximately two hours of laboratory instruction and approximately three hours of work-based experiential learning (e.g., supervised internship).

LSCO's academic calendar is comprised of 16-week fall and spring semesters which contain 3-semester credit hour courses that meet an expected 3 hours of instruction each week throughout the 16-week semester. The most common course scheduling blocks within the traditional 16-week fall and spring semesters for a 3-semester credit hour course are:

- Three days per week, one hour meeting times (e.g., Monday/Wednesday/Friday 9-10)
- Two days per week, one and half hour meeting times (e.g., Tuesday/Thursday 8-9:30)
- One day per week, three-hour meeting time (e.g., Monday night 6-9)

LSCO also offers courses in terms that are fewer than 16 weeks in length. As noted above, the semester credit hours for courses that are taught in a term length other than 16 weeks are prorated according to the ratio of the specific semester length compared with the 16-week framework.

Lamar State College Orange's semester credit hour policy applies to all courses taught, regardless of location or modality. This includes face-to-face, hybrid, hyflex, and online distance education courses.

Suspension and Reinstatement

A student who has been on academic probation for two consecutive semesters will be placed on academic suspension if the student fails to maintain a 2.0 institutional term GPA. A student who has been suspended may return to LSC-O after sitting out one long semester.

Veterans' Satisfactory Academic Progress

The Veterans' Administration must be notified of unsatisfactory progress the second semester a student has not completed classes with a 2.0 grade point average. Veterans should contact the Veterans' Affairs Office, (409) 882-3317, for additional information.

Transfer and Articulation

All lower-division academic courses shall be fully transferable among public institutions in Texas. The Texas Higher Education Coordinating Board rules (*Texas Administrative Code, Title 19, Part 1, Chapter 4, Subchapter B, Rule 4.25*) state:

Requirements and Limitations

- Each institution of higher education shall identify in its undergraduate catalog each lower-division course that is substantially equivalent to an academic course listed in the current edition of the *Lower-Division Academic Course Guide Manual*.
- Each institution of higher education that offers lower-division courses must offer at least 45 semester credit hours of academic courses that are substantially equivalent to courses listed in the *Lower Division Academic Course Guide Manual* including those that fulfill the lower-division portion of the institution's core curriculum.
- Each institution of higher education must accept for credit successfully completed courses identified in the first two bullets above as applicable to an associate or baccalaureate degree in the same manner as credit awarded to non-transfer students in that degree program.
- Each institution must accept the same number of lower-division semester credit hours from transfer students as required for non-transfer students in the same baccalaureate program; however,
 - An institution is not required to accept in transfer more semester credit hours in the major area of a degree program than the number set out in any applicable Board-approved Field of Study Curriculum for that program.
 - In any degree program for which there is no Board-approved Field of Study Curriculum, an institution is not required to accept more lower-division course credit in the major applicable to a baccalaureate degree than the institution allows their non-transfer students in that major.
 - An institution of higher education is not required to transfer credit in courses in which the student earned a "D" in the student's Field of Study Curriculum courses, Core Curriculum course, or major.
- Each institution of higher education in Texas that admits undergraduate transfer students shall provide support services appropriate to meet the needs of transfer students. These support services should be comparable to those provided to non-transfer students regularly enrolled at the institution, including an orientation program similar to that provided for entering freshman enrollees.
- An institution of higher education is not required to accept in transfer, or apply toward a degree

program, more than sixty-six (66) semester credit hours of lower-division academic credit. Institutions of higher education, however, may choose to accept additional semester credit hours.

- Each institution of higher education shall permit a student who transfers from another Texas public institution of higher education to choose a catalog for the purpose of specifying graduation requirements, based upon the dates of attendance at the receiving institution and at the transferring institution, in the same manner that a non-transfer student may choose a catalog. Each Texas public institution of higher education shall include information about graduation requirements under a particular catalog in its official publications, including print and electronic catalogs.

Resolution of Transfer Disputes for Lower-Division Courses

The following procedures shall be followed by public institutions of higher education in the resolution of credit transfer disputes involving lower-division courses:

1. If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that it intends to deny the transfer of the course credit and shall include in that notice the reasons for the denial. The receiving institution must attach the procedures for resolution of transfer disputes for lower-division courses as outlined in this section of the notice. The notice and procedure must include:
 - (a) clear instructions for appealing the decision to the Commissioner; and
 - (b) the name and contact information for the designated official at the receiving institution who is authorized to resolve the credit transfer dispute.:
2. A student who receives notice as specified in the first paragraph of this subsection may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution.
3. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with this section.
4. If the student or the sending institution is not satisfied with the resolution of the credit transfer dispute, the student or the sending institution may notify the Commissioner in writing of the request for the transfer dispute resolution. A receiving institution that denies course credit for transfer shall notify the Commissioner in writing of its denial and the reasons for the denial not later than the 45th day after the date the receiving institution provided the required notice of the transfer credit denial under subsection (a)(1) of this section.

The Commissioner or the Commissioner's designee shall make the final determination about a credit transfer dispute and give written notice of the determination to the student and institutions. The decision is not a contested case. The Commissioner's decision is final and may not be appealed.

If a receiving institution has cause to believe that a course being presented by a student for transfer from another institution is not of an acceptable level of quality, it should first contact the sending institution and attempt to resolve the problem. In the event that the two institutions are unable to come to a satisfactory resolution, the receiving institution may notify the Commissioner who may investigate the course. If its quality is found to be unacceptable, the Board may discontinue the funding for the course.

Student Services

The Student Services Division provides services and programs to enhance the general education and development of students, enrich the quality of student life and support the teaching and service mission of the college.

The division consists of student activities, admission and records, advising and counseling, testing, financial aid, orientation, registration, recruitment, campus bookstore and student organizations.

Complaints

Lamar State College Orange is committed to providing equal access and opportunity for all persons regardless of race, sex, color, religion, national origin or ancestry, age, marital status, disability, sexual orientation, gender identity, or veteran status, in employment, educational programs, and activities and admissions. With this in mind, a student complaint may encompass dissatisfaction or perceived injustice a student may have while associated with the college as a student.

Protocol for informal student complaints **EXCLUDING** discrimination and safety concerns

A student complaint may result from academic experiences or non-academic matters involving administrators, staff, or other students/student organizations. **Regardless of the course modality and/or campus location of the issue, the protocol for handling complaints will be the same.**

All complainants should attempt an informal resolution by speaking with the appropriate parties involved. If the informal complaint is not resolved to the student's satisfaction within five (5) business days of the incident, the student may decide to present their informal complaint as a formal complaint within the next five (5) business days.

Intake form for student complaints **EXCLUDING** discrimination and safety concerns

Except in the case of safety concerns (e.g., harassment/sexual misconduct/Title IX complaint), a student who has not successfully resolved an informal complaint should utilize the Student Complaints Intake Form: https://cm.maxient.com/reportingform.php?LSCOrange&layout_id=0

The Student Complaint Intake form may also be found in the MyGator portal under student reporting forms.

Only complaints submitted within the stated timeframe will be evaluated and considered. Upon submitting a formal complaint for concerns excluding discrimination and safety through the Complaint Intake Form, the student will be contacted through their LSCO email to receive guidance on the next steps in the process. Additional documentation may be requested during the initial conference. **After the initial contact with the student, no new documents may be submitted while the process is ongoing, even during the subsequent reporting levels of administration.**

Protocols for Formal Student Complaints **EXCLUDING** discrimination and safety concerns after submitting the Student Complaint Intake Form

Student-Staff (non-instructor) Complaint Appeal Process

The College believes that matters involving a staff member (non-instructor) and students are best resolved at that level; therefore, the following procedures are established for all student-staff (non-instructor) conflicts. Even after initiating the formal complaint process, students are encouraged to seek informal resolution of their concerns. A student whose concerns are resolved may withdraw a formal complaint at any time.

- **Level One:** The student will first consult with the staff member and express concerns. If this

meeting does not produce an acceptable resolution for the student, he/she must notify the staff member of their decision to appeal to the next level within five (5) business days following the staff member decision. The staff member should include their decision in the Maxient case file and route the student complaint to the next level supervisor.

- **Level Two:** The next-level supervisor is to schedule a meeting to occur in person or virtually within five (5) business days of receiving the appeal. Upon hearing the grievance and meeting with the student, the next-level supervisor will provide his/her decision in writing to the student following the meeting within five (5) business days. If this meeting does not produce an acceptable resolution for the student, he/she must notify the next-level supervisor of their decision to appeal to the next level within five (5) business days following receipt of the written decision. The next-level supervisor should include their decision in the Maxient case file and route the student complaint to the Dean of Student Services.
- **Level Three:** The Dean of Student Services is to schedule a meeting to occur in person or virtually within five (5) business days of receiving the written complaint. Upon hearing the grievance and meeting with the student, the Dean of Student Services will provide his/her decision in writing to the student following the meeting within five (5) business days. If this meeting does not produce an acceptable resolution for the student, he/she must notify the Dean of Student Services details of their decision to appeal to the next level within five (5) business days following receipt of the written decision. The Dean of Student Services should include their decision in the Maxient case file and route the student complaint to the appropriate Vice President.
- **Level Four:** The appropriate Vice President is to schedule a meeting to occur in person or virtually within five (5) business days of receiving the written complaint. Upon hearing the grievance and meeting with the student, the appropriate Vice President will provide his/her decision in writing to the student following the meeting within five (5) business days. The decision of the Vice President is final.

Student – Instructor Complaint Appeal Process

The College believes that matters involving an instructor and student are best resolved at that level; therefore, the following procedures are established for formal student-instructor conflicts, including but not limited to those related to earned grade disputes. Even after initiating the formal complaint process, students are encouraged to seek informal resolution of their concerns. A student whose concerns are resolved may withdraw a formal complaint at any time.

Note: ***The appeals process does not apply to program-specific policies that are outlined in the program handbook and such program-specific policies are not eligible to undergo an appeal unless specified as eligible within the program's handbook.*

Complaints Related to Earned Grades

Complaints related to an earned grade must be initiated no later than 30 calendar days after the date that the grade was assigned, not to exceed 30 calendar days following the end of the semester. They should be limited to specific charges of unfair action in the grade determination and shall not challenge the instructor's grading standard as outlined in the course syllabus. The appeal process for a complaint related to an earned grade will consider whether a grade was determined in a fair and appropriate manner in accordance with the course syllabus; it does not provide an attempt to grade or re-grade individual assignments, exams, or projects. The written appeal for complaints related to earned grades must substantiate the claim that the grade represents unfair treatment compared to the standard provided in the syllabus (and applied to other students). In the absence of compelling reasons, such as clerical error or inconsistency, the grade assigned by the instructor is considered to be final and cannot be appealed. In a grade appeal, only arbitrariness and/or error will be considered legitimate grounds for an appeal.

*An academic appeal process is not afforded to students who have engaged in academic dishonesty, a violation of the LSCO Student Code of Conduct.

- **Level One:** The student will first consult with the instructor and express concerns. If this meeting does not produce an acceptable resolution for the student, he/she must notify the instructor of their decision to appeal to the next level within five (5) business days following the instructors' decision. The instructor should include their decision in the Maxient case file and route the student complaint to the next level supervisor.
- **Level Two:** The next-level supervisor is to schedule a meeting to occur in person or virtually within five (5) business days of receiving the appeal. Upon hearing the grievance and meeting with the student, the next-level supervisor will provide his/her decision in writing to the student following the meeting within five (5) business days. If this meeting does not produce an acceptable resolution for the student, he/she must notify the next-level supervisor of their decision to appeal to the next level within five (5) business days following receipt of the written decision. The next level supervisor should include their decision in the Maxient case file and route the student complaint to the appropriate Dean.
- **Level Three:** The appropriate Dean is to schedule a meeting to occur in person or virtually within five (5) business days of receiving the written complaint from the student. Upon hearing the grievance and meeting with the student, the appropriate Dean will provide his/her decision in writing to the student following the meeting within five (5) business days. If this meeting does not produce an acceptable resolution for the student, he/she must notify the appropriate Dean of their decision to appeal to the next level within five (5) business days following receipt of the written decision. The appropriate Dean should include their decision in the Maxient case file and route the student complaint to the Provost.
- **Level Four:** The Provost will convene an Academic Appeals Committee. Although the hearing is most effectively conducted in person, arrangements can be made for virtual hearings if needed. The meeting with the Academic Appeals Committee will occur as soon as practicably possible. The decision of the Academic Appeals Committee is final and will be the last level of the appeal process. Within five (5) business days after the Academic Appeals Committee convenes, the Provost/Executive Vice President will issue in writing the final decision of the appeal to the student via their LSCO email account.

The membership of the Academic Appeals Committee will be comprised of:

- Four full-time faculty members with no representation from the department from which the appeal is being made
- Three students, with representatives from both academic and technical divisions
- Division Directors Associate Deans, and Deans may not serve as members of the committee.
- The Executive Vice President (EVP)/Provost will identify an Ad Hoc (non-voting) committee member tasked with taking minutes of the committee meetings.

The members of the committee shall be chosen by the Executive Vice President (EVP)/Provost. The chair of the committee shall be selected from one of the faculty members of the committee.

NOTE: Students are allowed to continue attending class until the grievance or appeal is resolved. However, students shall not participate in off-campus instructional assignments (i.e. clinicals, internships, etc.) during the appeal process.

Student – Student/Organization Complaint Appeal Process

The College believes that matters involving a student conflict with another student or with a student organization are best resolved at that level; therefore, the following procedures are established for all student-student or student-student organization conflicts. Even after initiating the formal complaint process, the student complainant is encouraged to seek informal resolution of their concerns. A student whose concerns are resolved may withdraw a formal complaint at any time.

- **Level One:** The student complainant will first consult with the student or student organization designated representative with whom he/she has a conflict and express concerns. If this meeting

does not produce an acceptable resolution, the student should provide a written appeal to the Dean of Student Services within five (5) business days submitted from the student complainant's assigned LSCO email account substantiating the claim that the issue represents unfair treatment or incompatible procedures incompatible with the LSCO Catalog. The Dean of Student Services is to schedule a meeting to occur in person within five (5) business days of receiving the written appeal. Upon hearing the grievance and meeting with the student complainant and the offending student or student organization designated representative, the Dean of Student Services will provide his/her decision in writing to the student within five (5) business days. The decision of the Dean of Student Services is final.

Discrimination Reporting

Any student who believes he/she has been discriminated against by college personnel for any reason, including discrimination on the basis of race, sex, color, religion, national origin or ancestry, age, marital status, disability, sexual orientation, gender identity, or veteran status, has the right to expect due diligence and should contact the Dean of Student Services within five (5) business days of the initial concern. If the Dean of Student Services determines that the complaint does not strictly adhere to discrimination allegations, the student complainant will be directed to the student/staff, student/instructor, or student/student (organization) conflict resolution and appeal process, as appropriate.

For reports determined to be a discrimination complaint, the Dean of Student Services will coordinate with the Director of Human Resources and/or the Title IX Coordinator, as appropriate. The Director of Human Resources and/or the Title IX Coordinator may appoint a hearing officer to review and investigate the complaint and make the final decision regarding a student report of discrimination.

Title IX and Sexual Misconduct Reporting

Lamar State College Orange promotes prompt reporting of all forms of sexual misconduct. To ensure all students, faculty, and staff have an option for electronic reporting of an incident of sexual misconduct, LSCO has created an online, secure reporting form. This form will enable an individual to report the alleged offense anonymously:

https://cm.maxient.com/reportingform.php?LSCOOrange&layout_id=11

The Title IX/Clery Reporting Form may also be found in the MyGator portal under student reporting forms.

Upon submitting a report through the Title IX/Clery Reporting Form, a member of the Title IX Team will follow up on the next steps, as outlined on LSCO's Sexual Misconduct and Title IX Webpage: <https://www.lSCO.edu/titleix/titleix.asp>.

Timeline for Filing a Complaint and Appeal

In resolving student complaints, timely reporting of the complaint is important and thus required at all levels. Unless stated otherwise within each procedural guideline, the appropriate timeframe for filing a written grievance should be within five (5) business days from the date on which the student is first aware or notified of the issue of concern. Written appeals to the next/subsequent level of the process must be made within five (5) business days of the student's receipt of the institution's appellate written decision.

Distance Learning State Authorization Reciprocity Agreement (SARA) Complaints

Students Enrolled in Distance Education Courses Complaints should be filed in the state where the student is receiving instruction, not in the state in which the student resides. For example, a student residing in Louisiana but taking courses in Texas should file his/her complaint with the state contact for Texas. Complaints against a SARA participating institution must first go through the institution's own grievance procedures. All complaints regarding student grades or conduct violations are governed by the institution and the laws of the institution's home state. If a student is not satisfied with the outcome of the institutional

grievance process, the student may appeal, within two years of the incident, to the SARA portal agency of the institution's home state. For all complaints regarding Texas degree-granting postsecondary institutions participating in SARA, complete the Student Complaint and Release Form and email the form to Student.Complaints@highered.texas.gov

THECB Complaints

The role of the Texas Higher Education Coordinating Board (THECB) is to represent the state of Texas and regulate compliance with the laws that fall under the THECB's authority. The THECB cannot offer legal advice to complainants and does not act as a student's agent, representative, or attorney. Any information the THECB's staff provides is not and should not be interpreted as legal advice or representation.

The authority of Texas Higher Education Coordinating Board is limited to that expressly granted by law and stipulated in the THECB rules. For example, a student's eligibility for financial aid is determined by the student's institution and the THECB generally does not have the authority to override the school's determination.

Student complaints reporting violations to applicable statutes under Texas Education Code Chapters 54 and 61 and THECB rules under Title 19, Texas Administrative Code, Part 1 may be investigated by THECB.

The Texas Higher Education Coordinating Board's (THECB) Student Complaint Procedure (requires that a student filing a complaint must do so in a timely manner and must exhaust all grievance and appeal procedures of the institution as described in the Lamar State College Orange Student Grievance Procedure PRIOR to filing a complaint. Details on how to appropriately file a complaint with THECB can be located at <https://www.highered.texas.gov/student-complaints/>.

SACSCOC Regional Accreditation

Additionally, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) provides an option for grievances as part of its "Complaint Procedures against SACSCOC or its Accredited Institutions" which can be utilized once the complainant has exhausted all grievance and appeal procedures of the institution as described in the Lamar State College Orange Student Grievance Procedure.

Program-Specific Accreditation Organizations

In addition to general institutional accreditation under SACSCOC, individual departmental programs may be associated with program-specific accreditation organizations with which a student may consult at any time. Information about specific program accreditation can found through the following link: <https://www.lsco.edu/oire/accreditations.asp>

Student Feedback/Student Government Association

Each semester the College provides students an opportunity for feedback regarding concerns and suggestions to improve college services through the Student Government Association. Students also may voice their ideas for improvement at regularly scheduled Student Government Association meetings throughout the fall and spring semesters. However, for individual student concerns or grievances, students should follow the grievance procedures detailed above.

Conduct and Discipline

Campus Disruptive Activities

Pursuant to Education Code, Subsection 51.935 (Disruptive Activities) the college shall adhere to the following rules and regulations:

No person or group of persons acting in concert may intentionally engage in disruptive activity or disrupt a lawful assembly on the college campus. Disruptive activity means:

- Obstructing or restraining the passage of persons to the campus or an area of the campus or to an exit, entrance or hallway of any building without the authorization of the administration of the college;
- Seizing control of an area of the college campus or any building or portion of the building for the purpose of interfering with any administrative, educational, research or other authorized activity; or
- Disrupting and/or preventing or attempting to prevent by force or violence or threat of force or violence any lawful assembly authorized by the college administration. A lawful assembly is disrupted when a person in attendance is rendered incapable of participating in the assembly because of the use of force or violence or a reasonable fear of force or violence.

Any person who is convicted the third time of violating this statute shall not thereafter be eligible to attend any school, college or university receiving funds from the State of Texas for a period of two years from such third conviction.

Nothing herein shall be construed to infringe upon any right of free speech or expression guaranteed by the Constitution of the United States or the State of Texas.

Student Conduct

Each student is expected to be fully acquainted and comply with all published policies, rules, and regulations of the College and of the Texas State University System outlined within this Catalog as well as on LSCO's website. Students are also expected to comply with all federal and state laws.

Student Misconduct

Each student is expected to act in a manner consistent with the college's functions as an educational institution, including off campus conduct that is likely to have an adverse effect on the college or on the educational process. Specific examples of misconduct for which students may be subject to disciplinary action include, but are not limited to, the following:

- Commission of an act that would constitute an offense under appropriate federal, state, or municipal law;
- Violation of any Regents' rule, regulation, or order or College policy, rule, or regulation, including policies or contracts relating to residential living in College-owned or operated facilities;
- Failure to comply with the direction of a College official acting in the performance of his or her duties; or, failure to heed an official summons to the office of a College official within the designated time;
- Giving false testimony or other evidence at a campus disciplinary or other administrative proceeding;
- Failure to meet financial obligations including but not limited to the issuance of a check to the College or its contractors without sufficient funds;
- Unauthorized use or possession of ammunition, firearms, illegal knives (knives with blades longer than five and one-half inches, hand instruments designed to cut or stab another by being thrown, stilettos, poniards, Bowie knives, swords, and/or spears), or other illegal weapons on College property;
- Conduct that endangers the health or safety of others on the campus, including, by way of example, unauthorized throwing of any objects in or from College facilities;
- Stealing, destroying, defacing, damaging, vandalizing or misusing College property or property belonging to another;
- Engaging in hazing or voluntarily submitting to hazing. Hazing means any intentional or reckless act, occurring on or off the campus of an educational institution, by one person alone or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in any organization whose members are or include students at an educational institution. Please see complete information on hazing at <https://www.lSCO.edu/hazing/hazing.asp>.

- Possessing and/or using, without authorization according to the College policy, intoxicating beverages in a classroom building, laboratory, auditorium, library building, faculty or administrative office, apartment, and intramural athletic facility, or any other public campus area, or being intoxicated in any public area of the campus;
- Illegal gambling in any form on College property;
- Illegal possession, use, sale, or distribution of any quantity, whether usable or not, of any drug, narcotic, or controlled substance;
- Advocating or recommending the conscious and deliberate violation of any federal, state, or local law. Advocacy means addressing an individual or group for imminent action and steering it to such action as opposed to the abstract espousal of the moral propriety of a course of action;
- Forgery, alteration, theft, or misuse of College documents, forms, records, or identification cards;
- Unauthorized possession, ignition, or detonation, on College property, of any explosive device, fireworks, liquid, or object that is flammable or capable of causing damage to persons or property by fire or explosion;
- Unauthorized entry into or use of College buildings, facilities, equipment, or resources, or possession or use of College keys for unauthorized purposes;
- Failure to maintain a current official mailing address in the Registrar's office and/or giving a false or fictitious address to a College office or official;
- Knowingly initiating, communicating, or circulating a false or baseless report or alarm of a present, past, or future bombing, fire, offense, or other emergency that would ordinarily cause action by others charged with dealing with emergencies; placing a person in fear of imminent serious bodily injury; or preventing or interrupting the occupation of a building, room, aircraft, automobile, or other mode of conveyance;
- Harassment where the individual threatens or bullies, in person, by telephone, electronically, in writing, or by other means, to take unlawful action against any person and by this action intentionally, knowingly, or recklessly annoys or alarms the recipient;
- Academic dishonesty;
- Campus disruptive activities or disorderly conduct on College-owned or controlled property or at a College-sponsored or supervised function that inhibit or interfere with the educational responsibility of the College community or the College's social-educational activities shall include but not be limited to: using abusive, indecent, profane or vulgar language; making offensive gestures or displays that tend to incite a breach of the peace; perpetrating fights, assaults, acts of sexual violence, abuse, or threats; or evincing some obviously offensive manner or committing an act that causes a person to feel threatened. Such prohibition includes disorderly classroom conduct that obstructs, interferes with, inhibits and/or disrupts teaching and/or related classroom activities;
- Using authority granted by state law, System rule, or College policy to deprive any person of his or her civil rights;
- Violation of College policy relating to electronic network facilities such as local area networks and the Internet;
- Failure to acquire and maintain a College-issued student photo identification (I.D.) card; failure to replace a lost/stolen I.D. card; and/or any falsification, misrepresentation or other misuse of the student I.D. card.
- Sexual Misconduct and Title IX. Each student is expected to be fully acquainted and comply with the LSCO Sexual Misconduct Policy. The procedures for investigation and adjudication of violations of said policy are described in the Sexual Misconduct Policy and Procedures and these policies and procedures supersede all other discipline policies and procedures.

***An academic appeal process is afforded to students who desire to dispute a grade or any decision that affects the student's ability to complete and earn a grade for the course provided it is not related to a violation outlined in the LSCO Student Code of Conduct, including academic dishonesty.*

Student Misconduct and Administration of Discipline

Procedure for Administration of Discipline

The Dean of Student Services shall have primary authority and responsibility for the administration of student discipline at the college and for investigating allegations that a student has violated the Texas State University System or College code of conduct.

The Dean of Student Services or his/her designee, herein referred to as officer, will investigate the alleged violations. During the investigation, if the student is available, the Dean will give the student an opportunity to explain the incident. If the Dean concludes that the student has violated a Texas State University System or college policy, the officer will determine an appropriate disciplinary penalty. The officer will schedule a meeting with the student to review the case, as outlined below:

1. The officer will discuss his/her findings and his/her determination of an appropriate penalty with the student if the student is available and will give the student an opportunity either to accept or reject the officer's decision.
2. If the student accepts the officer's decision, the student will so indicate in writing and waive his/her right to an appeal. The officer will then put the penalty into place.
3. If the student does not accept the officer's decision or does not waive his /her right to an appeal, the student can request an appeal through the Student Discipline Committee.

Student Misconduct Administration of Discipline Appeal Process

Within five (5) days after receiving the officer's decision, the student should use their assigned LSCO email account to submit a written request for a hearing before the Student Discipline Committee. Although the hearing is most effectively conducted in person, arrangements can be made for virtual hearings if needed. Within the written request to appear before the Student Discipline Committee, the student is to provide the rationale for their appeal.

The meeting with the Student Discipline Committee will occur as soon as practicably possible. The decision of the Student Discipline Committee is final and will be the last level of the appeal process.

Within five (5) business days after the Student Discipline Committee convenes, the Dean of Student Services will issue in writing the final decision of the appeal to the student via their LSCO email account.

The decision of the committee is final.

The membership of the Student Discipline Committee will be comprised of:

- Four full-time employees;
- Three students, with representatives from both academic and technical divisions;
- Division Directors, Department Chairs, Associate Deans, and Deans may not serve as members of the committee.

The Dean of Student Services will identify an Ad Hoc (non-voting) committee member tasked with taking minutes of the committee meetings.

The members of the committee shall be chosen by the Dean of Student Services. The chair of the committee shall be selected from one of the staff members of the committee.

Hazing

Hazing is prohibited in state educational institutions by the Texas *Education Code, Section 4.19*. Students of Lamar State College Orange are forbidden to engage in, encourage, aid or assist any person(s) participating in what is commonly known and recognized as hazing. Any student who does so will be subject to college disciplinary action and may also face civil authority.

Hazing means any intentional or reckless act, occurring on or off the campus of an educational institution, by one person alone or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office

in, or maintaining membership in any organization whose members are or include students at an educational institution.

Hazing on the part of students, faculty, or staff is strictly forbidden, whether on or off campus. LSCO reserves the right to take disciplinary action against individual students and/or groups who engage in hazing or voluntarily submit to hazing.

Official Summons

An official summons takes precedence over all other college activities of the student and should be answered promptly on the day and hour designated. Failure to heed an official summons may subject the student to serious disciplinary action.

Debts

The college is not responsible for debts contracted by individual students or student organizations and will not act as a collection agency for organizations, firms or individuals to whom a student may owe bills.

Students and student organizations are expected to honor contractual obligations promptly, but in case of flagrant disregard of such obligations, the Dean of Student Services or his or her designated representative will take appropriate action as described in the “Penalties for Failure to Pay” section.

Financial Obligations

Students are expected to meet their financial obligations to the college within the designated time allowed. Registration fees or the first payment of the installment fee plan are payable at the time of registration, and students are not entitled to enter any class or laboratory until fees and deposits have been paid. Other charges and financial obligations are due at registration or within ten (10) days after a bill is rendered by the college or according to the special payment instructions that may be printed on the bill.

Penalties for Failure to Pay

Failure to pay in the allotted time the amount owed to the college for tuition, fees, charges or any other financial obligation may result in any or all of the following:

- Dismissal from the college or other disciplinary actions;
- Withholding of future registration privileges;
- Withholding of an official certified transcript;
- Withholding the conferring of a degree;
- Bar against readmission for the student;
- Assessment of late fees and/or reinstatement fees.

The college is authorized to require that non-resident international students secure mandatory accident, sickness, catastrophic illness, evacuation and repatriation insurance as a condition of enrollment.

Parking Regulations

Each student is issued a vehicle permit that allows parking on the campus and other specific areas adjoining the campus. This permit is to be displayed as instructed in official parking and traffic regulations materials. Strict observance of traffic and parking regulations is necessary for the safe, orderly flow of vehicles in the campus area. Parking passes can be obtained in the Student Center.

Student Support Resources

Advising and Recruiting Center

The College provides a wide range of advising and counseling services to all students. The goal of the center is to assist in the resolution of student problems and questions and ultimately support personal growth

and development.

The Advising and Recruiting Center can provide specific assistance with class schedule planning, change of major, general information about various career choices, and transferring college credits. Questions concerning Texas Success Initiative (TSI) may also be directed to the center's staff. The staff can provide current information concerning degree plans for all degree, certificate and institutional awards, as well as programs at other colleges and universities. The Transfer Success advisor is available to facilitate a successful transfer in order to meet your educational and career goals.

Trained personnel offer both academic and career counseling as well as limited social and personal counseling on an individual and confidential basis.

Students are always welcome to drop in to the Advising and Recruiting Center to discuss any kind of concern. The philosophy of the center is that no concern is too small to bring to the Advisors' attention. When a problem exists that requires special professional expertise, the Advising and Recruiting Center is the best place to receive a referral to an off-campus resource.

The center is open Monday through Thursday from 7:30 AM-5:30 PM and Fridays 8 AM-5 PM. The center observes all campus holidays and adjusted summer hours as noted on the academic calendar in this catalog.

The Advising and Recruiting Center is located in the first floor of the Student Success Building. Students do not need an appointment to see an advisor, with the exception of Learning Frameworks Advising Assignments. For more information, please call (409) 882-3340.

Academic Advising

Academic advising is necessary to ensure that all students are in compliance with the Texas Success Initiative testing requirements and Lamar State College Orange policies. Participation in continuous academic advising is vital to students' academic successes. Thus, students are expected to participate in the advising process throughout their careers on the Lamar State College Orange campus. All first-time students, students with fewer than 15 credit hours, students with undecided majors, students on academic probation or suspension, and students who have not completed the Texas Success Initiative (TSI) provisions are required to register through the Advising and Recruiting Center. All other students are encouraged to seek academic advising at least once per year.

Career Planning

Lamar State College Orange provides career advising services to all students and alumni through Career Coach, an online career planning tool. Career Coach assists students through all phases of developing, initiating, and implementing career plans.

Information regarding employment opportunities and career options are provided along with access to live local job postings. Full-time and part-time employment opportunities, such as internships, are available through Career Coach.

Summary of Services:

- Career Assessments
- Up-to-date Job Market Information
- Resume Building (account creation required)
- Live Employment Opportunities

For more information, contact the Advising and Recruiting Department at 409-882-3340 or advising@lsco.edu.

Career Assessments

Career Coach Assessment at lsco.emsicc.com/assessment. This is an interest survey to help students find out what their interests are and how they relate to the work. There is a 6-question quick start assessment or

60-question detailed assessment available. After finishing, the top three traits and details of the individuals' top career matches will be provided. The feedback helps students determine what kind of position and organization best suits their decision-making and communication styles. Additional information related to education level and salary projects is provided.

Resume Building

Resume Building is located at lsc.emsicc.com/resume-builder. Career Coach's resume builder tool allows students to create up to six different resumes, readily available for download. Contact information can be added as well as work experience and tasks and past training opportunities. Resumes can be downloaded and submitted through live job postings.

Employment Opportunities

Employment opportunities are located at lsc.emsicc.com/work-opportunities. Browse live postings and submit resumes through this portal.

BlackboardConnect Emergency Alert Messaging System

Lamar State College Orange utilizes the communications system, BlackboardConnect, which allows the delivery of time-sensitive emergency notification via voice messages, e-mails and text messages in the event of a campus emergency. The BlackboardConnect service provides a safer environment, enhances emergency preparedness and will keep students, faculty and staff better informed. LSCO will use this service for the purpose of notifying the campus community of a significant emergency or dangerous situation involving an immediate threat to the health or safety of faculty, staff, or students.

Bookstore

LSCO has a virtual Bookstore with on-ground services provided at the Lamar University Bookstore is located at 4405 Jimmy Simmons Drive, Beaumont, TX 77705.

The Gator Book Pack is an affordable textbook rental access program that will provide students with all required rental textbooks, lab manuals, access codes, and electronic book versions before the first day of class. This pack allows students to receive their textbooks for all of the classes that they register for at a standard rate of \$24 per semester credit hour. The cost can be paid by financial aid or by the student. If a student enrolls in a payment plan, this charge will be included in the payment plan calculations. Supplies are not included in this program and will need to be purchased separately.

Students are automatically enrolled in the Gator Book Pack at the time of registration and will begin receiving emails about selecting their preferred delivery method of their Gator Book Pack.

Campus Security

The Lamar State College Orange security department can be reached at (409) 670-0789. The 24/7 emergency number answered by Orange Police Department dispatch is (409) 883-1026.

Campus security officers have enforcement authority on property owned and controlled by the college. The streets contiguous to and running through the campus are under the authority of the Orange Police Department.

Campus security officers are authorized by state statute to enforce federal and state laws within their jurisdiction, in addition to rules and regulations issued by the Board of Regents of LSCO. Security guards patrol all LSCO campus facilities. They patrol on foot or in golf carts marked with SECURITY.

LSCO officers are available to provide escort service to anyone whom may be concerned with their safety. LSCO officers enjoy a good working relationship with federal, state, local, city, and county law enforcement authorities. The Security Department's working relationship with other area law enforcement agencies ensures that crimes and violations at nearby campus sites may be reported to LSCO officers and,

if further assistance is needed, at on-campus locations. Lamar State College Orange and the City of Orange Police Department have a memoranda of understanding for the investigation of alleged criminal offenses on and near campus. Both entities recognize the importance of having effective communication and coordination regarding alleged criminal offenses, including but not limited to, allegations of sexual harassment, sexual assault, dating violence and stalking that involve the College's students or take place on and around the LSCO's campus.

College Catalog

Known officially as the Lamar State College Orange Catalog, the catalog contains a wealth of pertinent information, including the rules, regulations, policies, definitions, deadlines and descriptions which form the "academic laws" of the college. Remember, ignorance of the "law" is no excuse. Students are personally responsible for knowing and abiding by the rules which govern your academic life.

The Catalog can be viewed online at <http://www.lSCO.edu/catalog/catalog.asp>.

Computer Services

The college has developed a state-of-the-art fiber optic network connecting all major campus buildings. Attached to this network are servers for administrative functions and academic computing. This network is also connected to the Internet, providing all students access to Internet mail and the LSCO online services. Computer accounts are available to all students. These accounts are kept active as long as students are enrolled.

DegreeWorks

Students, faculty mentors, academic advisors, and staff members have access to DegreeWorks; a degree audit system within MyGator. The tool allows all parties to see the same information about what courses students have successfully completed and what courses are still required for students' chosen degree plan.

For students, DegreeWorks:

- Provides real-time advice and counsel
- Provides intuitive web access to Gator self-service capabilities
- Streamlines the graduation process
- Allows direct access to multiple related services and advice through hyperlinks to catalog information, class schedules, transcripts, and FAQs

For advisors and staff members, DegreeWorks:

- Supports real-time delivery of academic advice through intuitive web interfaces
- Minimizes errors through consistent degree plans
- Supports more timely degree certification
- Reduces paperwork and manual program check sheets
- Supports and monitors unique program changes

Students and advisors can also use DegreeWorks to test "what if" scenarios with alternate majors to see how a change of major might affect the student's expected graduation date.

Current students may access DegreeWorks, view course schedules, and register for classes online by logging into MyGator/Gator Self-Service from our website www.lSCO.edu.

Accessibility Services

Lamar State College Orange offers a variety of support services to enable students with disabilities to participate in the full range of college experiences. Accommodations are provided for students with disabilities. Students requesting accommodations must complete an Accommodation Request and provide appropriate documentation to the Accessibility Coordinator. The Accommodation Request form can be

completed online at <https://www.lSCO.edu/student-life/resources-support/accessibility-services.php> or in person with the Accessibility Coordinator in room 130 of the Ron E. Lewis Building. The Accessibility Coordinator will review the request and documentation to determine eligible accommodations and/or services for the student.

Services are arranged to fit students' individual needs and may include but are not limited to individualized test administration, registration assistance, resource referral, sign language interpreters, note-takers, tutors, readers, scribes, and the loan of assistive technology devices. The Accessibility Coordinator acts as a liaison among students and faculty, administrators, and outside agencies.

Texas Workforce Solutions Vocational Rehabilitation Services

Accessibility Services works closely with the Texas Workforce Solutions Vocational Rehabilitation Services. The department provides individuals with disabilities opportunities to enter into or return to gainful employment. Assistance with tuition and fees--in addition to diagnostic evaluation, vocational counseling, and physical restoration--may be provided. For more information contact or write the Texas Workforce Solutions, Orange Field Office, 2266 MacArthur Dr, Texas 77630 at (409) 882-0302 or (877) 834-JOBS (5627) or www.setworks.org

Visually and hearing-impaired students and other qualified students with disabilities may be eligible for assistance, including mobility training, professional counseling, placement services, tuition assistance, reader services, personal assistants, and other services through the Texas Workforce Solutions. The department also maintains special equipment for its clients. To reach the Division of the Blind, call (409) 899-8490 or (800) 687-7013.

Complaints Regarding Accommodations

If a student with a disability/disabilities is for any reason not receiving their approved accommodations, they should contact the Accessibility Coordinator immediately. The Accessibility Coordinator will work with the student and instructor(s) to informally resolve the issue. If the issue is not informally resolved, the Accessibility Coordinator will advise the student on the process to issue a formal complaint if necessary.

For more information on available resources and any questions or concerns about accommodations, please contact the Accessibility Coordinator at (409) 882-3097 or amy.moore@lSCO.edu.

Accommodated Testing

Students who qualify for accessibility services may arrange for accommodated testing for classroom tests. Needs for accommodated testing must be identified and documented on the Accommodation Request Form located online or with the Accessibility Coordinator located in the Advising Office.

For more information or to schedule appointments, please call (409) 882-3097 or email amy.moore@lSCO.edu.

Distance Education

The college offers a variety of hybrid and fully online courses. Blackboard is the school's learning management system and provides the foundation for the distance education program. The distance education program is managed by the Office of Learning Technology. Student training on Blackboard is offered each semester; videos are also available on the LSCO website.

Food Services

The Gator Café serves breakfast and lunches in the Student Center. The cafe also caters special events held on campus. Additional information regarding on-campus catering may be obtained by contacting the cafe manager.

Snack and drink vending machines are also located throughout various buildings on campus.

Gator Assistance Programs

The Strengthening Career and Technical Education for the 21st Century Act (Perkins V) represents an important opportunity to expand opportunities for every student to explore, choose, and follow career and technical education programs of study and career pathways to earn credentials of value. Perkins V continues the long-time federal commitment to Career and Technical Education (CTE) by providing funding for CTE programs and focusing on improving the academic and technical achievement of CTE students, strengthening the connections between secondary and postsecondary education, and improving accountability.

The Perkins Basic Grant Program supports students who enroll in CTE courses and programs in preparation for high-skill, high-wage, or high-demand occupations. With an emphasis on access and equity, the Perkins Basic Grant Program supports faculty professional development, CTE program equipment purchases, and student support assistance programs through the Gator Assistance Program (GAP). GAP students may receive child care, transportation, and/or classroom/instructional supply support if you are an

- Individual with a disability(ies);
- Individual from an economically disadvantaged family, including being a low-income youth or adult;
- Individual preparing for a non-traditional field;
- Single parent, including single pregnant women;
- Out-of-workforce individual;
- English learner;
- Homeless;
- Youth who is in, or has aged out of, the foster care system; and
- Youth with a parent who
 - Is a member of the armed forces; and
 - Is on active duty.

Additional Grant Funds may be available for Academic Students, please contact the Accessibility Coordinator for more information.

Gator Food Pantry

In collaboration with the Salvation Army of Orange, Lamar State College Orange has opened a food pantry to serve all College students, faculty, and staff with a campus ID. The Food Pantry is housed on the 2nd floor of the Joe B. Welch Student Center in Room 221. The hours of operation are every Tuesday from 11:30 a.m. to 2:30 p.m.

Gator Clothing Closet

Lamar State College Orange has a clothing closet to serve all College students, faculty, and staff with a campus ID. The Clothing Closet is housed on the 2nd floor of the Joe B. Welch Student Center.

Health Services and Student Insurance

Because Lamar State College Orange is a commuter school, the college does not employ a full-time health professional. However, TimelyCare is a virtual health and well-being platform that is available 24/7 for all non-dual credit enrolled LSCO students. There is no cost to eligible students for this service. TimelyCare's providers offer the following services:

- TalkNow: 24/7, on-demand emotional support to talk about anything, including anxiety, relationships, depression, and school-related stressors.
- Scheduled Counseling: Choose the day, time, and mental health provider that works best for you. This service is limited to 9 visits per year.
- Health Coaching: Develop health lifestyle behaviors for nutrition, sleep habits, time management, and mindfulness.

- Psychiatry: Appointments are available through referrals.
- Self-Care Content: Visit the Explore page within TimelyCare for guided self-care content.
- Basic Needs Support: Access to free or reduced-cost community resources, including food and housing assistance, transit support, childcare, and finances.

Non-Dual Credit students enrolled in classes can log in to the TimelyCare website or app available at timelycare.com/LSCO.

All registered students enrolled in six or more credit hours (three or more during the summer) are eligible to purchase health insurance for an entire year or for one semester. Health and accident insurance is required of all international students and all participants in the intramural sports and Spring Day Program. Insurance information is available from the Dean of Student Services.

Any campus accident or serious illness must be reported to the Dean of Student Services.

Identification Cards

Upon the student's first registration at Lamar State College Orange, the student must secure a photo identification card, which certifies registration at LSCO. Student ID cards are non-transferable. Lost ID cards should be reported immediately to the Admissions and Records Office. A fee will be assessed for replacements.

Requirements for obtaining ID cards:

- Student's current semester fee receipt, indicating paid tuition.
- Student's valid driver's license or other positive identification.

Student ID cards are required for library usage and to secure college payroll checks and/or financial aid checks. The ID card is for official college identification purposes and should be carried at all times. The use of the ID card is the responsibility of the named student. Misuse of the card may subject bearer and/or student to whom it is issued to disciplinary sanctions. Students must have ID cards when requested by any official of the college, including campus security. The ID card must be returned to the Admissions and Records Office at the time the student withdraws from the college.

Lost and Found

All articles found by any and all students, faculty and staff should be taken to the Public Safety Office located in the Academic Center. Those who have lost articles may check with this office. Lost and found articles that are not claimed by the end of the school year will be discarded during the summer months. Academic Center (409) 882-3366.

Office of Academic Support and Instructional Services (OASIS)

The Office of Academic Support and Instructional Services (OASIS), located in the Ron E. Lewis Building, supports the educational mission of Lamar State College Orange by providing services, resources, and programs that promote academic success, excellence in teaching and learning, and continuing intellectual and personal growth, to our students, faculty, staff, and the greater Orange community.

OASIS services include: library services, tutoring services, Lifesavers workshops, the GPS: Navigate to Success program, and other academic support services/programs.

OASIS Library

The purpose of the OASIS Library is to support the educational mission of Lamar State College Orange by providing services, resources, and programs to students, faculty, staff and the community. The library, located at the center of campus, opened in June 2001 and is an integral part of the college's learning experience. The library contains a collection of resources, both electronic and print, which support the school's curriculum and the information needs of students and faculty. The collection contains more than

33,000 print items and also includes non-book items such as laptops, webcams, headphones, and graphing calculators. Included in the media library are 2,500+ titles of both educational films and popular movies. Students have access to 68 computers to search dozens of licensed electronic databases which include products from EBSCO, Gale-Cengage, ProQuest, and NexisUni among others. These databases provide access to over 300,000 eBook, journal, newspaper, and magazine titles. Students may access these databases and eBooks via the Internet from anywhere by using their MyGator login information.

To facilitate cooperation and resource sharing, the library is a member of Amigos Library Services and participates in the TexShare Program. This project is managed by the Texas State Library and Archives Commission and funded by the Texas Legislature. The TexShare Program is designed to facilitate access to library materials for all Texans. All printed resources, except reference and reserve materials, circulate and are readily available on open shelves. The student identification card serves as the library card when checking out these items.

While students are encouraged to learn how to find and use their own resources in the library, librarians and library staff are always willing and available to assist students in the location and use of library materials in person or via phone, email, or by using the chat feature on the library webpage. Students are also encouraged to book appointments with a librarian at a time that is convenient for them. Instruction in the use of the library is provided to classes and individuals. Online tutorials are available through the library's web page. Scanners, computers, audio/visual equipment and individual and group study rooms are also available.

As part of the community service mission of the college, library facilities and privileges are extended to adult patrons of the Orange Public Library. The OASIS Library maintains a reciprocal borrowing agreement with the Orange Public Library. The Library also honors the TexShare borrower card when presented with acceptable photo identification. Some use and access restrictions may apply to resources and materials with contractual and licensing restrictions.

OASIS Tutoring Center

The OASIS Tutoring Center, located on the 2nd floor of the Ron E. Lewis Building, offers assistance with assignments, test preparation, and academic support in Writing, Chemistry, Science, Mathematics, Vocational Studies, and more subjects upon request. LSCO students have access to a study space, printers, scanners, assistive technology, and computers equipped with a variety of software. Tutoring is available both in-person and virtually, by appointment, and on a walk-in basis.

Students are encouraged to bring their coursework to the OASIS and enjoy a relaxed atmosphere in which to work independently or collaboratively. Academic support coaches and peer tutors stand ready to answer questions and facilitate learning. In addition, the coaches routinely curate and create online, multi-media, and printed materials to reinforce foundational skills and supplement classroom instruction. Academic support coaches continually strive to develop tutorial services and resources that accommodate students' needs and compliment the academic, technical, and occupational curricula at Lamar State College Orange. Above all, the OASIS aims to foster strong study skills and habits of thought that sustain students' success. For more information about the OASIS Tutoring Center and the academic support resource available, please visit the OASIS Tutoring Center webpage.

Lifesavers!

Lifesavers! are one-hour seminars on topics designed to support student success. Popular topics include: Research 101, Citations 101, Test Anxiety, Planning, Note Taking, How to be a Successful Student, and many others. Lifesavers are scheduled weekly during the semester and are offered face-to-face, virtually, and self-paced. All Lifesavers sessions are posted in the OASIS Academic Support calendar for students to view and register for sessions. For students needing proof of attendance for extra credit, certificates are issued after each session.

GPS Navigate to Success Tutoring Program

Evidence shows that tutoring works best when it is done consistently at the first signs of academic distress. The GPS Tutoring Program is partnering with select first year courses to connect First-Time-In-College (FTIC) students with tutoring services early in the semester when it has a chance to make a difference.

The GPS Tutoring Program is designed to connect FTIC students to academic support resources when they show signs of academic distress and will require students to complete a specified number of tutoring hours. For this program, academic distress is defined as when a student's overall grade falls below 70% or they make a 69 or below on a major assignment (exam, paper, project, etc.). The specified number of tutoring hours is defined as a minimum of one hour per week. Departments and/or individual instructors can implement a more stringent definition of academic distress and a specified number of tutoring hours.

GPS Minimum Tutoring Guidelines*

1. A student enters the GPS Tutoring program at the first sign of academic distress as defined by this policy or the individual department/instructor policy.
2. The instructor discusses the grade or concern with the student, then submits a Gator Pass for the student, selecting "GPS tutoring" as the reason for submission of the Gator Pass.
3. The Academic Support & Early Alert Coordinator receives the Gator Pass submitted through the Maxient software platform and contacts the student to connect them to support resources. The coordinator creates a case file in the Maxient platform for the student. The case file will remain with the student throughout the remainder of the course. The coordinator, instructor, and tutor(s) will document all communication and activity with the student in the case file.
4. The student is referred to one or more of the following academic support resources:
 - OASIS Tutoring Center tutoring
 - Instructor tutoring (if subject is specialized)
 - Upswing online tutoring
5. Student attends 1-hour of tutoring per week until:
 - Passing grade (70% or above) on next major assignment (paper, test, project, etc.) OR
 - Overall grade is 70% or above
 - When the overall grade is above 70%, the OASIS Tutoring Center or instructor reports back to Academic Support & Early Alert Coordinator that the tutoring need has been met. If the student used Upswing as a tutoring resource, the Upswing report will be processed and filed in the case file.

**This is the minimum tutoring requirement for a course participating in GPS Tutoring. Departments/Instructors are free to expand upon these requirements based upon the needs of the course.*

6. If the student does not attend the mandatory tutoring requirement and they remain in academic distress:
 - Instructors will recommend the student drop the course; and
 - Will notify the Academic Support & Early Alert Coordinator so the student record can be updated.
7. At the end of the semester, the Academic Support & Early Alert Coordinator will send a survey to every student who participated in the GPS Tutoring program.

Course Participation

The goal of the GPS program is to increase the success of First-Time-In-College (FTIC) students. To that end, first-year courses (English, Math, History, Science) are the primary courses the QEP team will focus on approaching for participation. However, every instructor has the opportunity to opt into the GPS Tutoring program if they wish to be involved.

In order to participate, the instructor with their Department Chair and/or Program Chair will:

- Adopt at least the minimum GPS Tutoring Guidelines or develop guidelines that define the following for their course/department:
 - academic distress

- minimum tutoring requirements
 - failure to participate consequences
- Include a syllabus statement in each participating course to notify students that they are taking a GPS Tutoring course and place it in the Grading & Evaluation Method section of the syllabus. The syllabus statement must include:
 - If the course has adopted the GPS Minimum Guidelines as defined above or indicate the course/department guidelines.
 - Guidelines must include the definition of academic distress, minimum tutoring guidelines, and consequences for failure to participate.
- Notify the QEP Director of their intention to participate.

GPS Tutor Course Participation

- During the semester, the instructor will do the following:
 - When students show signs of academic distress, discuss the situation with the student before recommending GPS tutoring and filling out the Gator Pass, so that the student is aware of what will be required of them.
 - Instructor will monitor GPS student's performance and notify the student and Academic Support & Early Alert Coordinator when they have improved in the course.

Official Publications

A thorough knowledge and understanding of the rules and regulations which govern your academic and personal conduct at the college are essential. Each student is expected to become familiar with these rules and regulations and is held responsible for abiding by them at all times. Each of the following official publications is available without charge: College Catalog (printed version), Program Brochures, Campus Maps, Registration Bulletins (when available).

Orientation

An orientation program is offered during August for the fall enrollment and in January for the spring enrollment. These sessions are designed to acquaint new students with campus facilities, academic and student support services, and give individual students opportunities to confer with advisors, program directors and associate deans about academic programs. Details of the orientation programs can be found at <https://www.lSCO.edu/orientation/orientation.asp> or by contacting the Recruiting Office at (409) 882-3340.

Physical Plant

The Physical Plant Department is a support organization dedicated to assisting in the educational mission of the college. The department maintains the grounds, buildings and utility systems as well as design/construction services for major and minor renovation projects and new construction. Students are encouraged to report problems, such as missing lights, plumbing problems, broken items and elevator malfunctions to the nearest departmental office. The departmental staff will forward the reports to the appropriate unit of the physical plant. If departmental offices are closed, please report any safety conditions to campus security.

Service Animals

Under the Americans with Disabilities Act (ADA), a Service Animal is defined as, "dogs that are individually trained to do work or perform tasks for people with disabilities. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals under the ADA."

Animals other than dogs are not considered Service Animals (although in some instances, miniature horses may be used), nor are animals that provide emotional support, comfort or companionship. To qualify as a Service Animal, the dog must be trained to do work or perform tasks directly related to the individual's

disability. Examples of work or tasks include but are not limited to:

- Guiding an individual who has a visual impairment
- Alerting an individual who has a hearing impairment or who is deaf
- Stabilizing/calming an individual with anxiety or posttraumatic stress disorder during a panic attack or flashback
- Assisting an individual in a wheelchair
- Alerting or protecting an individual who has a seizure disorder
- Reminding an individual who has a mental illness to take a prescribed medication

Service Animals **must** be permitted to accompany an individual with a disability anywhere on or off campus (e.g. classes, meetings, events, internships, etc.). In compliance with the ADA, Service Animals are welcome in **all** buildings on campus.

Currently enrolled student being accompanied by a Service Animal must register their animal with the Accessibility Coordinator. Details on registering the Service Animal with the Accessibility Coordinator are found on the Accessibility Services webpage: www.lsc.edu/student-life/resources-support/accessibility-services.php

Removal of Service Animals

An individual with a disability **cannot** be asked to remove their service animal from the premises unless:

- The service animal is not housebroken.
- The service animal is out of control and the handler does not take effective action to control it.

The owners of disruptive or aggressive Service Animals may be asked to remove them from campus facilities. If improper behavior happens repeatedly, the owner may be told not to bring the Service Animal into any facility until they take significant steps to mitigate the behavior. Cleanliness of the Service Animal is mandatory. When there is a legitimate reason to ask that a service animal be removed, other accommodations will be offered to provide the individual with the disability equal access to services and/or programs without the animal's presence.

Responsibilities of Individuals with Service Animals

Cleanliness of the Service Animal is mandatory. An individual who uses a service animal is liable for damage done to the premises or facilities by the animal. The person must keep the animal harnessed or leashed or under another mode of control.

Student Center

The Student Center provides facilities for leisure-time recreation and is the campus center for many extracurricular activities. The center includes a TV, café, games, and recreational facilities. All students must present their Lamar State College Orange student identification cards at the front check-in counter in order to use these facilities.

Testing Center

The Lamar State College Orange Testing Center is located in room 107 of the Ron E. Lewis Building. The Testing Center provides a quiet and comfortable setting for group and individual testing of students. The center is completely handicapped accessible. Testing Center hours are from 7:30 a.m. to 7:00 p.m. on Monday and Tuesday; 7:30 a.m. to 5:30 p.m. on Wednesday and Thursday; 8:00 a.m. to 5:00 p.m. on Friday; and 9 a.m. to 1 p.m. the first Saturday of each month during fall and spring semesters. The center observes reduced hours during the Summer semesters, 7:30 a.m. to 5:30 p.m. on Monday through Thursdays, and 8:00 a.m. to noon on Fridays.

Individual testing for make-up exams, finals, English and math placement, credit by examination, etc., is done on an appointment basis. During registration a student can generally get the results for the English, language arts, reading, and math sections of the TSI Assessment immediately,

be advised and register in one day if the student has already been accepted for admissions.

Student Rights and Responsibilities

AIDS Policy Statement

The following is an excerpt of the Lamar State College Orange Policy on AIDS. Any employee, student or contractor of the college may request a copy of the *AIDS Policy* in its entirety from the Human Resources Department.

Acquired Immune Deficiency Syndrome (AIDS) is a fatal disease that has become a nationwide public health problem.

Lamar State College Orange acknowledges the seriousness of this problem. In health-related matters such as this, the college follows the guidelines of recognized authorities including the National Center for Disease Control, the United States Public Health Service, the Department of State Health Services and the American College Health Association. Further, the college shall conform its actions to the Texas Communicable Disease Prevention and Control Act and other laws.

No current evidence exists that individuals infected with human immunodeficiency (HIV), the "AIDS Virus," can infect other individuals by casual contact. Accordingly, there is no reason to exclude individuals with AIDS, AIDS-Related Complex (ARC) or a positive test for antibody to HIV from campus academic, from social or cultural activities. Therefore, on the basis of current knowledge of the disease, individuals sharing common living space, work or study areas, libraries, classrooms, recreational facilities, and theaters do not represent a problem or public threat to the campus community.

Compliance with the Americans with Disabilities Act of 1990

Lamar State College Orange does not discriminate on the basis of disability in admission to, access to or operations of its programs, services or activities. Lamar State College Orange does not discriminate on the basis of disability in its hiring or employment practices.

Under the ADA, a person has a disability if he/she has a physical or mental impairment that substantially limits a major life activity.

This notice is provided as required by *Title II of the Americans with Disabilities Act (ADA) of 1990*.

Questions, concerns, complaints or requests for additional information regarding the ADA may be forwarded to Lamar State College Orange's designated ADA Compliance Coordinator in room 130 of the Ron E. Lewis Building, 409-882-3097, or amy.moore@lsco.edu.

Individuals who need auxiliary aids for effective communication in programs and services of Lamar State College Orange are invited to make their needs and preferences known to the Office of Accessibility Services, first floor of the Ron E. Lewis Building. Refer to the Accessibility Services heading under the Student Resources section of the catalog for more details.

Computer Use Policy

The computing facilities at Lamar State College Orange are provided for the use of all students, full or part-time, in all programs of the college. Students are responsible for seeing that these facilities are used in an effective, efficient, ethical, and lawful manner. Lamar State College Orange reserves the right to access and disclose any documents (either hard copy or electronic format) it deems necessary.

The following rules govern the use of all Lamar State College Orange computer facilities. Any use of these facilities in any way other than those stated below will be considered a violation of the Lamar State College Orange policy.

- Users shall be accountable for using computing facilities in an effective, ethical, and lawful

manner.

- Computer facilities and accounts are owned by LSCO and are to be used for college-related activities only.
- All access to LSCO's central computer systems must be approved by the Computer Center. All access to department computer systems must be approved by the department.
- An account assigned to an individual for use of the central computers or departmental systems is not to be given to another individual. The individual assigned to an account is responsible for all activities for which that account is issued. Use of another person's account is not only a violation of LSCO policy, but also a violation of state law.
- Programs and files are confidential and may be accessed only by those people authorized to do so.
- Electronic communications facilities (such as MAIL) are for LSCO related activities only.
- Computer software protected by copyright is not to be copied or moved to another computer without removal of the software from the original computer.
- No software is to be copied or removed from an LSCO computer and placed on a home computer, nor is any home computer software to be loaded onto an LSCO computer.
- The Computer Center reserves the right to audit any personal computer on Lamar Orange property at any time for unauthorized software.
- Internet access shall be given by justification of business need. Use of these services must be consistent with the goals of LSCO.

An individual's computer use privileges will be suspended, if after an administrative review, individual is found to be in violation of these policies. Continued violation of major violations may result in dismissal and/or criminal charges.

Concealed Handguns on Campus

In 2015, the Texas Legislature approved, and the governor signed legislation permitting individuals who possess a concealed handgun license to carry a concealed handgun on a college campus. The legislation became effective on August 1, 2016. Lamar State College Orange has developed this policy pursuant to the requirements of Texas Government Code, Title 4, Subtitle B, Chapter 411, Subchapter H, Section 411.2031.

- An individual possessing a valid concealed handgun license is entitled to carry a concealed handgun on the campus and premises of Lamar State College Orange.
- License holders who carry a handgun on campus must carry it on or about their persons, concealed at all times, or secured in a locked, privately-owned or leased motor vehicle.
- A license holder may not carry a handgun that is partially or wholly visible on the campus of Lamar State College Orange. Students who expose or otherwise reveal the presence of a concealed handgun are subject to disciplinary action up to and including suspension or expulsion.
- Members of the faculty and staff who expose or otherwise reveal the presence of a concealed handgun are subject to disciplinary action up to and including termination of employment.
- Any individual who fails to meet the responsibilities required of a concealed handgun license holder may be reported to state authorities and may be subject to penalties that result in the revocation of their license.
- Concealed Handgun License holders are not required to disclose their status to anyone other than a law enforcement officer.
- Lamar State College Orange employees may not, under any circumstances, require faculty, staff, students, or visitors to disclose their concealed handgun status.

Prohibited Concealed Carry Locations

- Any premise where a high school interscholastic event is taking place.
- Any premise where a governmental meeting is taking place.

- Any premise where a formal hearing such as student disciplinary hearing, student grade appeal hearing, or employee disciplinary hearing is being held.
- All Prohibited Concealed Carry Locations must be clearly identified, and the campus community must be given advance notice of when and where the restrictions will be imposed. Written notices must include the following language:

Pursuant to Section 30.06, Penal Code (trespass by license holder with a concealed handgun), a person licensed under Subchapter H, Chapter 411, Government Code (handgun licensing law), may not enter this property with a concealed handgun.

- Any signage designating a Prohibited Concealed Carry Location must meet these minimum requirements: include the above italicized language in both English and Spanish; use contrasting colors with block lettering at least one inch in height; and be displayed in a conspicuous manner clearly visible to the public.

Review

- The president will appoint a Concealed Carry Committee that will in each even numbered year review the policy and its effectiveness. The committee may recommend changes to the Prohibited Conceal Carry Locations and address any other concerns of the campus community.
- Any changes to this policy shall be submitted to the TSUS Board of Regents for approval in accord with the timeline provided in Section 411.2031 of the *Texas Government Code*.
- The president shall submit a report to the Texas Legislature by September 1st of each even numbered year describing Lamar State College Orange's policies, rules, regulations, and/or provision relating to the carrying of concealed handguns on campus. The Texas State University System Chancellor and the Board of Regents shall each be provided with copies of the report.

Facilities Usage

By College Sanctioned Organizations

Registered student, faculty and/or staff organizations may use the college's buildings and grounds in compliance with reasonable and nondiscriminatory college rules and regulations approved by the college President or designee, that shall specify the policies and procedures under which such organizations may reserve the college's buildings/and or grounds for their use. Extracurricular use by students, faculty, or staff owned buildings and grounds shall be conducted in accordance with local, state, and college regulations. Such activities shall not disrupt or disturb the property. Registered student, faculty, or staff organizations may not enter into joint sponsorship of any on-campus project or program which involves financial commitments or the scheduling or use of facilities with non-students without prior written approval of the college President or his designee through normal administrative channels.

By Outside Groups

Use of grounds and physical facilities of a system college, especially auditoriums, gymnasiums and large rooms by outside individuals, groups, or associations (outside groups) shall be subject to the following rules as well as policies approved by the President or a designee:

Unrestricted use by outside groups of any facilities and grounds is not permitted. Whenever outside groups share in the use of college buildings, it must be upon the invitation of the college and under its joint sponsorship and with further understanding that all conditions governing such sponsorship are to be set by the college.

The college will not enter joint sponsorship of any project or program that is to result in private gain for the cooperating individuals, groups or associations unless the President or a designee has reviewed the project or program and has determined that such joint sponsorship serves a public purpose and adequate contractual or other controls ensure its realization as required by Article 3, Section 51 of the Texas Constitution.

The college will not enter joint sponsorship of any program or activity in which the educational implications or benefits are not self-evident and that does not directly supplement the educational purposes of the System. The college, when entering joint sponsorship of any program or activity, reserves the right to approve advertising as well as news releases.

Established as a public college body without regard to political affiliation or religious faith, the college cannot be a joint sponsor with any non-campus organization for political or sectarian gatherings. However, the appearance by or on behalf of a candidate for public office may be authorized under conditions prescribed by the board.

The authorization for use of the college's facilities and grounds for functions other than the college's own activities shall be at the sole discretion of the President or a designee and subject to the needs and the convenience of the college, which are always to have priority in the scheduling of facilities.

In the case of programs for which the college is a joint sponsor with some other individual, group or organization, the fee to be paid by the co-sponsor will be a matter for negotiation in each case, subject to final approval by the college President or a designee and will be specified in the agreement providing for the joint sponsorship.

Sexual Misconduct Policy

The following is an excerpt of the Lamar State College Orange Sexual Misconduct Policy. Any employee, student or contractor of the college may request a copy of the Sexual Misconduct Policy in its entirety from the Human Resources Department. It is also available on the LSCO website at lSCO.edu/titleix/titleix.asp.

The Texas State University System and Lamar State College Orange are committed to creating and maintaining educational communities in which each individual is respected, appreciated, and valued. LSCO diligently strives to foster an environment that permits and encourages everyone to perform at their highest levels. LSCO's focus on tolerance, openness, and respect is key in providing every member of the LSCO community with basic human dignity free from all forms of Sexual Misconduct, including Sexual Harassment, Sexual Assault, Domestic Violence, Dating Violence, and Stalking. Any report of behavior that threatens our institutional values and breaches this Policy shall be promptly investigated and remediated in accordance with principles of law, fairness, and equity to all Parties involved.

LSCO complies with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination based on disability, the Age Discrimination Act of 1975, which prohibits discrimination based on age, and the Campus Sexual Violence Elimination Act. Sexual misconduct, as defined in the College's Sexual Misconduct Policy, constitutes a form of sex discrimination prohibited by Title IX and Title VII.

Speech and Assembly

Definition. Freedom of inquiry and discussion is basic and essential to intellectual development, provided such freedoms are exercised in a manner that does not illegally derogate the rights of others or interfere with the academic programs and administrative processes of a College. The grounds of all Colleges are traditional public forums, subject to such reasonable time, place, and manner restrictions as the College President may impose.

Off-Campus Speakers in College Facilities. The freedoms of speech and assembly guaranteed by the *First and Fourteenth Amendments* to the *United States Constitution* shall be enjoyed by the students, faculty and staff of the College with respect to the opportunity to hear off-campus or outside speakers.

- If a registered campus organization is sponsoring a campus speaker, it has the responsibility of

making clear the fact that the organization, not the College, is extending the invitation to speak and that any views the speaker may express are the speaker's own and not necessarily those of the Texas State University System or of the College.

- Students, faculty, staff and registered organizations campaigning for public office on behalf of candidates for public office must abide by the provisions of this section.
- Speakers to be paid from state funds to speak on the College campus shall speak in a facility that is open to the public. This subsection does not apply to classes, seminars, symposia and conferences intended for the use and benefit of students, faculty, staff and invited guests. No person may obstruct or lessen in any way the opportunity for the audience to see and hear the speaker. The number of students, faculty, staff and guests may be limited to prevent a hazard to the safety of the audience.
- Off-campus speakers who have not been sponsored or invited by a registered student, faculty or staff organization or by the College administration shall be prohibited from speaking to groups in campus facilities and buildings unless the speaker is speaking to an off-campus organization that has been authorized to meet on the campus.
- With the prior written approval of the College President, the College may, at its sole discretion, lease or rent space in the Student Center or other appropriate buildings or grounds for political rallies and meetings provided that space is made available to legitimate political rallies and meetings and provided that space is made available to legitimate political candidates in a nondiscriminatory fashion and the rent for such space is based on a fair market value.

Time, Place and Manner Restrictions

While freedom of speech and assembly is encouraged, the law recognizes that there is no absolute right to assembly or to make or hear a speech at any time or place regardless of the circumstances, content of speech, purpose of assembly, or probable consequences of such meeting or speech. The issuance of invitations to outside speakers shall be limited as follows:

- A request to invite an outside speaker will be considered by the College only when made by a registered student, faculty, or staff organization. No invitation shall be issued to an outside speaker without prior written concurrence of the College President or a designee for scheduling of speaker dates and assignment of campus facilities.
- Any speaker request shall be made in writing to the President or a designee by an officer of a registered student, faculty, staff, organization, or by an administrative officer of the College desiring to sponsor the proposed speaker not later than six (6) business days prior to the date of the proposed speaking engagement. This request shall contain the name of the sponsoring organization; the proposed date, time and location of the meeting; the expected size of the audience; and the topic of speech. Any request not acted upon by the College President or a designee within five (5) business days after submission shall be deemed granted.
- A request made by a registered organization may be denied only if the College President or the authorized designee determines, after proper inquiry, that the proposed speech will constitute a clear and present danger to the College's orderly operation. as defined in TSUS Rules and Regulations.
- Where the request for an outside speaker is denied, the sponsoring organization may appeal to the President or an authorized designee in writing within three (3) business days of the denial. A hearing will be held within four (4) business days following the filing of its appeal before an impartial board or administrator appointed by the President for a *de novo* consideration of the request. Such board or administrator shall make a recommendation to the College President, whose decision shall be final. If the President fails to decide the matter within seven (7) business days following the filing of the appeal, it shall be deemed granted, and the speaker's invitation may be issued by the organization.
- Where the request for an outside speaker is granted and the speaker accepts the invitation, the sponsoring organization shall inform the President or a designee immediately in writing of such acceptance. The President or a designee may, at his/her discretion, require that the meeting be chaired by a member of the administration or faculty and that a statement be made at the meeting that the

views presented are not necessarily those of the College or of the sponsoring organization. By acceptance of the invitation to speak, the speaker shall assume full responsibility for any violation of law committed by the speaker while on campus.

Assembly on College Grounds

Any group or person, whether a student or employee and whether invited by a registered student, faculty or staff organization, may assemble and engage in free speech activities on the grounds of the campus. However, the College President or a designee shall adopt reasonable viewpoint neutral, non-discriminatory rules and regulations as to time, place and manner of such activities and may prohibit such activities if it is determined, after proper inquiry, that the proposed speech constitutes a clear and present danger as defined below.

Clear and Present Danger

Proposed speech, which constitutes a clear and present danger to the College's orderly operation by the speaker's advocacy (i.e., preparing the group addressed and steering it to such action as opposed to the abstract espousal of the propriety of resort to force), may be prohibited. In determining the existence of a clear and present danger, the College President may consider all relevant factors, including whether within the past five (5) years such speaker has incited violence resulting in the destruction of property at any public institution or has willfully caused the forcible disruption of regularly scheduled classes or other educational functions at any such institution. There must be not only advocacy to action but also reasonable apprehension of imminent danger to the essential functions and purposes of the College.

Demonstrations, Publications, Posters

Reasonable and nondiscriminatory rules and regulations as to time, place and manner may be promulgated by the President or a designee of the College to authorize student, faculty, staff, and their registered College organizations to petition, distribute publications, post signs, set up booths and/or peacefully demonstrate on the College campus. Such regulations shall prohibit any activity that would interfere with academic or college programs.

- No group or person, whether a student or employee, shall publicly display, distribute, or disseminate on the college campus any petition, handbill, or piece of literature, work, or material that is obscene, or libelous, or that advocates the deliberate violation of any federal, state, or local law. Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person distributing or disseminating the material or to any group or individual. No group or person, whether a student or employee, shall publicly display, distribute, or disseminate on the Component campus any petition, handbill, or piece of literature, work, or material that is obscene, vulgar, or libelous, or that advocates the deliberate violation of any federal, state, or local law. Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person distributing or disseminating the material or to any group or individual.
- Advocacy means addressing the group for imminent action and steering, bolstering, or bracing it to such action as opposed to the abstract espousal of the moral propriety of a course of action.
- Any group or person, whether a student or employee, demonstrating on campus shall adhere to the provisions *Education Code, Section 51.935*, as cited in *Chapter VI, Subsection 5.4*, of the *Rules and Regulations*.

Antisemitism

"Antisemitism" means a certain perception of Jews that may be expressed as hatred toward Jews. The term includes rhetorical and physical acts of antisemitism directed toward Jewish or non-Jewish individuals or their property or toward Jewish community institutions and religious facilities.

Disruptive Activities

Disruptive activities are prohibited on the campus. See *Education Code, Section 51.935* and *Chapter VI, Subsection 5.4*. The President shall promptly utilize all lawful measures to halt and eliminate any and all such disruptive activities and shall immediately notify the Chancellor and the Chairman of the Board of Regents.

Disciplinary Action

Students may be subject to disciplinary action, up to and including expulsion from the College, for violating the Speech and Assembly policy.

Freedom of Speech and Expressive Activity Policy

The purpose of this policy is to:

1. Protect the free speech rights (expressive activities) of individuals of the LSCO campuses;
2. Preserve LSCO's primary academic mission; and
3. Protect the health and safety of the LSCO community.

In accordance with state and federal law, as well as the *Texas State University System (TSUS) Rules and Regulations*, LSCO established the following reasonable time, place, and manner restrictions. Any restriction listed below applies equally to individuals and groups, regardless of viewpoint.

In the event of a conflict between this policy and the *TSUS Rules and Regulations*, the *TSUS Rules and Regulations* shall control.

Definitions

- a. Advocacy or Advocates - Addressing a group for imminent action and steeling, bolstering, or bracing it to such action as opposed to the abstract espousal of the propriety of a course of action.
- b. Amplified sound - Sound volume that is increased by any electric, electronic, mechanical, or motor-powered means. Shouting, group chanting, and acoustic musical instruments are exempt from this definition and are not subject to the special rules on amplified sound but are subject to general rules on disruption and noise violation.
- c. Antisemitism - A certain perception of Jews that may be expressed as hatred toward Jews. The term includes rhetorical and physical acts of antisemitism directed toward Jewish or non-Jewish individuals or their property or toward Jewish community institutions and religious facilities.
- d. Commercial Speech - Speech or writing on behalf of a business with the intent of earning revenue or a profit.
- e. Common Outdoor Areas - Public forums that include the streets, sidewalks, or other common outdoor property owned or leased by LSCO.
- f. Designated Areas - areas where amplified sound, exhibits, and temporary structures may be used or displayed within the time, place, and manner specified by the College.
- g. Disruptive activities include:
 - i. Obstructing or restraining the passage of persons to the campus or an area of the campus or to an exit, entrance, or hallway of any building without the authorization of LSCO administration;
 - ii. Seizing control of an area of the LSCO campuses, grounds, or any building or portion of a building for the purpose of interfering with any administrative, educational, research, or other authorized activity; or
 - iii. Disrupting and/or preventing or attempting to prevent by force or violence or the threat of force or violence any lawful assembly authorized by LSCO administration. A lawful assembly is disrupted when a person in attendance is rendered incapable of participating in the assembly due to the use of force or violence or a reasonable fear of force or violence.
- h. Expressive Activities - Any speech or expressive conduct protected by the First Amendment to the United States Constitution or by Section 8, Article I, Texas Constitution, and includes assemblies, protests, speeches, the distribution of written material, the carrying of signs, and the circulation of petitions. The term does not include commercial speech.

- i. External Speaker - Any individual who is not a current student, faculty, or staff member of LSCO.
- j. Grounds - All common outdoor areas on LSCO campuses.

Disruptive Activities

The College strictly enforces the *TSUS Rules and Regulations*' prohibition of disruptive activities (see Chapter VI, Subparagraph 5.4 and Chapter VII, Subparagraph 3.7) on the LSCO campuses. Any person who violates the prohibition will be subject to any remedies provided by law and the *TSUS Rules and Regulations*, including, but not limited to, removal from campus, the student or employee disciplinary process, or criminal prosecution.

College Grounds – Designated Traditional Public Forums

Chapter VII, Subparagraph 3.1 of the *TSUS Rules and Regulations* designates all College grounds as traditional public forums. Any person may engage in Expressive Activities on College grounds, subject to federal and state laws and reasonable time, place, and manner restrictions.

Individuals may utilize the areas specified in the Reservations section of this policy for Expressive Activities.

Speech, Expression, and Assembly

The following time, place, and manner restrictions shall apply to all Expressive Activities on College grounds:

- a. Expressive Activities must not at any time interfere with or disrupt the academic mission of the College.
- b. No table, temporary structure, or equipment associated with an Expressive Activity may block or interfere with the means of entrance or egress to any College building, facility, or classroom.
- c. All tables and chairs must remain within the reserved space for the duration of the activity.
- d. Use of amplified sound must comply with the restrictions contained in the Amplified Sound section of this Policy.
- e. Some areas of the College may be reserved by external groups. Fees may apply.
- f. Improper use of any College equipment or policy may result in loss of reservation and use privileges.
- g. Expressive Activities must follow the procedures in the *Emergency Operation Plan*.

Reservations

- a. Assembly and distribution of written material is permitted in the patio area located immediately outside the East exit of the J.B. Welch Student Center during normal college operating hours provided the activity complies with this policy, is lawful, and does not disrupt the functioning of the College.
- b. Other College facilities are available for reservation: Reservations are made through the Event Coordinator by a representative of the sponsoring student, faculty, or staff organization. Reservations may be denied if the activity is scheduled at the same or similar time as another College function or meeting.

Amplified Sound

To preserve the academic and core business of the College, the use of amplified sound is restricted to certain times and designated areas. Use of amplified sound is permitted subject to the following:

- a. Location: Use of amplified sound is permitted only in the patio area located immediately outside the East exit of the J.B. Welch Student Center with an approved reservation.
- b. Reservation: An amplified sound request must be made in conjunction with a reservation request.
- c. Hours: The use of amplified sound is permitted from 8am-5pm every day in the patio area located immediately outside the East exit of the J.B. Welch Student Center with an approved reservation. The use of amplified sound is limited to the reservation period in approved, reserved areas.

- d. Frequency: Organizations are allowed one (1) amplified sound event per week. Only one (1) amplified sound event at a time is permitted in each designated area.
- e. Volume: All sound levels will be set by LSCO based on class and campus activities schedules and shall not disrupt the academic mission of the College.

External Speakers

- a. Only recognized student, faculty, or staff organizations and College academic or administrative units may request authorization to invite an external speaker to speak at the College. External Speakers who have not been sponsored or invited by a registered student, faculty, or staff organization or by the LSCO administration may not speak to groups in campus facilities and buildings unless the speaker is speaking to an off-campus organization that has been approved under the procedures provided in Chapter VII, Subparagraph 3.24 of the TSUS Rules and Regulations. No invitation shall be issued to an External Speaker without the prior written approval of the LSCO president or designee.
- b. Any speaker request shall be made in writing to the LSCO president or designee by an officer of a registered student, faculty, or staff organization, or by an LSCO administrative officer desiring to sponsor the proposed speaker no later than six (6) business days prior to the date of the proposed speaking engagement.
- c. The sponsor of the External Speaker has the responsibility of making clear that the group or organization, not the College, is extending the invitation to speak and any views the External Speaker may express are the External Speaker's own and not those of the Texas State University System or LSCO.

Banners, Exhibits, Chalking, and Structures

- a. Recognized Student Organizations, faculty, and staff may hang banners and display exhibits on campus after approval through the Dean of Student Services. Banners, flyers, or posters may not be affixed in any way to College trees for any purpose. No written materials may be permanently placed.
- b. Outside groups or individuals are not permitted to hang banners or to display exhibits on any LSCO property.
- c. No group or person, whether affiliated with LSCO or an External Speaker or group, shall publicly display, distribute, or disseminate on the Campus any petition, handbill, or piece of literature, work, or material that is obscene or libelous, or that advocates the deliberate violation of any federal, state, or local law. Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person distributing or disseminating the material or to any group or individual, or otherwise violates this policy.
- d. Chalking (use of chalk to write on LSCO property) is strictly prohibited unless it is an assignment in a LSCO course or Student Services activity.
- e. No permanent or semi-permanent structures are permitted on LSCO property. Temporary structures are only permitted in the patio area located immediately outside the East exit of the J.B. Welch Student Center from 8am-5pm or during the reservation period if an area has been reserved.
- f. Anyone who erects a temporary structure, display, or exhibit assumes full responsibility for the structure, display, or exhibit, including all injuries or hazards that may arise from it. The College shall not be liable for any damage that may occur to the structure, display, or exhibit, and any person or organization sponsoring the structure, display, or exhibit shall indemnify the College for any claims arising from their presence on campus.

Disciplinary Process

- a. Students who violate this policy will be subject to appropriate discipline under *LSCO's Catalog*, up to and including expulsion.
- b. Staff who violate this policy will be subject to appropriate discipline under *LSCO's Policy and Procedure Manual*, up to and including termination.

- c. Faculty who violate this policy will be subject to appropriate discipline under Chapter V, Paragraph 4 of the *TSUS Rules and Regulations*, up to and including termination.

Identity Theft Prevention Program

1. General Policy

- a. Lamar State College Orange is committed to protecting all personal identifying information and preventing identity theft, as required by the Red Flags Rule.
- b. As required by the Red Flags Rule, the Program includes the following policy specifics:
 - i. identifying relevant Red Flags for new and existing covered accounts;
 - ii. detecting Red Flags that have been incorporated into the Program; and
 - iii. responding appropriately to detected Red Flags in order to prevent and mitigate identity theft.
- c. The Program will be periodically updated to reflect environmental, institutional, technological, and legal changes.

2. Authority and Responsibility

- a. *The Assistant Vice President for Financial Services and the Assistant Vice President of Fiscal Management are the designated Program Administrators and will exercise appropriate and effective Program oversight. The Program Administrators shall be empowered to manage and execute all aspects of the Program, including the engagement of other institutional departments and personnel as necessary to detect, identify, mitigate, and prevent identity theft.*
- b. *Periodically, the Program Administrator shall discuss assessments of the Program with the College President. The Program Administrator shall provide an annual report to the President, to include incidents involving identity theft, management's response, and recommended Program changes.*
- c. *The Program Administrators are responsible for ensuring the completion of the following seven steps for compliance:*
 - i. *analyzing the size and complexity of the College's covered accounts;*
 - ii. *determining the existing policies that control foreseeable risks of identity theft;*
 - iii. *developing a list of "Red Flags" (risk factors) for the covered accounts and how to detect them;*
 - iv. *establishing the procedures that should be followed when a Red Flag is detected;*
 - v. *training the College employees who work with covered accounts;*
 - vi. *evaluating the program administration and regularly updating the Program to reflect changes in risk;*
 - vii. *managing outside service providers.*
- d. *Third party vendors who process payments for or on behalf of the College must provide written documentation certifying their compliance with the FTC's Red Flags Rule.*
- e. *To assure the Program's effectiveness, specific details of the Program's identification, detection, mitigation, and prevention practices are considered "confidential" information and shared with employees according to their "need to know".*
- f. *In the event College personnel detect any identified Red Flags or related suspicious activity, such personnel shall report it immediately to the Program Administrator, who will conduct further investigation and initiate the appropriate response actions.*

3. Identification of Red Flags

To identify relevant Red Flags, the College considers the types of accounts that it offers and maintains, the methods it provides to open/access its covered accounts, and its previous

experiences with identity theft. The following items will be considered Red Flags (risk factors):

- a. *Notifications and Warnings from Credit Reporting Agencies*
- b. *The Presentation of Suspicious Documents, such as inconsistent photo identification or personal identifying information*
- c. *The Presentation of Suspicious Personal Identifying Information –Personal information inconsistent with other information on file*
- d. *Suspicious Covered Account Activity or Unusual Use of Account*
- e. *Alerts from Others*
4. **Employee Training**
Each employee who works with a covered account shall attend annual training on the Program. The Finance Office will offer Program training in conjunction with IT Security. The training will include review of the relevant policies and procedures on how to manage covered accounts, guidance on how to detect Red Flags, as well as procedures for responding to Red Flags.
5. **Detecting Red Flags**
College personnel will verify:
 - a. *the identification of customers requesting information about themselves (in person, via telephone, via facsimile, via email);*
 - b. *the validity of request to change account-related addresses; and*
 - c. *the accuracy of changes in bank account information that might impact billing and payment.*
6. **Response Actions**
 - a. *Notification of a Red Flag will be made to the Program Administrator immediately after its identification. The Program Administrator will determine the appropriate response of actions, if any, upon detection or report of Red Flags, in accordance with requirements of the FACT Act of 2003 and other applicable regulations. The Program Administrator shall notify IT Security if the Red Flag suggests the possibility of a breach in information security. Such actions will be made to mitigate identity theft, and may include but are not limited to:*
 - i. *monitoring a covered account for evidence of identity theft.*
 - ii. *contacting the customer;*
 - iii. *changing any passwords, security codes, or other security devices that permit access to a covered account;*
 - iv. *notifying the law enforcement; or*
 - v. *determining that no response is warranted under the particular circumstances.*
 - b. *The Program Administrator will log all reported Red Flag detections along with the actions taken and include a summary in the annual report for the President.*
7. **Continually Administer and Regularly Update**
 - a. *The Program will be periodically reviewed and updated to reflect changes in identity theft risks, business practices and procedures, and the technological environment. In reflecting upon possible changes, the Program Administrator will consider:*
 - i. *The College's experiences with identity theft;*
 - ii. *changes in identity theft methods;*
 - iii. *changes in types of accounts the College maintains;*
 - iv. *changes in the College's business arrangements with other entities; and*
 - v. *any changes in legal requirements in the area of identity theft.*
 - b. *After considering these factors, the Program Administrator will determine whether changes to the Program, including the listing of Red Flags, are warranted.*

8. *Outside Service Provider Arrangements*

- a. *In the event the College engages a service provider to perform an activity in connection with one or more accounts, the service provider is required to provide written documentation certifying their compliance with the FTC Red Flags Rule.*

9. *Definitions*

- a. *Covered Accounts.* *A consumer account designated to permit multiple payments or transactions, or any other account for which there is a reasonably foreseeable risk for the identity theft.*
- b. *Identity Theft.* *Fraud committed or attempted using the identifying information of another person without authorization.*
- c. *Personal Identifying Information.* *Is any name or number that may be used, alone or in conjunction with any other information, to identify a specific person, including but not limited to: name, address, telephone number, social security number, date of birth, government issued driver's license or identification number, alien registration number, government passport number, employer or taxpayer identification number, student identification number, computer's Internet Protocol address, or routing code.*
- d. *Program Administrator.* *The individual designated with primary responsibility for oversight of the Identity Theft Prevention program mandated by the FTC's Red Flags Rule.*
- e. *Red Flag.* *A pattern, practice, or specific activity that indicates the possible existence of identity theft.*

Student Right to Know and Campus Security Act of 1990

Lamar State College Orange provides this report to comply with the Students Right-To-Know and Campus Security Act of 1990. Lamar State College-Orange is a state-assisted institution of higher education located in Orange, Texas. The campus, including the Brown Estate, consists of approximately 100 acres in the city of Orange, Texas, which has a population of approximately 19,000. The college enrolls approximately 3,000 students supported by 250 faculty and staff.

Student Right To Know

The Students Right-To-Know and Campus Security Act, Section 103, Title I requires institutions to provide information about the completion of graduation rate of degree seeking, full time undergraduate students entering the institution. In place of completion or graduation rates, institutions may elect to publish the percentage of students in each entering class who re-enroll each successive year until completion or graduation. These are called persistence rates.

The persistence rates for first-time freshmen who entered Lamar State College Orange in summer or fall semester and also who were enrolled for 12 or more hours of credit during their first fall semester may be acquired through the Office of Institutional Research by calling (409) 882-3312.

Disclosure of Campus Security Policy and Campus Crime Statistics

Published each year, the Lamar State College Orange Annual Security Report provides information on security-related services offered by the college in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. This document has been prepared with information provided to the LSCO Safety and Security Office. It summarizes college programs, policies, and procedures designed to enhance your personal safety while you are at LSCO. The LSCO Annual Security Report is available online on the Campus Safety and Security webpage at <http://www.lSCO.edu/security/security.asp>

Monitoring of Criminal Activity

The Office of Student Services attempts to monitor any criminal activity of student organizations that might hold activities off campus. Refer to the college's Code of Student Conduct and Discipline which states in

part, “Students are also expected to comply with all federal and state laws. THIS PRINCIPLE EXTENDS TO CONDUCT OFF CAMPUS, WHICH IS LIKELY TO HAVE AN ADVERSE EFFECT ON THE COLLEGE OR ON THE EDUCATIONAL PROCESS.”

Prohibition on Weapons

It is a violation of LSCO’s and the Texas State University System Rules and Regulations to possess, carry or otherwise cause a firearm, handgun or other prohibited weapon, licensed or otherwise, concealed or otherwise—to be brought onto the premises of a System Campus.

“Premises of a System College” as used in this Section means a structure and the land (including parking lots, garages, or other appurtenances on which the structure is situated) over which this Board has ownership or control. This prohibition extends to leased, borrowed or other facilities where a System or College function, event, or activity takes or is taking place but does not apply to:

- a. Presidentially–approved academic or other programs (for example, ROTC or administrator residences, or College sponsored or approved events);
- b. law enforcement personnel, acting in performance of their duties;
- c. the transporting of such firearms handguns, or other prohibited weapons for registration with and storage by the College public safety office; or the President’s home and grounds; or, d) permitted tracts of the Christmas Mountains area with a special access permit as outlined in the System Christmas Mountains Ranch Policy.

“Prohibited Weapons” as defined by Texas Penal Code, section 46.01, includes the following;

- “Club” meaning and instrument (for example, a blackjack, nightstick, mace, numb chuck or tomahawk) that is specifically designed, made, or adapted for the purpose of inflicting serious bodily injury or death by striking a person;
- “Explosive weapon”, meaning any explosive or incendiary bomb, grenade, rocket, or mine that is designed, made, or adapted for the purpose of inflicting serious bodily injury or death, or substantial property damage, or for the principal purpose of causing such a loud report as to cause undue public alarm or terror (whether such a weapon is designed, made, or adapted for delivery or shooting);
- “Firearm,” meaning any device designed, made, adapted, or readily adaptable to expel a projectile through a barrel by using the energy generated by an explosion or burning substance (excluded are antique or curio firearms manufactured before 1899 or replicas thereof, provided they do not use rim fire or center fire ammunition), including, but not necessarily limited to handguns, machine guns, rifles, “zip guns,” stun guns, and “short-barrel firearms”;
- “Illegal knife,” meaning any bladed, hand instrument that:
 - has a blade over five and one-half inches;
 - is capable of inflicting serious bodily injury or death on a person by cutting, stabbing, or throwing (for example, a dagger, dirk, stiletto knife, poniard, bowie knife, switchblade knife, sword, or spear);
- “Knuckles,” meaning any instrument that consists of finger rings or guards made of a hard substance and that is designed, made, or adapted for the purpose of inflicting serious bodily injury or death by striking a person with a fist enclosed in the knuckles.
- “Hoax bomb,” meaning a device that:
 - reasonably appears to be an explosive or incendiary device; or,
 - by its design causes alarm or reaction of any type by policy, public safety, or other administrators at a system component, who are charged with assuring campus safety;
- “Chemical dispensing device,” meaning a device (other than a chemical dispenser sold commercially for personal protection) that is designed, made, or adapted for the purpose of dispensing a substance capable of causing adverse psychological or physiological effect on a human being.

Standards of Conduct

Section 5.2 of Chapter VI of Rules and Regulations of the Board of Regents, The Texas State University

System provides for disciplinary action against any student who engages in conduct that is prohibited by state, federal or local law and for illegal use and for unauthorized use of intoxicating beverages and illegal use of any drug, narcotic or controlled substance.

Section 5.9 of Chapter VI of the Regent's Rules and Regulations provides that a student who has been found guilty of the illegal possession, use, sale or distribution of any drug, narcotic or controlled substance, whether the infraction is found to have occurred on or off campus, shall be suspended for a period of not less than the remainder of the semester in which the infraction occurred plus the following long semester. If the semester in which the infraction occurred has ended by the time a student is found guilty, the student shall be suspended for a period of not less than the following two long semesters. This policy is also set out in the student handbook available in the Office of Student Services in the Ron E. Lewis Building, 3rd Floor.

Students Who are Parents or Guardians

LSCO students who are parents or legal guardians to children who are 18 years of age or younger are encouraged to meet with LSCO's Designated Liaison, Morgan Milligan, who can be reached at morgan.milligan@lSCO.edu or (409) 882-3393.

Students who are Parents or Legal Guardians

LSCO defines a "parenting student" as one who is a parent or legal guardian of a child/children under 18 years old.

Pregnant or parenting students will not be required to do any of the following at LSCO solely because of the student's status as a pregnant or parenting/legal guardian student of a child/children under 18 years of age:

- take a leave of absence or withdraw from the student's degree or certificate program;
- limit the student's studies;
- participate in an alternative program;
- change the student's major, degree, or certificate program; or
- refrain from joining or cease participating in any course, activity, or program

Reasonable Accommodations

LSCO will provide reasonable accommodations for pregnant students that would be provided to a student with a temporary medical condition, or that are related to the health and safety of the student and the student's unborn child. These may include, but not be limited to allowing the pregnant student to maintain a safe distance from substances, areas, and activities known to be hazardous to pregnant women or unborn children.

Attendance

For reasons related to a student's pregnancy, childbirth, or any resulting medical status or condition, as documented by a medical provider, LSCO will:

- excuse the student's absence;
- allow the student to make up missed assignments or assessments within a reasonable timeframe, as determined by the department; and
- allow the student additional time to complete assignments in the same manner as LSCO allows for a student with a temporary medical condition; and
- providing students instructional materials that are made available to any other student with an excused absence.

Leave of Absence

LSCO will allow a pregnant or parenting student to:

- take a leave of absence; and
- if in good academic standing at the time the student takes a leave of absence, return to the student's degree or certificate program in good standing without being required to reapply for admission.

Campus Liaison and Supportive Measures

Lamar State College Orange has designated the Accessibility Coordinator to serve as a campus liaison to current or incoming students of the College who are the parent or guardian of a child younger than 18 years of age. The Accessibility Coordinator is located in the LSCO Advising Office, (409)882-3393. The liaison will provide these students information regarding support services and other resources available to the students at the institution, including resources to access:

- medical and behavioral health coverage and services; and
- public benefit programs, including programs related to:
 - food security
 - affordable housing, and housing subsidies;
 - parenting and child care resources;
 - employment assistance;
 - transportation assistance;
 - student academic success strategies; and
 - any other resources developed by the institution to assist the students.

Requesting Accommodations, Excused Absences, or Leave of Absence

A student seeking accommodations, excused absences, requesting to make-up missed classes or assignments, or a leave of absence related to pregnancy or parenting, will need to complete an Accommodation Request Form and provide official documentation from the student's physician/medical provider. This accommodation request form will be reviewed by LSCO's Accessibility Coordinator. Documentation must include dates for absences requesting to be excused and a statement that absences are deemed medically necessary and/or additional documentation to support the need for absences.

Tobacco-Free Institution

The Texas State University System Board of Regents passed a rule requiring all component institutions to prohibit the use of ALL TOBACCO PRODUCTS on properties owned by the System; there will be no exceptions.

The **Tobacco-Free Policy**, effective as of June 1, 2012, applies to all students, faculty, staff, and visitors. Violators are subject to established administrative/disciplinary policies and procedures.

The **Tobacco-Free Policy** may be viewed on the Lamar State College Orange web page at www.lSCO.edu.

Student Life and Activities

Alumni Access

Lamar State College Orange offers on-campus services and activities to ex-students. Anyone wanting to participate in or take advantage of these services may purchase an alumni ID card. The card has an annual cost of \$35 (September 1 through August 31) and may be paid for at the Cashier's Office. The paid receipt should then be presented in the Office of Admissions, and a photo ID will be made at that time. The ID card must be renewed annually beginning September 1.

Recreational Sports

All faculty, staff, and currently enrolled students with valid Lamar State College Orange I.D. cards have access to the recreational facilities and may participate in activities offered by the college.

Published schedules and reservations allow students, faculty, or staff members to exercise and enjoy competition with friends.

The intramural program provides an opportunity to participate in supervised, competitive sports among

groups within the college community. The stated purpose of the intramural program is to promote human understanding, fair play, and behavioral control through the interrelationships occurring in athletic competition.

Further information on any facet of the recreational sports program may be obtained from the Coordinator of Student Activities.

Student Government Association

The Student Government Association (SGA) serves as the representative voice of students, as a major facilitator of new and improved student services and programs, and in an important role relative to student judicial proceedings. All students enrolled in good standing at Lamar State College Orange are eligible to become members of the Student Government Association, affording each student an opportunity to promote, support, and participate in a well-rounded student life program.

The president and officers of the Student Government Association are elected each spring in a general student election. Student senators are elected each semester. Student opinions may be expressed at the open meetings of the SGA, held during the fall and spring semesters every other Thursday at 3 P.M. in Student Center Room 202.

Student Organizations

Many student organizations offer membership opportunities in one or more groups: professional, religious, academic, honor, spirit, sports or activity. Participation in student organization activities enhances the education of students, and students are strongly encouraged to affiliate with the organization(s) of their choice and participate in the programs.

Lamar State College Orange is committed to equal treatment and opportunity for all people, regardless of race, color, sex, religion, age, handicap or ethnic origin. This commitment applies to all extracurricular life and student activity programs. To this end all student organizations will refrain from conducting any pledging, initiation or extracurricular activities that will in any way defame, ridicule or embarrass any person because of his/her race, color, sex, religion, age, handicap or ethnic origin. All organizations should be aware of and abide by Texas Education Code, Chapter 37, sections 37.151 thru 37.158 and Texas Education Code, Chapter 51, section 51.936 concerning hazing.

Risk Management for Student Organizations

In 2007, the 80th Texas Legislature added section 51.9361 to the Texas Education Code regarding risk management training of officers and advisors of student organizations. Consequently, universities and community colleges are required to provide training in seven different topics related to risk management. Advisors are required to attend risk management training once and specified officers are required to attend training annually.

Student organization advisors and student officers (President, Vice President, Secretary, and Treasurer) of student organizations must attend risk management training on an annual basis and adopt a risk management policy for the organization. The advisor(s) and student leaders must report on the risk management training program contents at a meeting of the full membership of the student organization. A signed statement and copy of the meeting agenda indicating the report was made at the student organization full meeting must be submitted to the Office of Student Life within 45 days following completion of the training.

Student organizations who fail to complete the required training by the stated deadline of October 1, 2024 will be given one 15-day extension to complete the training. If the student organization advisor or student organization leaders fail to complete the required risk management training program by the extension deadline, LSCO will impose reasonable sanctions on the student organization. Student organizations that do not complete the risk management training program will have their organization indexes frozen and will not have access to the additional benefits of a recognized student organization. Upon the completion of the

required risk management training and reporting back to the full organization meeting, the student organization status will be reinstated to good standing.

LSCO is expected to disseminate risk management training content at a meeting of the full membership of the organization/club. Topics to be covered include:

- possession and use of alcoholic beverages and illegal drugs, including penalties that may be imposed for possession or use;
- hazing;
- sexual abuse and harassment;
- fire and other safety issues, including the possession and use of a firearm or other weapon or of an explosive device;
- travel to a destination outside the area in which the institution is located;
- behavior at parties and other events held by a student organization;
- other pertinent information regarding use of Lamar State College Orange property, trademarks, etc. adoption by a student organization of a risk management policy.

Faculty and Staff Advisors

Each registered organization shall have a faculty or staff advisor whose name shall be provided to the college administration as a part of the student organization registration procedures. The organization shall immediately report in writing any change in its advisor. Advisors may not expend their personal funds on behalf of a student organization and request reimbursement.

Disciplinary Action

Any student organization is subject to disciplinary action or revocation of registration as a student for violation of a System and/or of the college rule or regulation or for failing to comply with the direction of a college official acting in the performance of his or her duties.

Requirements for Organizations

As a condition to being a registered student organization or group during an academic year, every registered student organization or group shall furnish, to the director of student activities at the beginning of, or prior to each such academic year, a complete list of officers or other members of the organization or group who are authorized to speak for or represent the organization or group in its relations with the college and who are authorized to receive for the organization or group official notices, directives or information from the college. Each such list shall be current and accurately updated throughout the semester by the organization or group, and it shall be conclusively presumed that the officers or members whose names are on the list most recently filed by the organization or group are authorized to speak for and represent the organization or group official notices, directives, or information from the college.

Except for national honor societies that require outside members, no registered student organization or group may have a person as an active member who is not either a student or a member of the faculty or staff of the college. No organization or group, whether registered or not, may use any facility of the college if it has as an active member any person who is not either a student or a member of the faculty or staff of the College.

Any college funds that are expended on behalf of student organizations will be maintained by the college. Both the advisor of the organization and the designated officer of the organization must authorize any expenditures from the organization's account. All college funds (such as those generated by student services fees) expended for the benefit of student organizations must be expended from budgeted college accounts.

All college-provided funds of registered student organizations are subject to audit by the college. Failure to maintain adequate records may be considered in determining whether a student organization may maintain its registered status.

Student organizations, their officers and sponsors are responsible for assuring that they comply with all applicable TSUS, state and federal rules and regulations, including tax code compliance.

The College may develop applicable policies and procedures to promote fiscal integrity and accountability for student organizations.

College Sanctioned Student Organization Travel

Lamar State College-Orange is committed to the efficient procurement, maintenance and transportation of equipment, apparatus, supplies and personnel and to the security and protection of all employees, students and visitors. The following procedure contributes to the fulfillment and implementation of this policy.

The purpose of this policy is to provide the college community and specifically students and student organizations with procedures and safety guidelines for student/student organizations and sponsored program participant travel that is sanctioned by the college.

College-sanctioned student organization travel is defined as any approved travel to a destination twenty-five (25) miles or more away from campus, which occurs under one or more of the following circumstances:

- A Lamar State College-Orange student/student organization or sponsored program travels to an event that is recognized by the college as having a professional/educational purpose or is an event at which the student group represents the college;
- The travel is required by a student organization registered at LSCO;
- A faculty or staff member serving in his/her official capacity supervises the travel; or
- Institutional, departmental and/or organizational resources are used (includes college vehicles as well as financial resources) to support the travel.

All items listed below must be submitted to the Student Activities Office at least ten (10) working days prior to departure.

- Student Travel Form
- Student Group Travel List
- Trip Release and Indemnity Form
- Photocopies of drivers' licenses and proof of liability insurance for all intended drivers
- Travel Checklist
- Authorization for Medical Treatment Form for any travelers less than eighteen (18) years of age

The Student Activities Office will return copies of all documents listed above, along with a safety kit. These documents need to be placed in the glove compartment of the vehicle.

Driver Requirements

Drivers must be at least eighteen (18) years of age, with valid drivers' licenses and valid liability insurance or lease policy insurance.

All LSCO employees and students who may be called upon to drive a college-owned or leased vehicle for college-related activities shall have a Motor Vehicle Record (MVR) as required by law (Article 6687b, Section 37, VACS) on file in the Human Resources Office. The Human Resources Office will notify the Student Activities Office of all approved drivers. Individuals will not be allowed to drive college-owned or leased vehicles if they are deemed to be unacceptable to the college's insurance carrier or have three (3) years prior to the date of their individual driver's license checks:

- Been convicted of driving while intoxicated (DWI) or driving under the influence (DUI).
- Received two or more moving violations or have been involved in two or more accidents where they have been determined to be at fault.
- Had their drivers' licenses suspended.

No driver shall have consumed any alcoholic beverages or ingested any chemical substance (prescriptive

or over-the-counter) that would impair his/her ability to operate a motor vehicle within twelve (12) hours of operating a vehicle.

Drivers must carry copies of all pertinent LSCO travel documents listed above in this policy.

Vehicle Use

- Smoking is not permitted in any college vehicles.
- The transporting or consumption of alcoholic beverages is prohibited during college-sanctioned travel.
- No student shall be required to use his/her personal vehicle to perform college-related activities.

Other Modes of Travel

Any LSCO students or student organizations approved for college-sanctioned travel by modes of transportation other than cars, vans or personally operated vehicles (i.e. bus, train, airplane, etc.) must comply with all rules, regulations and requirements of the organizations, industries or groups providing such means of travel.

Standard of Conduct During College-Sanctioned Travel

Any LSCO student traveling off-campus to college-related functions or activities is expected to be fully acquainted with the guidelines of the college's Student Travel Policy and Procedures, which is available to each student for review in the Dean for student services office or the Office of Student Activities and Student Organizations. The College will hold each student and each student organization responsible for complying with these published policies and guidelines. Students are expected to comply with all federal, state and local laws as well as LSCO policies, in addition to the policies of any agency or organization to which the students travel.

Any students involved in college-sanctioned travel who violate the LSCO travel policy is subject to disciplinary action taken by appropriate authorities because of the violations. This includes conduct that is likely to have an adverse effect on the College.

Accident Guidelines

This section contains guidelines that must be followed in the event of accidents involving college-sanctioned student travelers. Compliance with the requirements in this section is mandatory; the provisions contained herein constitute college policy and procedure.

- If an accident occurs which involves injuries to a college student, employee or any other individual in any other vehicle, the highest priority is to summon emergency medical personnel to the accident scene immediately.
- Do not move anyone who is injured unless his/her safety is in jeopardy.
- If an accident occurs, the appropriate law enforcement agency should be summoned to the scene for an accident report and an investigation. If possible, vehicles should not be moved unless significant traffic hold-up or safety hazard exists. The Texas Department of Public Safety Roadway Emergency and Stranded Vehicle number is 800-525-5555.
- If an accident occurs, the organization's advisor should be contacted immediately. If the advisor cannot be reached, the director of student activities and student organizations should be contacted at 409-827-1516.
- Attention should be given in any vehicle accident situation to the safety of the persons in the traveling group. These people should be gathered well enough away from the vehicle and/or scene to ensure their safety from the vehicles around the area.

Incident/Breakdown Guidelines

This section contains incident/breakdown guidelines for student travelers. The information in this section is mandatory and constitutes college policy and procedure.

- If an accident/breakdown occurs, contact the Texas Department of Public Safety Roadway Emergency and Stranded Vehicle number at 800-525-5555.
- If a significant traffic hold-up or safety hazard exists, the vehicle must be moved out of the flow of traffic. In the event a vehicle breaks down, the student organization's advisor must be contacted immediately and notified.
- In the event the advisor cannot be reached, the director of student activities and student organizations must be contacted at 409-827-1516.

Safety Guidelines

This section contains specific safety guidelines for student travelers. This information is intended to assist students during travel in an effort to encourage the safest possible travel.

- Only those employees and students with acceptable driving records are authorized to drive college-owned or leased vehicles. (In case of an emergency circumstance that renders an employee unable to drive while on college-sanctioned travel, this rule may be waived).
- Mode of transportation will be determined by the sponsoring department or student organization, taking into consideration a combination of three (3) primary factors: 1) number of participants traveling, 2) distance to be traveled, 3) time frame of the event, 4) cost and 5) travel conditions.
- Drivers will comply with all applicable traffic laws and regulations. Travel between the hours of midnight and 6 a.m. is discouraged. The majority of travel hours should be during daylight.
- Drivers must take a "safety break" after three (3) hours behind the wheel. If travel time is to exceed twelve (12) hours, two (2) or more persons must share the driving responsibility and rotate time behind the wheel.
- A vehicle should not be loaded beyond its capacity to supply one seat belt for every person in the vehicle. On extended travel trips vehicle should be under loaded.
- Road flares, cellular phones, reflectors and a first aid kit should be in every vehicle transporting students for college-sanctioned activities.
- All occupants must use seat belts and appropriate safety devices while the vehicle is in motion.
- All occupants must remain seated when vehicle is in motion.
- The following activities are PROHIBITED for drivers while driving:
 - Operating a vehicle, which exceeds the maximum number of occupancy regulations.
 - Driving while under the influence of impairing drugs or alcohol.
 - Use of radar/laser detection devices
 - Use of headphones or earphones
 - Use of cell phones
 - Eating, smoking or drinking

Use of the Student Center

The use of the student center facilities on the campus shall be subject to reasonable and nondiscriminatory regulations as may be promulgated by the center's director and approved by the Chief Student Affairs Officer and the President.

Priority Scheduling

- Official College Activities
 - President's official functions (development, regents, etc.)
 - Academic dates (registration, graduation, etc.)
 - Orientation
- Major Campus Activities
 - Student Government
 - Student Center Program Board events
 - All college events-open events
- Other Campus Activities

- Recognized campus organizations' events
 - Departmental and faculty events and meetings
 - Continuing education
 - College affiliated organizations (alumni, foundation, etc.)
- Non-Campus Organizations by invitation only.

Schedule of Charges

No rental is charged to students, faculty and staff for the use of the facilities; however, it is necessary to provide for the upkeep and maintenance of the facilities of the Student Center. Consequently, custodial charges will be assessed. A list of these charges and the remainder of the policy can be found in the Student Center Policy Manual. Copies of these charges may be obtained from the Student Activities Office, located in room 105 in the Student Center.

Degrees, Certificates and Institutional Awards

Degrees, Certificates and Institutional Awards (General Information)

Lamar State College Orange has degree-granting authority from the appropriate government agencies. LSCO is authorized as a coeducational lower-division Texas “Public state college” by Texas Education Code (TEC), Title 3, Subtitle E, Chapter 96, “Institutions of the Texas State University System,” Section 96.704. This statute authorizes the Texas Higher Education Coordinating Board (THECB) to adopt policies, enact regulations, and establish rules for carrying out the duties with respect to public state colleges as set by the legislature.

Pursuant to the provisions of the 2012 Edition of the U.S. Code, Title 20-Education, on request, Lamar State College Orange has provided the stipulated documentation to the Secretary of the Department of Education regarding instruction offered to Distance Education students living outside of Texas. As such, LSCO is a member of the State Authorization Reciprocity Agreement (NC-SARA). NC-SARA is a voluntary nationwide reciprocity agreement for the provision of distance education courses and programs to students in other SARA-participating states without seeking state authorization.

Lamar State College Orange offers courses that are equivalent in content and quality to freshman and sophomore courses at all Texas four-year colleges and universities. Students can complete programs of study, preparing them to transfer to four-year institutions or to seek immediate employment. Those students seeking personal enrichment, new, or updated job skills will also find what they need at Lamar State College Orange.

The college is approved by the Texas Veteran’s Commission for the training of veterans under all classifications. In addition, the Vocational Nursing and Transition RN Nursing Programs are accredited by the Texas Board of Nursing. The Pharmacy Technology Program is accredited by the American Society of Health-System Pharmacists. The Emergency Medical Services Program is certified by the Texas Department of State Health Services. The Process Operating Technology Program is accredited by the North American Process Technology Alliance.

Associate of Arts (AA) and Associate of Science (AS) Degrees

AA and AS degrees are designed for transfer to four-year institutions and form the basis for several career options and majors. Students must select courses which provide the best preparation for transfer in a particular major field at the specific institution planned for transfer.

The AA and AS curricula include electives as well as required courses for particular concentrations of study. It is imperative that a transferring student work closely with an advisor to plan a successful program for the selected senior institution. Students pursuing Associate of Arts or Associate of Science degrees must meet the testing requirements of Texas Success Initiative (TSI).

In accordance with Senate Bill 1189, passed by the 84th Legislative Session, LSCO has designated the AA in Liberal Arts as the multidisciplinary studies associate degree.

Associate of Applied Science (AAS) Degrees

Associate of Applied Science (AAS) degrees are intense programs of study designed to prepare students for employment after graduation. All programs are developed to ensure that students achieve competencies in job skills. Some courses may transfer to four-year institutions, but students planning to pursue bachelor degrees should work closely with advisors to plan for successful transfer of coursework.

Requirements for the AAS degree include general education courses, specified courses in the chosen area of study, and verification of workplace competencies (capstone course, credentialing exam, or work-based

learning experience). Students pursuing Associate of Applied Science degrees must meet the testing requirements of the Texas Success Initiative (TSI). Many BAAS programs are available statewide to allow students who complete an AAS with LSCO to transfer opportunities to complete a baccalaureate degree.

Certificate of Completion (CC)

Certificate programs are traditionally designed to transition into an Associate of Applied Science degree upon completion within one to three semesters. They provide specialized technical career training. Successful students develop essential skills and gain technical background that prepares them to enter the workforce. All technical certificate programs with 42 credit hours or less offered at Lamar State College Orange are waived from the testing requirements of the Texas Success Initiative (TSI).

Institutional Awards (IA)

The college may offer Institutional Awards reflecting a course or series of courses that represent achievement of marketable skills or meet a student's self-defined educational objective.

Assessment of Student Outcomes

In order to provide for continuing program and operational development and evaluation and meet Texas Higher Education Coordinating (THECB) and accreditation requirements, Lamar State College Orange will assess all programs, both academic and occupational/technical, on the basis of students' learning outcomes. To assess such outcomes, students may be required to take additional examinations, participate in surveys and/or provide samples of their work at LSCO.

Core Curriculum

Core Curriculum

If a student successfully completes the core curriculum, that block of courses may be transferred to any other Texas public institution of higher education and must be substituted for the receiving institution's core curriculum. A student shall receive academic credit for each of the courses transferred and may not be required to take additional core curriculum courses at the receiving institution.

A student who transfers without completing the core curriculum shall receive academic credit within the core curriculum of the receiving institution for each of the courses that the student has successfully completed in the core of the sending institution. The student may be required to satisfy the remaining course requirements in the core curriculum of the receiving institution.

A student completing an Associate of Science or an Associate of Arts degree must successfully complete the following core curriculum:

LSCO 42-Hour Core Curriculum

THECB Component Area	Hours
Communication	6
Mathematics	3
Life and Physical Sciences	6
Language, Philosophy, and Culture	3
Creative Arts	3
American History	6
Government/Political Science	6

Social and Behavioral Sciences	3
Component Area Option	6
Total Curriculum Hours	42

General Education Philosophy and Rationale

The general education and technical programs at Lamar State College Orange provide students with a solid foundation of knowledge and skills which will assist them throughout life. Through general education, students encounter the basic content and methodology of the principal areas of knowledge: humanities and fine arts, social and behavioral sciences, and natural sciences and mathematics. Courses in each of these specific areas introduce a breadth of knowledge and reinforce cognitive skills and affective learning opportunities for each student.

Each instructional program of the College contains a general education core curriculum component that is based on developing competencies in oral and written communication, critical thinking, personal responsibility, social responsibility, empirical and quantitative reasoning, and teamwork. The core curriculum encompasses a breadth of content and courses ranging from the humanities and fine arts to the social and behavioral sciences and from the natural sciences to mathematics. Refer to the core curriculum section of this catalog for an in-depth listing of courses belonging to the LSCO core curriculum.

LSCO's core curriculum comprises the general education areas and humanities and fine arts, social and behavioral science, and natural sciences and mathematics through the following crosswalk:

Humanities/Fine Arts*	Social/Behavioral Science	Natural Science and Math
• Communication • Language, Philosophy, and Culture • Creative Arts	• American History • Government/Political Science • Social and Behavioral Sciences	• Mathematics • Life and Physical Sciences

Lamar State College Orange has established eight general education goals to specify the knowledge and skills that students should gain from completing academic and technical programs with the College. These student learning goals are:

1. Critical thinking – Students will be able to demonstrate creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.
2. Communication – Students will be able to effectively develop, interpret and express ideas through written, oral and visual communication.
3. Empirical and qualitative skills – Students will be able to manipulate and analyze numerical data or observable facts and create informed conclusions.
4. Teamwork – Students will be able to consider different points of view and to work effectively with others to support a shared purpose or goals.
5. Social responsibility – Students will be able to recognize and acquire a sense of intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national and global communities.
6. Personal responsibility – Students will be able to connect choices, actions, and consequences to ethical decision making.
7. Technology – Students will be able to utilize computer-based technology in accessing information, solving problems and communicating.
8. Career-entry skills – Students will be able to demonstrate academic skills and workforce skills, knowledge, and ability necessary to attain entry-level employment in a target occupation.

Based upon the knowledge and skills gained through the core curriculum general education and workforce education program at Lamar State College Orange, students will be prepared to serve as informed and productive citizens as well as lifelong learners.

42 Total Hours

NOTE: The one-hour lab course will be applied to the major component.

NOTE: Any hours beyond the 6 required in the Component Area Option will be applied to the major component.

Academic Education

The academic education division provides course offerings for the student seeking an Associate of Arts or Associate of Science or Associate of Teaching degree. At Lamar State College Orange, a student may earn an AA, AS, or AAT degree by successfully completing a planned curriculum of freshman and sophomore academic courses comprised of a 42-semester credit hour general education core and 18 additional semester credit hours of appropriate electives. These courses are approved by the Texas Higher Education Coordinating Board and are transferable to public senior colleges and universities in Texas. Lamar State College Orange maintains contact with senior institutions in the state to ensure that university transfer courses offered at LSCO are equivalent in quality and content to those of the senior institutions.

Technical and Health Profession Education

Technical, and health profession, and nursing education is designed to provide the educational competencies and skills required for employment in business, industry, technical fields and health services. In addition, many students enhance and upgrade their job skills for career advancements and/or “up-skilling.”

Lamar State College Orange provides quality technical and health profession programs specifically designed to meet the needs of employers located in the geographic areas served by the College. Each program has an advisory committee consisting of individuals from business and industry that provide input into the curriculum, courses, equipment needs and overall evaluation of the effectiveness of the program, specifically as it relates to preparing students with relevant skills, licensures, and credentials to enter today’s workforce.

The technical, health profession, and nursing education programs are designed to meet industry and business employment needs for a skilled workforce while meeting a broad spectrum of student interest, needs and abilities. Students may enroll in the Associate of Applied Science (AAS) degree program, Certificate of Completion (CC) program, or Institutional Award (IA) program. Each program has been

approved by the Texas Higher Education Coordinating Board and students must complete all courses specified in the degree plan. Substitutions for any course in the AAS degree or certificate requires prior approval of the Dean of Transfer and Public Service Programs, the Dean of Industry and Manufacturing Programs, or the Dean of Nursing and Health Professions Programs.

The Associate of Applied Science (AAS) degree provides a two-year curriculum, consisting of core program courses, related courses, and general studies courses. The Certificate of Completion (CC) is designed to provide core courses in a technical or allied health program that specifically and directly relate to competencies needed for employment and potential advancement in a career field. In Institutional Award (IA) enables students to receive recognition (not designated on transcripts) for entry level employment or industry recognized certifications and/or licensures.

LSCO has implemented stackable credentials that allow students to enroll in a Certificate of Completion that then leads to an Associate of Applied Science. Many technical and allied health programs also transfer into a Bachelor of Applied Arts and Science (BAAS) degree at public Texas four-year institutions. Please see your program director or an academic advisor for more information on pursuing a BAAS with a partnering university after completing an AAS with Lamar State College Orange.

Workforce and Continuing Education

Workforce Education Coordination

Dr. R.E. Davis, Dean of Industry and Manufacturing Programs

Michelle Hammerly, Director of Workforce and Continuing Education Programs

Lamar State College Orange (LSCO) offers customized training programs for upgrading employment skills and/or for those pursuing areas of personal interest through its continuing education programs. These classes provide opportunities for individuals to continue their education in the academic and technical/occupational areas. A number of classes are offered for persons interested in pursuing creative activities, cultural endeavors, and/or recreational programs. Additional class offerings include personal development, computer skill enhancement, and professional development along with free community service-learning opportunities.

Non-credit courses are open to interested adults without regard to eligibility for admission to college-credit programs. LSCO can award continuing education units (CEUs) to those who complete continuing education courses administered by LSCO. In no instance should the award of CEUs be equated with college credit toward a degree.

Workforce & Continuing Education (WF& CE) offers customized business and industrial training. These programs are designed to fit the needs of local employers. Training can take place on the Lamar State College Orange campus, a local plant, or office location. WF & CE has worked with local businesses and industry leaders to deliver courses in computer technology, leadership training, business communication, maintenance technology, and more. Courses vary in length from one hour, to one-day, to multi-faceted, long-term training.

SOCIAL AND BEHAVIORAL SCIENCE CORE 080		3
APPROVED ACADEMIC ELECTIVE		1
Semester Hours		13
Total Program Hours		60

It is recommended for students to check with the institution they are planning to transfer to for advice on which courses work best for their major.

Suggested Core Classes for this Degree:

Communication 010 – ENGL 1301 and SPCH 1315

Mathematics 020– MATH 1332

Life and Physical Sciences 030- BIOL 1408, BIOL 1409, BIOL 2406, CHEM 1411, GEOL 1403, or GEOL 1404

Language, Philosophy, and Culture 040 - ENGL 2322, ENGL 2326, ENGL 2331, PHIL 1301, or PHIL 2306

Creative Arts 050- ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060- HIST 1301 and HIST 1302

Government/Political Science Core 070- GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080- ECON 2301, GEOG 1302, PSYC 2301, or SOCI 1301

Component Area Option 090 – SPCH 1311 and SPCH 1321

See core curriculum for the complete list of course options.

General Studies (Core Curriculum)

Certificate of Completion

This certificate is designed for students who do not desire to complete an associate's degree but wish to transfer their core class work to serve as a foundation for the Bachelor of Arts or Bachelor of Science degrees at a public university in the state of Texas. Students earning this certificate will be guaranteed full transferability of core curriculum courses to public institutions as per the Texas legislative mandate.

First Semester		Credit Hours
EDUC 1300 (COMPONENT AREA OPTION CORE 090)		3
ENGL 1301 (COMMUNICATION CORE 010)		3
AMERICAN HISTORY CORE 060		3
MATHEMATICS CORE 020		3

Insurance Services Management

Associate of Applied Science Degree

The Insurance Services Management degree is designed to prepare students for positions in the insurance industry. Insurance sales agents contact potential customers and sell one or more types of insurance. These agents explain various insurance policies and help clients choose the plans that suit them. Insurance sales agents commonly sell one or more types of insurance, such as property and casualty, life, health, and long-term care.

Language, Philosophy, and Culture - ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, ENGL 2341, HIST 2321, HIST 2322, HUMA 1315, or PHIL 1301

Mathematics - MATH 1332 or MATH 1324

Social and Behavioral Sciences- ECON 2301

Real Estate

Certificate of Completion

This program prepares individuals for careers as a property, real estate, or community association managers. As business professionals, supervisors, managers or small business owners. A sales agent is a person who is licensed by the Real Estate Commission to act as an agent on behalf of a real estate broker and their clients. A sales agent must be sponsored by a licensed Broker in order to perform any act of real estate services.

The curriculum is designed for students who want to take the business and technical courses necessary to enter the workforce and begin careers with the option to take the general academic courses associated with a four-year Bachelor of Applied Arts and Sciences degree at a later time.

Qualifications to become a Real Estate Sales Agent in Texas:

- Citizen of the United States or lawfully admitted alien; A DACA recipient does not qualify as a lawfully admitted alien
- 18 years of age or older
- Meet Texas Real Estate Commission's (TREC's) qualifications for honesty, trustworthiness, and integrity.
- Consider requesting a Fitness Determination before applying for the license.

Students have one year from the date your application is filed with TREC to meet all the license requirements.

Students who present an active Texas Real Estate Commission (TREC) license will have the RELE coursework applied and articulated towards this degree. Please contact the Program Director for additional information. A copy of the TREC license will need to be submitted to LSCO Admissions.

Health Professions Pathway

Dental Front Office

Certificate of Completion

The Dental Office Basic certificate is designed for dual enrollment, providing high school students the preparatory education and experience in the dental office industry. The certificate is to be used as a stackable credential in the Dental Assisting Program.

Students must pass a background check before entrance to the program is granted. Students in the program are waived from TSI requirements.

Students must maintain 75 percent averages in all dental assisting courses and satisfactory (S) grades for clinical experiences in order to progress to the next course in the sequence. Students must have course grades of "C" or better in all DNTA courses listed on the dental assisting degree plan and overall 2.0 grade point averages in order to graduate with a certificate in dental assisting.

First Semester		Credit Hours

Emergency Medical Technology and Paramedic Program Information

Emergency medical technicians (EMTs) and paramedics care for the sick or injured in emergency medical settings. People's lives often depend on the quick reaction and competent care provided by these workers. EMTs and Paramedics respond to emergency calls, perform medical services, and transport patients to medical facilities.

Students who complete the EMT Basic courses (EMSP 1501 and EMSP 1260) are eligible to take the National Registry of Emergency Medical Technician's (NREMT) Basic Certification Exam.

LSCO's Emergency Medical Services Paramedic Program is currently pending accreditation with the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Committee on Accreditation of the Educational Programs for the Emergency Medical Services Professions (CoAEMSP). The Paramedic Program will be available to prospective students upon LSCO's full accreditation status. Graduates of the Paramedic Program will be eligible to take the National Registry of Emergency Medical Technician's exam to become certified or licensed as a paramedic.

Commission on Accreditation of Allied Health Education Programs
25400 US Highway 19 N., Suite 158
Clearwater, FL 33763
727-210-2350
www.caahep.org

To contact CoAEMSP:
8301 Lakeview Parkway, Suite 111-312
Rowlett, TX 75088
214-703-8455; Fax 214-703-8992
www.coaemsp.org

NOTE: Criminal history MAY disqualify individuals from obtaining or maintaining NREMT certifications even if they have completed LSCO's EMT or Paramedic program.

The Texas Health & Human Services (Department) reviews an applicant's and/or certified/licensed EMS personnel criminal background to determine eligibility for EMS certification. Certain offenses will prevent an individual from receiving and EMS certification or license.

Any person that has been convicted of, placed on deferred adjudication community supervision, or deferred disposition for any of the criminal offenses listed on the TDSHS website (<https://www.dshs.texas.gov>) are NOT qualified to obtain or maintain an EMS certification.

To obtain a determination of certification eligibility based on a criminal background history, a petitioner should submit a fully completed Department Petition for EMS Criminal History Pre-Screening form for EMS personnel along with the required fee and completion of a Texas Fingerprint Service Code based background check. The Petition for EMS Criminal History Pre-Screening form and the Texas Fingerprint Service Code form are available at www.dshs.state.tx.us/emstraumasystems/formsresources.shtm. Most evaluations are completed within three to six months.

Questions regarding the criminal history review process should be directed to THHS criminal background investigators at 512-834-6700.

Emergency Medical Technology Basic

Certificate of Completion

The Emergency Medical Technology Program offers students the opportunity to obtain the EMT-Basic requirements in one semester. Students must have the following to attend clinicals:

- Health assessment by physician or nurse practitioner on form provided
- Hepatitis B Vaccination
- TB Skin Test
- Clear Background Check

Students must keep a current CPR card throughout enrollment in the EMSP courses.

Students will be eligible to sit for the NREMT-Basic Certification Exam upon successful completion of coursework in EMSP 1501 and EMSP 1260.

NOTE: This program is not eligible for Federal Financial Aid

Medical Assisting

Certificate of Completion

Medical assistants complete administrative and clinical tasks in the offices of physicians, hospitals, and other healthcare facilities. Their duties vary with the location, specialty, and size of the practice. They take and record patients' personal information and must be able to keep that information confidential, discussing only with other medical personal who are involved in treating the patient.

Students must have the following to attend clinicals:

- Health assessment by physician or nurse practitioner on form provided
- Hepatitis B Vaccination
- TB Skin Test
- Clear Background Check

Students who present an active Texas Department of Health and Human Services (DHHS) Certified Nurses Aides, National Health career Association (NHA) Certified Phlebotomy Technician, and/or Health EKG Technician Licenses for respective course(s) will have the coursework applied and articulated towards this degree. Please contact the Program Director for additional information. A copy of the Texas Department of Health and Human Services (DHHS) Certified Nurses Aides, National Health career Association (NHA) Certified Phlebotomy Technician, and/or Health EKG Technician Licenses will need to be submitted to LSCO Admissions.

Vocational Nursing

Certificate of Completion

The Vocational Nursing Program is a competency-based program designed to prepare Lamar State College Orange graduates to take the *National Council Licensure Examination (NCLEX-PN/VN®)* to be a licensed vocational nurse (LVN). The LVN functions under the direction of a registered nurse and/or licensed physician to provide nursing care to people who are in need of medical diagnostic evaluation and are experiencing acute or chronic illness. Graduates of the LSCO VN Program are currently employed in hospitals, physicians' offices, outpatient medical centers, long-term care facilities, and home health agencies.

The VN Program is the foundation on which the Associate of Applied Science Registered Nursing Transition Program is built. The Registered Nursing Transition Program is a competency-based program whose graduates are eligible to take the *National Council Licensure Examination (NCLEX-RN®)* to be registered nurses (RN).

To be considered for admission to the Vocational Nursing Program at LSCO, a student must:

- be accepted as a student at Lamar State College Orange;
- submit Vocational Nursing Program application online from the LSCO website on or before the application deadline;
- Submit transcripts of all college work to the Vocational Nursing Program Director;
- satisfy the ATI TEAS requirements;
- Have a grade of “C” or better in BIOL 2401 Anatomy & Physiology I, BIOL 2402 Anatomy & Physiology II. Although completion of BIOL 1322-Principles of Nutrition (or FDNS 1345) and PSYC 2314 Lifespan Growth and Development is not required for admission to the VN Program, they must be completed with a grade of “C” or better before graduating from the VN program. However, if taken before application deadline, those grades will add points on the admission rating scale;
- show proof of good mental and physical health;
- show proof of completion of Hepatitis B immunization; and
- show proof of clear criminal background check from the Texas Board of Nursing or have obtained a completed Declaratory Order from the Texas Board of Nursing (see program director for details).

Courses to complete Certified Nurse Aide credential may be completed through LSCO's Workforce and Continuing Education Programs – <https://www.lSCO.edu/workforce/workforce.asp>

Students MUST maintain “C” or better grades in ALL courses on the degree plan and overall 2.0 grade point averages (GPAs) to graduate from the LSCO VN Program. Complete information about the Vocational Nursing Program, including admission requirements, application deadlines and current application forms, is available at <https://www.lSCO.edu/alliedhealth/vocational.asp>.

NOTE: Criminal history MAY disqualify individuals from obtaining or maintaining nursing certifications even if they have completed LSCO's VN program.

Completion of the VN Program does NOT guarantee that a graduate may take the *National Council Licensure Examination for Practical Nursing (NCLEX-PN®)*. The Texas Board of Nursing may disqualify an applicant from obtaining licensure who has:

- been convicted, adjudged guilty by a court, plead guilty, no contest, or nolo contendere to any crime in any state, territory, or country, whether or not a sentence was imposed, including any pending criminal charges or unresolved arrests (excluding minor traffic violations). This includes expunged offenses and deferred adjudications with or without prejudice of guilt. Please note that DUI's, DWI's, and PI's must be reported and are not considered minor traffic violations. One-time minor in possession (MIP) or minor in consumption (MIC) does not need to be disclosed. If you have two or more MIPs or MICs you must report these to the board;
- any criminal charges pending, including unresolved arrests;
- been refused a license by any licensing authority or ever had a license revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a professional license or certificate held by you now or previously, or ever fined, censured, reprimanded, or otherwise disciplined you;
- within the last five years, been addicted to and/or treated for the use of alcohol or any other drug; or
- within the last five years, been diagnosed with, treated or hospitalized for schizophrenia, and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder.

If you must answer "yes" to any of these statements, you have to undergo investigation by the Board of Vocational Nursing before you will be accepted into the Nursing Program. Answering "yes" will not necessarily keep you from acceptance into the program. Failure to answer truthfully may result in disciplinary action by the Board.

Upon acceptance into the VN Program, all students will be subject to a criminal background check.

Vocational Nursing

Prerequisites	Credit Hours
BIOL 2401 Anatomy and Physiology I (lecture and lab).....	4
BIOL 2402 Anatomy and Physiology II (lecture and lab)	4
Satisfy the ATI TEAS or HESI A2 requirements

Registered Nursing - Transition

Associate of Applied Science

The Associate of Applied Science Registered Nursing Program is a competency-based program for LVN/LPNs that leads to eligibility to take the *National Council Licensure Examination (NCLEX-RN®)* to become a registered nurse (RN). Students must maintain “C” or better grades in ALL nursing and science courses and overall 2.0 grade point averages (GPAs) to graduate from the Lamar State College Orange Registered Nursing Program. To be considered for admission to the Registered Nursing Transition Program, students must be accepted to LSCO and have submitted transcripts from ALL colleges and universities attended. Applicants must also submit the following to the Nursing Department by the application deadline:

- An application to the Associate Degree RN Transition Program (located on the LSCO website) dated within the last current year.
- Degree Plan from Degree Works showing transcript evaluation and course equivalency.
- Evolve Reach Admission Assessment (A²) Exam profile taken within one year of application deadline indicating a composite score of 75 or higher with an 80 or higher in reading, and a 75 or higher in anatomy and physiology.
- Verification of VN license printed from the Texas Board of Nursing site

Complete information about the Registered Nursing Transition Program, including admission requirements, application deadlines, criminal background policy, and current application forms, is available on the LSCO website or from the Nursing Administrative Assistant located in the Stark Nursing and Classroom Building.

After acceptance into the Associate Degree Registered Nursing Program, students must provide the following additional information:

- Proof of current CPR certification
- History and Physical Examination, including proof of immunization
- Negative or clear Criminal Background Check (blue card, outcome letter of eligibility, and/or a Declaratory Order)

NOTE: Prior to completing pre-requisites and beginning Level One, students must be TSI Complete.

NOTE: Criminal history MAY disqualify individuals from obtaining or maintaining nursing certifications even if they have completed LSCO's RN program.

After acceptance into the Associate Degree Registered Nursing Program, students must provide the following additional information:

- Proof of current CPR certification
- History and Physical Examination, including proof of immunization
- Negative or clear Criminal Background Check (blue card, outcome letter of eligibility, and/or a Declaratory Order)

Completion of the Registered Nursing Transition Program does NOT guarantee that a graduate may take the *National Council Licensure Examination for Registered Nursing (NCLEX-RN®)*. The Texas Board of Nursing may deny an applicant for initial licensure who:

- has ever been cited, arrested, charged with or convicted of a crime, or received a deferred order, with or without an adjudication of guilt for a felony or misdemeanor offense other than a minor traffic violation or Minor in Possession (MIP);
- has had a misdemeanor conviction involving moral turpitude within the last ten (10) years;
- has been diagnosed with or treated or hospitalized within the past five years for schizophrenia or other psychotic disorders, bipolar disorder, paranoid personality disorder, anti-social personality disorder or borderline personality disorder;
- has been, within the past five (5) years, addicted to or treated for the use of alcohol or any other drug; or
- has been denied licensure or disciplined by any licensing/certifying authority.

Further information regarding licensure requirements is available on the Texas Board of Nursing website at www.BON.state.tx.us.

Prerequisites must be completed prior to admission to the Registered Nursing Program.

Corequisites may be taken at any time but must be completed prior to graduation.

Choose from options for:

Creative Arts - ARTS 1301, DRAM 1310, or MUSI 1306

Language, Philosophy, and Culture - ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, ENGL 2341, HIST 2321, HIST 2322, HUMA 1315, PHIL 1301, or SPAN 2311

See core curriculum for complete list of course options.

Registered Nursing – Associate Degree Nursing

Associate of Applied Science

The Associate of Applied Science Registered Nursing Program is a two-year, 60-credit hour curriculum leading to an associate of applied science in Associate Degree Nursing (ADN) Program. Students who successfully complete the ADN program are eligible to take the *National Council Licensure Examination (NCLEX-RN®)* to become a registered nurse (RN).

Students must maintain “C” or better grades in ALL nursing and science courses and an overall 2.0 grade point averages (GPAs) to graduate from the Lamar State College Orange Associate Degree Nursing (ADN) Program. To be considered for admission to the Associate Degree Nursing (ADN) Program, students must be accepted to LSCO and have submitted transcripts from ALL colleges and universities attended. Applicants must also submit the following to the Nursing Department by the application deadline:

- An application to the Associate Degree Nursing (ADN) Program (located on the LSCO website) dated within the last current year.
- Degree Plan from Degree Works showing transcript evaluation and course equivalency.
- Evolve Reach Admission Assessment (A²) Exam profile taken within one year of application deadline indicating a composite score of 75 or higher with an 80 or higher in reading, and a 75 or higher in anatomy and physiology.

Complete information about the Associate Degree Nursing (ADN) Program, including admission requirements, application deadlines, criminal background policy, and current application forms, is available on the LSCO website or from the Nursing Administrative Assistant located in the Stark Nursing and Classroom Building.

After acceptance into the Associate Degree Nursing (ADN) Program, students must provide the following additional information:

- Proof of current CPR certification
- History and Physical Examination, including proof of immunization
- Negative or clear Criminal Background Check (blue card, outcome letter of eligibility, and/or a Declaratory Order)

NOTE: Prior to completing pre-requisites and beginning Level One, students must be TSI Complete.

Retail Pharmacy Technology Basic

Certificate of Completion

The Pharmacy Technology Basic Certificate is designed for dual enrollment, providing high school students with a sequence of introductory courses designed to introduce and expose students to a Pharmacy Technology career. The certificate is a stackable credential in the Pharmacy Technology Program.

Students must maintain 70 percent averages in all pharmacy technology courses except and satisfactory (S) grades for clinical experiences in order to progress to the next course in the sequence. Students must have course grades of “C” or better in all PHRA courses listed on the pharmacy technology degree plan and overall 2.0 grade point averages (GPA) in order to graduate from Lamar State College Orange Pharmacy Technology Program.

The pharmacy technician functions under the direct supervision of the registered pharmacist. This program is competency-based and will teach the appropriate skills, knowledge, and perspectives needed to succeed within the pharmacy technology field. Students will be given the opportunity to attain competence in oral and written communication as well as math and computer skills specific to the workplace.

First Semester	Credit Hours
PHRA 1301 Introduction to Pharmacy	3
PHRA 1305 Drug Classification	3
PHRA 1313 Community Pharmacy Practice	3
PHRA 2360 Clinical-Pharmacy Technician (CAPSTONE)	3
EDUC 1300 Learning Framework or Approved Elective.....	3
PHRA 1243 Pharmacy Technician Certification Review	2
Semester Hours	17
<i>Total Program Hours</i>	<i>17</i>

Hospital Pharmacy Technology

Certificate of Completion

This program consists of a sequence of courses designed to prepare students for employment as pharmacy technicians. The pharmacy technician functions under the direct supervision of the registered pharmacist. This program is competency-based and will teach the appropriate skills, knowledge, and perspectives needed to succeed within the pharmacy technology field. Students will be given the opportunity to attain competence in oral and written communication as well as math and computer skills specific to the workplace.

Students must maintain “C” or better grades in ALL PHRA courses, except PHRA 1445 Compounding Sterile Preparation. Students must maintain a grade of 78 or higher in PHRA 1445 Compounding Sterile Preparation. Student must have an overall 2.0 grade point average (GPA) or higher to graduate from the Lamar State College Orange Pharmacy Technology Program.

The Pharmacy Technology Program holds full accreditation status from the American Society of Health-System Pharmacists, 7272 Wisconsin Avenue, Bethesda, MD 20814, (301) 657-3000.

Physical Therapy Assistant

Associate of Applied Science Degree

The physical therapy assistant AAS degree will prepare individuals to become a licensed physical therapy assistant. Physical therapy assistants work under the direction of physical therapists and help patients regain movement and manage pain after injuries and illnesses. PTAs treat patients through exercise, massage, gait and balance training, and other therapeutic interventions. They record patients' progress and report the results of each treatment to the physical therapist.

First Semester (Pre-Requisites)		Credit Hours

Pre-Professional Health Science

Associate of Science Degree

This degree is recommended to provide students with the first two years of college science education in preparation to pursue pre-medical, pre-dental, pre-pharmacy, and pre-veterinarian studies at a four-year institution. Some courses may be taken in different order and students do not have to complete the degree in four semesters.

First Semester	Credit Hours
ENGL 1301 Composition I	3
MATH 1342 Elementary Statistical Methods	3
CREATIVE ARTS	3
EDUC 1300 Learning Framework	3
BIOL 1406 Biology for Science Majors I	4
Semester Hours	16
Second Semester	
COMMUNICATION	3
BIOL 1407 Biology for Science Majors II	4
GOVT 2305 Federal Government	3
AMERICAN HISTORY	3
LANGUAGE, PHILOSOPHY, and CULTURE	3
Semester Hours	16
Third Semester	
GOVT 2306 Texas Government	3
AMERICAN HISTORY	3
BIOL 2401 Anatomy & Physiology I	4
CHEM 1411 General Chemistry I	4
Semester Hours	14
Fourth Semester	
PSYC 2301 General Psychology	3
BIOL 2402 Anatomy & Physiology II	4
CHEM 1412 General Chemistry II or BIOL 2420 Microbiology	4
BIOL 1322 Nutrition and Diet Therapy I or ACADEMIC ELECTIVE	3
Semester Hours	14
Total Program Hours	60

It is recommended for students to check with the institution they are planning to transfer to for advice on which courses work best for their major.

Suggested Core Classes for this Degree:

Communication 010 – ENGL 1301 and ENGL 1302

Mathematics 020– MATH 1314

Life and Physical Sciences 030– BIOL 1406 AND 1407

Language, Philosophy, and Culture 040 – ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, GEOG 1303, PHIL 1301, OR PHIL 2306

Creative Arts 050– ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060– HIST 1301 and HIST 1302

Government/Political Science Core 070– GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080– GEOG 1302, PSYC 2301, OR SOCI 1301

Component Area Option 090 – EDUC 1300 AND MATH 2312

Industry and Transportation Systems Pathway

Electromechanical Technology Basic

Certificate of Completion

Students completing the Electromechanical Certificate or Degree will have an interest in pursuing a career related to repairing and maintaining equipment used in industry and manufacturing. Mechanical and/or maintenance technicians perform routine checks as well as troubleshoot and quickly repair mechanical or electrical problems that arise within manufacturing process and support equipment or systems. Students pursuing this certificate or degree will be exposed to multiple facets of machinery and equipment while acquiring a foundation for entry level employment with local distribution, manufacturing, and refinery businesses.

First Semester	Credit Hours
PTAC 2314 Principles of Quality	3
ELPT 1411 Basic Electrical Theory	4
OSHT 2401 OSHA Regulations.....	4
HYDR 1445 Hydraulics and Pneumatics	4
Semester Hours	15
Total Program Hours	15

NOTE: This program leads to LSCO's Electromechanical Technology (Mechatronics) Certificate of Completion.

Logistics Management

Certificate of Completion

Logisticians work in nearly every industry. They manage the entire life cycle of a product, which includes how a product is acquired, allocated, and delivered.

This program provides students an avenue for training, skills, and knowledge to work locally, within Southeast Texas or Southwest Louisiana. Students completing these awards will have an interest in pursuing a career related to analyzing and coordinating an organization's supply chain by moving a product from supplier to consumer.

First Semester		Credit Hours

Language, Philosophy, and Culture - HUMA 1315
Social and Behavioral Sciences - PSYC 2301 or SOCI 1301

Safety, Health and Environment

Certificate of Completion

This certificate is designed to prepare students for entry-level employment as a safety, health or environmental specialist. The program helps the students create a safe work environment, understand OSHA regulations and compliance, learn emergency management techniques, integrate employee health and safety into decision making, have the knowledge and skills to implement strategies to control, and manage potential problems.

First Semester		Credit Hours
PTAC 1408 Safety, Health and Environment I.....		4
PTAC 1302 Introduction to Process Technology.....		3
EPCT 1301 Hazardous Waste Op. and Emergency Response.....		3
EPCT 1305 Environmental Regulations Overview.....		3
Semester Hours		13
Second Semester		
EPCT 1341 Principles of Industrial Hygiene.....		3
OSHT 2401 OSHA Regulations – General Industry.....		4
EPCT 1349 Environment Regulation Interpretation & App.		3
EPCT 2489 Internship-Environmental Engineering Tech (Capstone Course)..		4
Semester Hours		14
Total Program Hours		27

Safety, Health, and Environment

Associate of Applied Science Degree

This program is designed to develop basic skills in various specialized courses to prepare students for entry-level positions in the petrochemical industry. Upon successful completion of the coursework, students will be able to transfer to the four-year Bachelor of Science degree program in Industrial Technology at Lamar University.

First Semester	Credit Hours
COSC 1301 Introduction to Computing	3
ENGL 1301 Composition I	3
PTAC 1302 Introduction to Process Technology	3
PTAC 1408 Safety, Health and Environment I	4
PTAC 1432 Process Instrumentation I	4
Semester Hours	17
Second Semester	
MATH 1314 College Algebra or MATH 1332 Contemporary Mathematics	3
PTAC 1410 Process Technology I-Equipment	4
INTC 1457 AC/DC Motor Control or OSH 2401 OSHA Regulations – General Industry	4
SPCH 1315 Public Speaking or SPCH 1311 or SPCH 1318 or SPCH 1321	3
Semester Hours	14
Third Semester	
EPCT 1301 Hazardous Waste Op. and Emergency Response	3
EPCT 1305 Environmental Regulations Overview	3
EPCT 1349 Environmental Regulation Interp. & Applications	3
LANGUAGE, PHILOSOPHY, AND CULTURE or CREATIVE ARTS	3
Semester Hours	12
Fourth Semester	
EPCT 1341 Principles of Industrial Hygiene	3
EPCT 2489 Internship – Environmental Engineering Tech (Capstone Course)	4
PTAC 2314 Principles of Quality	3
PTAC 2446 Process Troubleshooting	4
PSYC 2301 General Psychology or SOCI 1301 Introduction to Sociology	3
Semester Hours	17
Total Program Hours	60

Suggested options:

Creative Arts - ARTS 1301, DRAM 1310, HUMA 1315, or MUSI 1306

Language, Philosophy, and Culture - ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, or ENGL 2341

Process Operating Technology

Students who complete the Process Operating Technology degree and certificate are exposed to high quality and relevant curriculum endorsed by the North American Process Technology Alliance (NAPTA). Through a partnership of industry, educational institutions, and others, NAPTA supports the development of a diverse, qualified Process Technology talent pool to meet workforce needs in North America and Southeast Texas.

Upon completing the capstone course, PTAC 2446, students will demonstrate their mastery in applied process technology knowledge and skills by taking the Process Technology Chemical/Refining Exam (PTEX-CR). This exam is widely used among colleges as a standard for applied process technology knowledge. Students will have access to complete the PTEX-CR at the LSCO testing center near the end of the semester in which they are completing the capstone course, PTAC 2446. The cost of the exam is paid by students' lab fees so students will not be required to pay out of their pocket in order to test.

More detailed information about the PTEX-CR can be found here - <https://www.naptaonline.org/learning-resources/ptex>.

Process Technology

Basic Certificate

This program prepares students for careers in an entry-level process operations position. It prepares students to become safe, efficient, and environmentally responsible operators in the petrochemical and oil refinery industries. The program works closely with the Gulf Coast Process Technology Alliance-based organizations that establish standards to provide and deliver quality curriculum in the field.

First Semester		Credit Hours
PTAC 1432 Process Instrumentation I		4
PTAC 1302 Introduction to Process Technology		3
PTAC 1408 Safety, Health and Environment I		4
PTAC 1410 Process Technology I-Equipment.....		4
Semester Hours		15
Second Semester		
PTAC 2438 Operations (Capstone Course).....		4
PTAC 2446 Troubleshooting.....		4
PTAC 2420 Process Technology II-Systems		4
PTAC 2314 Principles of Quality.....		3
Semester Hours		15
Total Program Hours		30

NOTE: Students will be expected to take the PTEX-CR exam. The cost of the exam is covered by course fees that student pays at registration.

Process Operating Technology

Associate of Applied Science Degree

The field of process technology appeals to people who would enjoy the challenges involved in controlling industrial plant processes to produce a final product. This program offers students careers as safe, efficient, and environmentally responsible process operators in the petrochemical and oil refinery industries. In addition to developing technical knowledge regarding plant operations and procedures, maintenance, safety, health and environment skills, students will develop their communication, computers, people, and team-building skills throughout the program. Upon successful completion of the coursework, students will be able to transfer to Lamar University and pursue the four-year Bachelor of Science degree program in Industrial Technology.

First Semester		Credit Hours
COSC 1301 Introduction to Computing		3

Ordinary Seaman/Basic Safety Training *Certificate of Completion*

The Ordinary Seaman training program provides students with hands-on instruction in basic seamanship skills, including knot-tying, navigation, and vessel maintenance, equipping them with the knowledge and skills to safely function as an Ordinary Seaman onboard a vessel. Through a combination of classroom learning and practical exercises, participants gain the foundational knowledge and certifications needed to begin a career in the maritime industry, qualifying them for a United States Coast Guard merchant mariner document with a Standards for Training and Conducting Watches-Basic Safety Training (STCW-BST) certification upon completion.

First Semester	Credit Hours
EDUC 1300 Learning Framework	3
NAUT 1343 Introduction to Tugs and Towing	3
NAUT 1315 Basic Safety	3
NAUT 1305 Introduction to Ships and Shipping	3
NAUT1 1320 Seamanship I	3
<i>Total Program Hours</i>	<i>15</i>

NOTE: This program leads to LSCO's Ordinary Seaman II Certificate of Completion OR the Logistics Management Associate of Applied Science (AAS) Degree.

This program is not eligible for financial aid.

Students enrolled in the LSCO – Maritime Program will have priority admission review for the Bachelor of Science Marine Transportation and the Texas A&M University Galveston Maritime Academy. Students will apply to TAMUG at the point he or she is ready to enroll in TAMUG courses. See LSCO's Chair of the Logistics and Maritime Department or the Ordinary Seaman Program Director for more details about transferability to TAMUG.

Ordinary Seaman II

Certificate of Completion

The Ordinary Seaman training program provides students with hands-on instruction in basic seamanship skills, including knot-tying, navigation, and vessel maintenance, equipping them with the knowledge and skills to safely function as an Ordinary Seaman onboard a vessel. Through a combination of classroom learning and practical exercises, participants gain the foundational knowledge and certifications needed to begin a career in the maritime industry, qualifying them for a United States Coast Guard merchant mariner document with a Standards for Training and Conducting Watches-Basic Safety Training (STCW-BST) certification upon completion.

Total Program Hours		42

Students enrolled in the LSCO – Maritime Program will have priority admission review for the Bachelor of Science Marine Transportation and the Texas A&M University Galveston Maritime Academy. Students will apply to TAMUG at the point he or she will enroll in TAMUG courses. See LSCO's Chair of the Logistics and Maritime Department, or the Ordinary Seaman Program Directors for more details about transferability to TAMUG.

Public Service Pathway

Barber

(Offered at dual credit sites)
Certificate of Completion

Barbers and cosmetologists work primarily in a salon providing haircutting, hairstyling, and a range of other beauty services. Barbers in the state of Texas are licensed by the Texas Department of Licensing and Regulation (TDLR).

The Barbering Certificate is designed for dual enrollment at a partnering and approved high school sites and is NOT offered at the LSCO campus. It will provide high school students the preparatory education and experience.

The certificate is to be used as a stackable credential in the Barber Management Associate of Applied Science Degree.

First Year		Credit Hours
CSME 1401 Orientation to Cosmetology		4
CSME 1410 Introduction to Haircutting and Related Theory		4
CSME 1405 Fundamentals of Cosmetology		4
CSME 2401 The Principles of Hair Coloring and Related Theory		4

Second Year		
CSME 2475 Intermediate Cosmetology Applications and Related Theory		4
CSME 2270 Nail Enhancements		2
BARB 1470 Introduction to Barber Applications & Related Theory		4
BARB 2440 Preparation for the State Licensing Examination		4
BARB 2372 Advanced Barber Applications & Related Theory		3
	Hours	17
Total Program Hours		33

Barber Management

Associate of Applied Science Degree

NOTE: This award is only available to individuals who have an active Texas Department of Licensing and Regulations (TDLR) Barber license and are interested in completing an Associate's Degree in Barber Management. Individuals with an Associate of Applied Science can transfer to partnering colleges or universities to pursue a Bachelor's of Applied Arts and Science.

Students who present an active TDLR license will have the CSME/BARB coursework applied and articulated towards this degree. Contact an LSCO advisor or the Dean of Transfer and Public Services for more information on how to articulate the credit and to learn about transfer opportunities.

Court Reporting Machine Shorthand Scopist

Certificate of Completion

Court Reporting is a sector of the business industry and is licensed in Texas by the Judicial Branch Certification Commission (JBCC). Most court reporters work in courts or legislatures. However, some work from either their home or a central office providing broadcast captioning for television stations or for hard-of-hearing individuals.

The Court Reporting Machine Scopist Certificate is designed for dual enrollment, providing high school students the preparatory education and experience in the court reporting industry. The certificate is to be used as a stackable credential in the Court Reporting Program.

Criminal Justice Law Enforcement

Certificate of Completion

Upon completion of this certificate, students may apply most of their coursework to the 30-semester credit hour criminal justice certificate of completion or the associate degree program in criminal justice.

First Semester	Credit Hours
CRIJ 1301 (or CJSA 1322) Introduction to Criminal Justice.....	3
CRIJ 1306 (or CJSA 1313) Court Systems and Practices	3
CRIJ 1307 (or CJSA 1312) Crime in America.....	3
Semester Hours	9
Second Semester	
CRIJ 1313 (or CJSA 1317) Juvenile Justice System.....	3
CRIJ 2314 (or CJSA 1342) Criminal Investigation OR CRIJ 2328 (or CJSA 1359) Police Systems & Practices (Capstone Course)	3
CRIJ/CJSA elective OR EDUC 1300 Learning Framework	3
Semester Hours	9
Total Program Hours	18

NOTE: This program leads to LSCO's Criminal Justice Certification of Completion (CERT).

Students enrolling in this program who are current Texas Peace Officers MAY qualify for tuition and certain fees exemptions. See the financial aid office for details of the exemption.

Law Enforcement Articulated Credit Option:

A student may receive 12 semester credit hours for successfully completing an approved law enforcement training program/ Basic Police Academy and passing the Texas Commission on Law Enforcement (TCOLE) exam after 1983. To receive credit, a student must have completed 3 semester credit hours with Lamar State College Orange, present proof that he/she has passed the Texas Basic Peace Officer Licensing Examination, complete and submit a course credit form, and pay the processing fee. Contact an academic advisor, the Criminal Justice Program Director, or the Dean of Transfer and Public Service Programs for more details.

Criminal Justice

Certificate of Completion

This curriculum will prepare students for entry into a field of criminal justice by combining both academic and technical concepts. Upon completion of this program, students may apply their coursework toward an associate degree program.

First Semester	Credit Hours
CRIJ 1301 (or CJSA 1322) Introduction to Criminal Justice	
OR *CJCR 1374 TJJD In-Service.....	3
CRIJ 1306 (or CJSA 1313) Court Systems and Practices	3
CRIJ 1310 (or CJSA 1327) Fundamentals of Criminal Law.....	3
CRIJ 1307 (or CJSA 1312) Crime in America	
OR *CJCR 1376 TJJD Local Needs Pre-Service.....	3
BUSI 2304 Business Report Writing & Correspondence	
OR *CJSA 1351 Use of Force	3
Semester Hours	15
Second Semester	
CRIJ 1313 (or CJSA 1317) Juvenile Justice System	
	3
CRIJ 2314 (or CJSA 1342) Criminal Investigation.....	3
CRIJ 2328 (or CJSA 1359) Police Systems and Practices	
CJCR 1281 Co-op in Criminal Justice (Capstone Course)	3
OR *CJCR 1166 TJJD Practicum I AND *CJCR 1167 TJJD Practicum II.	2
CRIJ 2313 (or *CJCR 1307) Correctional Systems and Practices	
	3
Semester Hours	14
Total Program Hours	29

NOTE: This program leads to LSCO's Associate of Applied Science in Criminal and Forensic Science Degree.

Students enrolling in this program who are current Texas Peace Officers MAY qualify for tuition and certain fees exemptions. See the financial aid office for details of the exemption.

Law Enforcement Articulated Credit Option:

A student may receive 12 semester credit hours for successfully completing an approved law enforcement training program/ Basic Police Academy and passing the Texas Commission on Law Enforcement (TCOLE) exam after 1983. To receive credit, a student must have completed 3 semester credit hours with Lamar State College Orange, present proof that he/she has passed the Texas Basic Peace Officer Licensing Examination, complete and submit a course credit form, and pay the processing fee. Contact an academic advisor, the Criminal Justice Program Director, or the Dean of Transfer and Public Service Programs for more details.

****Texas Juvenile Justice Articulated Credit Option:***

A student may receive 17 semester credit hours for successfully completing an approved Texas Juvenile Justice Department (TJJD). To receive credit, a student must have completed 3 semester credit hours with Lamar State College Orange, complete the continuing education TJJD pre-service and in-service training with Lamar State College Orange, complete and submit a course credit form, and pay the processing fee. Contact an academic advisor, the Criminal Justice Program Director, or the Dean of Transfer and Public Service Programs for more details.

Criminal and Forensic Science

Associate of Applied Science Degree

Forensic science majors will be prepared to serve in a host of positions in the law enforcement field. Forensic scientists analyze and examine data to help law enforcement, lawyers, and investigators. Includes instruction in forensic laboratory technology, crime scene analysis, crime scene photography, fingerprint technology, document analysis, witness and suspect examination procedures, applicable law and regulations, and professional standards and ethics.

Teacher Education

Certificate of Completion

Some courses within the Education Certificate program require students to complete hours of field experience and observation in PK-12 classrooms. Students will be responsible for completing background checks prior to being admitted in to observe classrooms. Transportation to and from PK-12 classrooms is the responsibility of the student.

NOTE: Criminal history MAY disqualify individuals from volunteering, substitute teaching, and/or obtaining or maintaining teaching certifications. The State Board of Educator Certification (SBEC) requires all applicants to submit fingerprints for a national criminal history background check. This includes applicants for a:

- Standard teaching certificate
- Probationary certificate
- Educational aide certificate
- One-year certificate
- Temporary teaching certificate
- Permit

Individuals who have been convicted of an offense or placed on probation **might** not be eligible to volunteer, substitute teach, or become certified by the Texas SBEC even after completing an educational or training program. SBEC's criminal history guidelines are available at:

<https://tea.texas.gov/texas-educators/investigations/fingerprinting/fingerprinting-for-certificate-applicants>

First Semester	Credit Hours
*TECA 1311 Educating Young Children	3
*TECA 1354 Child Growth and Development	3
HIST 1301 U.S. History I	3
HIST 1302 U.S. History II	3
EDUC 1301 Introduction to Teaching	3
EDUC 2301 Introduction to Special Populations	3
Semester Hours	18
Total Program Hours	18

Teacher Education

Associate of Arts in Teaching Degree

The Associate of Arts in Teaching (AAT) degree is a State Board-Approved collegiate degree program consisting of lower-division courses intended for transfer to baccalaureate programs that lead to initial Texas teacher certification. The AAT degree is fully transferable to any Texas public university offering baccalaureate degree programs leading to initial teacher certification.

Because the AAT fulfills the requirements of the field of study curriculum statutes and the Texas Higher Education Coordinating Board rules, all Texas public universities must accept the AAT curricula if they offer the applicable baccalaureate degrees leading to initial teacher certification. The program includes a lab component in which the student will spend at least 16 hours observing in a PK-12 school.

The AAT is fully sanctioned by the Texas Higher Education Coordinating Board as a field of study for students interested in pursuing a degree in education which will lead to teacher certification. It offers an avenue to “grow our own” future teachers in an effort to help the shortage of teachers in Texas.

Some courses may be taken in different order, and students do not have to complete the degree in four semesters. Students in college prep will require a different course sequence. Students planning to teach in a specific discipline should check with the Education Program Director to select the appropriate electives in the field of study. (See programs of study on the following pages.)

Some courses within the AAT program requires students to complete hours of field experience and observation in PK-12 classrooms. Students will be responsible for completing background checks prior to being admitted to observe classrooms. Transportation to and from PK-12 classrooms is the responsibility of the student.

NOTE: Criminal history MAY disqualify individuals from volunteering, substitute teaching, and/or obtaining or maintaining teaching certifications. The State Board of Educator Certification (SBEC) requires all applicants to submit fingerprints for a national criminal history background check. This includes applicants for a:

- Standard teaching certificate
- Probationary certificate
- Educational aide certificate
- One-year certificate
- Temporary teaching certificate

Mathematics 020– MATH 2312

Life and Physical Sciences 030– BIOL 1408, BIOL 1409, BIOL 2406, CHEM 1411, CHEM 1412 GEOL 1403, or GEOL 1404

Language, Philosophy, and Culture 040 –ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, PHIL 1301, OR PHIL 2306

Creative Arts 050– ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060– HIST 1301 and HIST 1302

Government/Political Science Core 070– GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080– ECON 2301

Component Area Option 090 – MATH 1314 AND COSC 1301

See core curriculum for the complete list of course options.

Computer Science

Associate of Science Degree

This degree is recommended for students who plan to pursue Bachelor of Science degrees in computer science. This is a recommended curriculum only. Some courses may be taken in different order, and students do not have to complete the degree in four semesters.

First Semester	Credit Hours
MATH 1314 (COMPONENT AREA OPTION CORE 090)	3
ENGL 1301 (COMMUNICATION CORE 010)	3
AMERICAN HISTORY CORE 060	3
COSC 1301 (COMPONENT AREA OPTION CORE 090)	3
CREATIVE ARTS CORE 050	3
Semester Hours	15
Second Semester	
MATH 2312 (MATHEMATICS CORE 020)	3
AMERICAN HISTORY CORE 060	3
COMMUNICATION CORE 010	3
COSC 1315 Introduction to Computer Programming (Python)	3
LIFE AND PHYSICAL SCIENCE CORE 030	4
Semester Hours	16
Third Semester	
COSC 2325 Computer Organizations	3
MATH 2413 Calculus I	4
LIFE AND PHYSICAL SCIENCES CORE 030	4
COSC 1336 Programming Fundamentals	3
Semester Hours	14
Fourth Semester	
GOVT 2305 (GOVERNMENT/POLITICAL SCIENCE CORE 070)	3
GOVT 2306 (GOVERNMENT/POLITICAL SCIENCE CORE 070)	3
COSC 1337 Programming Fundamentals	3
ECON 2301 (SOCIAL AND BEHAVIORAL SCIENCE CORE 080)	3
LANGUAGE, PHILOSOPHY, AND CULTURE CORE 040	3
Semester Hours	15
Total Program Hours	60

It is recommended for students to check with the institution they are planning to transfer to for advice on which courses work best for their major.

COSC courses requires a 'B' or better to transfer to Lamar University.

Suggested Core Classes for this Degree:

Communication 010 – ENGL 1301 and ENGL 1302 OR SPCH 1315

Mathematics 020- MATH 2312

Life and Physical Sciences 030- BIOL 1408, BIOL 1409, BIOL 2406, CHEM 1411, CHEM 1412 GEOL 1403, or GEOL 1404

Language, Philosophy, and Culture 040 –ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, PHIL 1301, OR PHIL 2306

Creative Arts 050- ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060- HIST 1301 and HIST 1302

Government/Political Science Core 070- GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080- ECON 2301

Component Area Option 090 – MATH 1314 AND COSC 1301

See core curriculum for the complete list of course options.

Data Analytics

Certificate of Completion

This certificate prepares students for an entry-level career as a data analyst. Data analysts prepare, process, and analyze data to help inform business decisions. They create visualizations to share their findings with stakeholders and provide recommendations driven by data.

First Semester	Credit Hours
COSC 1315 Introduction to Computer Programming (Python).....	3
ITSE 1445 Introduction to Oracle SQL	4
ITSW 1304 Introduction to Spreadsheets	3
DATN 1370 Introduction to Data Analysis and Visualization	3
DATN 1377 Cloud Computing for Data Analytics	3
Semester Hours	16
Total Program Hours	16

Environmental Science

Associate of Science Degree

This degree provides students a transfer opportunity to universities in Texas such as Lamar University and Stephen F. Austin State University that have Bachelor of Science in Environmental Science degrees. Students pursuing an Environmental Science Bachelor of Science Degree will be prepared to enter careers in regulatory agencies, consulting firms, academic institutions, governmental agencies, non-profit organizations, environmental consulting firms, water quality labs, agricultural industries and biofuel industries.

First Semester		Credit Hours
ENGL 1301 (COMMUNICATION CORE 010)		3
AMERICAN HISTORY CORE 060		3
EDUC 1300 (COMPONENT AREA OPTION CORE 090)		3
MATH 1342 (<i>SFASU</i>) OR MATH 1314 (<i>LU</i>) (MATH CORE 020)		3
BIOL 1406 Biology for Science Majors I (Lecture + Lab)		4
Semester Hours		16
Second Semester		
ENGL 1302 (COMMUNICATION CORE 010)		3
AMERICAN HISTORY CORE 060		3
GOVT 2305 (GOVERNMENT/POLITICAL SCIENCE CORE 070)		3
BIOL 1407 Biology for Science Majors II (CORE 030)		4
LANGUAGE, PHILOSOPHY, AND CULTURE CORE 040		3
Semester Hours		16
Third Semester		
PHYS 1401 College Physics		4
GOVT 2306 (GOVERNMENT/POLITICAL SCIENCE CORE 070)		3
CHEM 1411 General Chemistry I		4
SOCIAL AND BEHAVIORAL SCIENCE CORE 080		3
Semester Hours		14
Fourth Semester		
CREATIVE ARTS CORE 050		3
GEOL 1403 Physical Geology		4
CHEM 1412 General Chemistry II		4
MATH 2312 (COMPONENT AREA OPTION CORE 090)		3
Semester Hours		14
Total Program Hours		60

It is recommended for students to check with the institution they are planning to transfer to for advice on which courses work best for their major.

Suggested Core Classes for this Degree:

Communication 010 – ENGL 1301 and ENGL 1302

Mathematics 020– MATH 1342 OR MATH 1314

Life and Physical Sciences 030– BIOL 1406 AND 1407

Language, Philosophy, and Culture 040 –ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, GEOG 1303, PHIL 1301, OR PHIL 2306

Creative Arts 050– ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060– HIST 1301 and HIST 1302

Government/Political Science Core 070– GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080– GEOG 1302, PSYC 2301, OR SOCI 1301

Component Area Option 090 – EDUC 1300 AND MATH 2312

See core curriculum for the complete list of course options.

Information Technology Cybersecurity Basic

Certificate of Completion

The Cybersecurity program prepares the student for entry into this exciting field by providing introductory training in fundamental security concepts, firewalls and network security, hardware/software knowledge, basic scripting, operating systems security, intrusion detection, and incident response.

First Semester	Credit Hours
COSC 1301 Introduction to Computing OR BCIS 1305 Business Computer Applications	3
ITCC 1314 CCNA 1: Introduction to Networks	3
ITSC 1325 PC Hardware/Software	3
ITSY 1342 Information Technology Security	3
ITDF 1300 Introduction to Digital Forensics	3
ITNW 1354 Implementing and Supporting Servers	3
Semester Hours	18
Total Program Hours	18

Information Technology Cybersecurity

Certificate of Completion

The Cybersecurity program prepares the student for entry into this exciting field by providing introductory training in fundamental security concepts, firewalls and network security, hardware/software knowledge, basic scripting, operating systems security, intrusion detection, and incident response.

First Semester	Credit Hours

Semester Hours	15
Total Program Hours	30

ITCC 1314 + ITCC 1344 prepare students for the Cisco CCST Networking Exam

ITSC 1325 prepares students for CompTIA A+ Certification

ITNW 1354 prepares students for CompTIA Server+

ITSY 1342 prepares students for CompTIA+ (SYO-601) Certification

ITSY 2343 prepares students for the EC Council Certified Ethical Hacker certification (CEH)

Information Technology Networking

Certificate of Completion

This certificate is designed for those with little or minimal computer training. The computer core courses allow students to explore computer hardware. This certificate transfers into the Information Technology Support Specialist Associate of Applied Science degree.

First Semester	Credit Hours
COSC 1301 Introduction to Computing OR BCIS 1305 Business Computer Applications	3
ITCC 1314 CCNA 1: Introduction to Networks	3
ITSC 1325 Personal Computer Hardware.....	3
ITSY 1342 Information Technology Security	3
ITSC 1316 Linux Installation and Configuration	3
Semester Hours	15
Second Semester	
ITNW 1336 Cloud Deployment and Infrastructure Management	3
ITNW 1354 Implementing and Supporting Servers	3
COSC 1315 Introduction to Computer Programming (Python).....	3
ITSE 1359 Introduction to Scripting Languages	3
ITCC 1344 CCNA 2: Switching, Routing, Wireless Essentials (Capstone Course)	3
Semester Hours	15
Total Program Hours	30

ITCC 1314 + ITCC 1344 prepare students for the Cisco CCST Networking Exam

ITSC 1325 prepares students for CompTIA A+ Certification.

ITNW 1354 prepares students for CompTIA Server+.

ITSY 1342 prepares students for CompTIA Security + Certification.

Information Technology Software

Certificate of Completion

This certificate is designed for those with little or minimal computer training. The computer core courses allow students to explore computer software. This certificate transfers into the Information Technology Support Specialist Associate of Applied Science degree.

First Semester		Credit Hours
ITSE 1329 Programming Logic and Design OR		
COSC 1315 Introduction to Computer Programming (Python).....		3
COSC 1301 Introduction to Computing OR		
BCIS 1305 Business Computer Applications		3
ITCC 1314 CCNA 1: Introduction to Networks		3
ITSC 1325 Personal Computer Hardware.....		3
ITSY 1342 Information Technology Security		3
Semester Hours		15
Second Semester		
DATN 1370 Introduction to Data Analysis and Visualization		3
ITSE 1445 Introduction to Oracle SQL		4
DATN 1377 Cloud Computing for Data Analytics		3
ITSW 1304 Introduction to Spreadsheets		3
BMGT 1309 Information and Project Management (Capstone Course_		3
Semester Hours		16
Total Program Hours		31

ITCC 1314 + ITCC 1344 prepare students for the Cisco CCST Networking Exam

ITSC 1325 prepares students for CompTIA A+ Certification.

ITNW 1336 prepares students for CompTIA Cloud+ Certification.

ITSY 1342 prepares students for CompTIA Security+ (SYO-601) Certification.

ITSE 1345 prepares students for Oracle DB SQL Exam 1Z0-071.

Information Technology Support Technician Basic

Certificate of Completion

IT Support Technicians provide technical help to non-IT computer users. They respond to requests for help and solve a range of problems that vary with the industry and/or firm. Some technicians work for large software companies or for support service firms. Others work in call centers and assist customers through a problem step by step, such as re-establishing internet connections or troubleshoot routers or other hardware/software projects.

First Semester	Credit Hours
COSC 1301 Introduction to Computing	
OR BCIS 1305 Business Computer Applications.....	3
ITSY 1342 Information Technology Security	3
ITSC 1325 Personal Computer-Hardware	3
ITSC 2339 Personal Computer Help Desk Support.....	3
EECT 1300 Technical Customer Service.....	3
CPMT 1345 Computer Systems Maintenance	3
Semester Hours	18
Total Program Hours	18

Information Technology Support Technician

Intermediate

Certificate of Completion

IT Support Technicians provide technical help to non-IT computer users. They respond to requests for help and solve a range of problems that vary with the industry and/or firm. Some technicians work for large software companies or for support service firms. Semester Hours	14
Fourth Semester	
LANGUAGE, PHILOSOPHY, AND CULTURE CORE 040	3
CREATIVE ARTS CORE 050	3
SCIENCE MAJOR ELECTIVE	4
SCIENCE MAJOR ELECTIVE	4
Semester Hours	14
Total Program Hours	60

It is recommended for students to check with the institution they are planning to transfer to for advice on which courses work best for their major.

Suggested Core Classes for this Degree:

Communication 010 – ENGL 1301 and ENGL 1302

Mathematics 020- MATH 1314

Life and Physical Sciences 030- BIOL 1406 AND 1407

Language, Philosophy, and Culture 040 – ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, GEOG 1303, PHIL 1301, OR PHIL 2306

Creative Arts 050- ARTS 1301, DRAM 1310, DRAM 2366, ENGL 2307, or MUSI 1306

American History 060- HIST 1301 and HIST 1302

Government/Political Science Core 070- GOVT 2305 and GOVT 2306

Social and Behavioral Science Core 080- GEOG 1302, PSYC 2301, OR SOCI 1301

Component Area Option 090 – EDUC 1300 AND MATH 2312

Pre-Engineering

Certificate of Completion (Pending THECB Approval)

The Engineering Certificate will provide students an option for completing transferable courses to four-year colleges or universities with Bachelor of Science degrees in civil engineering, mechanical engineering, electrical engineering, or chemical engineering. Civil engineers build, design, and supervise infrastructure projects and systems. Mechanical engineers design, develop, build and test mechanical and thermal systems and devices. Electrical engineers design, develop, test, and supervise the manufacturing of electrical equipment. Chemical engineers apply the principles of chemistry, biology, physics, and math to solve problems that involve the use of fuel, drugs, food, and many other products.

First Semester		Credit Hours
ENGL 1301 Composition		3
HIST 1301 United States History 1		3
MATH 1314 College Algebra		3
MATH 2312 Pre-Calculus <i>(or MATH 1316 Trigonometry)</i>		4
CHEM 1411 General Chemistry I (Lecture + Lab)		4
Semester Hours		17
Second Semester		
HIST 1302 United States History II		3
CHEM 1412 General Chemistry II (Lecture + Lab) or MATH 2415 Calculus III		4
MATH 2413 Calculus I		3
ENGL 2311 Technical Writing		3
Semester Hours		13
Total Program Hours		30

Pre-Engineering

Associate of Science Degree

The Engineering AS Degree will provide students an option for transfer to a four-year college or university with Bachelor of Science degrees in civil engineering, mechanical engineering, electrical engineering, or chemical engineering. Civil engineers build, design, and supervise infrastructure projects and systems. Mechanical engineers design, develop, build and test mechanical and thermal systems and devices. Electrical engineers design, develop, test, and supervise the manufacturing of electrical equipment. Chemical engineers apply the principles of chemistry, biology, physics, and math to solve problems that involve the use of fuel, drugs, food, and many other products.

First Semester	Credit Hours
MATH 1314 College Algebra (CAO)	3
ENGL 1301 Composition (COMM CORE)	3
HIST 1301 United States History I (HIST CORE)	3
ENGR 2308 Engineering Economics (SBS CORE)	3
MATH 2312 Pre-Calculus (CAO)	3
Semester Hours	15
Second Semester	
HIST 1302 United States History II (HIST CORE)	3

Language, Philosophy, and Culture - ENGL 2322, ENGL 2323, ENGL 2326, ENGL 2331, ENGL 2341, HIST 2321, HIST 2322, HUMA 1315, PHIL 1301, or SPAN 2311

Social and Behavioral Sciences - ECON 2301, ECON 2302, GEOG 1301, GEOG 1302, PSYC 2301, or SOCI 1301

Trades and Manufacturing Pathway

Automotive Technology Basic

Certificate of Completion
(Offered at dual credit sites)

Automotive service technicians and mechanics inspect, maintain, and repair cars and light trucks. This program is designed to be the entry point for students and will be fully stackable to the Automotive Technology Intermediate Certificate and the Associate of Applied Science.

First Semester	Credit Hours
AUMT 1305 Introduction to Automotive Technology.....	3
AUMT 1407 Automotive Electrical Systems.....	4
AUMT 1419 Automotive Engine Repair.....	4
AUMT 1410 Automotive Brake Systems.....	4
Semester Hours	15
Total Program Hours	15

Automotive Technology Intermediate

Certificate of Completion
(Offered at dual credit sites)

Automotive service technicians and mechanics inspect, maintain, and repair cars and light trucks. This program is designed to be fully stackable to the Automotive Technology Intermediate Certificate and the Associate of Applied Science.

First Semester	Credit Hours
AUMT 1305 Introduction to Automotive Technology	3
AUMT 1407 Automotive Electrical Systems	4
AUMT 1419 Automotive Engine Repair.....	4
AUMT 1410 Automotive Brake Systems.....	4
Semester Hours	15
Second Semester	
AUMT 1445 Automotive Climate Control Systems	4
AUMT 1349 Automotive Electronics Theory	3
AUMT 2402 Automotive Compression Ignition Engines & Fuel Systems.....	4
AUMT 2413 Automotive Drive Train and Axles.....	4
Semester Hours	15
Total Program Hours	30

Automotive Technology Management

Associate of Applied Science Degree

Automotive service technicians and mechanics inspect, maintain, and repair cars and light trucks. This program is designed to prepare students to manage and/or own an automotive repair or service business and/or transfer to pursue a Bachelor of Applied Arts and Science Degree in Automotive Technology.

First Semester		Credit Hours
AUMT 1305 Introduction to Automotive Technology		3
AUMT 1407 Automotive Electrical Systems		4
AUMT 1419 Automotive Engine Repair.....		4
AUMT 1410 Automotive Brake Systems.....		4

Building Construction Technology Basic

Certificate of Completion
(Offered at dual credit sites)

The Building Construction Technology Basic Certificate is designed to be the entry point for students in the program and will be fully stackable to the Building Construction Technology Intermediate Certificate as well as the Associate of Applied Science. Students will pursue National Center for Construction Education and Research (NCCER) certifications upon completion of the basic and intermediate certificates. Job-specific training will focus on construction, cabinet-making, and architecture skills. Instruction will emphasize the use of safety, installation methods, power-tool, and technical drawing training.

First Semester	Credit Hours
CNBT 1210 Basic Construction Safety	2
OSHT 1405 OSHA Regulations – Construction Industry	4
CNBT 2315 Construction Specifications and Contracts.....	3
ARCE 1303 Architectural Materials and Methods of Construction	3
CNBT 1316 Construction Technology I.....	3
CNBT 1318 Construction Tools and Techniques	3
<i>Total Program Hours</i>	<i>18</i>

Building Construction Technology Intermediate

Certificate of Completion
(Offered at dual credit sites)

The Building Construction Technology Intermediate Certificate builds upon the Basic Certificate in the program and will be fully stackable to the Building Construction Technology Associate of Applied Science. Students will pursue National Center for Construction Education and Research (NCCER) certifications upon completion of the basic and intermediate certificates. Job-specific training will focus on construction, cabinet-making, and architecture skills. Instruction will emphasize the use of safety, installation methods, power-tool, and technical drawing training.

First Semester		Credit Hours
CNBT 1210 Basic Construction Safety		2
OSHT 1405 OSHA Regulations – Construction Industry		4
CNBT 2315 Construction Specifications and Contracts.....		3
ARCE 1303 Architectural Materials and Methods of Construction		3
CNBT 1316 Construction Technology I.....		3
CNBT 1318 Construction Tools and Techniques		3
Semester Hours		18
Second Semester		
CNBT 1350 Construction Technology II		3
WDWK 1313 Cabinet Making I.....		3
CNBT 1353 Construction Technology III or ELPT 1329 Residential Wiring ..		3
WDWK 2351 Cabinet Making II		3
Semester Hours		12
Total Program Hours		30

Building Construction Technology

Associate of Applied Science Degree

The Building Construction Technology Associate of Applied Science will expose students to skills needed in the field of construction management and prepare students to manage and/or own a construction business or to transfer and pursue a Bachelor of Applied Arts and Science degree in Building Construction Technology or Construction Management.

First Semester		Credit Hours
CNBT 1210 Basic Construction Safety		2
OSHT 1405 OSHA Regulations – Construction Industry		4
CNBT 2315 Construction Specifications and Contracts.....		3
ARCE 1303 Architectural Materials and Methods of Construction		3
CNBT 1316 Construction Technology I.....		3
CNBT 1318 Construction Tools and Techniques.....		3
	Semester Hours	18
Second Semester		
CNBT 1350 Construction Technology II		3
WDWK 1313 Cabinet Making I.....		3

Construction Management

Certificate of Completion

This one-year certificate program is designed to provide students with the safety, regulatory, construction, industry, and business knowledge needed for construction managerial positions in residential, commercial, and industrial projects. Construction managers coordinate and supervise a variety of projects including building structures as well as roads and bridges. They oversee the construction phase of a project, including personnel, and may also consult with the client during the design phase to help refine construction plans and control costs.

First Semester	Credit Hours
CNBT 1210 Basic Construction Safety	2
CNBT 1300 Residential and Light Commercial Construction Drawings.....	3
CNBT 1411 Construction Materials and Methods I.....	4
CNBT 2315 Construction Specifications and Contracts	3
CNBT 1346 Construction Estimating I	3
CNBT 2344 Construction Management II.....	3
<i>Total Program Hours</i>	18

NOTE: This program leads to LSCO's Construction Management Association of Applied Science (AAS) Degree.

Business Construction Management

Associate of Applied Science Degree

This two-year program provides students with the safety, regulatory, construction, industry, and business knowledge needed for construction managerial positions in residential, commercial, and industrial projects. Construction managers coordinate and supervise a variety of projects including building structures as well as roads and bridges. They oversee the construction phase of a project, including personnel, and may also consult with the client during the design phase to help refine construction plans and control costs.

The curriculum is designed for students who want to take the business and technical courses necessary to enter the workforce and begin careers with the option to take the general academic courses associated with a four-year Bachelor of Applied Arts and Sciences degree at a later time.

Courses within the LSCO Construction Management Certificate are applied to the LSCO Business Construction Management AAS Degree.

First Semester		Credit Hours
CNBT 1210 Basic Construction Safety.....		2
CNBT 1300 Residential and Light Commercial Construction Drawings		3
CNBT 1411 Construction Materials and Methods I.....		4

Heating, Ventilation, Air Conditioning (HVAC) Technology Basic

Certificate of Completion
(Offered at dual credit sites)

HVAC technicians install and maintain the heating, ventilation, and air conditioning systems that regulate temperature and air quality in buildings. They work mostly in homes, schools, hospitals, office buildings, or factories. This program is designed to be the entry point for students and will be fully stackable to the HVAC Technology Intermediate Certificate and the Associate of Applied Science.

First Semester	Credit Hours
HART 1401 Basic Electricity for HVAC	4
HART 1403 Air Conditioning Control Principles	4
HART 1407 Refrigeration Principles	4
HART 1341 Residential Air Conditioning	3
Semester Hours	15
Total Program Hours	15

HVAC coursework can be completed at partnering Dual Credit Sites.

Heating, Ventilation, Air Conditioning (HVAC) Technology Intermediate

Certificate of Completion
(Offered at dual credit sites)

HVAC technicians install and maintain the heating, ventilation, and air conditioning systems that regulate temperature and air quality in buildings. They work mostly in homes, schools, hospitals, office buildings, or factories. This program is designed to be fully stackable to the HVAC Technology Intermediate Certificate and the Associate of Applied Science.

Machining Fundamentals

Certificate of Completion

The machining programs will prepare individuals to work as industrial machinery mechanics, or machinery maintenance workers. Machinists and industrial machinery workers maintain and repair factory equipment and other industrial machinery. They also install, maintain, and disassemble industrial machines.

First Semester	Credit Hours
MCHN 1338 Basic Machine Shop I.....	3
MCHN 1341 Basic Machine Shop II.....	3
MCHN 1313 Basic Milling Operations	3
MCHN 1343 Machine Shop Mathematics.....	3
MCHN 1308 Basic Lathe	3
Semester Hours	15
<i>Total Program Hours</i>	<i>15</i>

Machining Advanced Shop

Certificate of Completion

The machining programs will prepare individuals to work as industrial machinery mechanics, or machinery maintenance workers. Machinists and industrial machinery workers maintain and repair factory equipment and other industrial machinery. They also install, maintain, and disassemble industrial machines.

First Semester		Credit Hours
MCHN 1338 Basic Machine Shop I		3
MCHN 1341 Basic Machine Shop II		3
MCHN 1313 Basic Milling Operations		3
MCHN 1343 Machine Shop Mathematics		3

Plumbing Technology Apprentice Basic

Certificate of Completion

The Basic Technology Apprentice Certificate is designed to be the entry point for dual credit students and will be fully stackable to the Intermediate Plumbing Technology Tradesman Certificate as well as the Plumbing Technology Journeyman Associate of Applied Science. Students will pursue National Center for Construction Education and Research (NCCER) certifications upon completion of the basic and intermediate certificates. Job-specific training will focus on assembling, installing, or repairing pipes, fittings, or fixtures of heating, water, or drainage systems.

First Semester	Credit Hours
PFPB 1306 Basic Blueprint Reading for Plumbers	3
PFPB 1323 Plumbing Codes	3
PFPB 2308 Piping Standards and Materials	3
PFPB 1321 Plumbing Maintenance and Repair	3
PFPB 1308 Basic Pipefitting Skills	3
PFPB 1350 Plumbing and Pipefitting Equipment/Safety	3
Semester Hours	18
<i>Total Program Hours</i>	<i>18</i>

Plumbing Technology Tradesman Intermediate

Certificate of Completion

The Basic Technology Apprentice Certificate is designed to be the entry point for dual credit students and will be fully stackable to the Intermediate Plumbing Technology Tradesman Certificate as well as the Plumbing Technology Journeyman Associate of Applied Science. Students will pursue National Center for Construction Education and Research (NCCER) certifications upon completion of the basic and intermediate certificates. Job-specific training will focus on assembling, installing, or repairing pipes, fittings, or fixtures of heating, water, or drainage systems.

First Semester		Credit Hours

Layout and Fabrication Welding Certificate

Certificate of Completion

This certificate program prepares students for employment as production welder, fabrication welder, fabricator, maintenance welder, solderer, and pipe welder, mainly in the manufacturing sector. The welding fabrication technology courses are competency based and teach the appropriate skills, knowledge, and perspectives needed to succeed within the welding fabrication field.

First Semester	Credit Hours
WLDG 1421 Welding Fundamentals OR WLDG 2488 Internship	4
WLDG 1417 Introduction to Layout and Fabrication	4
WLDG 1453 Intermediate Layout and Fabrication	4
WLDG 2435 Advanced Layout and Fabrication	4
Total Program Hours	16

Pipefitting Certificate

Certificate of Completion

The pipefitter certificate program teaches students the skills to fit, install, maintain, and repair complex piping systems used in industries like construction, manufacturing, and energy, while also covering blueprint reading, welding techniques, and safety practices essential for working with high-pressure systems and materials, preparing them for employment as pipefitters equipped with vital knowledge in pipe installation, maintenance, and repair.

First Semester	Credit Hours
PFPB 1450 Plumbing and Pipefitting Equipment and Safety	4
PFPB 1408 Basic Pipefitting Skills	4
PFPB 1443 Pipefitting Fabrication and Blueprint Reading	4
PFPB 2455 Pipefitting: Advanced Fabrication and Installation (Capstone)	4
Total Program Hours	16

Pipe Welding Certificate

Certificate of Completion

This certificate program prepares students for employment as production welder, fabrication welder, fabricator, maintenance welder, solderer, and pipe welder, mainly in the manufacturing sector. The welding fabrication technology courses are competency based and teach the appropriate skills, knowledge, and perspectives needed to succeed within the welding fabrication field.

First Semester	Credit Hours
WLDG 1435 Introduction to Pipe Welding	4
WLDG 2406 Intermediate Pipe Welding	4
WLDG 2453 Advanced Pipe Welding	4
WLDG 1457 Intermediate Shielded Metal Arc Welding (SMAW) OR WLDG 2489 Internship	4
Total Program Hours	16

Production Welder

(Offered at dual credit sites)

Certificate of Completion

Welders work in a variety of industries ranging from shipbuilding, automobile manufacturing and repair, aerospace applications, and thousands of other manufacturing jobs. They use large machinery as well as hand-held or remotely controlled equipment to join, repair, or cut metal parts and products. They may work outdoors, often in inclement weather, or indoors, sometimes in a confined area.

The Production Welder Certificate is designed for dual enrollment at a partnering and approved high school sites and is NOT offered at the LSCO campus

The Production Welder Certificate is designed for dual enrollment, providing high school students the preparatory education and experience in the welding industry. The certificate is to be used as a stackable credential in the Welding Technology Program.

First Semester		Credit Hours
WLDG 1323 Welding Safety, Tools, and Equipment		3
WLDG 1327 Welding Codes and Standards		3
WLDG 1421 Welding Fundamentals		4
Semester Hours		10
Second Semester		
WLDG 1428 Introduction to Shielded Metal Arc Welding (SMAW)		4
WLDG 1457 Intermediate Shielded Metal Arc Welding (SMAW)		4
Semester Hours		8
Total Program Hours		18

Welding Fabrication Technology

Associate of Applied Science

The Welding Fabrication Technology Associate of Applied Science consists of certificates that are in high demand locally and throughout the state; Pipefitting, Welding Fabrication, and Pipe Welding. Students will be able to pursue either specialization as a Level 1 certificate or combine two of the three certifications as part of a Welding Fabrication AAS. The program prepares students for employment as a pipefitter, production welder, fabrication welder, fabricator, maintenance welder, solderer, and pipe welder mainly in the manufacturing sector. The welding fabrication technology courses are competency based and teach the appropriate skills, knowledge, and perspectives needed to succeed within the welding fabrication field.

First Semester		Credit Hours
WLDG 1323 Welding Safety, Tools, and Equipment		3
WLDG 1327 Welding Codes and Standards		3

Suggested options:

Language, Philosophy, and Culture - HUMA 1315

Social and Behavioral Sciences - PSYC 2301 or SOCI 1301

Course Descriptions

Course descriptions are listed
in alphabetical order.

Course Descriptions

Lamar State College Orange offers both academic and technical coursework. Academic courses are indicated as “AC,” college preparatory courses are identified with “CP,” and “TEC” denotes classes in the technical area. Academic courses will transfer to another college or university. College Prep courses are included on transcripts but are not transferable courses. Technical courses may or may not transfer to another college or university. The *Texas Common Course Numbering System (TCCNS)* is a course numbering system used throughout the state of Texas. It is composed of four letters plus four numbers. The four letters indicate the subject area. The four numbers indicate the course number. The first digit is the level (1 = freshman, 2 = sophomore, etc.); the second digit is the number of credit hours to be awarded for this course; and the last two digits represent the course sequence. The three numbers to the far right represent the number of credit, lecture, and lab hours. The six numbers within parenthesis is a course identifier used by the *Texas Higher Education Coordinating Board (THECB)*. In addition, Lamar State College Orange administers a comprehensive Workforce and Continuing Education program throughout the community by providing non-credit training to meet community workforce needs, general interest and personal enrichment.

ACCT 23013-3-0

Principles of Financial Accounting (52.0301)

Accounting concepts and their application in transaction analysis and financial statement preparation. Topics include analysis of financial statements; asset and equity accounting in proprietorships, partnerships, and corporations; account receivables; investments; inventories; liabilities; and payroll. It also provides an introduction to cost behavior, budgeting, responsibility accounting, cost control, and product costing. AC.

ACCT 23023-3-0

Principles of Managerial Accounting (52.0301)

Continuation of accounting concepts and their application in transaction analysis and financial statement preparation with emphasis on managerial accounting. Topics include development of cash flow statements; cost behavior and cost-volume-profit analysis; asset and equity accounting in proprietorships, partnerships, and corporations; developing a capital and master budget; departmental and activity-based accounting; and cost control. Prerequisite: ACCT 2301. AC.

ACNT 13113-3-0

Introduction to Computerized Accounting (52.0302)

Introduction to utilizing the computer in maintaining accounting records with primary emphasis on a general ledger package. Suggested prerequisite: ACCT 2301. TEC.

ACNT 13293-3-0

Payroll and Business Tax Accounting (52.0301)

A study of payroll procedures, taxing entities, and reporting requirements of local, state, and federal taxing authorities in a manual and computerized environment. Suggested prerequisite: ACCT 2301 or concurrent enrollment. TEC.

ACNT 13353-3-0

Accounting Ethics (52.0301)

Introduction to professional ethics in the accounting and business environments. This course may also be offered for qualifying education credit for CPA examination by Texas community colleges that meet Texas State Board of Accountancy standards. TEC.

ACNT 23113-3-0

Managerial Accounting (52.0301)

Practical applications of accounting with emphasis on cost behavior, capital management decisions, budgeting, and financial statement analysis. TEC.

AGAH 13013-2-3

Animal Science (01.0901)

An introductory survey of the scientific principles and applied practices related to livestock production. Topics include genetics, animal breeding and selection, anatomy and physiology, nutrition, reproduction, health, and marketing of livestock and livestock products. TEC.

AGAH 13413-2-2

Sheep and Goat Production (01.0901)

An overview of the sheep and goat industry. Topics include the organization and operation of sheep and goat enterprises, selection, breeding, reproduction, health, nutrition, management, and

marketing of sheep and goats and their products. TEC.

AGAH 1343.....3-2-3

Animal Health (01.0302)

An overview of anatomy and physiology as it relates to animal health. Topics include disease symptoms, basic immunology, diagnosis, prevention, and control of infectious and non-infectious disease of animals. TEC.

AGAH 1347.....3-2-2

Animal Reproduction (01.0302)

Study of organs, functions, endocrinology, and common management practices related to reproduction. TEC.

AGAH 1353.....3-2-2

Beef Cattle Production (01.0302)

An overview of the beef cattle industry. Topics include the organization and operation of beef cattle enterprises, selection breeding, reproduction, health, nutrition, management, and marketing. TEC.

AGAH 2313.....3-2-2

Principles of Feeds and Feeding (26.0707)

Study of the role and application of feed nutrients and additives. Topics include comparative aspects of digestion, absorption, and metabolism of nutrients. Emphasis on identification of nutrient requirements and formulation of dietary feeding regimens. TEC.

AGCR 1304.....3-2-2

Introduction to Sustainable Agriculture (01.0308)

An introduction to the concept of sustainable agriculture, and examine the impact from social, economic, technological, and environmental perspectives. Integration of crop and livestock management, conservation practices, organic practices, and farming techniques to increase agricultural production, efficiency, and profitability. TEC.

AGMG 1300.....3-2-3

Agricultural Policies, Safety and Codes (01.0101)

Study of safety standards, government regulations, and codes as they apply to agriculture. Emphasis on the application of current safety and health standards, and

compliance with state and federal regulations. TEC.

AGMG 13113-2-2

Introduction of Agribusiness (01.0102)

Introduction to agribusiness management, marketing, and sales in the free enterprise system. Topics include economic principles, finance, risk management, record keeping, budgeting, employee/employer responsibilities, communications, human relation skills, and agricultural career opportunities. TEC.

AGMG 13183-2-2

Introduction to Agricultural Economics (01.0103)

Study of the fundamental economic principles and their application to the problems of the industry of agriculture. TEC.

AGMG 13443-2-2

Agricultural Records Management (01.0102)

Examination of the principles of agricultural records and bookkeeping with emphasis on utilization and interpretation of farm and ranch accounts. TEC.

AGMG 23013-2-2

Livestock Business Management (01.0101)

Instruction in contracts, leases, laws and regulations, estate planning, and applications of personnel and management principles. TEC.

AGMG 23063-2-2

Livestock and Meat Marketing (01.0102)

Exploration of the relationship of livestock production to marketing. Topics include trends, consumption, processing, distribution, governmental regulation, transportation, and animal health. TEC.

AGMG 23123-2-2

Marketing of Agricultural Products (01.0102)

Study of operations in the movement of agricultural commodities from producer to consumer including the essential marketing functions of buying, selling, transporting, storing, financing, standardizing, pricing, and risk bearing. TEC.

AGMG 23163-2-2

Agricultural Finance (01.0103)

Examination of the acquisition and use of capital in agriculture. Topics include fundamental

record-keeping principles, financial statements, cash flow, and other instruments of financial analysis. TEC.

ANTH 23513-3-0

Cultural Anthropology (45.0201)

The study of human cultures. Topics may include social organization, institutions, diversity, interactions between human groups, and ethics in the discipline. AC.

ARCE 13033-2-2

Architectural Materials and Methods of Construction (04.0901)

Properties, specifications, vendor references, and uses of materials as related to architectural systems of structures. TEC.

ARTC 13023-2-2

Digital Imaging I (50.0409)

Digital imaging using raster image editing and/or image creation software: scanning, resolution, file formats, output devices, color systems, and image-acquisitions. TEC

ARTC 13133-2-2

Digital Publishing I (50.0409)

The fundamentals of using digital layout as a primary publishing tool and the basic concepts and terminology associated with typography and page layout. TEC.

ARTC 13253-2-2

Introduction to Computer Graphics (50.0409)

A survey of computer design concepts, terminology, processes, and procedures. Topics include computer graphics hardware, electronic images, electronic publishing, vector-based graphics, and interactive multimedia. TEC.

ARTC 13533-2-2

Computer Illustration (50.0402)

Use of the tools and transformation options of an industry-standard vector drawing program to create complex illustrations or drawings. TEC.

ARTC 13593-2-2

Visual Desing for New Media (50.0409)

Visual design elements as they relate to new media. Emphasizes aesthetics and visual problem solving such as typographic issues, color management, hierarchy of information, image optimization, and effective layout. TEC

ARTC 23053-2-2

Digital Imaging II (50.0409)

Principles of digital image processing and digital painting. Emphasis on raster-based imaging and the creative aspects of electronic illustration for commercial or fine art applications. TEC

ARTC 23133-2-2

Digital Publishing II (50.0409)

Includes layout procedures from thumbnails and roughs to final comprehensive and print output. Emphasis on design principles for the creation of advertising and publishing materials, and techniques for efficient planning and documenting projects. TEC

ARTC 23333-2-2

Publication Design (50.0409)

Development of skills and advanced knowledge of publishing software, with emphasis on the maintenance of visual continuity in documents for publication. TEC

ARTC 23483-2-2

Digital Publishing III (50.0409)

A project-based page layout course from concept to completion addressing design problems, preflight of files, color separations, and trapping techniques. TEC

ARTS 13013-3-0

Art Appreciation (50.0703)

Exploration of purposes and processes in the visual arts including evaluation of selected works. AC.

ARTS 13033-3-0

Art History I (50.0703)

A chronological analysis of the historical and cultural contexts of the visual arts from prehistoric times to the 14th century. AC.

ARTS 13113-3-0

Design I (50.0401)

Elements and principles of art using two-dimensional concepts. AC.

ARTS 13163-3-0

Drawing I (50.0705)

Investigation of drawing media and techniques including descriptive and expressive possibilities. AC.

AUMT 13053-2-2
Introduction to Automotive Technology (47.0604)

An introduction to the automotive industry including automotive history, safety practices, shop equipment and tools, vehicles subsystems, service publications, professional responsibilities, and basic automotive maintenance. TEC.

AUMT 13493-2-2
Automotive Electronics Theory (47.0604)

A course in automotive technology including electrical principles, semiconductor and integrated circuits, digital fundamentals, microcomputer systems, and electrical test equipment. TEC.

AUMT 14074-3-2
Automotive Electrical Systems (47.0604)

An overview of automotive electrical systems including topics in operational theory, testing, diagnosis, and repair of, charging and starting systems, and electrical accessories. Emphasis on electrical principles, schematic diagrams, and service publications. May be taught manufacturer specific. TEC.

AUMT 14104-3-2
Automotive Brake Systems (47.0604)

Operation and repair of drum/disc type brake systems. Topics include brake theory, diagnosis, and repair of power, manual, anti-lock brake systems, and parking brakes. May be taught manufacturer specific. TEC.

AUMT 14194-3-2
Automotive Engine Repair (47.0604)

Fundamentals of engine operation, diagnosis and repair. Emphasis on identification, inspection, measurements, and disassembly, repair, and reassembly of the engine. May be taught manufacturer specific. TEC.

AUMT 14454-3-2
Automotive Climate Control Systems (47.0604)

Diagnosis and repair of manual/electronic climate control systems. Includes the refrigeration cycle and EPA guidelines for refrigerant handling. May be taught manufacturer specific. TEC.

AUMT 24024-3-2
Automotive Compression Ignition Engines & Fuel Systems (47.0604)

Diagnosis and repair of modern light-duty automotive compression ignition engines and related systems. Includes the use of advanced engine performance diagnostic equipment. TEC.

AUMT 24134-3-2
Automotive Drive Train and Axles (47.0604)

A study of automotive clutches, clutch operation devices, manual transmissions/transaxles, and differentials with emphasis on diagnosis and repair. May be taught manufacturer specific. TEC.

BARB 14704-2-4
Introduction to Barber Application and Related Theory (12.0402)

Basic techniques for hair cutting and of trimming beards and mustaches including shaving with unguarded razor. TEC.

BARB 23723-2-4
Advanced Barber Application and Related Theory (12.0402)

Advanced concepts of barbering applications including all professional barbering services and workplace competencies. TEC.

BARB 24404-3-4
Preparation for the State Licensing Examination (12.0402)

Preparation for the state licensing written and practical examinations. TEC.

BCIS 1305.....3-3-0
Business Computer Application (11.0202)

Introduces and develops foundational skills in applying essential and emerging business productivity information technology tools. The focus of this courses on business productivity software applications, including work processing, spreadsheets, databases, presentation graphics, data analytics, and business-oriented utilization of the internet. AC.

BIOL 13223-3-0
Nutrition & Diet Therapy (19.0501)

Introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including

functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed. This course is cross-listed as FDNS 1345. AC.

BIOL 14064-3-2

Biology for Science Majors I (Lecture + Lab)
(26.0101)

Fundamental principles of living organisms will be studied, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Concepts of cytology, reproduction, genetics, and scientific reasoning are included. Laboratory activities will reinforce the fundamental principles of living organisms, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Study and examination of the concepts of cytology, reproduction, genetics, and scientific reasoning are included. AC.

BIOL 14074-3-2

Biology for Science Majors II (Lecture + Lab)
(26.0101)

The diversity and classification of life will be studied, including animals, plants, protists, fungi, and prokaryotes. Special emphasis will be given to anatomy, physiology, ecology, and evolution of plants and animals. Laboratory activities will reinforce study of the diversity and classification of life, including animals, plants, protists, fungi, and prokaryotes. Special emphasis will be given to anatomy, physiology, ecology, and evolution of plants and animals. Prerequisite: BIOL 1406 or BIOL 1306/1106. AC.

BIOL 14084-3-2

Biology for Non-Science Majors I (Lecture + Lab)
(26.0101)

Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. AC.

BIOL 14094-3-2

Biology for Non-Science Majors II (Lecture + Lab)
(26.0101)

This course will provide a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. AC.

BIOL 14114-3-2

General Botany (Lecture + Lab) (26.0301.51 03)

T Fundamental biological concepts relevant to plant physiology, life cycle, growth and development, structure and function, and cellular and molecular metabolism. The role of plants in the environment, evolution, and phylogeny of major plant groups, algae, and fungi. This course is intended for science majors. Laboratory activities will reinforce fundamental biological concepts relevant to plant physiology, life cycle, growth and development, structure and function, and cellular and molecular metabolism. The role of plants in the environment, evolution, and phylogeny of major plant groups, algae, and fungi. This course is intended for science majors.

BIOL 14134-3-2

General Zoology (Lecture + Lab) (26.0301.51 03)

Fundamental biological concepts relevant to plant physiology, life cycle, growth and development, structure and function, and cellular and molecular metabolism. The role of plants in the environment, evolution, and phylogeny of major plant groups, algae, and fungi. Laboratory activities will reinforce fundamental biological concepts relevant to animals, including systematics, evolution, structure and function, cellular and molecular metabolism, reproduction, development, diversity, phylogeny, and ecology. This course is intended for science majors. AC.

BIOL 24014-3-2

Anatomy & Physiology I (Lecture + Lab)
(26.0707)

This is the first part of a two-course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology.

Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses. AC.

BIOL 24024-3-2

Anatomy & Physiology II (Lab) (26.0707)

This is the second part of a two-course sequence. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Prerequisite: BIOL 2401 or 2301/2101. AC.

BIOL 24044-3-2

Anatomy & Physiology (Single-semester course, Lecture + Lab) (26.0707)

Study of the structure and function of human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content may be either integrated or specialized. AC.

BIOL 24064-3-2

Environmental Biology (Lab) (03.0103)

Principles of environmental systems and ecology, including biogeochemical cycles, energy transformation, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. Laboratory activities will reinforce principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. AC.

BIOL 24204-3-2

Microbiology for Non-Science Majors (26.0503)

Study of the morphology, physiology, and taxonomy of representative groups of pathogenic and nonpathogenic microorganisms. Pure cultures of microorganisms grown on selected media are used in learning laboratory techniques. Includes a brief preview of food microbes, public health, and immunology. Prerequisite: BIOL 1406 (or 1306/1106) and BIOL 1407 (or 1307/1107) or BIOL 2401 (or 2301/2101) and BIOL 2402 (or 2302/2102). AC.

BMGT 13013-3-0

Supervision (52.0201)

The role of the supervisor. Includes managerial functions as applied to leadership, counseling, motivation, and human relations skills. TEC.

BMGT 13073-2-2

Team Building (52.0201)

Principles of building and sustaining teams in organizations. Includes team dynamics, process improvement, trust and collaboration, conflict resolution, and the role of the individual in the team. TEC.

BMGT 13093-3-0

Information and Project Management (52.0201)

Critical path methods for planning and controlling projects. Includes time/cost tradeoffs, resource utilization, stochastic considerations, task determination, time management, scheduling management, status reports, budget management, customer service, professional attitude, and project supervision. TEC.

BMGT 13273-3-0

Principles of Management (52.0201)

Explain various theories, processes, and functions of management; apply theories to a business environment; identify leadership roles in organizations; and describe elements of the communication process. TEC.

BMGT 23093-2-2

Leadership (52.0201)

Leadership and its relationship to management. Prepares the student with leadership and communication skills needed to motivate and identify leadership styles. TEC.

BMGT 23413-3-0**Strategic Management** (52.0201)

Strategic management process, including analysis of how organizations develop and implement a strategy for achieving organizational objectives in a changing environment. TEC.

BNKG 1303.....3-3-0**Principles of Bank Operation** (52.0803)

Overview of the fundamental banking functions and the role of regulation in the banking industry. Explanation of financial products and services to various markets. TEC.

BNKG 1340.....3-3-0**Money and Financial Markets** (52.0803)

Monetary policy and its related effects on financial intermediaries. Includes financial markets, regulatory functions, and structures. Addresses investment and funds management. TEC.

BNKG 1345.....3-3-0**Consumer Lending** (52.0803)

A study of the different types of consumer loans. Identify the federal regulations and state laws pertaining to collection and serving of a consumer loan and relate consumer credit to the lending process. TEC.

BNKG 1356.....3-3-0**Analyzing Financial Statements** (52.0803)

A study of the process of evaluating financial statements, cash flow, and ratio analysis of individuals and business. Emphasis on the relationship of comparative analysis and industry standards. TEC.

BNKG 1359.....3-3-0**Loan Servicing** (52.0803)

Examination of how mortgage lenders service loans. Focus on the legal aspects and procedures used in daily operations. Topics include escrow accounting, contract servicing, governmental regulations, taxing authorities and establishing tax rates and economic impacts of delinquency. TEC.

BUSA 1313.....3-3-0**Investments** (52.0807)

Theory and mechanics of business investment decisions and management of business financial assets. Topics include time value of money, cash

flow, capital budgeting, sources of funds, break-even analysis, and investment decisions. TEC.

BUSG 13013-3-0**Introduction to Business** (52.0101)

Fundamental business principles including structure, functions, resources, and operational processes. Introduction to the role of business in modern society. Includes overview of business operations, analysis of the specialized fields within the business organization, and development of a business vocabulary. THIS COURSE IS CROSS-LISTED AS BUSI 1301. TEC.

BUSG 13023-3-0**E-Business Management** (52.0101)

Introduction to business. Includes the internet, infrastructure for electronic commerce, markup languages, web-based tools and software, security issues, and electronic payment systems. Also covers strategies for marketing, sales, and purchasing; legal ethical, and tax issues; and management functions. TEC.

BUSG 13043-3-0**Financial Literacy** (52.0801)

A study of the financial principles when managing financial affairs. Includes topics such as budgeting, retirement, property ownership, savings, and investment planning. TEC.

BUSG 13073-3-0**Entrepreneurship and Economic Development** (52.0101)

Overview of entrepreneurship as an economic development strategy. Includes community support systems for entrepreneurs. TEC.

BUSG 23053-3-0**Business Law/Contract** (52.0703)

Principles of law which form the legal framework for business activity including applicable statutes, contracts, and agency. TEC.

BUSG 23093-3-0**Small Business Management** (52.0703)

Starting, operating, and growing a small business. Includes essential management skills, how to prepare a business plan, accounting, financial needs, staffing, marketing strategies, and legal issues. Suggested prerequisite: ACCT 2301 and BUSI 1301. TEC.

BUSI 13013-3-0**Business Principles** (52.0101)

Introduction to the role of business in modern society. Includes overview of business operations, analysis of the specialized fields within the business organization, and development of a business vocabulary. THIS COURSE IS CROSS-LISTED AS BUSG 1301. AC.

BUSI 13073-3-0**Personal Finance** (19.0401)

Personal and family accounts, budgets and budgetary control, bank accounts, charge accounts, borrowing, investing, insurance, standards of living, renting or home ownership, and wills and trust plans. AC.

BUSI 23013-3-0**Business Law** (52.0101)

Principles of law which form the legal framework for business activity. AC.

BUSI 23043-3-0**Business Report Writing and Correspondence** (23.1303)

Theory and applications for technical reports and correspondence in business. AC.

BUSI 23053-3-0**Business Statistics** (52.1302)

Descriptive and inferential statistical techniques for business and economic decision-making. Topics include the collection, description, analysis, summarization of data; probability; discrete and continuous random variables; the binomial and normal distributions; sampling distributions; test of hypothesis; estimation and confidence intervals; linear regression; and correlation analysis. Statistical software is used to analyze data throughout the course. Prerequisites: MATH 1324 or MATH 1314, BCIS 1305/1405 AC.

CETT 14034-3-4**DC Circuits** (15.1201)

A study of the fundamentals of direct current including Ohm's law, Kirchhoff's laws and circuit analysis techniques. TEC.

CETT 14054-3-4**AC Circuits** (15.1201)

A study of the fundamentals of alternating current including series and parallel AC circuits, phasors, capacitive and inductive networks, transformers, and resonance. TEC.

CETT 14154-3-4**Digital Applications** (15.1201)

An investigation of combinational and sequential logic elements and circuits with emphasis on design and troubleshooting of combinational and sequential circuits. TEC.

CETT 14414-3-4**Solid State Circuits** (15.1201)

A study of various semiconductor devices incorporated in circuits and their applications. Emphasis on circuit construction, measurements, and analysis. TEC.

CHEF 13013-2-2**Basic Food Preparation** (12.0503)

A study of the fundamental principles of food preparation and cookery to include Brigade System, cooking techniques, material handling, heat transfer, sanitation, safety, nutrition, and professionalism. TEC

CHEF 13053-2-2**Sanitation and Safety** (12.0503)

A study of personal cleanliness; sanitary practices in food preparation; causes, investigation, control of illness caused by food contamination (Hazard Analysis Critical Control Points); and workplace safety standard. TEC.

CHEF 13103-2-2**Garde Manger** (12.0503)

A study of cold foods and garnishes. Emphasis on design, techniques, and display of fine foods. TEC

CHEF 23013-2-2**Intermediate Food Preparation** (50.0409)

Continuation of previous food preparation course. Topics include the concept of pre-cooked food items, as well as scratch preparation. Covers full range of food preparation techniques. TEC

CHEF 23313-2-2**Advanced Food Preparations** (12.0503)

Advanced concepts of food preparation and presentation techniques. TEC

CHEM 1406 4-3-2
Introductory Chemistry I (Lecture + Lab)
 (40.0501)

Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for allied health students and for students who are not science majors. AC.

CHEM 1407 4-3-2
Introductory Chemistry II (Lecture + Lab)
 (40.0501)

Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for allied health students and for students who are not science majors. Prerequisite: CHEM 1406 (or CHEM 1406). AC.

CHEM 1411 4-3-2
General Chemistry I (Lecture + Lab) (40.0501)

Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. Prerequisite: DMTH 0302, DMTH 0314 or higher, or two years of high school Algebra; being concurrently enrolled in high school Algebra II or Math 1314 College Algebra, is acceptable. Introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports. AC.

CHEM 1412 4-3-2
General Chemistry II (Lab) (40.0501)

Chemical equilibrium; phase diagrams and spectrometry; acid-base concepts; thermodynamics; kinetics; electrochemistry; nuclear chemistry; an introduction to organic chemistry and descriptive inorganic chemistry. Prerequisite: CHEM 1411. Introduction of the scientific method, experimental design, chemical instrumentation, data collection and analysis, and preparation of laboratory reports. Prerequisite: CHEM 1411 (or CHEM 1311/1111). AC.

CJCR 1166..... 1-0-0
TJJD Practicum I (*TJJD Employees Only)
 (43.0102)

Practical, general workplace training supported by an individual learning plan developed by TJJD, LSCO, and the student following the completion of pre-service training. TEC.

CJCR 1167..... 1-0-0
TJJD Practicum II (*TJJD Employees Only)
 (43.0102)

Practical, general workplace training supported by an individual learning plan developed by TJJD, LSCO, and the student following the completion of pre-service training. TEC.

CJCR 1281..... 2-1-11
Cooperative Education -Corrections (43.0102)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. TEC.

CJCR 1307..... 3-3-0
Correctional Systems & Practices (43.0104)

Corrections in the criminal justice system; organization of correctional systems; correctional role; institutional operations; alternatives to institutionalization; treatment and rehabilitation; current and future issues. THIS COURSE IS CROSS-LISTED AS CRIJ 2313. TEC.

CJCR 1374..... 3-2-0
TJJD Local Needs Pre-Service (*TJJD Employees Only) (43.0102)

TJJD employees/ student receive required instruction in Abuse, Neglect, and Exploitation. Navigating the TJJ System, Professional Liability, Workplace Safety and Hazardous Materials, Suicide Prevention, Use of Force Policy, Building Healthy Relationships, Gang Awareness, Grooming and Manipulation, Prison Rape Elimination Act, and Youth Rights. TEC.

CJCR 1376..... 3-3-0
TJJD Local Needs Pre-Service (*TJJD Employees Only) (43.0102)

In-Service training is offered for Texas Juvenile Justice Department employees. All direct-care TJJD employees in juvenile justice facilities

received required instruction in Employment Discrimination, IT Security Awareness, CODE BLUE Procedures, Communicable Diseases, Professional Communications, Handle with Care, and CPR.. TEC.

CJSA 1308 3-3-0

Criminalistics I (43.0104)

Introduction to the field of criminalistics. Topics include the application of scientific and technical methods in the investigation of crime including location, identification, and handling of evidence for scientific analysis. TEC.

CJSA 1312 3-3-0

Crime in America (43.0104)

American crime problems in historical perspective, social and public policy factors affecting crime, impact and crime trends, social characteristics of specific crimes, and prevention of crime. THIS COURSE IS CROSS-LISTED AS CRIJ 1307. TEC.

CJSA 1313 3-3-0

Court Systems & Practices (43.0104)

Study of the judiciary in the American criminal justice system and the adjudication processes and procedures. THIS COURSE IS CROSS-LISTED AS CRIJ 1306. TEC.

CJSA 1317 3-3-0

Juvenile Justice System (43.0104)

A study of the juvenile justice process to include specialized juvenile law, role of the juvenile law, role of the juvenile courts, role of police agencies, role of correctional agencies, and theories concerning delinquency. THIS COURSE IS CROSS-LISTED AS CRIJ 1313. TEC.

CJSA 1322 3-3-0

Introduction to Criminal Justice (43.0104)

History, philosophy, and ethical considerations of criminal justice; the nature and impact of crime; and an overview of the criminal justice system, including law enforcement and court procedures. THIS COURSE IS CROSS-LISTED AS CRIJ 1301. TEC.

CJSA 1327 3-3-0

Fundamentals of Criminal Law (43.0104)

The study of criminal law including application of definitions, statutory elements, defenses and penalties using Texas statutes, the Model Penal Code, and case law. This course also analyzes the

philosophical and historical development of criminal law and criminal culpability. THIS COURSE IS CROSS-LISTED AS CRIJ 1310. TEC.

CJSA 1330 3-3-0

Cybercrimes (43.0103)

An introduction to cybercrime. Topics include specific laws, investigative techniques, and criminological theories applicable to computer crime. TEC.

CJSA 1342 3-3-0

Criminal Investigation (43.0104)

Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation. THIS COURSE IS CROSS-LISTED AS CRIJ 2314. TEC.

CJSA 1348 3-3-0

Ethics in Criminal Justice (43.0104)

Ethical philosophies and issues pertaining to the various professions in the criminal justice system. Includes ethical issues emanating from constitutional conflict with public protection and individual rights, civil liberties, and correctional policies. TEC.

CJSA 1351 3-3-0

Use of Force (43.0104)

Study of the use of force including introduction to and statutory authority for the use of force, force options, deadly force, and related legal issues. Fulfills the Texas Commission on Law Enforcement Use of Force Intermediate Certificate requirement. This course was designed to be repeated multiple times to improve student proficiency. TEC.

CJSA 1359 3-3-0

Police Systems & Practices (43.0104)

The police profession; organization of law enforcement systems; the police role; police discretion; ethics; police-community interaction; current and future issues. THIS COURSE IS CROSS-LISTED AS CRIJ 2328. TEC.

CJSA 1400 4-4-0

Death Investigation I (43.0104)

Concepts, investigations process, scene management, required documentation, and case management for incidences of natural, accidental,

and suicidal deaths. Follows the Department of Justice National Guidelines for Death Investigations and meets the criteria for academic credit recognition from the American Board of Medicolegal Death Investigators. TEC.

CJSA 22882-0-7

Criminal Investigations, Internship (43.0104)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. TEC.

CJSA 23233-3-0

Criminalistics II (43.0104)

Theory and practice of crime scene investigation. Topics include report writing, blood and other body fluids, document examination, etchings, casts and molds, glass fractures, use of microscope, and firearms identification. TEC.

CNBT 12102-1-3

Basic Construction Safety Introduction to Computing (15.0101)

Basic job site construction safety in residential, commercial, and industrial construction. TEC.

CNBT 1266 2-0-14

Practicum - Construction Engineering Technology (15.0101)

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. TEC.

CNBT 13003-2-2

Residential & Light Commercial Blueprint Reading (15.0101)

Introduction to construction drawings with a focus on residential and light commercial construction. TEC.

CNBT 1316 3-2-2

Construction Technology I (15.0101)

Introduction to site preparation foundations, form work, safety, tools, and equipment. TEC.

CNBT 1318 3-2-2

Construction Tools and Techniques (15.0101)

Comprehensive study of the selection and use of hand tools, portable power and

stationary power tools and related construction equipment. TEC.

CNBT 1346 3-2-2

Construction Estimating I (15.0101)

Fundamentals of estimating materials, equipment, and labor costs in construction. TEC.

CNBT 1350 3-2-2

Construction Technology II (15.0101)

Framing in residential and light commercial construction. Includes safety, tools, and equipment used in floor, wall, ceiling, and roof framing methods and systems. TEC.

CNBT 1353 3-2-2

Construction Technology III (15.0101)

Exterior trim and finish for residential and light commercial construction. TEC.

CNBT 1411 4-3-2

Construction Materials and Methods I (15.0101)

Introduction to construction materials and methods and their applications. TEC.

CNBT 2315 3-2-2

Construction Specifications and Contracts (15.0101)

Overview of the legal aspects of written construction documents. TEC.

CNBT 2344 3-2-2

Construction Management II (15.0101)

A management course in contract documents, safety, planning, scheduling, production control, law and labor issues. Topics include contracts, planning, cost and production peripheral documents, and cost and work analysis. TEC.

COMM 1307..... 3-3-0

Introduction to Mass Communication (09.0102)

Survey of basic content and structural elements of mass media and their functions and influences on society. AC.

COMM 2311..... 3-3-0

Media Writing (09.0401)

Fundamentals of writing for the mass media. Includes instruction in professional methods

and techniques for gathering, processing, and delivering content. AC.

COMM 2330 3-3-0

Introduction to Public Relations (09.0401)

Exploration of the history and development of public relations. Presentation of the theory behind and process of public relations, including the planning, implementation, and evaluation of PR campaigns. AC.

COSC 1301 3-3-1

Introduction to Computing (11.0101)

Overview of computer systems—hardware, operating systems, and microcomputer application software, including the Internet, word processing, spreadsheets, presentation graphics, and databases. Current issues such as the effect of computers on society, and the history and use of computers in business, educational, and other modern settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science. AC.

COSC 1315 3-3-1

Introduction to Computer Programming (11.0201)

Introduction to computer programming for solving a variety of problems. This course is intended for non-computer science and non-computer engineering majors. Emphasis on the fundamentals of design, development, testing, implementation, and documentation of computer programs. Includes problem solving with structured techniques and algorithms using pseudo code and/or graphical representations. AC.

COSC 1336 3-2-4

Programming Fundamentals I (11.0201)

Introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy. This course is included in the Field of Study Curriculum for Computer Science.AC.

COSC 1337 3-2-4

Programming Fundamentals II (11.0201)

This course focuses on the object-oriented programming paradigm, emphasizing the definition and use of classes along with fundamentals of object-oriented design. The course includes basic analysis of algorithms, searching and sorting techniques and an introduction to software engineering processes. Students will apply techniques for testing and debugging software. This course is included in the Field of Study Curriculum for Computer Science.AC.

COSC 2325 3-2-4

Computer Organization (11.0201)

The organization of computer systems is introduced using assembly language. Topics include basic concepts of computer architecture and organization, memory, hierarchy, data types, computer arithmetic, control structures, interrupt handling, instruction sets, performance metrics, and the mechanics of testing and debugging computer systems. Embedded systems and device interfacing are introduced. This course is included in the Field of Study Curriculum for Computer Science.AC.

COSC 2425 4-4-0

Computer Organization (11.0201)

The organization of computer systems is introduced using assembly language. Topics include basic concepts of computer architecture and organization, memory, hierarchy, data types, computer arithmetic, control structures, interrupt handling, instruction sets, performance metrics, and the mechanics of testing and debugging computer systems. Embedded systems and device interfacing are introduced. This course is included in the Field of Study Curriculum for Computer Science.AC.

CPMT 1345 3-2-3

Computer Systems Maintenance (47.0104)

A study of the components within a computer system. Development of testing and troubleshooting skills. TEC.

CPMT 2402 4-2-4

Home Technology Integration (47.0104)

A study of integration and maintenance of various home technology subsystems. Includes home automation, security and surveillance,

home networks, video and audio networks, and structured wiring. TEC.

CRIJ 13013-3-0

Introduction to Criminal Justice (43.0104)

History, philosophy, and ethical considerations of criminal justice; the nature and impact of crime; and an overview of the criminal justice system, including law enforcement and court procedures. THIS COURSE IS CROSS-LISTED AS CJSA 1322. AC.

CRIJ 13063-3-0

Court Systems & Practices (43.0104)

Study of the judiciary in the American criminal justice system and the adjudication processes and procedures. THIS COURSE IS CROSS-LISTED AS CJSA 1313. AC.

CRIJ 13073-3-0

Crime in America (45.0401)

American crime problems in historical perspective, social and public policy factors affecting crime, impact and crime trends, social characteristics of specific crimes, and prevention of crime. THIS COURSE IS CROSS-LISTED AS CJSA 1312. AC.

CRIJ 13103-3-0

Fundamentals of Criminal Law (43.0104)

Study of criminal law, its philosophical and historical development, major definitions and concepts, classifications and elements of crime, penalties using Texas statutes as illustrations, and criminal responsibility. THIS COURSE IS CROSS-LISTED AS CJSA 1327. AC.

CRIJ 13133-3-0

Juvenile Justice System (43.0104)

A study of the juvenile justice process to include specialized juvenile law, role of the juvenile law, role of the juvenile courts, role of police agencies, role of correctional agencies, and theories concerning delinquency. THIS COURSE IS CROSS-LISTED AS CJSA 1317. AC.

CRIJ 23013-3-0

Community Resources in Corrections (43.0104)

An introductory study of the role of the community in corrections; community programs for adults and juveniles; administration of community programs; legal issues; future trends in community treatment. AC.

CRIJ 23133-3-0

Correctional Systems & Practices (43.0104)

Corrections in the criminal justice system; organization of correctional systems; correctional role; institutional operations; alternatives to institutionalization; treatment and rehabilitation; current and future issues. THIS COURSE IS CROSS-LISTED AS CJCR 1307. AC.

CRIJ 23143-3-0

Criminal Investigation (43.0104)

Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation. THIS COURSE IS CROSS-LISTED AS CJSA 1342.AC.

CRIJ 23233-3-0

Legal Aspects of Law Enforcement (43.0104)

Police authority; responsibilities; constitutional constraints; laws of arrest, search, and seizure; police liability. AC.

CRIJ 23283-3-0

Police Systems & Practices (43.0104)

The police profession; organization of law enforcement systems; the police role; police discretion; ethics; police-community interaction; current and future issues. THIS COURSE IS CROSS-LISTED AS CJSA 1359.AC.

CRTR 12022-1-2

Law and Legal Terminology (22.0303)

Instruction in civil and criminal judicial systems (discovery, trial, and appellate processes), and the legal terms used in court reporting. TEC.

CRTR 13083-2-2

REALTIME Court Reporting I (22.0303)

Study of the basic rules of English grammar, spelling, punctuation, capitalization, and proofreading skills as they apply to court reporting. TEC.

CRTR 13103-2-2

REALTIME Court Reporting II (22.0303)

Continued development of computer and machine shorthand skills necessary for writing realtime for production of projects and assignments. TEC.

CRTR 13123-2-2

Court Reporting Communications I (22.0303)

Study of the basic rules of English grammar, spelling, punctuation, capitalization, and proofreading skills as they apply to court reporting. TEC.

CRTR 1314 3-2-2

Court Reporting Technology I (22.0303)

Instruction in the operation, maintenance, and assembly of a computer-aided transcription system, including the computer functions necessary for transcript production. TEC.

CRTR 1404 4-2-5

Machine Shorthand I (22.0303)

Instruction in general principles of real-time machine shorthand theory and skill building through read-back of dictation notes, machine practice, and transcription. This course is designed to be repeated to meet program requirements. TEC.

CRTR 1406 4-2-5

Machine Shorthand II (22.0303)

Development of real-time shorthand skills through read-back, machine practice, and transcription. This course is designed to be repeated to meet program standards. TEC.

CRTR 2206 2-1-2

Medical Court Reporting (22.0303)

Introduction to medical terms and anatomy in court reporting. TEC.

CRTR 2280 2-1-8

Court Reporter Coop (22.0303)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. TEC.

CRTR 2286 2-0-8

Court Reporting Internship (22.0303)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. TEC.

CRTR 2303 3-1-6

Advanced Machine Shorthand (22.0303)

In-depth coverage of real-time machine shorthand theory and continued skill building through read-back, machine practice, and transcript production. This course may be repeated multiple times until machine shorthand standards are met. TEC.

CRTR 2311 3-2-2

Court Reporting Communications II (22.0303)

In-depth coverage of grammar, spelling, punctuation, capitalization, vocabulary, and proofreading skills necessary to produce transcripts. TEC.

CRTR 2312 3-3-1

Court Reporter Certification Preparation (22.0303)

Instruction in the role of the court reporter in court proceedings and/or depositions. TEC.

CRTR 2331 3-1-6

Court Reporter Certification Preparation (22.0303)

Preparation for taking the Texas Certified Shorthand Reporter and the Registered Professional Reporter examinations through the use of mock examinations. This course is designed to be repeated. TEC.

CRTR 2335 3-1-6

Accelerated Machine Shorthand (22.0303)

Mastery of high-speed dictation including readback, machine practice, and transcription. This course may be repeated multiple times until machine shorthand standards are met. TEC.

CRTR 2401 4-2-5

Court Reporter Certification Preparation (22.0303)

Continued development of real-time machine shorthand skills through read-back, machine practice, and transcription. This course is designed to be repeated multiple times to meet program standards. TEC.

CSME 1248 2-1-3

Principles of Skin Care (12.0409)

An introduction of the theory and practice of skin care. TEC.

CSME 1401 4-2-6

Orientation to Cosmetology (12.0401)

An overview of the skills and knowledge necessary for the field of cosmetology. TEC.

CSME 1405.....4-2-7**Fundamentals of Cosmetology** (12.0401)

A course in the basic fundamentals of cosmetology. Topics include safety and sanitation, service preparation, manicure, facial, chemical services, shampoo, haircut, wet styling, and comb out. TEC.

CSME 1410.....4-2-7**Introduction to Haircutting and Related Theory** (12.0401)

Introduction to the theory and practice of hair cutting. Topics include terminology, implements, sectioning and finishing techniques. TEC.

CSME 2270.....2-1-3**Nail Enhancements** (12.0407)

A course in the theory, application, and related technology of nail enhancements. TEC.

CSME 2401.....4-2-7**The Principles of Hair Coloring and Related Theory** (12.0401)

Presentation of the theory, practice, and chemistry of hair color. Topics include terminology, application, and workplace competencies related to hair color. TEC.

CSME 2436.....4-2-6**Advanced Cosmetology Techniques** (12.0407)

Advanced concepts of cosmetology applications including hair, skin and/or nails; professional cosmetology services; and workplace competencies. TEC.

CSME 2475.....4-2-6**Intermediate Cosmetology Applications and Related Theory** (12.0407)

A continuation of advanced concepts of cosmetology applications including hair, skin and/or nails; professional cosmetology services; and workplace competencies. TEC.

CSME 2541.....5-3-6**Preparation for the State Licensing Examination** (12.0401)

Preparation for the state licensing examination. TEC.

CTEC 2445.....4-3-3**Unit Operations** (41.0301)

Instruction in the principles of chemical engineering and process equipment with emphasis on scale-up from laboratory bench to pilot plant. TEC.

CTEC 2480.....4-1-24**Cooperative Education-Chemical Technology** (41.0301)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. Prerequisite: Enrollment in Process Technology program, sophomore standing, 30 completed semester hours in program and departmental approval. TEC.

CVOP 1145.....1-1-1**Commercial Driver License Overview** (49.0205)

Overview of the State of Texas Class A Commercial Drivers License written test and preparation for mastery of the Commercial Drivers License written examination. TEC.

CVOP 1201.....2-0-5**Commercial Driver License Overview** (49.0205)

Overview of the State of Texas Class A Commercial Drivers License written. In-depth coverage of general knowledge, air brakes, combination vehicle, doubles and triples, tankers, and hazardous materials. Includes preparation for mastery of the Commercial Drivers License written examination. TEC.

DATN 1370.....3-2-3**Introduction to Data Analysis and Visualization** (11.0301)

Introduction to basic concepts of analyzing data and reporting on and presenting outcomes. Topics include research questions, data collection, data analysis, documentation, and reporting. Topics may adapt to change in industry practices. TEC.

DATN 1377.....3-2-3**Cloud Computing for Data Analytics** (11.0301)

Planning and execution of analytics projects that integrates analytical knowledge and skills acquired. Advanced topics related to data mining

such as cluster analysis, association rule and modern analytical tools and methods will be introduced. TEC.

DIRW 04004-4-0

Integrated Reading/Writing

Integration of critical reading and academic writing skills. This course fulfills TSI requirements for reading and/or writing. CP.

DMTH 03003-3-0

Developmental Mathematics (32.0104)

This course is designed to prepare students for college-level mathematics with corequisite support. Basic skills of integers, decimals and fractions, ratio and proportions, percent, measurement, geometry, powers and roots, real numbers, variables, linear equations and inequalities, mathematical models, functions, and graphs. Prerequisite: Appropriate math placement score. Corequisite: NCBM0101. CP.

DMTH 03013-3-0

Introduction to Algebra (32.0104)

This course is designed to prepare students for college-level mathematics in algebra pathways (MATH 1332/1324) or those that are TSI-incomplete with no college level math in their degree plans. Review of basic skills, ratios, proportions and percentages, compound interest, measurement conversions, solving and graphing linear equations, inequalities, functions and systems of equations, basic polynomial, radical, rational, exponential and logarithmic equations and functions, probability and statistics. Prerequisite: DMTH 0300 or appropriate math placement score. Corequisite: NCBM 0102. CP.

DMTH 03143-3-0

Developmental College Algebra & Mathematics for Business and Social Sciences Corequisite (32.0104)

This course is designed to support college-level algebra-based courses with just-in-time remediation. Emphasis on skills needed to support MATH 1314 or MATH 1324. Topics may include real and complex numbers, algebraic expressions, linear equations, inequalities of one or two variables, radicals, polynomials, factoring, functions, graphs, systems of linear equations and matrices. Satisfactory grade is contingent upon successful completion of MATH 1314 or MATH 1324. Credit does not apply to any degree plan.

Prerequisite: DMTH 0301 or appropriate math placement score. Corequisite: MATH 1314 or MATH 1324. CP.

DMTH 0332 (32.0104.51.19).....3-3-0

Developmental Contemporary Mathematics and Elementary Statistical Methods

Corequisite

This course is designed to prepare students for college-level mathematics with just-in-time remediation. Emphasis on skills needed to support MATH 1332 and MATH 1342. Topics may include problem solving, fractions, decimals, real numbers, variables, algebraic expressions and formulas, scientific notation, factorials, order of operations, absolute values, sets and operations on sets, linear equations and inequalities, ratios and proportions, measurement conversion, Cartesian coordinates, and graphs of linear equations in two variables. Prerequisite: DMTH 0300 or DMTH 0301 or appropriate math placement score. Corequisite: MATH 1332 or MATH 1342. CP

DNTA 1103.....1-1-1

Registered Dental Assistant Exam Review (51.0601)

Preparation for Dental Assistants to meet Texas State Board of Dental Examiners (TSBDE) examination TEC.

DNTA 1202.....2-2-1

Communication and Behavior in the Dental Office (51.0601)

The study of human interaction and communication in the dental office. TEC.

DNTA 1213.....2-2-1

Emergency Management (51.0601)

Management of dental and medical emergencies. Maintenance of medical emergency kit, and recording of vital signs. TEC.

DNTA 12412-1-2

Dental Laboratory Procedures (51.0601)

Dental laboratory procedures including skills associated with chairside assisting; pouring, trimming, and polishing study casts, preliminary impressions, and fabrication provisional restorations. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1245, DNTA 1249, DNTA 1251, DNTA 1353, and DNTA 1660. TEC.

DNTA 1245.....2-1-2**Preventative Dentistry** (51.0601)

The study and prevention of dental diseases and community dental health. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1241, DNTA 1249, DNTA 1251, DNTA 1353, and DNTA 1660. TEC.

DNTA 1249.....2-1-2**Dental Radiology in the Clinic** (51.0601)

The practical application of exposing, processing, and mounting diagnostically acceptable radiographs obtained by utilizing various radiographic techniques. This course will encompass critical evaluation of all procedures. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1241, DNTA 1245, DNTA 1251, DNTA 1353, and DNTA 1660. TEC.

DNTA 1251.....2-1-2**Dental Office Management** (51.0601)

The study of business office procedures, including telephone management, appointment control, receipt of payment for dental services, completion of third-party reimbursement forms, supply inventory maintenance, data entry for charges and payments, record management (manage recall systems), federal and state guidelines regarding health care providers, and operating basic business equipment. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1241, DNTA 1245, DNTA 1249, DNTA 1353, and DNTA 1660. TEC.

DNTA 1305.....3-2-2**Dental Radiology** (51.0601)

Introduction to radiation physics, protection, the operation of radiographic equipment, exposure, processing and mounting of dental radiographs. Specific federal and state safety and standard practices for the classroom and lab settings will be practiced. Corequisite: DNTA 1311, DNTA 1315, and DNTA 1401. TEC.

DNTA 1311.....3-2-2**Dental Science** (51.0601)

Anatomical systems with emphasis placed on head and neck anatomy. Topics include the physiology and morphology of the deciduous and the permanent teeth along with basic dental

terminology. Corequisite: DNTA 1305, DNTA 1315, and DNTA 1401. TEC.

DNTA 1315.....3-2-3**Chairside Assisting** (51.0601)

Pre-clinical chairside assisting procedures, instrumentation, infection and hazard control protocol, equipment safety and maintenance. Corequisite: DNTA 1305, DNTA 1311, and DNTA 1401. TEC.

DNTA 1353.....3-2-2**Dental Assisting Applications** (51.0601)

Dental assisting techniques with emphasis on four-handed dentistry and utilization of tray setups for general practice and specialty procedures. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1241, DNTA 1245, DNTA 1249, DNTA 1251, and DNTA 1660. TEC.

DNTA 1401.....4-3-2**Dental Materials** (51.0601)

Structure, properties, and procedures related to dental materials. Includes safety and American Dental Association regulated standard precautions. Corequisite: DNTA 1305, DNTA 1311, and DNTA 1315. TEC.

DNTA 1447.....4-2-6**Advanced Dental Science** (51.0601)

An advanced study of anatomical systems, pharmacology, oral pathology, and developmental abnormalities. Pre-requisite: DNTA 1311. TEC.

DNTA 1660.....6-0-18**Clinical I - Dental Assisting** (51.0601)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: DNTA 1305, DNTA 1311, DNTA 1315, and DNTA 1401. Corequisite: DNTA 1241, DNTA 1245, DNTA 1249, DNTA 1251, and DNTA 1353. TEC.

DNTA 2461.....4-0-12**Clinical II - Dental Assisting** (51.0601)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical

professional. Prerequisite: DNTA 1241, DNTA 1245, DNTA 1249, DNTA 1251, DNTA 1305, DNTA 1311, DNTA 1315, DNTA 1353, DNTA 1401, and DNTA 1660. TEC.

DRAM 13103-3-0

Theater Appreciation (50.0501)

Survey of all phases of theater including its history, dramatic works, stage techniques, production procedures, and relation to the fine arts. Attendance at major productions may be required. AC.

DRAM 23663-3-0

Film Appreciation (50.0601)

Survey and analyze cinema including history, film techniques, production procedures, selected motion pictures, and cinema's impact on reflection of society. AC.

ECON 23013-3-0

Principles of Macroeconomics (45.0601)

History, development, and application of macroeconomic theory underlying the production, distribution, and exchange of goods and services including the national income analysis; fluctuation and growth; monetary and banking theory and policy; public finance; labor problems; international trade; and current economic problems. AC.

ECON 23023-3-0

Principles of Microeconomics (45.0601)

History, development, and application of microeconomic theory underlying the production, distribution, and exchange of goods and services including the utilization of resources; analysis of value and prices; fiscal policies; labor problems; determination of output, prices, distribution; and current economic principles. AC.

ECRD 12112-2-1

Electrocardiography (51.0902)

Fundamentals of cardiovascular anatomy and physiology. Includes basic electrocardiography procedures, interpretation of basic dysrhythmia, and appropriate treatment modalities. TEC.

EDUC 13003-3-0

Learning Frameworks (42.2701) ****CROSS LISTED AS PSYC 1300**

A study of the: research and theory in the psychology of learning, cognition, and

motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. AC.

EDUC 13013-3-1

Introduction to the Teaching Profession (13.0101)

An enriched, integrated pre-service course and content experience that: 1) provides active recruitment and institutional support of students interested in a teaching career, especially in high need fields; 2) provides students with opportunities to participate in early field observations at all levels of P-12 schools with varied and diverse student populations; 3) provides students with support from college and school faculty, preferably in small cohort groups, for the purpose of introduction to and analysis of the culture of schooling and classrooms; 4) course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; and 5) course must include a minimum of 16 contact hours of field experience in P-12 classrooms. AC.

EDUC 23013-3-1

Introduction to Special Populations (13.1001)

An enriched, integrated pre-service course and content experience that: 1) provides an overview of schooling and classrooms from the perspectives of language, gender, socioeconomic status, ethnic and academic diversity, and equity with an emphasis on factors that facilitate learning; 2) provides students with opportunities to participate in early field observations of P-12 special populations; 3) should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; and 4) must include a minimum of 16 contact hours of field experience

in P-12 classrooms with special populations.
Prerequisite: EDUC 1301. AC.

EECT 1300..... 3-2-3

Technical Customer Service (15.0303)

General principles of customer service within a technical environment. Topics include internal/external customer relationships, time-management, best practices, and verbal and non-verbal communications skills. TEC.

ELPT 1321 3-3-1

Introduction to Electrical Safety (46.0301)

Safety rules and regulations. Includes the selection, inspection, use, and maintenance of common tools for electricians. TEC.

ELPT 1325 3-3-0

National Electrical Code I (46.0301)

An introductory study of the National Electric Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring design, protection, methods, and materials; equipment for general use; and basic calculations. TEC.

ELPT 1329 3-2-3

Residential Wiring (46.0301)

Wiring methods for single family and multi-family dwellings. Includes load calculations, service entrance sizing, proper grounding techniques, and associated safety procedures. TEC.

ELPT 1357 3-2-3

Industrial Wiring (46.0301)

Wiring methods used for industrial installations. Includes motor circuits, raceway and bus way installations, proper grounding techniques, and associated safety procedures. TEC.

ELPT 1411 4-3-2

Basic Electrical Theory (46.0301)

Basic theory of practice of electrical circuits. Includes calculations as applied to alternating and direct current. TEC.

ELPT 1445 4-3-2

Commercial Wiring (46.0301)

Commercial wiring methods. Includes overcurrent protection, raceway panel board installation, proper grounding techniques, and associated safety procedures. TEC.

ELPT 2264..... 2-0-16

Practicum-Electrical and Power Transmission Installation/Installer, General (46.0301)

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. TEC.

ELPT 2325..... 3-3-0

National Electrical Code II (46.0301)

In-depth coverage of the National Electrical Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring protection and methods, special conditions, and advanced calculations. TEC.

ELPT 2423..... 4-3-2

Transformers (46.0301)

Transformer types, construction, connections, protection, grounding, and associated safety procedures. TEC.

ELPT 2437..... 4-3-3

Electrical Planning and Estimating (46.0301)

Planning and estimating for residential, commercial, and industrial wiring systems. Includes a variety of electrical techniques. TEC.

ELTN 1443 4-2-4

Electrical Troubleshooting (46.0302)

Maintenance, operation, troubleshooting, and repair of circuits of various residential, commercial, and industrial electrical systems. TEC.

EMSP 1208..... 2-2-1

Emergency Vehicle Operations (51.0904)

This course is offered as part of the AEMT – program. This course provides the student with instruction, discussion, demonstration, and driving range practice to prepare drivers of emergency vehicles to operate their vehicles safely in the emergency and non-emergency mode. TEC.

EMSP 1260 2-0-5

Clinical I Basic (51.0904)

This clinical course provides detailed education, training and work-based experience, and direct client care at a clinical site. The student will apply the theory, concepts and skills involving specialized materials, equipment, procedures, regulations, laws and interactions within the

occupation, and the business/industry; demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, communication in the applicable language of the occupation and the business industry. TEC.

EMSP 1338 3-3-1

Introduction to Advanced Practice (51.0904)

Fundamental elements associated with emergency medical services to include preparatory practices, pathophysiology, medication administration and related topics. TEC.

EMSP 1355 3-2-4

Trauma Management (51.0904)

Knowledge and skills in the assessment and management of patients with traumatic injuries. TEC.

EMSP 1356 3-2-4

Patient Assessment and Airway Management (51.0904)

Knowledge and skills required to perform patient assessment, airway management, and artificial ventilation. TEC.

EMSP 1362 3-0-9

Clinical-Emergency Medical Technology EMT Paramedic (51.0904)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

EMSP 1438 4-2-4

Introduction to Advanced Practice (51.0904)

Fundamental elements associated with emergency medical services to include preparatory practices, pathophysiology, medication administration and related topics. TEC.

EMSP 1501 5-4-4

Emergency Medical Technician (51.0904)

Preparation for certification as an Emergency Medical Technician (EMT). TEC.

EMSP 2243 2-1-4

Assessment Based Management (51.0904)

A summative experience covering comprehensive, assessment-based patient care management for the paramedic level. TEC.

EMSP 2260 2-0-5

Clinical Emergency Medical Technology EMT Paramedic (51.0904)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

EMSP 2262 2-0-12

Clinical Emergency Medical Technology EMT Paramedic (51.0904)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

EMSP 2264 2-0-16

Practicum Emergency Medical Technology EMT Paramedic (51.0904)

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. TEC.

EMSP 2305 3-3-1

EMS Operations (51.0904)

Knowledge and skills to safely manage multi-casualty incidents and rescue situations; utilize air medical resources; identify hazardous materials and other specialized incidents. TEC.

EMSP 2306 3-2-3

Emergency Pharmacology (51.0904)

A study of drug classifications, actions, therapeutic uses, adverse effects, routes of administration, and calculation of dosages. TEC.

EMSP 2330 3-3-1

Special Populations (51.0904)

Knowledge and skills necessary to assess and manage ill or injured patients in diverse populations to include neonatology, pediatrics, geriatrics, and other related topics. TEC.

EMSP 2434 4-3-3

Medical Emergencies (51.0904)

Knowledge and skills in the assessment and management of patients with medical emergencies, including medical overview, neurology, gastroenterology, immunology, pulmonology, urology, hematology,

endocrinology, toxicology, and other related topics. TEC.

EMSP 24444-2-6

Cardiology (51.0904)

Assessment and management of patients with cardiac emergencies. Includes single and multi-lead ECG interpretation. TEC.

ENGL 13013-3-0

Composition I (23.1301)

Principles and intensive study and practice in techniques of written, expository, and persuasive composition; expository and persuasive texts; and critical thinking. Prerequisite: Passing English placement test(s). AC.

ENGL 13023-3-0

Composition II (23.1301)

Continuation of principles and intensive study and practice in techniques of written, expository, and persuasive composition; analysis of literary texts; and critical thinking. Prerequisite: ENGL 1301. AC.

ENGL 23073-3-0

Creative Writing I (23.1302)

Practical experience in the techniques of imaginative writing. May include fiction, nonfiction, poetry, screenwriting, or drama. AC.

ENGL 23113-3-0

Technical & Business Writing (23.1303)

Intensive study of and practice in professional settings. Focus on the types of documents necessary to make decisions and take action on the job, such as proposals, reports, instructions, policies and procedures, e-mail messages, letters, and descriptions of products and services. Practice individual and collaborative processes involved in the creation of ethical and efficient documents. AC.

ENGL 23223-3-0

British Literature I (23.1404)

Selected significant works of British literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301. AC.

ENGL 23233-3-0

British Literature II (23.1404)

Selected significant works of British literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1302. AC.

ENGL 23263-3-0

American Literature (23.1402)

Selected significant works of American literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301. AC.

ENGL 23313-3-0

World Literature (16.0104)

Selected significant works of World literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301. AC.

ENGL 23413-3-0

Forms of Literature (16.0104)

The study of one or more literary genres including, but not limited to, poetry, fiction, drama, and film. Prerequisite: ENGL 1301. AC.

ENGR 12012-3-0

Introduction to Engineering (14.0101)

An introduction to the engineering profession with emphasis on technical communication and team-based engineering design. Prerequisite: MATH 1314 or MATH 1414. AC.

ENGR 23013-3-0

Engineering Mechanics – Statics (14.1101)

Basic theory of engineering mechanics, using calculus, involving the description of forces, moments, and couples acting on stationary engineering structures; equilibrium in two and three dimensions; free-body diagrams; friction; centroids; centers of gravity; and moments of inertia. Prerequisite: PHYS 2325 University Physics I (lecture) and PHYS 2125 University Physics I (lab) or PHYS 2425 University Physics I (lecture + lab) Corequisite: MATH 2414 Calculus II (4 SCH version). AC.

ENGR 23083-3-0

Engineering Economics (14.1101)

Methods used for determining the comparative financial desirability of engineering alternatives. Provides the student with the basic tools required to analyze engineering alternatives in terms of their worth and cost, an essential element of engineering practice. The student is introduced to

the concept of the time value of money and the methodology of basic engineering economy techniques. The course will address some aspects of sustainability and will provide the student with the background to enable them to pass the Engineering Economy portion of the Fundamentals of Engineering exam. Prerequisite: MATH 2313 or MATH 2413. AC.

ENGR 23323-3-0

Mechanics of Materials (14.1101)

Stresses, deformations, stress-strain relationships, torsions, beams, shafts, columns, elastic deflections in beams, combined loading, and combined stresses. Prerequisite: ENGR 2301 Engineering Mechanics – Statics. AC.

EPCT 13013-3-1

Hazardous Waste Operations and Emergency Response Training (HAZWOPER) (15.0507)

Minimum certification requirements in the Code of Federal Regulations (CFR) for a hazardous waste site worker as found in 29 CFR-1910.120 and 40 CFR-264.16. TEC.

EPCT 13053-3-0

Environmental Regulations Overview (15.0507)

An overview of federal and state (Texas) regulations, the history of the environmental movement, and basic requirements for compliance with the environmental regulations. Regulations covered in this course include RCRA, CERCLA, Emergency Planning, Community/Worker Right-to-Know, TSCA, OSHA, Clean Air Act, Clean Water Act, and basic DOT regulations. TEC.

EPCT 13413-3-0

Principles of Industrial Hygiene (15.0507)

Concepts in threshold limits, dose response, and general recognition of occupational hazards, including sampling statistics, calibration, and equipment use. A study of the control of occupational hazards and sample collection and evaluation methods. TEC.

EPCT 13493-3-0

Environmental Regulation Interpretation & Applications (15.0507)

An in-depth study of the major federal and state environmental regulations. TEC.

EPCT 24894-0-12

Internship - Environmental Engineering Technology (15.0507)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. Prerequisite: Enrollment in Industrial Technology Program or Safety, Health and Environmental Certificate program, completion of 30 semester hours in program, and departmental approval. TEC.

FDNS 13453-3-0

Medical Nutrition Therapy I (19.0501)

Study of the chemical, physical, and sensory properties of food; nutritional quality; and food use and diet applications. THIS COURSE IS CROSS-LISTED AS BIOL 1322. TEC.

FLMC 13043-2-2

Lighting for Film or Video (50.0602)

Fundamentals of lighting techniques for film or video production with respect to lighting tools, composition and camera motion to support dynamic storytelling. TEC

FLMC 23083-2-2

Film Business and Marketing (50.0602)

The fundamentals of budgeting, financial records, and the distribution and marketing of films. TEC

GEOG 13013-3-0

Physical Geography (45.0701)

Introduction to the concepts which provide a foundation for continued study of geography. Includes the different elements of natural environment as related to human activities, modes of living, and map concepts. AC.

GEOG 13023-3-0

Cultural Geography (45.0701)

Introduction to the fundamental concepts, skills, and practices of human geography. Place, space, and scale serve as a framework for understanding patterns of human experience. Topics for discussion may include globalization, population and migration, culture, diffusion, political and economic systems, language, religion, gender, and ethnicity. AC.

GEOG 13033-3-0**World Regional Geography** (45.0701)

This course is an introduction to the world's major regions seen through their defining physical, social, cultural, political, and economic features. These regions are examined in terms of their physical and human characteristics and their interactions. The course emphasizes relations among regions on issues such as trade, economic development, conflict, and the role of regions in the globalization process. AC.

GEOL 14034-3-2**Physical Geology (Lecture)** (40.0601)

Introduction to the study of the materials and processes that have modified and shaped the surface and interior of Earth over time. These processes are described by theories based on experimental data and geologic data gathered from field observations. Laboratory activities will cover methods used to collect and analyze earth science data. AC.

GEOL 14044-3-2**Historical Geology (Lecture)** (40.0601)

A comprehensive survey of the history of life and major events in the physical development of Earth as interpreted from rocks and fossils. Laboratory activities will introduce methods used by scientists to interpret the history of life and major events in the physical development of Earth from rocks and fossils. Pre-requisite: GEOL 1403 Physical Geology AC.

GOVT 23053-3-0**Federal Government** (45.1002)

Origin and development of the U.S. Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties and civil rights. Prerequisite: TSI complete/exempt or DIRW complete; recommends ENGL 1301 complete. AC.

NOTE: Government courses DO NOT have to be taken in sequence.

GOVT 23063-3-0**Texas Government** (45.1002)

Origin and development of the Texas constitution, structure and powers of state and local government, federalism and inter-governmental relations, political participation,

the election process, public policy, and the political culture of Texas. Prerequisite: TSI complete/exempt or DIRW complete; recommends ENGL 1301 complete.AC.
NOTE: History courses DO NOT have to be taken in sequence.

GRPH 13053-2-3**Introduction to Graphic Arts and Printing** (10.0305)

A study of the graphic and print industry, including the history of printing and techniques involved in the production and distribution of printed materials, printing terminology, and identification of career opportunities TEC.

HAMG 13003-2-2**Introduction to the Casino and Gaming Industry** (52.0901)

Overview of casino and gaming operations including the economic impact on the hospitality industry and its surrounding community. TEC.

HAMG 13133-2-2**Front Office Management** (52.0901)

Function of front office operations as they relate to customer service. Includes a study of front office interactions with other departments in the lodging operation. TEC

HAMG 13213-2-2**Introduction to Hospitality Industry** (52.0901)

An exploration of the elements and career opportunities within the multiple segments of the hospitality industry. TEC

HAMG 13243-2-2**Hospitality Human Resources Management** (52.0901)

Principles and procedures of human resource management in the hospitality industry. TEC

HAMG 23013-2-2**Principles of Food and Beverage Operations** (52.0901)

An overview of food and beverage management in various hospitality environments. Emphasizes cost controls from procurement to marketing and sales. TEC

HAMG 23053-2-2**Hospitality Management and Leadership** (52.0901)

An overview of management and leadership in the hospitality industry with an emphasis on management philosophy, policy formulation, communications, motivation and team building. TEC

HAMG 2307.....3-2-2

Hospitality Marketing and Sales (52.0901)

Identification of the core principles of marketing and sales and their impact on the hospitality industry. TEC

HAMG 2330.....3-2-2

Convention and Group Management and Services (52.0901)

An application of the essential components of successful convention and meeting planning. TEC

HAMG 2337.....3-2-2

Hospitality Facilities Management (52.0901)

Identification of hospitality building systems and facilities; to include sustainability and risk management. TEC

HART 1341.....3-2-2

Residential Air Conditioning (15.0501)

A study of components, applications, and installation of mechanical air conditioning systems including operating conditions, troubleshooting, repair, and charging of air conditioning systems. TEC.

HART 1345.....3-2-2

Gas and Electric Heating (15.0501)

Study of the procedures and principles used in servicing heating systems including gas fired furnaces and electric heating systems. TEC.

HART 1401.....4-3-2

Basic Electricity for HVAC (15.0501)

Principles of electricity as required by HVAC, including proper use of test equipment, electrical circuits, and component theory and operation. TEC.

HART 1403.....4-3-2

Air Conditioning Control Principles (15.0501)

A basic study of HVAC and refrigeration controls; troubleshooting of control components; emphasis on use of wiring diagrams to analyze high and low voltage circuits; a review of Ohm's

law as applied to air conditioning controls and circuits. TEC.

HART 1407.....4-3-2

Refrigeration Principles (15.0501)

An introduction to the refrigeration cycle, heat transfer theory, temperature/pressure relationship, refrigeration handling, refrigeration components, and safety. TEC.

HART 2436.....4-3-2

Air Conditioning Troubleshooting (15.0501)

An advanced course in application of troubleshooting principles and use of test instruments to diagnose air conditioning and refrigeration components and system problems including conducting performance tests. TEC.

HART 2438.....4-3-2

Air Conditioning Installation and Startup (15.0501)

A study of air conditioning system installation, refrigerant piping, condensate disposal, and air cleaning equipment with emphasis on startup and performance testing. TEC.

HART 2445.....4-3-2

Residential Air Conditioning Systems Design (15.0501)

Study of the properties of air and results of cooling, heating, humidifying or dehumidifying; heat gain and heat loss calculations including equipment selection and balancing the air system. TEC.

HIST 1301.....3-3-0

United States History I (54.0102)

Survey of the political, social, economic, military, cultural, and intellectual history of the United States from the discovery of America to reconstruction. AC.

NOTE: History courses DO NOT have to be taken in sequence.

HIST 1302.....3-3-0

United States History II (54.0102)

Survey of the political, social, economic, military, cultural, and intellectual history of the United States from reconstruction to the present. AC.

NOTE: History courses DO NOT have to be taken in sequence.

HIST 2301.....3-3-0**Texas History** (54.0102)

Survey of Texas from the Spanish exploration to the present. AC.

HIST 2321.....3-3-0**World Civilizations I** (54.0101)

Survey of ancient and medieval history with emphasis on Asian, African, and European cultures. AC.

HIST 2322.....3-3-0**World Civilizations II** (54.0101)

Survey of modern history and culture of Asia, Africa, Europe, and the Americas. AC.

HITT 13053-3-0**Medical Terminology I** (51.0707)

Study of word origin and structure through the introduction of prefixes, suffixes, root words, plurals, abbreviations and symbols, surgical procedures, medical specialties, and diagnostic procedures. TEC.

HUMA 1315.....3-3-0**Fine Arts Appreciation** (50.0101)

Understanding purposes and processes in the visual and musical arts including evaluation of selected works. AC.

HYDR 1405.....4-3-2**Basic Hydraulics** (15.1103)

Fundamentals of hydraulics including safety types of hydraulic pumps, cylinder, valves, motors, and related systems. Introduction to hydraulic schematic symbols as related to components. TEC.

HYDR 1445.....4-3-2**Hydraulics and Pneumatics** (15.1103)

Discussion of the fundamentals of hydraulics and pneumatics, components of each system, and the operations, maintenance, and analysis of each system. TEC.

IFWA 1310.....3-2-2**Nutrition Menu Planning** (12.0508)

Application of principles of nutrition in planning menus for the food service industry. TEC

INCR 1402.....4-3-4**Physics of Instrumentation** (15.0404)

An introduction to simple control loops. Introduction to pressure, temperature, level, and flow transmitters and the various transducers used in the detection of changes in process variables. TEC.

INCR 1442.....4-3-4**Measurement and Process Control Theory** (15.0404)

A study of the basic principles of process automation and their applications including basic control concepts, feedback control, sensors and transmission systems, controllers, control valves, process dynamics, tuning control systems, and cascade ratio. TEC.

INMT 23013-3-2**Machinery Installation** (15.0613)

Students utilize skills acquired in previous studies. Machinery foundation, locations, installation, and alignment activities are practiced and tested. Emphasis is on the various methods of shaft alignment including laser shaft alignment. TEC.

INMT 23033-2-3**Pumps, Compressors, & Mechanical Drives** (15.0613)

A study of the theory and operations of various types of pumps and compressors. Topics include mechanical power transmission systems including gears, v-belts, and chain drives. TEC.

INMT 23453-2-2**Industrial Troubleshooting** (15.0613)

An advanced study of the techniques used in troubleshooting various types of industrial equipment to include mechanical, electrical, hydraulic, and pneumatic systems and their control devices. Emphasis will be placed on the use of schematics and diagrams in conjunction with proper troubleshooting procedures. TEC.

INSR 1301.....3-3-0**Commercial Insurance** (52.1701)

Introduction to business loss exposures and the operation of the insurance policies available for these exposures including property, business income, crime, marine, auto, and other government programs. May prepare students to take the licensing exam sponsored by the Texas Department of Insurance. TEC.

INSR 1305.....3-3-0**Personal Insurance** (52.1701)

Introduction to personal loss exposures and personal insurance policies for handling these exposures including auto, homeowner, life, health, marine, and various government insurance programs. May prepare students to take the licensing exam sponsored by the Texas Department of Insurance. TEC.

INSR 1345.....3-3-0**Commercial Liability Risk Management and Insurance** (52.1701)

Analysis of the major sources of liability loss exposures and examination of the insurance coverage designed to meet those exposures. Commercial liability risk management premises and operations, products and contractual and protective liability, employer liability, and surety bonds. Examination of tort and agency law as they relate to loss exposures involving third party claimants. May prepare students to take the licensing exam sponsored by the Chartered Property/ Casualty Underwriters. TEC.

INSR 1353.....3-3-0**Insurance Operations** (52.1701)

Examination of insurance marketing, underwriting, and reinsurance. Topics include rate making, claims adjusting, loss control activities, and other functions and activities. May prepare students to take the licensing exam sponsored by the Chartered Property/ Casualty Underwriters. TEC.

INSR 1355.....3-3-0**The Legal Environment of Insurance** (52.1701)

Examine related business laws to insurance situations. May prepare students to take the licensing exam sponsored by the Chartered Property/ Casualty Underwriters. TEC.

INSR 2319.....3-3-0**Liability Insurance Claims Adjusting** (52.1701)

In-depth study of liability loss adjusting with heavy emphasis on the legal and medical knowledge needed and special skills required to negotiate successfully in a third party claim environment. May prepare students to take the Associate in Claims (AIC) licensing exam. TEC.

INTC 13013-2-2**Principles of Industrial Measurements I** (15.0404)

Principles of measurement. Includes operation of devices used to measure process variables and basic control functions. TEC.

INTC 13583-3-0**Flow and Measurement Calibration** (15.0404)

Practical methods of flow measurements and flow integration. Emphasizes primary flow element selection and calculations in accordance with American Gas Association (AGA) and American Petroleum Institute (API) standards. TEC.

INTC 14574-3-4**AC/DC Circuits** (15.0404)

A study of electric motors and motor control devices common to a modern industrial environment. A presentation of motor characteristics with emphasis on starting, speed control, and stopping systems. TEC.

INTC 24804-1-21**Cooperative Education – Instrumentation Technology/Technician** (15.0404)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. Prerequisite: Enrollment in Instrumentation program, sophomore standing, 30 completed semester hours in program, and departmental approval. TEC.

INTC 24884-0-15**Instrumentation Technology Internship** (15.0404)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. Prerequisite: Enrollment in Instrumentation program, sophomore standing, 30 completed semester hours in program, and departmental approval. TEC.

ITCC 13143-2-4**CCNA 1: Introduction to Networks** (11.1002)

This course covers networking architecture, structure, and functions; introduces the principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations to provide a foundation for the curriculum. TEC.

ITCC 13443-2-4**CCNA 2 Switching, Routing and Wireless Essentials** (11.1002)

Describes the architecture, components, and operations of routers and switches in small networks and introduces wireless local area networks (WLAN) and security concepts; provides an in-depth understanding of how routers and switches operate and are implemented in the LAN environment. TEC.

ITCC 23203-2-4**CCNA 3 Enterprise Networking, Security, and Automation** (11.1002)

Describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. Emphasizes network security concepts and introduces network virtualization and automation. TEC.

ITDF 1300.....3-2-3**Introduction to Digital Forensics** (11.1003)

A study of the application of digital forensic technology to collect, analyze, document, and present information while maintaining a documented chain of custody. Overview of ethics, crime, and other legal guidelines/regulations/laws. Includes overview of tools used for forensic analysis of digital devices in investigations. Suggested prerequisite: ITSC 1325 or concurrent enrollment. TEC.

ITNW 13133-2-3**Computer Virtualization** (11.0901)

Implement and support virtualization of clients of servers in a networked computing environment. This course explores installation, configuration, and management of computer virtualization workstation and servers. Suggested prerequisite: ITSC 1325 or concurrent enrollment. TEC.

ITNW 1336.....3-2-4**Cloud Deployment & Infrastructure Management**

(11.0901)

Focus on Cloud infrastructure, deployment, security models, and key considerations in migrating to Cloud computing. Includes the technologies and processes to build on-premise and Cloud environments, including computation, storage, networking, virtualization, business continuity, security, and management. TEC.

ITNW 13543-2-3**Implementing and Supporting Servers** (11.0901)

Implement, administer, and troubleshoot information systems that incorporate servers in a networked computing environment. Suggested prerequisite: ITSC 1325 or concurrent enrollment. TEC.

ITSC 1309.....3-3-0**Integrated Software Applications I** (11.0101)

Introduction to business productivity software suites using word processing, spreadsheets, databases, and/or presentation software. TEC.

ITSC 1316.....3-2-4**Linux Installation and Configuration** (11.0101)

Introduction to Linux operating system. Includes Linux installation, basic administration, utilities and commands, upgrading, networking, security, and application installation. Emphasizes hands-on setup, administration, and management of Linux. TEC.

ITSC 1325.....3-2-3**Personal Computer Hardware** (47.0104)

Current personal computer hardware including assembly, upgrading, setup, configuration, and troubleshooting. TEC.

ITSC 2339.....3-2-3**Personal Computer Help Desk Support** (11.0101)

Diagnose and solve user hardware and software related problems with on-the-job and/or simulated projects. TEC.

ITSC 2387.....3-0-9**Internship - Computer and Information Sciences, General** (11.0101)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is

developed by the college and the employer. This may be a paid or unpaid experience. See instructor the semester prior to internship. Prerequisite: Enrollment in Information Technology Support Specialist program, sophomore standing, 30 completed semester hours in program, and departmental approval. TEC.

ITSE 13293-2-4
Programming Logic and Design (11.0201)
 Problem-solving applying structured techniques and representation of algorithms using design tools. Includes testing, evaluation, and documentation. Topics may adapt to changes in industry practices. TEC.

ITSE 13593-2-4
Introduction to Scripting Languages (11.0201)
 Introduction to scripting languages including basic data types, control structures, regular expressions, input/output, and textual analysis. TEC.

ITSE 14454-2-6
Introduction to Oracle SQL (11.0201)
 An introduction to the design and creation of relational databases using Oracle. Topics include storing, retrieving, updating, and displaying data using Structured Query Language (SQL). TEC.

ITSW 13043-2-4
Introduction to Spreadsheets (11.0301)
 Instructions in the concepts, procedures, and application of electronic spreadsheets. TEC.

ITSY 13423-2-3
Information Technology Security (11.1003)
 Instruction in security for network hardware, software, and data including physical security, backup procedures, relevant tools, encryption, and protection from viruses. TEC.

ITSY 23013-2-3
Firewalls and Network Security (11.1003)
 Identify elements of firewall design, types of security threats and responses to security attacks. Use Best Practices to design, implement, and monitor a network security plan. Examine security incident postmortem reporting and ongoing network security activities. Prerequisite: ITSY 1342 or concurrent enrollment. TEC.

ITSY 23433-2-4
Computer System Forensics (11.1003)
 In-depth study of system forensics including methodologies used for analysis of computer security breaches. Collect, document and evaluate evidence to perform postmortem analysis of a security breach. TEC.

LMGT 12932-1-2
Special Topics (52.0203)
 Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency. TEC.

LMGT 13193-2-2
Introduction to Business Logistics (52.0203)
 A systems approach to managing activities associated with traffic, transportation, inventory management, warehousing, packaging, order processing, and materials handling. TEC.

LMGT 13213-2-2
Introduction to Materials Handling (52.0203)
 Introduces the concepts and principles of materials management to include inventory control and forecasting activities. TEC.

LMGT 13233-2-2
Domestic and International Transportation Management (52.0203)
 An overview of the principles and practices of transportation and its role in the distribution process. Emphasis on the physical transportation systems involved in the United States as well as on global distribution systems. Topics include carrier responsibilities and services, freight classifications, rates, tariffs, and public policy and regulations. Also includes logistical geography and the development of skills to solve logistical transportation problems and issues. TEC.

LMGT 13253-2-2
Warehouse Distribution Management (52.0203)
 Emphasis on physical distribution and total supply chain management. Includes warehouse operations management, hardware and software operations, bar codes, organizational

effectiveness, just-in-time, and continuous replenishment. Pre-requisite: LMGT 1319. TEC

LMGT 13453-2-2

Economics of Transportation and Distribution (52.0203)

A study of the basic economic principles and concepts applicable to transportation and distribution. TEC

LMGT 23343-2-2

Principles of Traffic Management (52.0203)

A study of the role and functions of a transportation traffic manager within a commercial or public enterprise. Includes training in rate negotiation, carrier and mode selection, carrier service evaluation, quality control, traffic pattern analysis, documentation for domestic and international shipments, claims, hazardous materials movement, and the state, federal, and international environments of transportation. Pre-requisite: LMGT 1319. TEC

LMGT 23883-0-9

Internship (52.0203)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. TEC

MATH 13143-3-0

College Algebra (27.0101)

Study of quadratics; polynomial, rational, logarithmic, and exponential functions; systems of equations; progressions; sequences and series; and matrices and determinants. Prerequisite: Passing grade in DMTH 0302, DMTH 0314 or appropriate placement test score. AC.

MATH 13163-3-0

Plane Trigonometry (27.0101)

Trigonometric functions, identities, equations, and applications. Prerequisite: Passing grade in DMTH 0302, DMTH 0314 or appropriate placement test score. AC.

MATH 13243-3-0

Mathematics for Business & Social Sciences (27.0301)

Topics from college algebra (linear equations, quadratic equations, functions and graphs, inequalities), mathematics of finance (simple and compound interest, annuities), linear programming, matrices, systems of linear

equations, applications to management, economics, and business. Prerequisite: Passing grade in DMTH 0302, DMTH 0312 or appropriate placement test score. AC.

MATH 13253-3-0

Calculus for Business & Social Sciences (27.0301)

Basic study of limits and continuity, derivatives, graphing and optimization, exponential and logarithmic functions, antiderivatives, integration, applications to management, economics, and business. Prerequisite: MATH 1314 or MATH 1324. AC.

MATH 13323-3-0

Contemporary Mathematics I (27.0101)

Topics may include introductory treatments of sets, logic, number systems, number theory, relations, functions, probability and statistics. Appropriate applications are included. Prerequisite: DMTH 0302, DMTH 0312 or appropriate placement test score. AC.

MATH 13423-3-0

Elementary Statistical Methods (27.0501)

Presentation and interpretation of data, probability, sampling, correlation and regression, analysis of variance, and the use of statistical software. AC.

MATH 13503-3-0

Mathematics for Teachers I (Fundamentals of Mathematics I) (27.0101)

Concepts of sets, functions, numeration systems, number theory, and properties of the natural numbers, integers, rational, and real number systems with an emphasis on problem solving and critical thinking. Prerequisite: MATH 1314 or equivalent. AC.

MATH 13513-3-0

Mathematics for Teachers II (Fundamentals of Mathematics II) (27.0101)

Concepts of geometry, measurement, probability, and statistics with an emphasis on problem solving and critical thinking. Prerequisite: MATH 1314 or equivalent. AC.

MATH 23053-3-0

Discrete Mathematics (27.0501)

Introductory mathematical logic, mathematical induction, relations and functions, basic counting techniques, graphs and trees, and applications to

computing devices. Prerequisite: MATH 1314 or equivalent. AC.

MATH 23123-3-0

Pre-Calculus Math (27.0101)

Applications of algebra and trigonometry to the study of elementary functions and their graphs including polynomial, rational, exponential, logarithmic, and trigonometric functions. May include topics from analytical geometry. Prerequisite: MATH 1314 or appropriate placement test score. AC.

MATH 23183-3-0

Linear Algebra (27.0101)

This course introduces and provides models for application of the concepts of vector algebra. Topics include finite dimensional vector spaces and their geometric significance; representing and solving systems of linear equations using multiple methods, including Gaussian elimination and matrix inversion; matrices; determinants; linear transformations; quadratic forms; eigenvalues and eigenvector; and applications in science and engineering.

Prerequisite(s): MATH 2414
AC.

MATH 23203-3-0

Differential Equations (27.0101)

This course focuses on ordinary differential equations, including linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems.

Prerequisite(s): MATH 2414 AC.

MATH 24134-4-0

Calculus I (27.0101)

Limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions, with an application to calculation of areas. Prerequisite: MATH 2312 or equivalent. AC.

MATH 24144-4-0

Calculus II (27.0101)

This course covers differentiation and integration of transcendental functions, parametric equations and polar coordinates, techniques of integration, sequences and series, improper integrals.

Prerequisite(s): A grade of 'C' or higher in MATH 2413. AC.

MATH 24154-4-0

Calculus III (27.0101)

This course focuses on advanced topics in calculus, including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem. Prerequisite(s): A grade of 'C' or higher in MATH 2414. AC.

MCHN 1302.....3-2-2

Print Reading For Machining Trades (48.0501)

A study of blueprints for machining trades with emphasis on machine drawings. TEC.

MCHN 1308.....3-2-2

Basic Lathe (48.0501)

An introduction to the common types of lathes. Emphasis on basic parts, nomenclature, lathe operations, safety, machine mathematics, blueprint reading, and theory. TEC.

MCHN 1313.....3-2-2

Basic Milling Operations (48.0501)

An introduction to the common types of milling machines, part nomenclature, basic machine operations and procedures, safety, machine mathematics, blueprint reading, and theory. TEC.

MCHN 1338.....3-2-3

Basic Machine Shop (48.0501)

A course that introduces the student to machining fundamentals. The student will use basic machine tools including the lathe, milling machine, drill press, power saw, and bench grinder. Machine terminology, theory, math, part layout, and bench work using common measuring tools is included. Emphasis is placed on shop safety, housekeeping, and preventative maintenance. TEC.

MCHN 1341.....3-2-2

Basic Machine Shop II (48.0501)

A continuation of Basic Machine Shop I. TEC.

MCHN 1343.....3-3-0**Machine Shop Mathematics** (48.0501)

Designed to prepare the student with technical, applied mathematics that will be necessary in future machine shop-related courses. TEC.

MCHN 1352.....3-2-2**Intermediate Machining I** (48.0501)

Operation of drilling machines, milling machines, lathes, power saws, and precision measuring tools. TEC.

MCHN 1354.....3-2-2**Intermediate Machining II** (48.0501)

Development of job process plan to include operation of lathes, milling machines, drilling machines, and power saws. Set-up, layout, and tool maintenance is included. Emphasis on shop safety and preventative maintenance. TEC.

MCHN 2341.....3-2-2**Advanced Machining I** (48.0501)

Advanced lathe and milling operations. Emphasis on advanced cutting operations of the lathe and milling machines, including the use of special tooling, bench assembly, and materials identification. TEC.

MCHN 2345.....3-2-2**Advanced Machining II** (48.0501)

Advanced milling, grinding, and lathe operations to tolerance dimensions. Emphasis on job planning and advanced uses of precision measuring instruments. TEC.

MDCA 1302.....3-2-2**Human Disease/ Pathophysiology** (51.0801)

A study of anatomy and physiology with emphasis on human pathophysiology, including etiology, prognosis, medical treatment, signs and symptoms of common disease of all body systems. TEC.

MDCA 1305.....3-3-0**Medical Law and Ethics** (51.0801)

Instruction in principles, procedures, and regulations involving legal and ethical relationships among physicians, patients, and medical assistants in health care settings. TEC.

MDCA 1309.....3-2-2**Anatomy and Physiology for Medical Assistants** (51.0801)

Emphasis on structure and function of human cells, tissues, organs, and systems with overview of common pathophysiology. TEC.

MDCA 1310.....3-3-0**Medical Assistant Interpersonal and Communication Skills** (51.0801)

Emphasis on the application of basic psychological principles and the study of behavior as they apply to special populations. Topics include procedures for self-understanding and social adaptability in interpersonal communication with patients and co-workers in an ambulatory care setting. TEC.

MDCA 1317.....3-3-0**Procedures in a Clinical Setting** (51.0801)

Emphasis on patient assessment, examination, and treatment as directed by physician. Includes vital signs, collection and documentation of patient information, asepsis, office clinical procedures, and other treatments as appropriate for health care settings. TEC.

MDCA 1321.....3-3-0**Medical Insurance** (51.0801)

Emphasizes medical office coding for payment and reimbursement by patient or third-party payers for health care settings. TEC.

MDCA 1343.....3-3-0**Pharmacology & Administration of Medications** (51.0801)

Instruction in concepts and applications of pharmacological principles. Focuses on drug classifications, principles and procedures of medication administration, mathematical systems and conversions, calculation of drug problems, and medico-legal responsibilities of the medical assistant. TEC.

MDCA 1348.....3-2-2**Pharmacology & Administration of Medications** (51.0801)

Instruction in concepts and applications of pharmacological principles. Focuses on drug classifications, principles and procedures of medication administration, mathematical systems and conversions, calculation of drug problems,

and medico-legal responsibilities of the medical assistant. TEC.

MDCA 13613-0-18

Clinical Medical/ Clinical Assistant (51.0801)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

MRKG 1200.....2-2-0

Customer Service (52.1401)

Introduction of techniques to create excellent customer service. TEC.

MRKG 1301.....3-3-0

Customer Relationship Management (52.1401)

General principles of customer service including skills, knowledge, attitudes, and behaviors. TEC.

MRKG 1311.....3-3-0

Principles of Marketing (52.1401)

Introduction to the marketing mix functions and process. Includes identification of consumer and organizational needs and explanation of environmental issues. TEC.

MSSG 11051-1-1

Hydrotherapy/Therapeutic Modalities (51.3501)

The use of accepted hydrotherapy and holistic healthcare modalities of external application of temperature for its reflexive effect. TEC.

MSSG 11091-1-0

Health and Hygiene (51.3501)

The study of safety and sanitation practices including universal precautions. The importance of proper body mechanics, maintaining a healthy lifestyle, maintaining the massage environment, and the advantage of therapeutic relationships is also included. TEC.

MSSG 12072-2-0

Business Practices and Professional Ethics (51.3501)

The study of physical and financial office practices and marketing. Includes ethical practices for massage therapists as established by law or regulatory agency. TEC.

MSSG 14114-2-6

Massage Therapy Fundamentals I (51.3501)

Introduction to the theory and the application of skills necessary to perform basic massage skills. TEC.

MSSG 1413.....4-3-3

Anatomy & Physiology for Massage (51.3501)

In-depth coverage of the structure and function of the human body. Includes cell structure and function, tissues, body organization, and the integumentary, skeletal, muscular, nervous, and endocrine systems. Emphasizes homeostasis/wellness care. Meets the minimum 75-contact-hour requirement for Anatomy and Physiology for licensure. TEC.

MSSG 2186.....1-0-4

Internship – Massage Therapy, Therapeutic Massage (51.3501)

A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. TEC.

MSSG 23113-1-6

Massage Therapy Fundamentals II (51.3501)

A continuation of Massage Therapy Fundamentals I. Emphasizes specialized techniques and assessment of client needs to identify a specific plan of care. Completes the requirements for Massage Techniques for licensure. Pre-requisite MSSG 1411. TEC.

MSSG 2314.....3-3-3

Pathology for Massage (51.3501)

General discussion of pathologies as they relate to massage therapy. Includes universal precautions and their management in professional practice. Also covers etiology, signs, symptoms, and the physiological and psychological reactions to disease and injury. Pre-requisite MSSG 1413. TEC.

MSSG 2413.....4-3-3

Kinesiology for Massage (51.3501)

Applied study of human kinesiology. Muscle movements and dysfunctions will be discussed and palpated. Includes theory and practice of functional muscle testing. Pre-requisite MSSG 1413 TEC.

MUSI 1181 1-1-0**Piano** (50.0907)

Class instruction in the fundamentals of keyboard technique for beginning piano students. AC.

MUSI 1183 1-1-0**Voice** (50.0908)

Class instruction in the fundamentals of singing, including breathing, tone production, and diction. Designed for students with little or no previous voice training. AC.

MUSI 1306 3-3-0**Music Appreciation** (50.0902)

Understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. AC.

NAUT 1264 2-0--15**Internship / Practicum (Dispatch or Sea time)**

(49.0309) This course builds on the information presented in previous courses, putting together the components of equipment. The student will apply the knowledge taught in previous courses to understand how individual pieces of equipment work, how they interconnect and how they contribute to overall plant operations. The student will arrange process equipment, explain how factors affecting process equipment are controlled under normal conditions and recognize abnormal process industry equipment. TEC.

NAUT 1305 3-3-1**Intro to Ships and Shipping** (49.0309)

Introduction to ships and shipping exposes students to the basic concepts of ships in the Maritime industry. It is an entry level course with concepts and basic application of skills necessary to perform commands necessary to operate a ship and ship and nomenclature. TEC.

NAUT 1315 3-2-2**Basic Safety** (49.0309)

This course combines the four modules of SCTW Basic Safety Training: Basic Firefighting, Personal Safety Social Responsibility, Personal Survival and First Aid CPR, with a module on Proficiency in Survival Craft to provide a comprehensive introduction to safety and survival at sea. This course provides required practical lifeboat and lifesaving training for

certification as Life Boatman by the U.S. Coast Guard. Hands on training will include time on a fire training field, work in pools with life raft and survival gear and launching and rowing a lifeboat. TEC.

NAUT 1320 3-3-1**Seamanship I** (49.0309)

This course is a study of seamanship designed to introduce the student to the maritime workplace and prepare them for employment. The students are prepared for the role of Able Bodies Seaman and assignment to lookout and watch keeping duties aboard inland, coastal, and ocean-going vessels. Vessel Security Officer responsibilities will also be addressed. This course is designed to teach new skills to the entry-level mariner with minimal sea-going experience and serves to increase awareness and promote safety in maritime surroundings. TEC.

NAUT 1343 3-2-1**Intro to Tugs and Towing** (49.0309)

Introduction to Tugs and Towing exposes students to the basic concepts of tugs and towing in the Maritime industry. It is an entry level course with concepts and basic application of skills necessary to perform commands necessary to operate a tug and tow and nomenclature. TEC.

NAUT 1345 3-3-1**Marine Cargo Operations** (49.0309)

An overview of modern dry cargo principles associated with handling of general cargo, refrigerated cargo, dangerous cargo, containers, roll-on, roll off; cargo ventilation, securing of cargo, stability and trim, cargo gear stresses and heavy lift operations; documentation required for cargo operations, along with practical stowage problems. TEC.

NAUT 1350 3-3-1**Vessel Stability and Trim** (49.0309)

Presentation and use of models/simulation to enable students the ability to analyze and experiment with the principles of stability. Discuss and present the knowledge and skills required to manage the stability related requirements of a vessel. TEC.

NAUT 2205.....2-2-1
Basic Stability and Vessel Construction
 (49.0309)

This course provides the background knowledge for a thorough understanding of the calculations for vessel stability and trim, basic ship construction features and terminology, and principles of stability. Subjects include: ship dimensions, ship stress, hull structure, rudders and propellers, displacement, buoyancy, static and initial stability, list, trim, and free surface effect, principles, terms and procedures used in the determination of transverse, longitudinal and damage stability of ships. Also included are analyses of case studies involving loss of stability and how to perform trim and stability calculations. The course covers ship design and construction as it relates to all types of vessels as well. Topics include hull structure and components, vessel design process, design stresses, tonnage measurements and load line assignments. This course aims to meet the mandatory minimum requirements for knowledge, understanding and proficiency in table A-II of STWC 1995 for the function of Navigation at the Officer in Charge of Navigational Watch on vessels of 500 or more gross tonnage (ITC) Level. TEC.

NAUT 2265.....2-0-0-15
Internship / Practicum (Dispatch or Sea time)
 (49.0309)

This course builds on the information presented in previous courses, putting together the components of equipment. The student will apply the knowledge taught in previous courses to understand how individual pieces of equipment work, how they interconnect and how they contribute to overall plant operations. The student will arrange process equipment into basic systems, describe the purpose and function of specific process equipment, explain how factors affecting process equipment are controlled under normal conditions and recognize abnormal process industry equipment. TEC.

NAUT 2310.....3-2-3
Seamanship II (49.0309)

Advanced knowledge and skills required before taking a small boat to sea, or taking an active part in running a boat. Presentation of charts and associated publications used in the Maritime industry. Topics include buoyage, harbor maneuvering, navigation foundations, and safety.

TEC.

NAUT 2312.....3-3-0
Navigation Rules – International and Inland
 (49.0309)

Instruction on the U.S. Inland and International (COLREGs) Navigation Rules of the Road covering the examination topics for watchkeeping, COLREGS and Inland Navigation Rules. TEC.

NAUT 2315.....3-2-3
Terrestrial Navigation (49.0309)

A course in the technical and practical concepts of Terrestrial Navigation. Includes terrestrial coordinates, nautical charts, navigation publications, plotting and position lines, navigation aids, compass corrections, set and drift, charts and chart work, and logbooks. This course provides the background introductory knowledge in planning a voyage; and to support the task, duties, and responsibilities in navigation vessels. TEC.

NAUT 2320.....3-2-3
Integrated Navigation I: Radar/ARPA/ECDIS
 (49.0309)

Operation of different types of radars (Radio Detection and Ranging), ARPA (Automatic Radar Plotting Aid) and ECDIS (Electronic Chart Display and Information System) using simulated stand-alone full-mission bridge with an electronic vessel conning station, a 60-degree visual view, and Radar/ARPA and ECDIS/AIS units. TEC.

NAUT 2325.....3-2-3
Tugs and Towing (49.0309)

Advanced knowledge associated with the safe, efficient operation of towing vessels. TEC.

NCBM 0101.....1-0-1
Non-Course Based Mathematics (32.0104)

Topics in mathematics such as arithmetic operations, basic algebraic concepts and notation, geometry, and real and complex number systems. Corequisite: DMTH 0300 Corequisite: DMTH 0300 CP.

NCBM 0102.....1-0-1
Non-Course Based Mathematics (32.0104)

A study of relations and functions, inequalities, algebraic expressions and equations (absolute value, polynomial, radical, rational), with a

special emphasis on linear and quadratic expressions and equations. Corequisite: DMTH 0301 Corequisite: DMTH 0301 CP.

NURA 1160 1-0-3
Clinical Nursing Assistant/Aide and Patient Care Assistant/Aide (51.3902)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

NURA 1301 3-2-2
Nurse Aide for Health Care (51.3902)

Knowledge, skills, and abilities essential to provide basic care to residents of long-term care facilities. Topics include resident's rights, communication, safety, observation, reporting and assisting residents in maintaining basic comfort and safety. Emphasis on effective interaction with members of the health care team, restorative services, mental health, and social services needs. TEC.

OSHT 1405 4-4-0
OSHA Regulations - Construction Industry (15.0701)

A study of Occupational Safety and Health Administration (OSHA) regulations pertinent to the construction industry. TEC.

OSHT 2401 4-4-0
OSHA Regulations - General Industry (15.0701)

A study of Occupational Safety and Health Administration (OSHA) regulations pertinent to general industry. TEC.

PFPB 1306 3-2-2
Basic Blueprint Reading for Plumbers (46.0503)

Introduction to reading and interpreting working drawings. Includes symbols and abbreviations and the use of sketching techniques to create isometric and orthographic drawings of drain, waste, vent, hot and cold water, and gas piping components. TEC.

PFPB 1308 3-2-2
Basic Pipefitting Skills (46.0502)

Mathematical operations necessary to calculate laying lengths of pipe fittings for fabrication. Identification and use of hand tools and power tools. Identification of pipe, pipe fittings, flanges, and fasteners used in the trade. TEC.

PFPB 1319 3-2-2
Commercial Plumbing I (46.0503)

Skills, procedures, and techniques used in the installation of hot and cold potable water supply systems and drain, waste, and vent (DWV) systems in commercial buildings. TEC.

PFPB 1321 3-2-2
Plumbing Maintenance and Repair (46.0503)

Instruction in the practices and procedures employed by a plumber including public relations. TEC.

PFPB 1323 3-2-2
Plumbing Codes I (46.0503)

State and local plumbing codes and the application of potable water, wastewater, and gas systems relating to residential and light commercial settings. TEC.

PFPB 1343 3-2-2
Pipefitting Fabrication and Blueprint Reading (46.0502)

Continuation of pipe fabrication, rigging, pipe hangers and supports, blueprint reading, standards and specifications, and trade math. TEC.

PFPB 1347 3-2-2
Backflow Prevention (46.0502)

Principles, practices, and regulations of backflow. Includes backpressure, public health, laws and responsibilities, mechanics and use of backflow devices, and equipment testing used in backflow devices. TEC.

PFPB 1350 3-2-2
Plumbing and Pipefitting Equipment and Safety (46.0503)

Safe use of hand tools, power tools, rigging, and power equipment used in the plumbing trade for installation of different plumbing systems. TEC.

PFPB 1382 2-0-8
Cooperative Education – Plumbing Technology/Plumber (46.0503)

Career-related activities encountered in the student's area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. TEC.

PFPB 1408 4-2-4
Basic Pipefitting Skills (46.0502)

Mathematical operations necessary to calculate laying lengths of pipe fittings for fabrication. Identification and use of hand tools and power tools. Identification of pipe, pipe fittings, flanges, and fasteners used in the trade. TEC.

PFPB 1443 4-2-4
Pipefitting Fabrication and Blueprint Reading (46.0502)

Continuation of pipe fabrication, rigging, pipe hangers and supports, blueprint reading, standards and specifications, and trade math. TEC.

PFPB 1450 4-2-4
Plumbing and Pipefitting Equipment and Safety (46.0503)

Safe use of hand tools, power tools, rigging, and power equipment used in the plumbing trade for installation of different plumbing systems. TEC.

PFPB 2308 3-2-2
Piping Standards and Materials (46.0502)

Identification, description, and application of piping standards and specifications. Includes identification and use of various metallic and non-metallic piping materials, identification and installation of valves, and material take-offs. TEC.

PFPB 2309 3-2-2
Residential Construction Plumbing I (46.0503)

Skill development in the procedures and techniques employed by a plumber in the rough-in and top-out stages of a new home or the remodeling of an older home. TEC.

PFPB 2315 3-2-2
Intermediate Technologies for Piping Trades (46.0502)

Piping techniques and materials within the pipe trades. Includes pipefitting procedures for applications and upgrades on techniques and practices to deal with federal, state, and local environmental and safety regulations. TEC.

PFPB 2345 3-2-2
Residential Construction Plumbing II (46.0503)

Installation of residential plumbing fixtures used in single- and multi-family housing. TEC.

PFPB 2349 3-2-2
Field Measuring, Sketching, and Layout (46.0502)

Field dimensioning, measuring, sketching, and layout of future process piping and the use, care, and setup of transit and level. TEC.

PFPB 2357 3-2-2
Plumbing Codes II (46.0503)

The application of state and local plumbing codes to potable water, wastewater, and gas systems relating to residential and commercial settings. TEC.

PFPB 2433 4-2-4
Pipefitting: Advanced Fabrication and Installation (46.0502)

Advanced pipe fabrication and pipe alignment for rotating equipment. Includes identifying, describing, applying, and maintaining steam traps, in-line specialties, special piping, hot taps, and valves. TEC.

PHIL 1301 3-3-0
Introduction to Philosophy (38.0101)

A study of major issues in philosophy and/or the work of major philosophical figures in philosophy. Topics in philosophy may include theories of reality, theories of knowledge, theories of value, and their practical applications. AC.

PHIL 2306 3-3-0
Introduction to Ethics (38.0101)

The systematic evaluation of classical and/or contemporary ethical theories concerning the good life, human conduct in society, morals, and standards of value. AC.

PHIL 2321 3-3-0
Philosophy of Religion (38.0201)

A study of the major issues in the philosophy of religion such as the existence and nature of God, the relationships between faith and reason, the nature of religious language, religious experience, and the problem of evil. AC.

PHRA 1243 2-2-1
Pharmacy Technician Certification Review (51.0805)

A review of major topics covered on the national Pharmacy Technician Certification Examination (PTCE), Exam for the Certification of Pharmacy Technicians (ExCPT). TEC.

PHRA 13013-3-0**Introduction to Pharmacy** (51.0805)

An overview of the qualifications, operational guidelines, and job duties of a pharmacy technician. This course teaches pharmacy technician students information, techniques, and procedures needed to assist the pharmacist in delivery of pharmaceutical products and services. The main objective is to provide the students with a working knowledge of most aspects of pharmacy in community, institution, and other practice settings. This course includes learning modules 1-8, 10, 13-21, 23-27, 29-36, 38, 40-43, and 45 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Corequisite: PHRA 1305, PHRA 1313, and PHRA 2360. TEC.

PHRA 13043-3-0**Pharmacotherapy and Disease Process**

(51.0805)

A study of the disease state and therapeutic properties of drugs used in pharmaceutical therapy. This course includes the application of objectives from learning modules 9, 11, 16, and 20 from the American Society of Health-System Pharmacists' *Model Curriculum for Pharmacy Technician Training (Third Edition)*. Prerequisite: PHRA 1301, PHRA 1305, PHRA 1313, and PHRA 2360. Corequisite: PHRA 1309, PHRA 1349, PHRA 1445, and PHRA 2361. TEC.

PHRA 13053-3-0**Drug Classification** (51.0805)

A study of pharmaceutical drugs, abbreviations, classifications, dosages, side effects, and routes of administration. This course includes the learning modules 8, 9, 11, 23-25, 39, and 40 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Corequisite: PHRA 1301, PHRA 1313, and PHRA 2360. TEC.

PHRA 13093-2-2**Pharmaceutical Mathematics I** (51.0805)

Pharmaceutical mathematics including reading, interpreting, and solving calculation problems encountered in the preparation and distribution of drugs. Pharmaceutical mathematics including reading, interpreting, and solving calculation

problems encountered in the preparation and distribution of drugs. This course includes the learning modules 7, 8, 12, 13, 28, and 32 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Prerequisite: PHRA 1301, PHRA 1305, PHRA 1313, and PHRA 2360. Corequisite: PHRA 1304, PHRA 1349, PHRA 1445, and PHRA 2361. TEC.

PHRA 13133-2-4**Community Pharmacy Practice** (51.0805)

Introduction to the skills necessary to process, prepare, label, and maintain records of prescriptions in a community pharmacy to include customer service, count and pour techniques, prescription calculations, drug selection and preparation, over-the-counter drugs, inventory management and legal parameters. This course includes the application of objectives from learning modules 1-3, 5-6, 10-11, 13, 17-18, 20, 24-26, 29, 31, 33, 36-37, 41, and 42 from the American Society of Health-System Pharmacists' *Model Curriculum for Pharmacy Technician Training (Third Edition)*. Corequisite: PHRA 1301, PHRA 1305, and PHRA 2360. TEC.

PHRA 13453-2-2**Compounding Sterile Preparations** (51.0805)

This course provides pharmacist and technician focused instruction and training for the successful production of sterile parenteral preparations, a major responsibility of the pharmacy technician in hospitals, long-term care facilities, and home healthcare. The process of compounding sterile preparations and aseptic technique within legal and regulatory guidelines specified by USP <797> standards. A study of sterile products, hand washing techniques, pharmaceutical calculations, references, safety techniques, aseptic techniques in parenteral compounding, proper use of equipment, preparation of sterile products, and safe handling of antineoplastic drugs. This important work requires the mastery of aseptic technique: the procedures that avoid introducing pathogens into sterile products, ensure patient safety, and maintain product consistency. CPE activity completers will receive certificate of course completion and statement of ACPE credit for 40 hours/4.0 CEUs. Prerequisite: Registered Pharmacist, Certified Pharmacy Technician or prior approval from Program Director. TEC.

PHRA 13493-2-4**Institutional Pharmacy Practice** (51.0805)

Fundamentals of the diverse roles and practice of pharmacy technicians in an institutional pharmacy setting. In-depth coverage of hospital pharmacy organization, work flow and personnel, safety techniques, data entry, packaging and labeling operations, inpatient drug distribution systems including investigational drugs, continuous quality improvement and inventory control. This course includes the application of objectives from learning modules 1-8, 7-13, 17, 18, 20, 21, 23, 25-28, 32, 33, 35, 36, 39, 41, and 45 from the American Society of Health-System Pharmacists' *Model Curriculum for Pharmacy Technician Training (Third Edition)*. Prerequisite: PHRA 1301, PHRA 1305, PHRA 1313, and PHRA 2360. Corequisite: PHRA 1304, PHRA 1309, PHRA 1445, and PHRA 2361. TEC.

PHRA 14454-2-4**Compounding Sterile Preparations** (51.0805)

The process of compounding sterile preparations and aseptic technique within legal and regulatory guidelines specified by USP <797> standards. This course provides technician-focused instruction and training for the successful production of sterile parenteral preparations, a major responsibility of the pharmacy technician in hospitals, long-term care facilities, and home healthcare. This course includes the learning modules 1, 2, 5, 7, 10, 12-14, 17, 20-23, 25-26, 28, 30, 35, 41, and 44-45 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Prerequisite: PHRA 1301, PHRA 1305, PHRA 1313, and PHRA 2360. Corequisite: PHRA 1304, PHRA 1309, PHRA 1349, and PHRA 2361. TEC.

PHRA 23603-0-12**Clinical - Pharmacy Technician** (51.0805)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This course provides students the opportunity to experience detailed education, training, work-based experience and direct patient or client care at a retail, institutional or long-term care clinical site. This course includes

the application of objectives from learning modules 1-14, 17-29, 31-33, 35, 38, 39, 40, 43, and 44 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Corequisite: PHRA 1301, PHRA 1305, and PHRA 1313. TEC.

PHRA 23613-0-12**Clinical - Pharmacy Technician** (51.0805)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This capstone course provides practical clinical experience in retail, institutional and long-term care settings. This course includes the application of objectives from learning modules 1-14, 17-18, 20-28, 30, 32, 33, 35-36, 38, 39, and 43 from the American Society of Health-System Pharmacists' *Module Curriculum for Pharmacy Technician Training (Third Edition)*. Prerequisite: PHRA 1301, PHRA 1305, PHRA 1313, and PHRA 2360. Corequisite: PHRA 1304, PHRA 1309, PHRA 1349, and PHRA 1445. TEC.

PHYS 1401.....4-3-2**College Physics I (Lecture + Lab)** (40.0801)

Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; emphasis on problem solving. Laboratory activities will reinforce fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems, Newton's Laws of Motion, and gravitation and other fundamental forces; emphasis on problem solving. Prerequisite: MATH 1314 or equivalent. Corequisite: PHYS 1101. AC.

PHYS 1405.....4-3-2**Elementary Physics I (Lecture + Lab)** (40.0801)

Conceptual level survey of topics in physics intended for liberal arts and other non-science majors. AC.

PHYS 1407.....4-3-2**Elementary Physics II (Lecture + Lab) (40.0801)**

Conceptual level survey of topics in physics intended for liberal arts and other non-science majors. Corequisite: PHYS 1107. AC.

PHYS 2425.....4-3-2**University Physics I (Lecture + Lab) (40.0101)**

Fundamental principles of physics, using calculus, for science, computer science, and engineering majors; the principles and applications of classical mechanics, including harmonic motion, physical systems and thermodynamics; emphasis on problem solving. Basic laboratory experiments supporting theoretical principles involving the principles and applications of classical mechanics, including harmonic motion and physical systems; experimental design, data collection and analysis, and preparation of laboratory reports. Prerequisite: MATH 2413. AC.

PHYS 24264-3-2**University Physics II (Lecture + Lab) (40.0101)**

Subject matter covers electricity, magnetism, sound waves and optics. Principles of physics for science, computer science, and engineering majors, using calculus, involving the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics. Laboratory experiments supporting theoretical principles presented in PHYS 2326 involving the principles of electricity and magnetism, including circuits, electromagnetism, waves, sound, light, and optics; experimental design, data collection and analysis, and preparation of laboratory reports.

Prerequisite: PHYS 2425 and MATH 2414 with a minimum grade of C in each

PLAB 1160.....1-0-3**Clinical-Phlebotomy (51.1009)**

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Corequisite: PLAB 1223. TEC.

PLAB 1223.....2-1-3**Phlebotomy (51.1009)**

Skill development in the performance of a variety of blood collection methods using proper techniques and standard precautions. Includes

vacuum collection devices, syringes, capillary skin puncture, butterfly needles and blood culture, and specimen collection on adults, children, and infants. Emphasis on infection prevention, patient identification, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, ethics, and medical terminology. Corequisite: PLAB 1160. TEC.

PSTR 1301.....3-2-2**Fundamentals of Baking (12.0501)**

Fundamentals of baking including dough, quick breads, pies, cakes, cookies, and tarts. Instruction in flours, fillings, and ingredients. Topics include baking terminology, tool and equipment use, formula conversions, functions of ingredients, and the evaluation of baked products. TEC

PSYC 1300.....3-3-0**Learning Frameworks (42.2701) **CROSS LISTED AS EDUC 1300**

A study of the: research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. AC.

PSYC 2301.....3-3-0**General Psychology (42.0101)**

Survey of major topics in psychology. Introduces the study of behavior and the factors that determine and affect behavior. Prerequisite: TSI complete/exempt or DIRW complete. AC.

PSYC 2307.....3-3-0**Adolescent Psychology (42.2703)**

Study of the relationship of the physical, emotional, social and mental factors of growth and development of children from adolescence through young adulthood. Prerequisite: TSI complete/exempt or DIRW complete. AC.

PSYC 23083-3-0**Child Psychology** (42.2703)

Study of the relationship of the physical, emotional, social and mental factors of growth and development of children from conception through adolescence. Prerequisite: TSI complete/exempt or DIRW complete. AC.

PSYC 23143-3-0**Lifespan Growth and Development** (42.2703)

Study of the relationship of the physical, emotional, social and mental factors of growth and development of children and throughout the lifespan. Prerequisite: TSI complete/exempt or DIRW complete. AC.

PSYT 1332 3-2-2**Basic Anatomy and Physiology** (42.0101)

An introduction to the normal structure of the human body, including functions of human cells, tissues and organs, and skeletal, muscular, and nervous systems for non-science majors. TEC.

PTAC 13023-2-2**Introduction to Process Technology** (41.0301)

Introduction to the processing industries in the oil refinery and petrochemical industry, including operator roles, responsibilities and expectations; plant terminology; safety and environmental responsibilities; applied organic and inorganic chemistry; applied physics; plant equipment; utility systems; product handling; flow diagrams; and general process overview of process operating technology including the mental and physical requirements of the process operator career. Plant tour may be conducted. TEC.

PTAC 14084-4-0**Safety, Health and Environment I** (41.0301)

Development of knowledge and skills to reinforce the attitudes and behaviors required for safe and environmentally sound work habits. Emphasis on occupational safety, health, and environmental practices and associated equipment including: safety mindset and attitude; personal safety equipment; general safety policies and procedures; hazards communications; HAZWOPER/emergency response; first aid and CPR; industrial hygiene; exposure monitoring; and regulatory compliance issues. This course will give students an overview of various governmental regulations mandated by

OSHA, EPA, SARA, RCRA, DOT, NFPA, etc. TEC.

PTAC 14104-3-2**Process Technology I - Equipment** (41.0301)

Instruction in the use of common process equipment. This course builds on the information presented in previous courses putting the components of equipment together. Students will apply the knowledge taught in previous courses to understand how individual equipment work, how they interconnect, and how they contribute to overall plant operations. The student will arrange process equipment into basic systems; describe the purpose and function of specific process equipment; explain how factors affecting process equipment are controlled under normal conditions; and recognize abnormal process conditions. This course covers the petroleum refining industry and petrochemical industry equipment. Corequisite: PTAC 1302. TEC.

PTAC 14324-3-2**Process Instrumentation I** (41.0301)

Study of the instruments and control systems used in the process industry including terminology, process variables, symbology, control loops, and basic troubleshooting. TEC.

PTAC 23143-3-0**Principles of Quality** (41.0301)

Study of the background and application of quality concepts. Topics include team skills, quality tools, statistics, economics and continuous improvement. TEC.

PTAC 24204-3-3**Process Technology II - Systems** (41.0301)

A study of the various process systems and the equipment, including related scientific principles. Suggested prerequisite: PTAC 1302. Suggested corequisite: PTAC 1410. TEC.

PTAC 24384-3-3**Process Technology III - Operations** (41.0301)

This course combines systems into operational processes with emphasis on operations activities under various conditions including startup, shutdown, and emergency situations. Students write and follow procedures and operate actual equipment. Suggested prerequisite: PTAC 1302 and PTAC 1410. Corequisite: PTAC 1432 and PTAC 2420. TEC.

PTAC 2446.....4-3-3**Process Troubleshooting** (41.0301)

Instruction in the different types of troubleshooting techniques, procedures, and methods used to solve process problems. Topics include application of data collection and analysis, cause-effect relationships, and reasoning. This course has a course fee to cover the PTEX-CR. Suggested prerequisite: PTAC 1302, PTAC 1410, and PTAC 1432. TEC.

PTHA 12252-1-2**Communication in Health Care** (51.0806)

Communication theories and principles for optimal delivery of health care. TEC.

PTHA 13053-2-4**Basic Patient Care Skills** (51.0806)

The application of basic patient handling, functional skills, communication, and selected data collection techniques. TEC.

PTHA 13093-2-3**Introduction to Physical Therapy** (51.0806)

Introduction to the profession of physical therapy and the role of the physical therapist assistant. Includes the application of basic patient handling, functional skills, communication, and selected data collection techniques. TEC.

PTHA 13213-3-0**Pathophysiology for the PTA** (51.0806)

Study of the pathophysiology of disease/conditions encountered in physical therapy. TEC.

PTHA 13613-0-18**Clinical-Physical Therapist Assistant** (51.0806)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

PTHA 14134-3-3**Functional Anatomy** (51.0806)

The relationship of the musculoskeletal and neuromuscular systems to normal and abnormal movement. TEC.

PTHA 14314-3-3**Biophysical Agents** (51.0806)

Biophysical principles, physiological effects, efficacy, and application of physical agents. TEC.

PTHA 22012-1-4**Essentials of Data Collection** (51.0806)

Data collection techniques used to assist in patient/client management. TEC.

PTHA 22172-2-0**Issues in Health Care** (51.0806)

Organizational patterns, administrative principles, legal and ethical issues in physical therapy, and preparation for licensure and employment. TEC.

PTHA 24094-3-3**Therapeutic Exercise** (51.0806)

Concepts, principles, and application of techniques related to therapeutic exercise and functional training. TEC.

PTHA 24314-3-3**Management of Neurological Disorders** (51.0806)

Comprehensive rehabilitation techniques of selected neurological disorders. TEC.

PTHA 24354-3-3**Rehabilitation Techniques** (51.0806)

Comprehensive rehabilitation of selected diseases and disorders. TEC.

PTHA 24604-0-16**Clinical-Physical Therapist Assistant** (51.0806)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

PTHA 24614-0-18**Clinical-Physical Therapist Assistant** (51.0806)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. TEC.

RBTC 14014-3-2**Programmable Logic Controllers** (15.0405)

A study in programmable logic controllers (PLC). Topics include processor units,

numbering systems, memory organization, relay type devices, timers, counters, data manipulators, and programming. TEC.

RELE 1300.....3-3-0

Contract Forms and Addenda (52.1501)

Promulgated Contract Forms, shall include but is not limited to unauthorized practice of law, broker-lawyer committee, current promulgated and approved forms, commission rules governing use forms and case studies involving use of forms. TEC.

RELE 1301.....3-3-0

Principles of Real Estate I (52.1501)

A beginning overview of licensing as a real estate broker or salesperson. Includes ethics of practice as a license holder, titles to and conveyance of real estate, legal descriptions, deeds, encumbrances and liens, distinctions between personal and real property, appraisal, finance and regulations, closing procedures, and real estate mathematics. Covers at least three hours of classroom instruction on federal, state, and local laws relating to housing discrimination, housing credit discrimination, and community reinvestment. Fulfills at least 30 of 60 hours of required instruction for salesperson license. TEC.

RELE 1311.....3-3-0

Laws of Contracts (52.1501)

Elements of a contract, offer and acceptance, statute of frauds, specific performance and remedies for breach, unauthorized practice of law, commission rules relating to use of adopted forms, and owner disclosure requirements. TEC.

RELE 1319.....3-3-0

Real Estate Finance (52.1501)

Monetary systems, primary and secondary money markets, sources of mortgage loans, federal government programs, loan applications, processes and procedures, closing costs, alternative financial instruments, equal credit opportunity laws affecting mortgage lending, Community Reinvestment Act, and the state housing agency. TEC.

RELE 1338.....3-3-0

Principles of Real Estate II (52.1501)

A continuing overview of licensing as a broker or salesperson. Includes ethics of practice as a license holder, titles to and conveyance of real

estate, legal descriptions, deeds, encumbrances and liens, distinctions between personal and real property, appraisal, finance and regulations, closing procedures, and real estate mathematics. Covers at least three hours of classroom instruction on federal, state, and local laws relating to housing discrimination, housing credit discrimination, and community reinvestment. Fulfills at least 30 of 60 hours of required instruction for salesperson license. TEC.

RELE 23013-3-0

Law of Agency (52.1501)

Law of agency including principal-agent and master-servant relationships, the authority of an agent, the termination of an agent's authority, the fiduciary and other duties of an agent, employment law, deceptive trade practices, listing or buying representation procedures, and the disclosure of an agency. TEC.

RNSG 12012-1-2

Pharmacology (51.3801)

Introduction to the science of pharmacology with emphasis on the actions, interactions, adverse effects, and nursing implications of drug classifications. Content includes the roles and responsibilities of the nurse in safe administration of medications within a legal/ethical framework. This course lends itself to either a blocked or integrated approach. TEC.

RNSG 12072-1-2

Nursing Jurisprudence (Transition) (51.3801)

A course in nursing jurisprudence and ethics with an emphasis on personal and professional responsibility. Study of the laws and regulations related to the provision of safe and effective professional nursing care. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Registered Nursing Transition Program. TEC.

RNSG 12082-1-2

Dosage Calculations for Nursing (51.3801)

Read, interpret, and solve dosage calculation problems. This course lends itself to either a blocked or integrated approach. TEC.

RNSG 12102-1-2

Introduction to Community-Based Nursing (Transition) (51.3801)

Overview of the delivery of nursing care in a variety of community-based settings to promote health; application of systematic problem-solving processes and critical thinking skills, focusing on the examination of concepts and theories relevant to community-based nursing; and development of judgment, skill, and professional values within a legal/ethical framework. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Registered Nursing Transition Program. TEC.

RNSG 12192-0-8

Integrated Nursing Skills I (ADN) (51.3801)

Study of the concepts and principles necessary to perform basic nursing skills for individualized care of patients across the lifespan; demonstrate competence in the performance of nursing procedures. Content includes knowledge, judgment, skills, and professional values within a legal/ethical framework. This course lends itself to an integrated approach. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Associate Degree Registered Nursing Program. TEC.

RNSG 12292-1-4

Integrated Nursing Skills II (ADN) (51.3801)

Study of the concepts and principles necessary to perform intermediate nursing skills for care of patients across the lifespan; demonstrate competence in the performance of nursing procedures. Content includes knowledge, judgment, skills, and professional values within a legal/ethical framework. This course lends itself to an integrated approach. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Associate Degree Registered Nursing Program. TEC.

RNSG 13003-2-2

Health Assessment Across the Lifespan (Transition) (51.3801)

Development of skills and techniques required for a comprehensive nursing health assessment of patients across the lifespan. Includes assessment of patients' health promotion and maintenance, illness and injury prevention and restoration, and

application of the nursing process within a legal/ethical framework. Prerequisite: Completion of a Vocational/Practical Nursing program or Administrative approval (see program website for details), BIOL 2401 and BIOL 2402. TEC.

RNSG 13113-2-2

Nursing Pathophysiology (Transition) (51.3801)

Basic principles of pathophysiology emphasizing nursing applications. Includes epidemiologic factors that alter the normal physiological processes across the lifespan. Prerequisite: Completion of a Vocational/Practical Nursing program or Administrative Approval (see program website for details), BIOL 2401 and BIOL 2402. TEC.

RNSG 1327 (Transition)3-2-4

Transition to Professional Nursing (51.3801)

Content includes health promotion, expanded assessment, analysis of data, critical thinking skills and systematic problem-solving process, pharmacology, interdisciplinary teamwork, communication, and applicable competencies in knowledge, judgment, skills, and professional values within a legal/ethical framework throughout the life span. Prerequisite: Admission to the Registered Nursing Transition Program. BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, and RNSG 1311. Corequisite: RNSG 2261. In order to receive credit for RNSG 1327, the course must be successfully completed simultaneously with RNSG 2261. TEC.

RNSG 15235-4-4

Introduction to Professional Nursing for Integrated Programs I (ADN) (51.3801)

Introduction to the profession of nursing including the roles of the professional nurse as provider of patient-centered care, patient safety advocate, member of health care team, and member of the profession with emphasis on health promotion and primary disease prevention across the lifespan; essential components of the nursing health assessment; identification of deviations from expected health patterns; the application of clinical reasoning processes and clinical judgment to provide basic nursing care to patients across the lifespan; and applicable competencies in knowledge, judgment, skills, and professional values within a legal/ethical

framework. This course lends itself to an integrated approach. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Associate Degree Registered Nursing Program. TEC.

RNSG 2360 3-0-18

Clinical II (ADN) (51.3801)

Overview of the delivery of nursing care in a variety of community-based settings to promote health; application of systematic problem-solving processes and critical thinking skills, focusing on the examination of concepts and theories relevant to community-based nursing; and development of judgment, skill, and professional values within a legal/ethical framework. Prerequisite: BIOL 2401, BIOL 2402, PSYC 2301, ENGL 1301 and Admission to the Registered Nursing ADN Program. TEC.

RNSG 2361 3-0-18

Clinical III (ADN) (51.3801)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: BIOL 2401, BIOL 2402, PSYC 2301, ENGL 1301 and Admission to the Registered Nursing ADN Program. TEC.

RNSG 2362 3-0-18

Clinical III (ADN) (51.3801)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: BIOL 2401, BIOL 2402, PSYC 2301, ENGL 1301 and Admission to the Registered Nursing ADN Program. TEC.

RNSG 2363 3-0-18

Clinical III (Transition)/IV (ADN) (51.3801)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Clinical experiences are unpaid external learning experiences. Prerequisite: Admission to the Registered Nursing Transition Program. BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, RNSG 1327, RNSG

2261, RNSG 2514, RNSG 2262. Corequisite: RNSG 2535. In order to receive credit for RNSG 2363, the course must be successfully completed simultaneously with RNSG 2535. TEC.

RNSG 2504 5-4-2

Integrated Care of the Patient with Common Health Care Needs (ADN) (51.3801)

Application of clinical reasoning processes and clinical judgment to provide nursing care to diverse patients and families across the lifespan with common health care needs including, but not limited to, common childhood/adolescent diseases, uncomplicated perinatal care, mental health concepts, perioperative care, frequently occurring adult health problems and health issues related to aging. Emphasis on secondary disease prevention and collaboration with members of the interdisciplinary health care team. Content includes roles of the professional nurse and applicable competencies in knowledge, judgment, skills, and professional values within a legal/ethical framework. This course lends itself to an integrated approach. Prerequisite: BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, and Admission to the Associate Degree Registered Nursing Program. TEC.

RNSG 2514 5-4-2

Integrated Care of the Patient with Complex Health Care Needs (ADN and Transition) (51.3801)

Application of a systematic problem-solving process, critical thinking skills and concepts to provide comprehensive nursing care to diverse patients and families across the life span with complex health care needs including, but not limited to, complex childhood/adolescent diseases, complicated perinatal care, acute mental illness, complex perioperative care, serious adult health problems and health issues related to aging. Emphasis on tertiary disease prevention, health maintenance/restoration and collaboration with members of the interdisciplinary health care team. Content includes the roles of the professional nurse and applicable competencies in knowledge, judgment, skills, and professional values within a legal/ethical framework. Prerequisite: Admission to the Registered Nursing Transition Program. BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, RNSG 1327 and RNSG 2261. Corequisite: RNSG 2262.

In order to receive credit for RNSG 1327, the course must be successfully simultaneously with RNSG 2262. TEC.

RNSG 25355-4-2
Integrated Patient Care Management (ADN and Transition) (51.3801)

Application of independent nursing interventions to care for patients and families throughout the life span whose health care needs may be difficult to predict. Emphasis on collaborative clinical reasoning, nursing leadership skills, and patient management. Content includes the significance of professional development, trends in nursing and health care, and applicable knowledge, judgment, skills, and professional values within a legal/ethical framework. Prerequisite: Admission to the Registered Nursing Transition Program. BIOL 2401, BIOL 2402, BIOL 2420, ENGL 1301, MATH 1314 (or MATH 1342), RNSG 1300, RNSG 1311, RNSG 1327, RNSG 2261, RNSG 2514, and RNSG 2262. Corequisite: RNSG 2363. In order to receive credit for RNSG 2535, the course must be successfully completed simultaneously with RNSG 2363. TEC.

RTVB 13023-2-2
Computer Applications for Media Production (09.0701)

Computer applications for audio, video, graphics, budgets, and scripts in media productions. TEC

RTVB 13173-2-2
Convergence of Electronic Media (09.0701)

Explores career opportunities, regulatory and economic issues in electronic media including radio, television, internet, and new media. TEC

RTVB 13213-2-2
TV / Video Field Production (09.0701)

Video field camera set up and operation for broadcast and digital media. Incorporates basic editing and field audio techniques. TEC

RTVB 13453-2-2
Broadcast Engineering (10.0202)

Engineering video productions including the basic alignment/adjustment of cameras, test equipment, storage devices, networking, and other studio equipment. Basic system design and construction. Examines digital standards for broadcast, cable, satellite, and network distribution. TEC

RTVB 23353-2-2
TV / Video Production (09.0701)

Pre-production, production, and post-production process involved in multi-camera studio and/or remote locations. Includes advanced instruction in camera operation, lighting, audio, and television directing. TEC

RTVB 23373-2-2
TV/ Video Production Workshop I (09.0701)

Design and production of video content for location or studio shoots adhering to deadline requirements and industry standards. TEC

SCIT 1418.....4-3-2
Applied Physics (40.0801)

Introduction to physics for industrial applications including vectors, motion, mechanics, simple machines, matter, heat, and thermodynamics. TEC.

SCIT 1494.....4-3-2
Special Topics in Chemistry (40.0501)

Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. TEC.

SGNL 13013-3-0
Beginning American Sign Language I (16.1603)

Introduction to American Sign Language covering finger spelling, vocabulary, and basic sentence structure in preparing individuals to interpret oral speech for the hearing impaired. AC.

SGNL 23013-3-0
Intermediate American Sign Language I (16.1603)

Review and application of conversational skills in American Sign Language; interpreting from signing to voice as well as from voice to signing. Introduction to American Sign Language literature and folklore. Prerequisite: SGNL 1301. AC.

SOCI 13013-3-0
Introductory Sociology (45.1101)

Introduction to the concepts and principles used in the study of group life, social institutions, and social processes. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 1306.....3-3-0**Social Problems** (45.1101)

Application of sociological principles to the major problems of contemporary society such as inequality, crime and violence, substance abuse, deviance, or family problems. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 2301.....3-3-0**Marriage & the Family** (45.1101)

Sociological examination of marriage and family life. Problems of courtship, mate selection, and marriage adjustment in modern American society. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 2306.....3-3-0**Human Sexuality** (42.0101)

Study of the psychological, sociological, and physiological aspects of human sexuality. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 2319.....3-3-0**Minority Studies** (45.1101)

This course studies minority-majority group relations, addressing their historical, cultural, social, economic, and institutional development in the United States. Both sociological and social psychological levels of analysis will be employed to discuss issues including experiences of minority groups within the context of their cultural heritage and tradition, as well as that of dominant culture. Core concepts to be examined include (but are not limited to) social inequality, dominancy/subordination, prejudice, and discrimination. Particular minority groups discussed may include those based on poverty, race/ethnicity, gender, sexual orientation, age, disability, or religion. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 2326.....3-3-0**Social Psychology** (42.2707)

Study of individual behavior within the social environment. May include topics such as the socio-psychological process, attitude formation and change, interpersonal relations, and group processes. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 23363-3-0**Criminology** (45.0401)

Current theories and empirical research pertaining to crime and criminal behavior and its causes, methods of prevention, systems of punishment, and rehabilitation. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SOCI 23403-3-0**Drug Use & Abuse** (51.1504)

Study of the use and abuse of drugs in today's society. Emphasizes the physiological, sociological, and psychological factors. Prerequisite: TSI complete/exempt or DIRW complete. AC.

SPAN 1411.....4-3-2**Beginning Spanish I** (16.0905)

Basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the beginner level. AC.

SPAN 1412.....4-3-2**Beginning Spanish II** (16.0905)

Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level. AC.

SPAN 2311.....3-3-0**Intermediate Spanish I** (16.0905)

The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world. AC.

SPAN 2312.....3-3-0**Intermediate Spanish II** (16.0905)

The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading, and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world. AC.

SPCH 1311.....3-3-0
Introduction to Speech Communication (09.0101)

Theories and practice of communication in interpersonal, small group, and public speech. AC.

SPCH 1315.....3-3-0
Public Speaking (09.0101)

Research, composition, organization, delivery, and analysis of speeches for various purposes and occasions. AC.

SPCH 1318.....3-3-0
Interpersonal Communication (09.0101)

Theories and exercises in verbal and nonverbal communication with focus on interpersonal relationships. AC.

SPCH 1321.....3-3-0
Business & Personal Communication (09.0101)

Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats. AC.

SPCH 2335.....3-3-0
Argumentation & Debate (09.0101)

Theories and practice in argumentation and debate including analysis, reasoning, organization, evidence, and refutation. AC.

SPCH 2341.....3-3-0
Oral Interpretation (09.0101)

Theories and techniques in analyzing and interpreting literature. Preparation and presentation of various literary forms. AC.

TECA 13113-2-2
Educating Young Children (13.1202)

An introduction to the education of the young child, including developmentally appropriate practices and programs, theoretical and historical perspectives, ethical and professional responsibilities, and current issues. Course content must be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards and coincide with the National Association for the Education of Young Children position statement related to developmentally appropriate practices for children from birth through age eight. Requires students to participate in field

experiences with children from infancy through age 12 in a variety of settings with varied and diverse populations; and the course includes a minimum of 16 hours of field experiences. AC.

TECA 13543-3-0
Child Growth & Development (13.1202)

A study of the physical, emotional, social, language, and cognitive factors impacting growth and development of children through adolescence. AC.

TECM 13033-3-0
Technical Calculations (27.0301)

Specific mathematical calculations required by business and industry. Includes whole numbers, fractions, mixed numbers, decimals, percents, ratios, and proportions. Also covers converting to different units of measure (standard and/or metric). TEC.

VNSG 11221-1-0
Vocational Nursing Concepts (51.3901)

Introduction to the nursing profession and its responsibilities. Includes legal and ethical issues in nursing practice. Concepts related to the physical, emotional, and psychosocial self-care of the learner/professional. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402. Corequisite: VNSG 1423, VNSG 1402, VNSG 1227, and VNSG 1461. TEC.

VNSG 11361-1-0
Mental Health (51.3901)

Introduction to the principles and theories of positive mental health and human behaviors. Topics include emotional responses, coping mechanisms, and therapeutic communication skills. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1423, VNSG 1402, VNSG 1461, VNSG 1122, and VNSG 1227. Corequisite: VNSG 1231, VNSG 1462, VNSG 1138, and VNSG 2413. TEC.

VNSG 11381-1-0
Mental Illness (51.3901)

Study of human behavior with emphasis on emotional and mental abnormalities and modes of treatment incorporating the nursing process. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402,

VNSG 1160 and VNSG 1423 or VNSG 1423, VNSG 1227, VNSG 1402, VNSG 1461, VNSG 1122. Corequisite: VNSG 2413, VNSG 1231 and VNSG 1462. TEC.

VNSG 1160 1-0-3

Clinical I Practical Nurse (51.3901)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, concepts, and skills on clients, such as, but not limited to, hygiene measures, transfer techniques, obtaining vital signs, bed making, etc. Direct supervision is provided by the clinical professional. Clinical experiences are unpaid external learning experiences. Corequisite: VNSG 1323. TEC.

VNSG 1227 2-1-2

Essentials of Medication Administration (51.3901)

General principles of medication administration including determination of dosage, preparation, safe administration, and documentation of multiple forms of drugs. Instruction includes various systems of measurement. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1160 and VNSG 1423 OR VNSG 1423. Corequisite: VNSG 1122, VNSG 1136, VNSG 1402, and VNSG 1461. TEC.

VNSG 1230 2-1-2

Maternal-Neonatal Nursing (51.3901)

A study of the biological, psychological, and sociological concepts applicable to basic needs of the family including childbearing and neonatal care. Utilization of the nursing process in the assessment and management of the childbearing family. Topics include physiological changes related to pregnancy, fetal development, and nursing care of the family during labor and delivery and the puerperium. Prerequisite: Pre-admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, and VNSG 1160 and VNSG 1423 or VNSG 1423, VNSG 1227, VNSG 1231, VNSG 1402, VNSG 1461, VNSG 1122, VNSG 1136, VNSG 1462, and VNSG 2413. Corequisite: VNSG 1234, VNSG 2214, and VNSG 2463. TEC.

VNSG 1231 2-1-2

Pharmacology (51.3901)

Fundamentals of medications and their diagnostic, therapeutic, and curative effects.

Includes nursing interventions utilizing the nursing process. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1160 and VNSG 1423 or 1423. Prerequisite: VNSG 1122, VNSG 1136, VNSG 1227, VNSG 1402 and VNSG 1461. Corequisite: VNSG 1462, VNSG 1138, VNSG 1462. TEC.

VNSG 1234 2-1-2

Pediatrics (51.3901)

Study of the care of the pediatric patient and family during health and disease. Emphasis on growth and developmental needs utilizing the nursing process. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1423, VNSG 1402, VNSG 1122, VNSG 1227, VNSG 1461, VNSG 2413, VNSG 1231, VNSG 1136, VNSG 1138, and VNSG 1462. Prerequisite: VNSG 1230, VNSG 2214 and VNSG 2463. TEC.

VNSG 1323 3-2-2

Basic Nursing Skills (51.3901)

Mastery of entry level nursing skills and competencies for a variety of health care settings. Utilization of the nursing process as the foundation for all nursing interventions. Students may be eligible for certification as nurse aides through the Texas Department of Human Services Long-Term Care Division after completing this course. Corequisite: VNSG 1160. TEC.

VNSG 1402 4-2-7

Applied Nursing Skills I (51.3901)

Introduction to and application of primary nursing skills. Emphasis on utilization of the nursing process and related scientific principles. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402. Corequisite: VNSG 1423, VNSG 1461, VNSG 1122, and VNSG 1227. TEC.

VNSG 1423 4-3-3

Basic Nursing Skills (51.3901)

Mastery of basic nursing skills and competencies for a variety of health care settings. Utilization of the nursing process as the foundation for all nursing interventions. The student will demonstrate safe and competent basic nursing skills, describe how each step in the nursing process relates to nursing care and discuss the implementation of basic nursing skills in a variety

of health care settings. Students may be eligible for certification as nurse aides through the Texas Department of Human Services Long-Term Care Division after completing this course. TEC.

VNSG 1461 4-0-18

Clinical II Practical Nurse (51.3901)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, concepts, and skills on clients, such as, but not limited to, hygiene measures, foley catheter insertion, physical assessment, g-tube feedings, blood glucose monitoring, care plans, etc. Direct supervision is provided by the clinical professional. This clinical rotation is in nursing home or hospital facilities. Clinical experiences are unpaid external learning experiences. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1160 and VNSG 1423 or VNSG 1423. Corequisite: VNSG 1227, VNSG 1122, VNSG 1136, and VNSG 1402. TEC.

VNSG 1462 4-0-24

Clinical III Practical Nurse (51.3901)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, concepts, and skills on clients, such as, but not limited to, client care, administer medications, wound care, sterile technique, isolation, admissions and discharges of clients, following doctors' orders, utilizing the nursing process, etc. Direct supervision is provided by the clinical professional. Clinical experiences are unpaid external learning experiences. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1160 and VNSG 1423 or VNSG 1423, VNSG 1227, VNSG 1402, and VNSG 1461. Corequisite: VNSG 1122, VNSG 1136, and VNSG 2413. TEC.

VNSG 2214 2-1-3

Applied Nursing Skills III (51.3901)

Continuation of Applied Nursing Skills II. Application of nursing skills to meet complex client needs utilizing the nursing process and related scientific principles. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1138, VNSG 1160 and VNSG 1423 or VNSG 1423, VNSG 1227, VNSG 1231, VNSG 1402, VNSG 1461,

VNSG 1122, VNSG 1136, VNSG 1462, and VNSG 2413. Corequisite: VNSG 1230, VNSG 1234, and VNSG 2463. TEC.

VNSG 2413 4-3-3

Applied Nursing Skills II (51.3901)

Application of nursing skills to meet more complex client needs utilizing the nursing process and related scientific principles. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1423, VNSG 1402, VNSG 1227, VNSG 1122, and VNSG 1461. Corequisite: VNSG 1462, VNSG 1231, and VNSG 1136, and VNSG 1138. TEC.

VNSG 2463 4-0-24

Clinical IV Practical Nurse (51.3901)

A health-related work-based learning experience that enables the student to apply specialized occupational theory, concepts, and skills on clients, such as, but not limited to, medical surgical, obstetrics/gyn, post-partum, pediatrics, etc. Community sites as well as hospital facilities will be utilized. Direct supervision is provided by the clinical professional. Clinical experiences are unpaid external experiences. Prerequisite: Admission to the Vocational Nursing Program, BIOL 2401, BIOL 2402, VNSG 1160 and VNSG 1423 or VNSG 1423, VNSG 1138, VNSG 1227, VNSG 1231, VNSG 1402, VNSG 1461, VNSG 1122, VNSG 1136, VNSG 1462, and VNSG 2413. Corequisite: VNSG 1230, VNSG 1234, and VNSG 2214. TEC.

WDWK 1313 3-2-2

Cabinet Making I (48.0703)

Design and construction of base cabinets and wall cabinets for kitchens and bathrooms. Emphasis on the safe use of portable and stationary power tools. TEC.

WDWK 2351 3-2-2

Cabinet Making II (48.0703)

Advanced skills in machine woodworking and hand craftsmanship. Emphasizes advanced design and door and drawer construction, laminate installation. TEC.

WLDG 1323 3-3-0

Welding Safety, Tools, and Equipment (48.0508)

An introduction to welding careers, equipment and safety practices, including OSHA standards for industry. TEC.

WLDG 1327.....3-3-0

Welding Codes and Standards (48.0508)

An in-depth study of welding codes and their development in accordance with structural standards, welding processes, destructive and nondestructive test methods. TEC.

WLDG 1417.....4-3-2

Introduction to Layout and Fabrication (48.0508)

A fundamental course in layout and fabrication related to the welding industry. Major emphasis on structural shapes and use in construction. TEC.

WLDG 1421.....4-2-4

Welding Fundamentals (48.0508)

An introduction to the fundamentals of equipment used in oxy-fuel and arc welding, including welding and cutting safety, basic oxy-fuel welding and cutting, basic arc welding processes and basic metallurgy. TEC. *Taught at local high schools for dual credit.*

WLDG 1428.....4-2-4

Introduction to Shielded Metal Arc Welding (SMAW) (48.0508)

An introduction to the shielded metal arc welding process. Emphasis placed on power sources, electrode selection, oxy-fuel cutting, and various joint designs. Instruction provided in SMAW fillet welds in various positions. TEC.

WLDG 1435.....4-3-2

Introduction to Pipe Welding (48.0508)

An introduction to welding of pipe using the shielded metal arc welding process (SMAW), including electrode selection, equipment setup, and safe shop practices. Emphasis on various welding positions and electrodes. TEC.

WLDG 1453.....4-2-4

Intermediate Layout and Fabrication (48.0508)

An intermediate course in layout and fabrication. Includes design, layout, and fabrication. Emphasis placed on symbols, blueprints, and written specifications. TEC.

WLDG 1457.....4-2-4

Intermediate Shielded Metal Arc Welding (SMAW) (48.0508)

A study of the production of various fillets and groove welds. Preparation of specimen for testing in various positions. TEC. *Taught at local high schools for dual credit.*

WLDG 2406.....4-2-4

Intermediate Pipe Welding (48.0508)

A comprehensive course on the welding of pipe using the shielded metal arc welding (SMAW) and/or other processes. Welds will be done using various positions. Topics covered include electrode selection, equipment setup, and safe shop practices. Prerequisite: Suggested: WLDG 1323, WLDG 1327, WLDG 1428, and WLDG 2443. TEC.

WLDG 2435.....4-2-4

Advanced Layout and Fabrication (48.0508)

An advanced course in layout and fabrication. Includes production and fabrication or layout, tools, and processes. Emphasis on application of fabrication and layout skills. TEC.

WLDG 2453.....4-2-4

Advanced Pipe Welding (48.0508)

Advanced topics involving welding of pipe using the shielded metal arc welding (SMAW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes. TEC.

WLDG 2488.....4-0-12

Internship Welding Technology (48.0508)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. TEC.

WLDG 2489.....4-0-12

Internship Welding Technology (48.0508)

A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. TEC.

**Shared Service Position*

Full-Time Faculty

The following list reflects the status of the Lamar State College Orange faculty as of Spring 2024. The date following each name is the academic year of first service to the college and does not necessarily imply continuous service since that time.

- Bailey, Howard** (2022) Instructor of Electromechanical Technology.
B.G.S., Lamar University
- Baker, Colleen**, (2018) Program Director and Instructor of Dental Assisting
A.A.S., Lamar State College Orange
- Baker, Suzanne**, (2003) Assistant Professor of Vocational Nursing
M.S.N., B.S.N., University of Texas at Tyler, Certificate, Vocational Nursing, A.A.S., Lamar State College-Port Arthur
- Barker, Charlotte**, (2018) Associate Professor of Biology
Ph.D., University of Mississippi at Hattiesburg; M.S., University of Memphis.
B.S., East Texas Baptist University
- Bourgeois, Renee**, (2022) Instructor of Math
M.S. Lamar University; B.S. Lamar University
- Bramblett, Tony**, (2022) Instructor of Process Technology
- Brown, Cheylyn**, (2023) Instructor of English
M.A. Lamar University; B.A. Lamar University
- Bryant, Christy**, (2005), Instructor of Information Technology
M.S., Emporia State University; B.B.A., Lamar University
- Cole, Angela**, (2008) Clinical Instructor
B.S.N., University of Texas Medical Branch
- Davis, Charlie**, (2024) Instructor of History
M.A., B.A., Lamar University
- Davis, Tammy**, (2014) Instructor of Basic Nursing
B.S. Lamar University
- Demontmollin, Stacy**, (2021) Instructor of Dental Assisting
A.A.S., Lamar State College Orange; Cert, UT Health San Antonio
- Dimas, Jerome**, (2024) Instructor of Process Technology
M.A., Catholic University of America; B.A., Merrimack College
- Doss, L. Kevin**, (1996) Instructor of Speech
M.A., Texas State University-San Marcos; B.A., Southwest Baptist
- Dotson, Diane**, (2003) Program Director and Assistant Professor of Information Technology
M.A., Lamar University; B.B.A., Lamar University; A.S., University of Louisiana at Monroe
- Fabriguze, Jennifer** (2022) Program Director and Instructor of Pharmacy Technology
A.A.S., Lamar State College Orange
- Fant, Jessica** (2024) Instructor of Spanish
M.I.S., B.A., Stephen F. Austin State University
- Foreman, Sherri**, (2006) Division Director of Nursing Programs, Assistant Professor
M.S.N., University of Texas at Tyler, B.S.N., Lamar University
- Gates, Hallie**, (2023) Behavioral Science and Business Department Chair; Program Director and Assistant Professor of Criminal Justice
M.S., B.S., Lamar University
- Gautreaux, Todd** (2022) Instructor of Process Technology
- Halliburton, Crystal** (2024) Instructor of Vocational Nursing
A.A.S., Certificate, Lamar State College Orange
- Harris, Susan**, (2017) Assistant Professor of Registered Nursing
M.S.N., B.S.N., University of Texas at Tyler, A.A.S., Lamar State College Orange
- Holland, Ryan** (2022) Business Department Chair, Instructor of Business and Banking
M.B.A., Lamar University; B.B.A., Texas A&M University

- Jones, Keith**, (2022) Instructor of Business; EdD, M.B.A., M.Ed., Lamar University; BS, TX A&M-Galveston
- Jureidini, Elias**, (1992) Assistant Professor of Mathematics
M.S., Clemson University; M.S., Louisiana State University; B.S., Nicholls State University
- LaGrone, Toni**, (2018) Clinical Instructor
A.A.S., Lamar Institute of Technology; A.A.S., Lamar State College-Port Arthur
- Land, Richard**, (1985) Instructor of Emergency Medical Services
- Lindsey, Richard**, (2018) Instructor of Political Science
M.A., Sam Houston State University; B.A., Lamar University
